BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In Re: Petition by Duke Energy	Docket No.
Florida for Approval of	
Modifications to the Approved	Submitted for filing:
As-Available Purchase Tariff.	April 1, 2025

PETITION FOR APPROVAL OF MODIFICATIONS TO DEF'S AS-AVAILABLE PURCHASE TARIFF

Pursuant to Rules 25-17.0825 and 25-9.004 F.A.C., Duke Energy Florida, LLC. ("DEF" or "the Company"), respectfully petitions the Florida Public Service Commission ("the Commission") for approval of modifications to DEF's Agreement for Purchase of As-Available Energy and/or Parallel Operation with a Qualifying Facility tariff (the "As-Available Purchase tariff").

The modified As-available Purchase tariff, Section No. IX, Fifth Revised Sheet Nos. 9.101, 9.112, 9.113, 9.115, 9.310, Sixth Revised Sheet Nos. 9.104, 9.106, 9.107, 9.111, and 9.330, and Seventh Revised Sheets, 9.108, 9.109, 9.110, are attached hereto in standard format as Exhibit A and in legislative format as Exhibit B. In support of this petition, DEF submits the following:

- 1. DEF is a public utility subject to the regulatory jurisdiction of the Commission pursuant to Chapter 366, F.S. The Company's principal place of business is located at 299 First Avenue North, St. Petersburg, Florida 33701.
- 2. All notices, pleadings and correspondence required to be served on the petitioner should be directed to:

Dianne M. Triplett
Duke Energy Florida, LLC
299 First Avenue North
St. Petersburg, Florida 33701
Dianne.Triplett@duke-energy.com
T: 727-820-4692

Matthew R. Bernier
Duke Energy Florida, LLC
106 East College Avenue, Suite 800
Tallahassee, FL 32301
Matthew.Bernier@duke-energy.com
T: 850-521-1428

Stephanie A. Cuello
Duke Energy Florida, LLC
106 E. College Avenue, Suite 800
Tallahassee, FL 32301
Stephanie.Cuello@duke-energy.com
FLRegulatoryLegal@duke-energy.com
T: 850- 521-1425

- 3. DEF's proposed modifications are intended to clarify the As-Available contract language.
- 4. Specifically, the modifications to the As-Available Purchase tariff include:
 - Sheet 9.108, Article 4.5 specifies the Section for the location of the date.
 - Sheet 9.109, Article 5.1 includes Distributed Resource and interconnection and transmission language.
 - Sheet 9.110, Article 9.1.2 specifies the payable due date.
 - All other modifications to the Tariff sheets are grammatical changes and are available on the legislative copies.
- 5. For convenience and ease of reference, DEF has included all pages of the entire As Available Tariffs in standard format as Exhibit C and in legislative format as Exhibit D.
 - 6. These proposed changes are consistent with the Commission's Rules.

WHEREFORE, for the above-stated reasons, DEF respectfully requests that the Commission grant this petition and approve the modifications to DEF's As-Available Purchase Tariffs.

Respectfully Submitted,

/s/ Dianne M. Triplett

AGREEMENT FOR THE PURCHASE OF AS-AVAILABLE ENERGY AND/OR PARALLEL OPERATION FROM A QUALIFYING FACILITY

between

and

DUKE ENERGY FLORIDA, LLC

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy - FL

AGREEMENT

This	Agreement	("Agreement")	is made	and	entered	by	and	between
		, a	, having	its pr	incipal p	olace	of bu	siness at
	(he	ereinafter referred	to as the "	QF"), a	and Floric	la Pov	ver Co	rporation
d.b.a. Duke Energy	Florida, LLC,	a private utility c	orporation	organiz	zed under	the la	aws of	the State
of Florida, having it	ts principal plac	ce of business at	St. Petersbu	ırg, Flo	orida (her	einaft	er refe	rred to as
the "Company"). T	he QF and the	Company may be	e hereinafte	r referi	red to ind	ividua	ally as	a "Party"
and collectively as t	he "Parties."							

WITNESSETH:

WHEREAS, the QF desires Parallel Operation with the Company and the Company desires to purchase any as available energy to be generated by the Facility and made available for sale to the Company, consistent with FPSC Rules 25-17.080, 25-17.082, 25-17.0825, 25-17.084, 26-17.086, 25-17.087, 25-17.0883 and 25-17.0889, as such rules may be amended from time to time; and

WHEREAS, the QF has acquired or will acquire interconnection and transmission service agreements with the utility in whose service territory the Facility is to be located, pursuant to which the QF assumes contractual responsibility to make any and all transmission-related arrangements (including ancillary services) between the QF and the Transmission Provider for delivery of the Facility's energy to the Company. The Parties recognize that the Transmission Provider may be the Company and, in such event, that the transmission service will be provided under a separate agreement;

NOW, THEREFORE, for mutual consideration, the Parties covenant and agree as follows:

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy - FL

- 1.6 **Facility** means all equipment, as described in this Agreement, used to produce electric energy and, for a cogeneration facility, used to produce useful thermal energy through the sequential use of energy.
- 1.7 **FERC** means the Federal Energy Regulatory Commission and any successor.
- 1.8 **FPSC** means the Florida Public Service Commission and any successor.
- 1.9 **Force Majeure Event** means an event or occurrence that is not reasonably foreseeable by a Party, is beyond its reasonable control, and is not caused by its negligence or lack of due diligence, including, but not limited to, natural disasters, fire, lightning, wind, perils of the sea, flood, explosions, acts of God or the public enemy, strikes, lockouts, vandalism, blockages, insurrections, riots, war, sabotage, action of a court or public authority, or accidents to or failure of equipment or machinery, including, if applicable, equipment of the Transmission Provider.
- 1.10 **KW** means one (1) kilowatt of electric capacity.
- 1.11 **KWH** means one (1) kilowatt-hour of electric energy.
- 1.12 **Parallel Operation** means the QF will engage in interconnected operation of the QF's generating facility with the Company.
- 1.13 **Point of Delivery** means the point(s) where electric energy delivered to the Company pursuant to this Agreement enters the Company's system.
- 1.14 **Point of Metering** means the point(s) where electric energy made available for delivery to the Company, subject to adjustment for losses, is measured.
- 1.15 **Point of Interconnection** means the interconnection point(s) between the Facility and the interconnected utility.
- 1.16 Qualifying [Small Power Production or Cogeneration] Facility ("QF") means a facility that meets the requirements defined in FPSC Rule 25-17.080.

ARTICLE II: FACILITY

2.1	The Facility shall be located inof Section					
	Township,					
	Range The Facility shall meet all other					
	specifications identified in the Appendices hereto in all material respects					
	and no change in the designated location of the Facility shall be made by					
	the QF. The Facility shall be designed and constructed by the QF or its					
	agents at the QF's sole expense.					
2.2	Throughout the Term of this Agreement, the Facility shall be a Qualifying					
	[Cogeneration or Small Power Production] Facility. In the event the					
	Facility does not maintain its status as a Qualifying Facility, this					
	Agreement shall be immediately deemed null and void as of said date and					
	of no further effect.					
2.3	Unless the QF is already interconnected to a transmission or distribution					
	system, no later than sixty (60) days after the Execution Date, the QF shall					
	apply to its Transmission Provider for interconnection and transmission					
	service including a system impact study, if required. The QF shall continue					
	the interconnection process in a timely manner so as to maintain its position					
	in the interconnection queue.					
2.4	The OF intends to begin deliveries to the Company by .					

ARTICLE III TERM

The Term of this Agreement shall begin on the Execution Date and shall continue until terminated by the Company for good cause or by the QF. Upon termination or expiration of this Agreement, the Parties shall be relieved of their obligations under this Agreement except for the obligation to pay each other all monies under this Agreement, which obligation shall survive termination or expiration.

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy - FL EFFECTIVE:

ARTICLE IV: PURCHASE OF AS-AVAILABLE ENERGY

- 4.1 The QF shall sell and arrange for delivery of the As-Available Energy to the Company and the Company agrees to purchase, accept and pay for the As-Available Energy made available to the Company and which the Company is able to receive at the Point of Delivery in accordance with the terms and conditions of this Agreement, or a separately negotiated contract.
- 4.2 The QF shall not commence initial deliveries of energy to the Point of Delivery without the prior written consent of the Company, which consent shall not unreasonably be withheld.
- 4.3 The RF/QF shall retain any and all rights to own and to sell any and all Environmental Attributes associated with the electric generation of the Facility.
- 4.4 During minimum load conditions on the Company's system the QF shall comply with the Company's Minimum Load Emergency Curtailment Procedures as approved by the FPSC and as updated from time to time.
- 4.5 In the event that the Company has not received any deliveries of energy from the QF by the date in Section 2.4 or for a period of two years or more then the Company will contact the QF in writing using the information in Section 15 requesting the QFs future plans. The Company shall have the right to terminate this Agreement unless the QF replies in writing within a reasonable timeframe that it would like this Agreement to continue.
- 4.6 Deliveries of As-Available Energy to the Company shall be made in accordance to the following one-time-only option.
 - () All deliveries of As-Available Energy from this Facility will be made to the Company.
 - () As-Available Energy deliveries from this Facility will be made to the Company and to other parties.

