Re: Docket No. 20240121-WU

Dear Mr. Ellis,

This letter is being provided in response to a deficiency letter for the grandfather certificate application submitted to your office. At the time that our systems were constructed, the well construction permits were obtained through the Department of Environmental Protection (DEP). Permitting information from the DEP has been provided for Shady Oaks, 242 Village, and Azalea Park.

These systems are exempt from having separate permits through the Suwannee River Water Management District. As stated, construction permits were initially obtained through DEP. With regard to water use, our systems provide water for domestic use as defined in Section 373.019(6), F.S. which is a specific exemption listed under Rule 40B-2.051, F.A.C. Additionally, our wells are less than 8 inches in diameter and the systems withdraw less than 100,000 gallons per day.

If you have any questions or if additional information is needed, please contact our office at 386-752-6729 or 904-476-7979.

Sincerely,

/s/ Sherri Boyd

Sherri Boyd
