To the commissioners,

We have been residents on Don Pedro Island for the past 20 years. It is our piece of paradise.

I am so pleased that our voices were heard concerning denying the EU a sewer certificate for Don Pedro, Knight, Palm and Little Gasparilla islands.

I just wanted to take a minute and thank you for everything, some of the points you mentioned during the hearing were so very accurate and did my heart good to know you were listening to the people most affected by this proposal. Thank you for taking the time and listening to all of us during the public address sessions, as you know we are passionate about our islands.

I still hope you one day visit our unique island chain to see for yourself what you are preserving. It truly is a one of a kind place.

Thank You
Laura Roberts

I just wanted to take a moment to thank you for your vote last week on the Environmental Utilities case. I understand this was probably a tough decision, and I know you were feeling pressure from a lot of people. I so appreciate your time, patience, and consideration. You all really made us feel heard in a situation where we had been feeling quite helpless. It means a lot to me that you listened respectfully and really took the time to think through all of the points.

Thank you, and have a great day!

Commissioners & Clerk,

We are very relieved that you voted down the proposed sewer system for the barrier islands. We were in genuine fear that the individual installation cost of the system would force us to sell our place on LGI after more that 30 years. Thank you for listening to your constituents and voting "no". We still don't really understand how a private entity could have taken this so far without any support or demonstrated need from the island communities. Hopefully what is done is done and we don't have to travel this road again.

V/R

This Letter is to express my heartfelt thanks and gratitude for your denial of the EU application for a sewer system for Little Gasparilla Island.

Your decision has saved so many problems for so many and I am so thankful that you were able to see through all of the issues, to distinguish the future implications and disaster that would have befallen our island had this passed.

Once again, thank you for your foresight, your insight, and your wisdom in your decision.

With utmost respect,

Deborah Dunn