ARTICLE V: INTERCONNECTION

- 5.1 The Distributed Resource or QF's interconnection scheduling and cost responsibilities and parallel operating procedures shall be those specified in a separate interconnection agreement.
- 5.2 The location and voltage of the Point of Interconnection and the Point of Metering will be specified by the interconnection and transmission service agreements.

ARTICLE VI: **ENERGY PAYMENTS**

- 6.1 For that electric energy received by the Company at the Point of Delivery each month, the Company will pay the QF an amount as computed in Appendix A.
- Energy payments pursuant to sections 9.1.1 and 9.1.2 hereof shall be 6.2 subject to the delivery voltage adjustment value applicable to the Facility and approved from time to time by the FPSC pursuant to Appendix A.
- 6.3 Upon agreement by the Company and the QF and subject to approval by the FPSC, an alternative rate for the purchase of As-Available Energy may be negotiated in a separate agreement.

ARTICLE VII: CHARGES TO THE QF

The Company shall bill and the QF shall pay all charges applicable under Appendix A.

ARTICLE VIII: METERING

All electric energy shall be capable of being measured as described in Appendix A, Determination of Payment, at the Point of Metering. All electric energy delivered to the Company shall be adjusted for losses from the Point of Metering to the Point of Delivery. Any additional required metering equipment to measure electric energy and the telemetering equipment necessary to transmit such measurements to a location

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy - FL

- specified by the Company shall be installed, calibrated and maintained by the Company and all related costs shall be charged to the QF, pursuant to Appendix A, as part of the Company's Interconnection Facilities.
- 8.2 All meter testing and related billing corrections, for electricity sold and purchased by the Company, shall conform to the metering and billing guidelines contained in FPSC Rules 25-6.052 through 25-6.060 and FPSC Rule 25-6.103, as they may be amended from time to time, notwithstanding that such guidelines apply to the utility as the seller of electricity.

ARTICLE IX: PAYMENT PROCEDURE

- 9.1 Bills shall be issued and payments shall be made monthly to the QF and by the QF in accordance with the following procedures:
 - P.1.1 The electric energy payment calculated for a given month shall be tendered, with cost tabulations showing the basis for payment, by the Company to the QF as a single payment. Such payments to the QF shall be due and payable twenty (20) business days following the end of the billing period.
 - 9.1.2 When any amount is owing from the QF, the Company shall issue a monthly bill to the QF with cost tabulations showing the basis for the charges. All amounts owing to the Company from the QF shall be due and payable twenty (20) business days after the date of the Company's billing statement. Amounts owing to the Company for retail electric service shall be payable in accordance with the provisions of the applicable rate schedule.
 - 9.1.3 At the option of the QF, the Company will provide a net payment or net bill, whichever is applicable, that consolidates amounts owing to the QF with amounts owing to the Company.

- 9.1.4 Except for charges for retail electric service, any amount due and payable from either Party to the other pursuant to this Agreement that is not received by the due date shall accrue interest from the due date at the rate equal to the thirty (30) day highest grade commercial paper as published in the Wall Street Journal on the first business day of each month. Such interest shall be compounded monthly.
- 9.1.5 The QF may elect net sale or simultaneous purchase and sale in accordance with the provisions of FPSC Rule 25-17.082, such election not to be changed more often than every twelve (12) months.
- 9.1.6 Payments to be made under this Agreement shall, for a period of not longer than two (2) years, remain subject to adjustment based on billing adjustments due to error or omission by either Party.

ARTICLE X: INSURANCE

The provisions of this Article do not apply to a QF whose Facility is not directly interconnected with the Company's system.

The QF shall deliver to the Company, at least fifteen (15) days prior to the commencement of any work on the Company's Interconnection Facilities, a certificate of insurance certifying the QF's coverage under a liability insurance policy issued by a reputable insurance company authorized to do business in the State of Florida naming the QF as a named insured and the Company as an additional named insured, which policy shall contain a broad form contractual endorsement specifically covering liabilities arising out of the interconnection with the Facility, or caused by the operation of the Facility or by the QF's failure to maintain the Facility in satisfactory and safe operating condition.

- 10.2 The insurance policy providing such coverage shall provide public liability insurance, including property damage, in an amount not less than \$1,000,000 for each occurrence. The required insurance policy shall be endorsed with a provision requiring the insurance company to notify the Company at least thirty (30) days prior to the effective date of any cancellation or material change in the policy.
- 10.3 The QF shall pay all premiums and other charges due on said insurance policy and shall keep said policy in force during the entire period of interconnection with the Company.

ARTICLE XI: REGULATORY CHANGES

The Parties agree that the Company's payment obligations under this Agreement are expressly conditioned upon the mutual commitments set forth in this Agreement. Payments for as-available energy made to QF's pursuant to this Agreement shall be recovered by the Company through the Commission's periodic review of fuel and purchased power.

ARTICLE XII: FACILITY RESPONSIBILITY AND ACCESS

12.1 Representatives of the Company shall at all reasonable times have access to the Facility and to property owned or controlled by the QF and having relationship to the interconnection for the purpose of inspecting, testing, and obtaining other technical information deemed necessary by the Company in connection with this Agreement. Any inspections or testing by the Company shall not relieve the QF of its obligation to maintain the Facility.

- 12.2 In no event shall any Company statement, representation, or lack thereof, either express or implied, relieve the QF of its exclusive responsibility for the Facility and its exclusive obligations, if applicable, with the Transmission Provider. Any Company inspection of property or equipment owned or controlled by the QF or the Transmission Provider, or any Company review of or consent to the QF's or the Transmission Provider's plans, shall not be construed as endorsing the design, fitness or operation of the Facility or the Transmission Provider's equipment nor as a warranty or guarantee.
- 12.3 The Company shall reactivate the Company's Interconnection Facilities at its own expense if the same are rendered inoperable due to actions of the Company or its agents, or a Force Majeure Event.

ARTICLE XIII: INDEMNIFICATION

The QF agrees to indemnify and save harmless the Company and its employees, officers, and directors against any and all liability, loss, damage, costs or expense which the Company, its employees, officers and directors may hereafter incur, suffer or be required to pay by reason of negligence on the part of the QF in performing its obligations pursuant to this Agreement or the QF's failure to abide by the provisions of this Agreement. The Company agrees to indemnify and save harmless the QF and its employees, officers, and directors against any and all liability, loss, damage, cost or expense which the QF, its employees, officers, and directors may hereafter incur, suffer, or be required to pay by reason of negligence on the part of the Company in performing its obligations pursuant to this Agreement or the Company's failure to abide by the provisions of this Agreement. The QF agrees to include the Company as an additional insured in any liability insurance policy or policies the QF obtains to protect the QF's interests with respect to the QF's indemnity and hold harmless assurance to the Company contained in this Article.

- 15.1 Either Party may change its representatives' names in this section by prior written notice to the other Party.
- 15.2 The Parties' representatives designated above shall have full authority to act for their respective principals in all technical matters relating to the performance of this Agreement. However, they shall not have the authority to amend, modify, or waive any provision of this Agreement.

SECTION HEADINGS FOR CONVENIENCE ARTICLE XVI:

Article or section headings appearing in this Agreement are inserted for convenience only and shall not be construed as interpretations of text.

ARTICLE XVII: GOVERNING LAW

The interpretation and performance of this Agreement and each of its provisions shall be governed by the laws of the State of Florida.

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy - FL

Page 1 of 1

APPENDIX A RATES

SCHEDULE 1

PAYMENTS FOR AS-AVAILABLE ENERGY

Payments:

As-Available Energy is purchased at a unit cost, in cents per kilowatt-hour, based on the Company's actual hourly avoided energy costs which are calculated by the Company in accordance with the methodology described in Schedule 2 of this Appendix. Customer charges directly attributable to the purchase of As-Available Energy from the Qualifying Facility are deducted from the Qualifying Facility's total monthly energy payment. Avoided energy costs include incremental fuel and identifiable variable operation and maintenance expenses, and identifiable variable utility power purchases. An adjustment for line losses reflecting delivery voltage shall also be included. When interchange transactions take place, the incremental costs are calculated after the purchase or before the sale of the interchange energy. All sales shall be adjusted for losses from the point of metering to the Point of Interconnection.

Estimated As-Available Energy Cost:

Upon request by a qualifying facility or any interested person, each utility shall provide within 30 days its most current projections of its generation mix, fuel price by type of fuel, and at least a five year projection of fuel forecasts to estimate future as-available energy prices as well as any other information reasonably required by the qualifying facility to project future avoided cost prices including, but not limited to, a 24 hour advance forecast of hour-by-hour avoided energy costs. The Company may charge an appropriate fee, not to exceed the actual cost of production and copying, for providing such information.

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy - FL

Page 1 of 1

APPENDIX A RATES

SCHEDULE 3

CHARGES TO QUALIFYING FACILITY

Customer Charges:

The Qualifying Facility shall be responsible for all FPSC approved charges for any retail service that may be provided by the Company. The Qualifying Facility shall be billed at the customer charge rate stated in DEF's applicable standby tariff monthly for the costs of meter reading, billing, and other appropriate administrative costs.

