Subject: Docket 20240032

Dear Commissioner Passidomo,

Please vote No on docket 20240032.

There are at least 3 fraudulent elements leading to the myriad of arguments AGAINST this "Environmental Utilities" company bringing Sewer to Little Gasparilla Island.

132 Families are being denied their due process because of the change made by Environmental Utilities without notification.

Mr Jack Boyer already is taking nearly \$1000 per household a year from the homeowners on Little Gasparilla Island. He has forced us to protect ourselves from his plans to bring a sewer now for a SECOND time. WE DONT WANT IT and it would be an environmental back step... please listen to us! And please ask yourself, Do you really know enough about Little Gasparilla Island about Environmental Utilities' plans to make a decision which affects so many people in this case?

As far as environmental concerns go, Islanders take great pains to secure the natural beauty and wildlife on this beautiful barrier island. PLEASE listen to US and not to someone who names their company just to get a sympathy vote! There's nothing environmental about "Environmental Utilities."

Please vote no.
