Subject: DOCKET #20240032

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioners,

Greetings. My name is Leonor Frigola. My husband and I own a condo in Hideaway Bay Beach Club on Little Gasparilla Island. Owners have been informed that a transmission line is being considered to be installed in our property without notice to our board of directors and attorneys. It is my understanding that this is being done without due process.

Hideaway Bay Beach Club has its own septic system. It is maintained and monitored daily. The system works well and has been working well for our property. I oppose the proposal of any connection to a sewer system. We bought this property for our retirement. We cannot be shut down any further. We are still under construction due to Hurricane Ian and furthermore damages from Helene and Milton. Owners on Little Gasparilla Island have opposed sewer systems since day one. Owners are already financially burdened with the three past hurricanes.

Please vote to deny the application by Environmental Utilities for a certificate to install sewers on Little Gasparilla Island. Thank you for your time and your sincere consideration.

Best regards,

Leonor and Adolfo Frigola
Hideaway Bay Beach Club Unit I-7