Operation, Maintenance, and Repair Charges:

The Qualifying Facility shall pay for operation, maintenance and repair charges in accordance with its interconnection and transmission service agreements.

Taxes and Assessments:

The Qualifying Facility shall be billed or credited monthly an amount equal to the taxes, assessments, or other impositions, if any, for which the Company is liable as a result of its installation of facilities in connection with this Agreement, its purchase of As-Available Energy produced by the Qualifying Facility, or any other activity undertaken pursuant to this Agreement. Such amount billed shall not include any amounts (i) for which the Company would have been liable had it generated or purchased from other sources an equivalent amount of electric energy; or (ii) which are recovered by the Company.

- 4.4 During minimum load conditions on the Company's system the QF shall comply with the Company's Minimum Load Emergency Curtailment Procedures as approved by the FPSC and as updated from time to time.
- 4.5 In the event that the Company has not received any deliveries of energy from the QF by the date in Section 3.52.4 or for a period of two years or more then the Company will contact the QF in writing using the information in Section 15 requesting the QFs future plans. The Company shall have the right to terminate this Agreement unless the QF replies in writing within a reasonable timeframe that it would like this Agreement to continue.
- 4.6 Deliveries of As-Available Energy to the Company shall be made in accordance to the following one-time-only option.
 - () All deliveries of As-Available Energy from this Facility will be made to the Company.
 - () As-Available Energy deliveries from this Facility will be made to the Company and to other parties.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

ARTICLE V: INTERCONNECTION

- 5.1 The <u>Distributed Resource or QF</u>'s interconnection scheduling and cost responsibilities and parallel operating procedures shall be those specified in a separate interconnection agreement.
- The location and voltage of the Point of Interconnection and the Point of Metering will be specified by the interconnection and transmission service agreements.

ARTICLE VI: ENERGY PAYMENTS

- 6.1 For that electric energy received by the Company at the Point of -Delivery each month, the Company will pay the QF an amount as computed in Appendix A.
- 6.2 Energy payments pursuant to sections 9.1.1 and 9.1.2 hereof shall be subject to the delivery voltage adjustment value applicable to the Facility and approved from time to time by the FPSC pursuant to Appendix A.
- 6.3 Upon agreement by the Company and the QF and subject to approval by the FPSC, an alternative rate for the purchase of As-Available Energy may be negotiated in a separate agreement.

ARTICLE VII: CHARGES TO THE QF

The Company shall bill and the QF shall pay all charges applicable under Appendix A.

ARTICLE VIII: METERING

All electric energy shall be capable of being measured as described in Appendix A, Determination of Payment, at the Point of Metering. All electric energy delivered to the Company shall be adjusted for losses from the Point of Metering to the Point of Delivery. Any additional required metering equipment to measure electric energy and the telemetering equipment necessary to transmit such measurements to a location

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

- specified by the Company shall be installed, calibrated and maintained by the Company and all related costs shall be charged to the QF, pursuant to Appendix A, as part of the Company's Interconnection Facilities.
- 8.2 All meter testing and related billing corrections, for electricity sold and purchased by the Company, shall conform to the metering and billing guidelines contained in FPSC Rules 25-6.052 through 25-6.060 and FPSC Rule 25-6.103, as they may be amended from time to time, notwithstanding that such guidelines apply to the utility as the seller of electricity.

ARTICLE IX: PAYMENT PROCEDURE

- 9.1 Bills shall be issued and payments shall be made monthly to the QF and by the QF in accordance with the following procedures:
 - The electric energy payment calculated for a given month shall be tendered, with cost tabulations showing the basis for payment, by the Company to the QF as a single payment. Such payments to the QF shall be due and payable twenty (20) business days following the date the meters are readend of the billing period.
 - 9.1.2 When any amount is owing from the QF, the Company shall issue a monthly bill to the QF with cost tabulations showing the basis for the charges. All amounts owing to the Company from the QF shall be due and payable twenty (20) business days after the date of the Company's billing statement. Amounts owing to the Company for retail electric service shall be payable in accordance with the provisions of the applicable rate schedule.
 - 9.1.3 At the option of the QF, the Company will provide a net payment or net bill, whichever is applicable, that consolidates amounts owing to the QF with amounts owing to the Company.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

- 9.1.4 Except for charges for retail electric service, any amount due and payable from either Party to the other pursuant to this Agreement that is not received by the due date shall accrue interest from the due date at the rate equal to the thirty (30) day highest grade commercial paper as published in the Wall Street Journal on the first business day of each month. Such interest shall be compounded monthly.
- 9.1.5 The QF may elect net sale or simultaneous purchase and sale in accordance with the provisions of FPSC Rule 25-17.082, such election not to be changed more often than every twelve (12) months.
- 9.1.6 Payments to be made under this Contract Agreement shall, for a period of not longer than two (2) years, remain subject to adjustment based on billing adjustments due to error or omission by either Party.

ARTICLE X: INSURANCE

The provisions of this Article do not apply to a QF whose Facility is not directly interconnected with the Company's system.

The QF shall deliver to the Company, at least fifteen (15) days prior to the commencement of any work on the Company's Interconnection Facilities, a certificate of insurance certifying the QF's coverage under a liability insurance policy issued by a reputable insurance company authorized to do business in the State of Florida naming the QF as a named insured and the Company as an additional named insured, which policy shall contain a broad form contractual endorsement specifically covering liabilities arising out of the interconnection with the Facility, or caused by the operation of the Facility or by the QF's failure to maintain the Facility in satisfactory and safe operating condition.

ISSUED BY: <u>Javier Portuondo Geoff Foster</u>, <u>Director Vice President</u>, Rates & Regulatory Strategy - FL

- 10.2 The insurance policy providing such coverage shall provide public liability insurance, including property damage, in an amount not less than \$1,000,000 for each occurrence. The required insurance policy shall be endorsed with a provision requiring the insurance company to notify the Company at least thirty (30) days prior to the effective date of any cancellation or material change in the policy.
- 10.3 The QF shall pay all premiums and other charges due on said insurance policy and shall keep said policy in force during the entire period of interconnection with the Company.

ARTICLE XI: REGULATORY CHANGES

The Parties agree that the Company's payment obligations under this Agreement are expressly conditioned upon the mutual commitments set forth in this Agreement. Payments for as-available energy made to QF's pursuant to this Agreement shall be recovered by the Company through the Commission's periodic review of fuel and purchased power.

ARTICLE XII: FACILITY RESPONSIBILITY AND ACCESS

12.1 Representatives of the Company shall at all reasonable times have access to the Facility and to property owned or controlled by the QF and having relationship to the interconnection for the purpose of inspecting, testing, and obtaining other technical information deemed necessary by the Company in connection with this Agreement. Any inspections or testing by the Company shall not relieve the QF of its obligation to maintain the Facility.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

- 12.2 In no event shall any Company statement, representation, or lack thereof, either express or implied, relieve the QF of its exclusive responsibility for the Facility and its exclusive obligations, if applicable, with the Transmission Service UtilityProvider. Any Company inspection of property or equipment owned or controlled by the QF or the Transmission Service UtilityProvider, or any Company review of or consent to the QF's or the Transmission Service UtilityProvider's plans, shall not be construed as endorsing the design, fitness or operation of the Facility or the Transmission Service UtilityProvider's equipment nor as a warranty or guarantee.
- 12.3 The Company shall reactivate the Company's Interconnection Facilities at its own expense if the same are rendered inoperable due to actions of the Company or its agents, or a Force Majeure Event.

ARTICLE XIII: INDEMNIFICATION

The QF agrees to indemnify and save harmless the Company and its employees, officers, and directors against any and all liability, loss, damage, costs or expense which the Company, its employees, officers and directors may hereafter incur, suffer or be required to pay by reason of negligence on the part of the QF in performing its obligations pursuant to this Agreement or the QF's failure to abide by the provisions of this Agreement. The Company agrees to indemnify and save harmless the QF and its employees, officers, and directors against any and all liability, loss, damage, cost or expense which the QF, its employees, officers, and directors may hereafter incur, suffer, or be required to pay by reason of negligence on the part of the Company in performing its obligations pursuant to this Agreement or the Company's failure to abide by the provisions of this Agreement. The QF agrees to include the Company as an additional insured in any liability insurance policy or policies the QF obtains to protect the QF's interests with respect to the QF's indemnity and hold harmless assurance to the Company contained in this Article.

ISSUED BY: <u>Javier Portuondo Geoff Foster</u>, <u>Director Vice President</u>, Rates & Regulatory Strategy - FL

- 15.1 Either Party may change its representatives' names in this section by prior written notice to the other Party.
- 15.2 The Parties' representatives designated above shall have full authority to act for their respective principals in all technical matters relating to the performance of this Agreement. However, they shall not have the authority to amend, modify, or waive any provision of this Agreement.

ARTICLE XVI: SECTION HEADINGS FOR CONVENIENCE

Article or section headings appearing in this Agreement are inserted for convenience only and shall not be construed as interpretations of text.

