### **Haven't the Barrier Island Resident's endured enough?**

Three years of devastating hurricanes have not only destroyed or damaged most island properties, creating a huge financial burden; now EU wants to destroy our fragile infrastructure when no environmental justification has been validated.

We don't need it; nor do we want it! So that then begs the question...Who does, and Why? Until the need is proven to be absolutely critical, and the proposed system will work; I respectfully request that you deny this request.

Thank you,

Pat Gordon
