Please, please, please don't allow sewers on our islands. As voiced vehemently by the majority of our resident families, I and others have not changed our mind on having sewers. It has been shown there is no need and would cause major disruption to our community and environment. We DO NOT need them. I have been a resident here for twenty years and have not had a problem in two different homes I've owned. Please hear the people that live here and will be affected by this horrendous change.

Thank you