ARTICLE XVII: GOVERNING LAW

The interpretation and performance of this Agreement and each of its provisions shall be governed by the laws of the State of Florida.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

Page 1 of 1

APPENDIX A RATES

SCHEDULE 1

PAYMENTS FOR AS-AVAILABLE ENERGY

Payments:

As-Available Energy is purchased at a unit cost, in cents per kilowatt-hour, based on the Company's actual hourly avoided energy costs which are calculated by the Company in accordance with the methodology described in Schedule 2 of this Appendix. Customer charges directly attributable to the purchase of As-Available Energy from the Qualifying Facility are deducted from the Qualifying Facility's total monthly energy payment. Avoided energy costs include incremental fuel and identifiable variable operation and maintenance expenses, and identifiable variable utility power purchases. An adjustment for line losses reflecting delivery voltage shall also be included. When interchange transactions take place, the incremental costs are calculated after the purchase or before the sale of the interchange energy. All sales shall be adjusted for losses from the point of metering to the point Point of interconnectionInterconnection.

Estimated As-Available Energy Cost:

Upon request by a qualifying facility or any interested person, each utility shall provide within 30 days its most current projections of its generation mix, fuel price by type of fuel, and at least a five year projection of fuel forecasts to estimate future as-available energy prices as well as any other information reasonably required by the qualifying facility to project future avoided cost prices including, but not limited to, a 24 hour advance forecast of hour-by-hour avoided energy costs. The Company may charge an appropriate fee, not to exceed the actual cost of production and copying, for providing such information.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

Page 1 of 1

APPENDIX A RATES

SCHEDULE 3

CHARGES TO QUALIFYING FACILITY

Customer Charges:

The Qualifying Facility shall be responsible for all FPSC approved charges for any retail service that may be provided by the Company. The Qualifying Facility shall be billed at the customer charge rate stated in DEF's applicable standby tariff monthly for the costs of meter reading, billing, and other appropriate administrative costs.

Operation, Maintenance, and Repair Charges:

The Qualifying Facility shall pay for operation, maintenance and repair charges in accordance with its interconnection<u>and</u> #transmission service agreements.

Taxes and Assessments:

The Qualifying Facility shall be billed or credited monthly an amount equal to the taxes, assessments, or other impositions, if any, for which the Company is liable as a result of its installation of facilities in connection with this Agreement, its purchase of As-Available Energy produced by the Qualifying Facility, or any other activity undertaken pursuant to this Agreement. Such amount billed shall not include any amounts (i) for which the Company would have been liable had it generated or purchased from other sources an equivalent amount of electric energy; or (ii) which are recovered by the Company.

AGREEMENT

This	Agreement	("Agreement")	is	made	and	entered	by	and	betweer
		, a	, h	aving	its pr	incipal p	lace	of bu	siness a
	(he	ereinafter referred	l to as	s the "(QF"), a	nd Florid	la Pov	ver Co	rporation
d.b.a. Duke Energy F	Florida, LLC,	a private utility c	orpoi	ration c	organiz	zed under	the la	aws of	the State
of Florida, having its	principal plac	ce of business at	St. Pe	etersbu	rg, Flo	rida (her	einaft	er refe	rred to as
the "Company"). Th	e QF and the	Company may be	e here	einafter	referr	ed to ind	ividua	ally as	a "Party'
and collectively as th	e "Parties."								

WITNESSETH:

WHEREAS, the QF desires Parallel Operation with the Company and the Company desires to purchase any as available energy to be generated by the Facility and made available for sale to the Company, consistent with FPSC Rules 25-17.080, 25-17.082, 25-17.0825, 25-17.084, 26-17.086, 25-17.087, 25-17.0883 and 25-17.0889, as such rules may be amended from time to time; and

WHEREAS, the QF has acquired or will acquire interconnection and transmission service agreements with the utility in whose service territory the Facility is to be located, pursuant to which the QF assumes contractual responsibility to make any and all transmission-related arrangements (including ancillary services) between the QF and the Transmission Provider for delivery of the Facility's energy to the Company. The Parties recognize that the Transmission Provider may be the Company and, in such event, that the transmission service will be provided under a separate agreement;

NOW, THEREFORE, for mutual consideration, the Parties covenant and agree as follows:

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy – FL EFFECTIVE:

ARTICLE I: DEFINITIONS

As used in this Agreement and in the Appendices hereto, the following capitalized terms shall have the following meanings:

- 1.1 **Appendices** means the schedules, exhibits and attachments which are appended hereto and are hereby incorporated by reference and made a part of this Agreement.
 - 1.1.1 **Appendix A** sets forth the Company's Rates for Purchase of As-Available Energy.
- 1.2 Company's Interconnection Facilities means all equipment located on the Company's side of the Point of Delivery, (including without limitation), equipment for connection, switching, transmission, distribution, protective relaying and safety provisions which in the Company's judgment is required to be installed for the delivery and measurement of electric energy into the Company's system on behalf of the QF, including all metering and telemetering equipment installed for the measurement of such energy regardless of its location in relation to the Point of Delivery.
- 1.3 **As-Available Energy** means energy produced and sold by a QF on an hour-by-hour basis for which contractual commitments as to quantity, time, or reliability of delivery are not required.
- 1.4 **Distributed Resource** means a facility that is defined as a Distributed Resource in the Institute of Electrical and Electronics Engineers ("IEEE") Standard 1547 for Interconnecting Distributed Resources with Electric Power Systems.
- 1.5 **Execution Date** means the date on which the Company executes this Agreement.

EFFECTIVE: October 2, 2014

- 1.6 **Facility** means all equipment, as described in this Agreement, used to produce electric energy and, for a cogeneration facility, used to produce useful thermal energy through the sequential use of energy.
- 1.7 **FERC** means the Federal Energy Regulatory Commission and any successor.
- 1.8 **FPSC** means the Florida Public Service Commission and any successor.
- 1.9 **Force Majeure Event** means an event or occurrence that is not reasonably foreseeable by a Party, is beyond its reasonable control, and is not caused by its negligence or lack of due diligence, including, but not limited to, natural disasters, fire, lightning, wind, perils of the sea, flood, explosions, acts of God or the public enemy, strikes, lockouts, vandalism, blockages, insurrections, riots, war, sabotage, action of a court or public authority, or accidents to or failure of equipment or machinery, including, if applicable, equipment of the Transmission Provider.
- 1.10 **KW** means one (1) kilowatt of electric capacity.
- 1.11 **KWH** means one (1) kilowatt-hour of electric energy.
- 1.12 **Parallel Operation** means the QF will engage in interconnected operation of the QF's generating facility with the Company.
- 1.13 **Point of Delivery** means the point(s) where electric energy delivered to the Company pursuant to this Agreement enters the Company's system.
- 1.14 **Point of Metering** means the point(s) where electric energy made available for delivery to the Company, subject to adjustment for losses, is measured.
- 1.15 **Point of Interconnection** means the interconnection point(s) between the Facility and the interconnected utility.
- 1.16 Qualifying [Small Power Production or Cogeneration] Facility ("QF") means a facility that meets the requirements defined in FPSC Rule 25-17.080.

ARTICLE II: FACILITY

The Facility shall be located in	of Section
Township	,
Range The	
specifications identified in the Appendic	ces hereto in all material respects
and no change in the designated location	n of the Facility shall be made by
the QF. The Facility shall be designed	and constructed by the QF or its
agents at the QF's sole expense.	
Throughout the Term of this Agreement,	, the Facility shall be a Qualifying
[Cogeneration or Small Power Produc	ction] Facility. In the event the
Facility does not maintain its status	as a Qualifying Facility, this
Agreement shall be immediately deemed	d null and void as of said date and
of no further effect.	
Unless the QF is already interconnected	l to a transmission or distribution
system, no later than sixty (60) days after	er the Execution Date, the QF shall
apply to its Transmission Provider for	interconnection and transmission
service including a system impact study,	if required. The QF shall continue
the interconnection process in a timely ma	anner so as to maintain its position
in the interconnection queue.	
The QF intends to begin deliveries to the C	Company by

ARTICLE III TERM

The Term of this Agreement shall begin on the Execution Date and shall continue until terminated by the Company for good cause or by the QF. Upon termination or expiration of this Agreement, the Parties shall be relieved of their obligations under this Agreement except for the obligation to pay each other all monies under this Agreement, which obligation shall survive termination or expiration.

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy – FL EFFECTIVE:

ARTICLE IV: PURCHASE OF AS-AVAILABLE ENERGY

- 4.1 The QF shall sell and arrange for delivery of the As-Available Energy to the Company and the Company agrees to purchase, accept and pay for the As-Available Energy made available to the Company and which the Company is able to receive at the Point of Delivery in accordance with the terms and conditions of this Agreement, or a separately negotiated contract.
- 4.2 The QF shall not commence initial deliveries of energy to the Point of Delivery without the prior written consent of the Company, which consent shall not unreasonably be withheld.
- 4.3 The RF/QF shall retain any and all rights to own and to sell any and all Environmental Attributes associated with the electric generation of the Facility.
- 4.4 During minimum load conditions on the Company's system the QF shall comply with the Company's Minimum Load Emergency Curtailment Procedures as approved by the FPSC and as updated from time to time.
- 4.5 In the event that the Company has not received any deliveries of energy from the QF by the date in Section 2.4 or for a period of two years or more then the Company will contact the QF in writing using the information in Section 15 requesting the QFs future plans. The Company shall have the right to terminate this Agreement unless the QF replies in writing within a reasonable timeframe that it would like this Agreement to continue.
- 4.6 Deliveries of As-Available Energy to the Company shall be made in accordance to the following one-time-only option.
 - () All deliveries of As-Available Energy from this Facility will be made to the Company.
 - () As-Available Energy deliveries from this Facility will be made to the Company and to other parties.

ARTICLE V: INTERCONNECTION

- 5.1 The Distributed Resource or QF's interconnection scheduling and cost responsibilities and parallel operating procedures shall be those specified in a separate interconnection agreement.
- The location and voltage of the Point of Interconnection and the Point of 5.2 Metering will be specified by the interconnection and transmission service agreements.

ARTICLE VI: ENERGY PAYMENTS

- 6.1 For that electric energy received by the Company at the Point of Delivery each month, the Company will pay the QF an amount as computed in Appendix A.
- 6.2 Energy payments pursuant to sections 9.1.1 and 9.1.2 hereof shall be subject to the delivery voltage adjustment value applicable to the Facility and approved from time to time by the FPSC pursuant to Appendix A.
- 6.3 Upon agreement by the Company and the QF and subject to approval by the FPSC, an alternative rate for the purchase of As-Available Energy may be negotiated in a separate agreement.

ARTICLE VII: CHARGES TO THE QF

The Company shall bill and the QF shall pay all charges applicable under Appendix A.

ARTICLE VIII: METERING

8.1 All electric energy shall be capable of being measured as described in Appendix A, Determination of Payment, at the Point of Metering. All electric energy delivered to the Company shall be adjusted for losses from the Point of Metering to the Point of Delivery. Any additional required metering equipment to measure electric energy and the telemetering equipment necessary to transmit such measurements to a location

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy - FL

EFFECTIVE:

- specified by the Company shall be installed, calibrated and maintained by the Company and all related costs shall be charged to the QF, pursuant to Appendix A, as part of the Company's Interconnection Facilities.
- 8.2 All meter testing and related billing corrections, for electricity sold and purchased by the Company, shall conform to the metering and billing guidelines contained in FPSC Rules 25-6.052 through 25-6.060 and FPSC Rule 25-6.103, as they may be amended from time to time, notwithstanding that such guidelines apply to the utility as the seller of electricity.

ARTICLE IX: PAYMENT PROCEDURE

- 9.1 Bills shall be issued and payments shall be made monthly to the QF and by the QF in accordance with the following procedures:
 - 9.1.1 The electric energy payment calculated for a given month shall be tendered, with cost tabulations showing the basis for payment, by the Company to the QF as a single payment. Such payments to the QF shall be due and payable twenty (20) business days following the end of the billing period.
 - 9.1.2 When any amount is owing from the QF, the Company shall issue a monthly bill to the QF with cost tabulations showing the basis for the charges. All amounts owing to the Company from the QF shall be due and payable twenty (20) business days after the date of the Company's billing statement. Amounts owing to the Company for retail electric service shall be payable in accordance with the provisions of the applicable rate schedule.
 - 9.1.3 At the option of the QF, the Company will provide a net payment or net bill, whichever is applicable, that consolidates amounts owing to the QF with amounts owing to the Company.

- Except for charges for retail electric service, any amount due and payable from either Party to the other pursuant to this Agreement that is not received by the due date shall accrue interest from the due date at the rate equal to the thirty (30) day highest grade commercial paper as published in the Wall Street Journal on the first business day of each month. Such interest shall be compounded monthly.
- 9.1.5 The QF may elect net sale or simultaneous purchase and sale in accordance with the provisions of FPSC Rule 25-17.082, such election not to be changed more often than every twelve (12) months.
- 9.1.6 Payments to be made under this Agreement shall, for a period of not longer than two (2) years, remain subject to adjustment based on billing adjustments due to error or omission by either Party.

ARTICLE X: **INSURANCE**

The provisions of this Article do not apply to a QF whose Facility is not directly interconnected with the Company's system.

10.1 The QF shall deliver to the Company, at least fifteen (15) days prior to the commencement of any work on the Company's Interconnection Facilities, a certificate of insurance certifying the QF's coverage under a liability insurance policy issued by a reputable insurance company authorized to do business in the State of Florida naming the QF as a named insured and the Company as an additional named insured, which policy shall contain a broad form contractual endorsement specifically covering liabilities arising out of the interconnection with the Facility, or caused by the operation of the Facility or by the QF's failure to maintain the Facility in satisfactory and safe operating condition.

ISSUED BY: Geoff Foster, Vice President, Rates & Regulatory Strategy - FL

EFFECTIVE:

- 10.2 The insurance policy providing such coverage shall provide public liability insurance, including property damage, in an amount not less than \$1,000,000 for each occurrence. The required insurance policy shall be endorsed with a provision requiring the insurance company to notify the Company at least thirty (30) days prior to the effective date of any cancellation or material change in the policy.
- 10.3 The QF shall pay all premiums and other charges due on said insurance policy and shall keep said policy in force during the entire period of interconnection with the Company.

ARTICLE XI: REGULATORY CHANGES

The Parties agree that the Company's payment obligations under this Agreement are expressly conditioned upon the mutual commitments set forth in this Agreement. Payments for as-available energy made to QF's pursuant to this Agreement shall be recovered by the Company through the Commission's periodic review of fuel and purchased power.

ARTICLE XII: FACILITY RESPONSIBILITY AND ACCESS

12.1 Representatives of the Company shall at all reasonable times have access to the Facility and to property owned or controlled by the QF and having relationship to the interconnection for the purpose of inspecting, testing, and obtaining other technical information deemed necessary by the Company in connection with this Agreement. Any inspections or testing by the Company shall not relieve the QF of its obligation to maintain the Facility.

EFFECTIVE:

- 12.2 In no event shall any Company statement, representation, or lack thereof, either express or implied, relieve the QF of its exclusive responsibility for the Facility and its exclusive obligations, if applicable, with the Transmission Provider. Any Company inspection of property or equipment owned or controlled by the QF or the Transmission Provider, or any Company review of or consent to the QF's or the Transmission Provider's plans, shall not be construed as endorsing the design, fitness or operation of the Facility or the Transmission Provider's equipment nor as a warranty or guarantee.
- 12.3 The Company shall reactivate the Company's Interconnection Facilities at its own expense if the same are rendered inoperable due to actions of the Company or its agents, or a Force Majeure Event.

ARTICLE XIII: INDEMNIFICATION

The QF agrees to indemnify and save harmless the Company and its employees, officers, and directors against any and all liability, loss, damage, costs or expense which the Company, its employees, officers and directors may hereafter incur, suffer or be required to pay by reason of negligence on the part of the QF in performing its obligations pursuant to this Agreement or the QF's failure to abide by the provisions of this Agreement. The Company agrees to indemnify and save harmless the QF and its employees, officers, and directors against any and all liability, loss, damage, cost or expense which the QF, its employees, officers, and directors may hereafter incur, suffer, or be required to pay by reason of negligence on the part of the Company in performing its obligations pursuant to this Agreement or the Company's failure to abide by the provisions of this Agreement. The QF agrees to include the Company as an additional insured in any liability insurance policy or policies the QF obtains to protect the QF's interests with respect to the QF's indemnity and hold harmless assurance to the Company contained in this Article.

ARTICLE XIV: EXCLUSION OF INCIDENTAL

CONSEQUENTIAL AND INDIRECT DAMAGES

Neither Party shall be liable to the other for incidental, consequential or indirect damages, including, but not limited to, the cost of replacement power, whether arising in contract, tort, or otherwise.

ARTICLE XV: COMMUNICATIONS

15.1	Any non-emergency or operational notice, request, consent, payment or
	other communication made pursuant to this Agreement to be given by one
	Party to the other Party shall be in writing, either personally delivered or
	mailed to the representative of said other Party designated in this section,
	and shall be deemed to be given when received. Notices and other
	communications by the Company to the QF shall be addressed to:
	
	
	Notices to the Company shall be addressed to:

Manager-Cogeneration Contracts & Administration Duke Energy Florida P.O. Box 14042 St. Petersburg, FL 33733

15.2 Communications made for emergency or operational reasons may be made to the following persons and shall thereafter be confirmed promptly in writing.

To The Company: System Dispatcher on Duty Title: System Dispatcher

Telephone: (727) 866-5888 Telecopier: (727) 384-7865

To The QF: Name: Title: Telephone: () Telecopier: ()

ISSUED BY: Javier Portuondo, Director, Rates & Regulatory Strategy - FL

EFFECTIVE: October 2, 2014

- 15.3 Either Party may change its representatives' names in this section by prior written notice to the other Party.
- 15.4 The Parties' representatives designated above shall have full authority to act for their respective principals in all technical matters relating to the performance of this Agreement. However, they shall not have the authority to amend, modify, or waive any provision of this Agreement.

ARTICLE XVI: SECTION HEADINGS FOR CONVENIENCE

Article or section headings appearing in this Agreement are inserted for convenience only and shall not be construed as interpretations of text.

ARTICLE XVII: GOVERNING LAW

The interpretation and performance of this Agreement and each of its provisions shall be governed by the laws of the State of Florida.

IN WITNESS WHEREOF, the QF has caused this Agreement to be executed by its duly authorized representatives on the day and year below.

Page 1 of 1

APPENDIX A RATES

SCHEDULE 1

PAYMENTS FOR AS-AVAILABLE ENERGY

Payments:

As-Available Energy is purchased at a unit cost, in cents per kilowatt-hour, based on the Company's actual hourly avoided energy costs which are calculated by the Company in accordance with the methodology described in Schedule 2 of this Appendix. Customer charges directly attributable to the purchase of As-Available Energy from the Qualifying Facility are deducted from the Qualifying Facility's total monthly energy payment. Avoided energy costs include incremental fuel and identifiable variable operation and maintenance expenses, and identifiable variable utility power purchases. An adjustment for line losses reflecting delivery voltage shall also be included. When interchange transactions take place, the incremental costs are calculated after the purchase or before the sale of the interchange energy. All sales shall be adjusted for losses from the point of metering to the Point of Interconnection.

Estimated As-Available Energy Cost:

Upon request by a qualifying facility or any interested person, each utility shall provide within 30 days its most current projections of its generation mix, fuel price by type of fuel, and at least a five year projection of fuel forecasts to estimate future as-available energy prices as well as any other information reasonably required by the qualifying facility to project future avoided cost prices including, but not limited to, a 24 hour advance forecast of hour-by-hour avoided energy costs. The Company may charge an appropriate fee, not to exceed the actual cost of production and copying, for providing such information.

SCHEDULE 2

METHODOLOGY FOR CALCULATING AVOIDED ENERGY COSTS

Introduction:

A unit commitment computer program is utilized to determine the hourly avoided energy cost as the basis for purchase of asavailable energy from qualifying facilities. All economic, unit constraint, and system requirements data necessary for program execution is based on real time data accumulated during the hour that energy was received.

Determination of Energy Block Size:

The energy received from all as-available QFs is determined by the Company's Meter Department for metered energy and the Company's Energy Control Department for telemetered energy. The Energy Control Department combines these inputs to determine the total energy received by the Company from QFs for the period. The energy block size will be the equivalent of this total divided by the number of hours in the period, rounded to the nearest five MW. The energy price payable to the QFs will be based on this energy block size. A time aligned matrix of energy received from each QF excluding non-time-of-day QFs (less than 100 KW) is produced from this data (Energy Received Matrix).

Unit Commitment Program Execution:

desired period: The Unit Commitment Program is executed with the following hourly input data for the

- 1. Unit constraint data to simulate actual unit operating conditions and availability.
- 2. Resource economic data consistent with the data used in the actual dispatch of energy resources. This includes a replacement cost of fuel based on an average forecast price from the Company's suppliers for oil, the price for interruptible gas, and the spot market price of coal.
- 3. System load and operating/spinning reserve requirements actually experienced.
- 4. Interchange purchases in the magnitude and at the average variable cost actually incurred. The cost of emergency purchases shall be assumed equal to that of the average unit cost of emergency purchases made during the prior twelve months' period for which emergency purchase information is available.

The unit commitment program is executed a second time for the same period with an increase in the hourly system load equal to the energy block size. All other data remain the same.

Determination of Energy Price:

A comparison of the unit commitment program executions described above produces the energy prices. The hourly cost of the second execution minus the corresponding hourly cost of the first execution equals the hourly energy cost avoided by the Company as a result of the energy supplied by the QFs. These hourly avoided energy costs will be arranged into a time aligned matrix of energy prices (Energy Price Matrix).

EFFECTIVE: October 2, 2014

APPENDIX A RATES

SCHEDULE 2 METHODOLOGY FOR CALCULATING AVOIDED ENERGY COSTS

Page 2 of 2

Determination of Identifiable Variable Operation & Maintenance Cost:

The Company's Fossil Plant Performance Department examines for a five year historic period all the Company's production operation and maintenance expenses excluding fuel costs and identifies the variable component. A ratio of variable costs to total O&M costs excluding fuel is derived for various fossil generating types. The appropriate ratio is applied to each fossil generating type's unit cost (on a KWH basis) for the most current twelve months' period to establish the current variable O&M unit cost for each generating type. These unit costs are then weighted according to the current twelve months' generation output of each generating type to determine the average current variable O&M unit cost.

Determination of Line Loss (Delivery Voltage) Adjustment:

The Company's average system line losses are analyzed annually for the prior calendar year, and delivery efficiencies are developed for the transmission, distribution primary, and distribution secondary voltage levels. This analysis is provided in the Company's fuel cost recovery filing with the FPSC and/or the Company's filing of its Open Access Transmission Tariff with FERC. An adjustment factor, calculated as the reciprocal of the appropriate delivery efficiency factor, is applicable to the above determined avoided costs to reflect the delivery voltage level at which QF energy is received by the Company.

Determination of Payment:

The actual payment to each QF for the period is determined by one of the following methods:

1. For QFs (less than 100 KW) Time-of-Day Metered

Average On-Peak and Off-Peak energy prices derived from the "Energy Price Matrix" are applied to the QF's corresponding On-Peak and Off-Peak energy contained in the "Energy Received Matrix." Added to this amount is an amount representing avoided variable O&M cost which is calculated by applying the Company's variable O&M cost per KWH to the total energy received by the Company from the QF. The total amount derived is then adjusted by the delivery voltage adjustment.

2. For QFs (less than 100 KW) Non-Time-of-Day Metered

The average Off-Peak energy price derived from the "Energy Price Matrix" is applied to the QF's energy contained in the "Energy Received Matrix." Added to this amount is an amount representing avoided variable O&M cost which is calculated by applying the Company's variable O&M cost per KWH to the total energy received by the Company from the QF. The total amount derived is then adjusted by the delivery voltage adjustment.

3. For QFs (100 KW or Greater) Hourly Metered

The "Energy Price Matrix" is applied to corresponding elements of the QF's "Energy Received Matrix." Added to this amount is an amount representing avoided variable O&M cost which is calculated by applying the Company's variable O&M cost per KWH to the total energy received by the Company from the QF. The total amount derived is then adjusted by the delivery voltage adjustment.

APPENDIX A RATES

SCHEDULE 3

CHARGES TO QUALIFYING FACILITY

Customer Charges:

The Qualifying Facility shall be responsible for all FPSC approved charges for any retail service that may be provided by the Company. The Qualifying Facility shall be billed at the customer charge rate stated in DEF's applicable standby tariff monthly for the costs of meter reading, billing, and other appropriate administrative costs.

Operation, Maintenance, and Repair Charges:

The Qualifying Facility shall pay for operation, maintenance and repair charges in accordance with its interconnection and transmission service agreements.

Taxes and Assessments:

The Qualifying Facility shall be billed or credited monthly an amount equal to the taxes, assessments, or other impositions, if any, for which the Company is liable as a result of its installation of facilities in connection with this Agreement, its purchase of As-Available Energy produced by the Qualifying Facility, or any other activity undertaken pursuant to this Agreement. Such amount billed shall not include any amounts (i) for which the Company would have been liable had it generated or purchased from other sources an equivalent amount of electric energy; or (ii) which are recovered by the Company.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy – FL

ARTICLE I: DEFINITIONS

As used in this Agreement and in the Appendices hereto, the following capitalized terms shall have the following meanings:

- 1.1 **Appendices** means the schedules, exhibits and attachments which are appended hereto and are hereby incorporated by reference and made a part of this Agreement.
 - 1.1.1 **Appendix A** sets forth the Company's Rates for Purchase of As-Available Energy.
- 1.2 Company's Interconnection Facilities means all equipment located on the Company's side of the Point of Delivery, (including without limitation), equipment for connection, switching, transmission, distribution, protective relaying and safety provisions which in the Company's judgment is required to be installed for the delivery and measurement of electric energy into the Company's system on behalf of the QF, including all metering and telemetering equipment installed for the measurement of such energy regardless of its location in relation to the Point of Delivery.
- 1.3 **As-Available Energy** means energy produced and sold by a QF on an hour-by-hour basis for which contractual commitments as to quantity, time, or reliability of delivery are not required.
- 1.4 **Distributed Resource** means a facility that is defined as a Distributed Resource in the Institute of Electrical and Electronics Engineers ("IEEE") Standard 1547 for Interconnecting Distributed Resources with Electric Power Systems.
- 1.5 **Execution Date** means the date on which the Company executes this Agreement.

ISSUED BY: Javier Portuondo, Director, Rates & Regulatory Strategy - FL

- 1.6 Facility means all equipment, as described in this Agreement, used to produce electric energy and, for a cogeneration facility, used to produce useful thermal energy through the sequential use of energy.
- 1.7 **FERC** means the Federal Energy Regulatory Commission and any successor.
- 1.8 **FPSC** means the Florida Public Service Commission and any successor.
- 1.9 Force Majeure Event means an event or occurrence that is not reasonably foreseeable by a Party, is beyond its reasonable control, and is not caused by its negligence or lack of due diligence, including, but not limited to, natural disasters, fire, lightning, wind, perils of the sea, flood, explosions, acts of God or the public enemy, strikes, lockouts, vandalism, blockages, insurrections, riots, war, sabotage, action of a court or public authority, or accidents to or failure of equipment or machinery, including, if applicable, equipment of the Transmission Service Utility Provider.
- **KW** means one (1) kilowatt of electric capacity. 1.10
- 1.11 **KWH** means one (1) kilowatt-hour of electric energy.
- 1.12 **Parallel Operation** means the QF will engage in interconnected operation of the QF's generating facility with the Company.
- 1.13 **Point of Delivery** means the point(s) where electric energy delivered to the Company pursuant to this Agreement enters the Company's system.
- 1.14 **Point of Metering** means the point(s) where electric energy made available for delivery to the Company, subject to adjustment for losses, is measured.
- 1.15 **Point of Ownership Interconnection** means the interconnection point(s) between the Facility and the interconnected utility.
- 1.16 Qualifying [Small Power Production or Cogeneration] Facility ("QF") means a facility that meets the requirements defined in FPSC Rule 25-17.080.

EFFECTIVE: October 2, 2014

ARTICLE III

PURCHASE OF AS-AVAILABLE ENERGY ARTICLE IV:

- 4.1 The QF shall sell and arrange for delivery of the As-Available Energy to the Company and the Company agrees to purchase, accept and pay for the As-Available Energy made available to the Company and which the Company is able to receive at the Point of Delivery in accordance with the terms and conditions of this Agreement, or a separately negotiated contract.
- 4.2 The QF shall not commence initial deliveries of energy to the Point of Delivery without the prior written consent of the Company, which consent shall not unreasonably be withheld.
- 4.3 The RF/QF shall retain any and all rights to own and to sell any and all Environmental Attributes associated with the electric generation of the Facility.
- 4.4 During minimum load conditions on the Company's system the QF shall comply with the Company's Minimum Load Emergency Curtailment Procedures as approved by the FPSC and as updated from time to time.
- 4.5 In the event that the Company has not received any deliveries of energy from the QF by the date in Section $\frac{3.52.4}{}$ or for a period of two years or more then the Company will contact the QF in writing using the information in Section 15 requesting the QFs future plans. The Company shall have the right to terminate this Agreement unless the QF replies in writing within a reasonable timeframe that it would like this Agreement to continue.
- 4.6 Deliveries of As-Available Energy to the Company shall be made in accordance to the following one-time-only option.
 - () All deliveries of As-Available Energy from this Facility will be made to the Company.
 - () As-Available Energy deliveries from this Facility will be made to the Company and to other parties.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

ARTICLE V: INTERCONNECTION

- 5.1 The <u>Distributed Resource or QF</u>'s interconnection scheduling and cost responsibilities and parallel operating procedures shall be those specified in a separate interconnection agreement.
- 5.2 The location and voltage of the Point of Interconnection and the Point of Metering will be specified by the interconnection and transmission service agreements.

ARTICLE VI: ENERGY PAYMENTS

- 6.1 For that electric energy received by the Company at the Point of -Delivery each month, the Company will pay the QF an amount as computed in Appendix A.
- 6.2 Energy payments pursuant to sections 9.1.1 and 9.1.2 hereof shall be subject to the delivery voltage adjustment value applicable to the Facility and approved from time to time by the FPSC pursuant to Appendix A.
- 6.3 Upon agreement by the Company and the QF and subject to approval by the FPSC, an alternative rate for the purchase of As-Available Energy may be negotiated in a separate agreement.

ARTICLE VII: CHARGES TO THE QF

The Company shall bill and the QF shall pay all charges applicable under Appendix A.

ARTICLE VIII: METERING

8.1 All electric energy shall be capable of being measured as described in Appendix A, Determination of Payment, at the Point of Metering. All electric energy delivered to the Company shall be adjusted for losses from the Point of Metering to the Point of Delivery. Any additional required metering equipment to measure electric energy and the telemetering equipment necessary to transmit such measurements to a location

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy – FL

- specified by the Company shall be installed, calibrated and maintained by the Company and all related costs shall be charged to the QF, pursuant to Appendix A, as part of the Company's Interconnection Facilities.
- 8.2 All meter testing and related billing corrections, for electricity sold and purchased by the Company, shall conform to the metering and billing guidelines contained in FPSC Rules 25-6.052 through 25-6.060 and FPSC Rule 25-6.103, as they may be amended from time to time, notwithstanding that such guidelines apply to the utility as the seller of electricity.

ARTICLE IX: PAYMENT PROCEDURE

- 9.1 Bills shall be issued and payments shall be made monthly to the QF and by the QF in accordance with the following procedures:
 - 9.1.1 The electric energy payment calculated for a given month shall be tendered, with cost tabulations showing the basis for payment, by the Company to the QF as a single payment. Such payments to the QF shall be due and payable twenty (20) business days following the date the meters are readend of the billing period.
 - 9.1.2 When any amount is owing from the QF, the Company shall issue a monthly bill to the QF with cost tabulations showing the basis for the charges. All amounts owing to the Company from the QF shall be due and payable twenty (20) business days after the date of the Company's billing statement. Amounts owing to the Company for retail electric service shall be payable in accordance with the provisions of the applicable rate schedule.
 - 9.1.3 At the option of the QF, the Company will provide a net payment or net bill, whichever is applicable, that consolidates amounts owing to the QF with amounts owing to the Company.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy – FL

- 9.1.4 Except for charges for retail electric service, any amount due and payable from either Party to the other pursuant to this Agreement that is not received by the due date shall accrue interest from the due date at the rate equal to the thirty (30) day highest grade commercial paper as published in the Wall Street Journal on the first business day of each month. Such interest shall be compounded monthly.
- 9.1.5 The QF may elect net sale or simultaneous purchase and sale in accordance with the provisions of FPSC Rule 25-17.082, such election not to be changed more often than every twelve (12) months.
- 9.1.6 Payments to be made under this Contract Agreement shall, for a period of not longer than two (2) years, remain subject to adjustment based on billing adjustments due to error or omission by either Party.

ARTICLE X: INSURANCE

The provisions of this Article do not apply to a QF whose Facility is not directly interconnected with the Company's system.

The QF shall deliver to the Company, at least fifteen (15) days prior to the commencement of any work on the Company's Interconnection Facilities, a certificate of insurance certifying the QF's coverage under a liability insurance policy issued by a reputable insurance company authorized to do business in the State of Florida naming the QF as a named insured and the Company as an additional named insured, which policy shall contain a broad form contractual endorsement specifically covering liabilities arising out of the interconnection with the Facility, or caused by the operation of the Facility or by the QF's failure to maintain the Facility in satisfactory and safe operating condition.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy – FL

- 10.2 The insurance policy providing such coverage shall provide public liability insurance, including property damage, in an amount not less than \$1,000,000 for each occurrence. The required insurance policy shall be endorsed with a provision requiring the insurance company to notify the Company at least thirty (30) days prior to the effective date of any cancellation or material change in the policy.
- 10.3 The QF shall pay all premiums and other charges due on said insurance policy and shall keep said policy in force during the entire period of interconnection with the Company.

ARTICLE XI: REGULATORY CHANGES

The Parties agree that the Company's payment obligations under this Agreement are expressly conditioned upon the mutual commitments set forth in this Agreement. Payments for as-available energy made to QF's pursuant to this Agreement shall be recovered by the Company through the Commission's periodic review of fuel and purchased power.

ARTICLE XII: FACILITY RESPONSIBILITY AND ACCESS

12.1 Representatives of the Company shall at all reasonable times have access to the Facility and to property owned or controlled by the QF and having relationship to the interconnection for the purpose of inspecting, testing, and obtaining other technical information deemed necessary by the Company in connection with this Agreement. Any inspections or testing by the Company shall not relieve the QF of its obligation to maintain the Facility.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

- 12.2 In no event shall any Company statement, representation, or lack thereof, either express or implied, relieve the QF of its exclusive responsibility for the Facility and its exclusive obligations, if applicable, with the Transmission Service UtilityProvider. Any Company inspection of property or equipment owned or controlled by the QF or the Transmission Service UtilityProvider, or any Company review of or consent to the QF's or the Transmission Service UtilityProvider's plans, shall not be construed as endorsing the design, fitness or operation of the Facility or the Transmission Service UtilityProvider's equipment nor as a warranty or guarantee.
- 12.3 The Company shall reactivate the Company's Interconnection Facilities at its own expense if the same are rendered inoperable due to actions of the Company or its agents, or a Force Majeure Event.

ARTICLE XIII: INDEMNIFICATION

The QF agrees to indemnify and save harmless the Company and its employees, officers, and directors against any and all liability, loss, damage, costs or expense which the Company, its employees, officers and directors may hereafter incur, suffer or be required to pay by reason of negligence on the part of the QF in performing its obligations pursuant to this Agreement or the QF's failure to abide by the provisions of this Agreement. The Company agrees to indemnify and save harmless the QF and its employees, officers, and directors against any and all liability, loss, damage, cost or expense which the QF, its employees, officers, and directors may hereafter incur, suffer, or be required to pay by reason of negligence on the part of the Company in performing its obligations pursuant to this Agreement or the Company's failure to abide by the provisions of this Agreement. The QF agrees to include the Company as an additional insured in any liability insurance policy or policies the QF obtains to protect the QF's interests with respect to the QF's indemnity and hold harmless assurance to the Company contained in this Article.

ISSUED BY: Javier Portuondo Geoff Foster, Director Vice President, Rates & Regulatory Strategy - FL

ARTICLE XIV: EXCLUSION OF INCIDENTAL

CONSEQUENTIAL AND INDIRECT DAMAGES

Neither Party shall be liable to the other for incidental, consequential or indirect damages, including, but not limited to, the cost of replacement power, whether arising in contract, tort, or otherwise.

ARTICLE XV: COMMUNICATIONS

O1111	
5.1	Any non-emergency or operational notice, request, consent, payment or
	other communication made pursuant to this Agreement to be given by one
	Party to the other Party shall be in writing, either personally delivered or
	mailed to the representative of said other Party designated in this section,
	and shall be deemed to be given when received. Notices and other
	communications by the Company to the QF shall be addressed to:
	Notices to the Company shall be addressed to:

Manager-Cogeneration Contracts & Administration Duke Energy Florida P.O. Box 14042 St. Petersburg, FL 33733

15.2 Communications made for emergency or operational reasons may be made to the following persons and shall thereafter be confirmed promptly in writing.

To The Company: System Dispatcher on Duty

SCHEDULE 1 Payments for As-Available Energy	9.310
SCHEDULE 2 Methodology for Calculating Avoided Energy Costs	9.320
SCHEDULE 3 Charges to Qualifying Facility	9.330

Page 1 of 1

APPENDIX A RATES

SCHEDULE 1

PAYMENTS FOR AS-AVAILABLE ENERGY

Payments:

As-Available Energy is purchased at a unit cost, in cents per kilowatt-hour, based on the Company's actual hourly avoided energy costs which are calculated by the Company in accordance with the methodology described in Schedule 2 of this Appendix. Customer charges directly attributable to the purchase of As-Available Energy from the Qualifying Facility are deducted from the Qualifying Facility's total monthly energy payment. Avoided energy costs include incremental fuel and identifiable variable operation and maintenance expenses, and identifiable variable utility power purchases. An adjustment for line losses reflecting delivery voltage shall also be included. When interchange transactions take place, the incremental costs are calculated after the purchase or before the sale of the interchange energy. All sales shall be adjusted for losses from the point of metering to the point Point of interconnection.

Estimated As-Available Energy Cost:

Upon request by a qualifying facility or any interested person, each utility shall provide within 30 days its most current projections of its generation mix, fuel price by type of fuel, and at least a five year projection of fuel forecasts to estimate future as-available energy prices as well as any other information reasonably required by the qualifying facility to project future avoided cost prices including, but not limited to, a 24 hour advance forecast of hour-by-hour avoided energy costs. The Company may charge an appropriate fee, not to exceed the actual cost of production and copying, for providing such information.

Page 1 of 2

APPENDIX A RATES

SCHEDULE 2

METHODOLOGY FOR CALCULATING AVOIDED ENERGY COSTS

Introduction:

A unit commitment computer program is utilized to determine the hourly avoided energy cost as the basis for purchase of asavailable energy from qualifying facilities. All economic, unit constraint, and system requirements data necessary for program execution is based on real time data accumulated during the hour that energy was received.

Determination of Energy Block Size:

The energy received from all as-available QFs is determined by the Company's Meter Department for metered energy and the Company's Energy Control Department for telemetered energy. The Energy Control Department combines these inputs to determine the total energy received by the Company from QFs for the period. The energy block size will be the equivalent of this total divided by the number of hours in the period, rounded to the nearest five MW. The energy price payable to the QFs will be based on this energy block size. A time aligned matrix of energy received from each QF excluding non-time-of-day QFs (less than 100 KW) is produced from this data (Energy Received Matrix).

Unit Commitment Program Execution:

The Unit Commitment Program is executed with the following hourly input data for the desired period:

- 1. Unit constraint data to simulate actual unit operating conditions and availability.
- 2. Resource economic data consistent with the data used in the actual dispatch of energy resources. This includes a replacement cost of fuel based on an average forecast price from the Company's suppliers for oil, the price for interruptible gas, and the spot market price of coal.
- 3. System load and operating/spinning reserve requirements actually experienced.
- 4. Interchange purchases in the magnitude and at the average variable cost actually incurred. The cost of emergency purchases shall be assumed equal to that of the average unit cost of emergency purchases made during the prior twelve months' period for which emergency purchase information is available.

The unit commitment program is executed a second time for the same period with an increase in the hourly system load equal to the energy block size. All other data remain the same.

Determination of Energy Price:

A comparison of the unit commitment program executions described above produces the energy prices. The hourly cost of the second execution minus the corresponding hourly cost of the first execution equals the hourly energy cost avoided by the Company as a result of the energy supplied by the QFs. These hourly avoided energy costs will be arranged into a time aligned matrix of energy prices (Energy Price Matrix).

ISSUED BY: Javier Portuondo, Director, Rates & Regulatory Strategy - FL

APPENDIX A RATES

SCHEDULE 2 METHODOLOGY FOR CALCULATING AVOIDED ENERGY COSTS

Page 2 of 2

Determination of Identifiable Variable Operation & Maintenance Cost:

The Company's Fossil Plant Performance Department examines for a five year historic period all the Company's production operation and maintenance expenses excluding fuel costs and identifies the variable component. A ratio of variable costs to total O&M costs excluding fuel is derived for various fossil generating types. The appropriate ratio is applied to each fossil generating type's unit cost (on a KWH basis) for the most current twelve months' period to establish the current variable O&M unit cost for each generating type. These unit costs are then weighted according to the current twelve months' generation output of each generating type to determine the average current variable O&M unit cost.

Determination of Line Loss (Delivery Voltage) Adjustment:

The Company's average system line losses are analyzed annually for the prior calendar year, and delivery efficiencies are developed for the transmission, distribution primary, and distribution secondary voltage levels. This analysis is provided in the Company's fuel cost recovery filing with the FPSC and/or the Company's filing of its Open Access Transmission Tariff with FERC. An adjustment factor, calculated as the reciprocal of the appropriate delivery efficiency factor, is applicable to the above determined avoided costs to reflect the delivery voltage level at which QF energy is received by the Company.

Determination of Payment:

The actual payment to each QF for the period is determined by one of the following methods:

1. For QFs (less than 100 KW) Time-of-Day Metered

Average On-Peak and Off-Peak energy prices derived from the "Energy Price Matrix" are applied to the QF's corresponding On-Peak and Off-Peak energy contained in the "Energy Received Matrix." Added to this amount is an amount representing avoided variable O&M cost which is calculated by applying the Company's variable O&M cost per KWH to the total energy received by the Company from the QF. The total amount derived is then adjusted by the delivery voltage adjustment.

2. For QFs (less than 100 KW) Non-Time-of-Day Metered

The average Off-Peak energy price derived from the "Energy Price Matrix" is applied to the QF's energy contained in the "Energy Received Matrix." Added to this amount is an amount representing avoided variable O&M cost which is calculated by applying the Company's variable O&M cost per KWH to the total energy received by the Company from the QF. The total amount derived is then adjusted by the delivery voltage adjustment.

3. For QFs (100 KW or Greater) Hourly Metered

The "Energy Price Matrix" is applied to corresponding elements of the QF's "Energy Received Matrix." Added to this amount is an amount representing avoided variable O&M cost which is calculated by applying the Company's variable O&M cost per KWH to the total energy received by the Company from the QF. The total amount derived is then adjusted by the delivery voltage adjustment.

APPENDIX A RATES

SCHEDULE 3

CHARGES TO QUALIFYING FACILITY

Customer Charges:

The Qualifying Facility shall be responsible for all FPSC approved charges for any retail service that may be provided by the Company. The Qualifying Facility shall be billed at the customer charge rate stated in DEF's applicable standby tariff monthly for the costs of meter reading, billing, and other appropriate administrative costs.

Operation, Maintenance, and Repair Charges:

The Qualifying Facility shall pay for operation, maintenance and repair charges in accordance with its interconnection<u>and</u> #transmission service agreements.

Taxes and Assessments:

The Qualifying Facility shall be billed or credited monthly an amount equal to the taxes, assessments, or other impositions, if any, for which the Company is liable as a result of its installation of facilities in connection with this Agreement, its purchase of As-Available Energy produced by the Qualifying Facility, or any other activity undertaken pursuant to this Agreement. Such amount billed shall not include any amounts (i) for which the Company would have been liable had it generated or purchased from other sources an equivalent amount of electric energy; or (ii) which are recovered by the Company.
