This Letter is to express my heartfelt thanks and gratitude for your denial of the EU application for a sewer system for Little Gasparilla Island.

Your decision has saved so many problems for so many and I am so thankful that you were able to see through all of the issues, to distinguish the future implications and disaster that would have befallen our island had this passed.

Once again, thank you for your foresight, your insight, and your wisdom in your decision.

With utmost respect,

Deborah Dunn

I just wanted to take a moment to thank you for your vote last week on the Environmental Utilities case. I understand this was probably a tough decision, and I know you were feeling pressure from a lot of people. I so appreciate your time, patience, and consideration. You all really made us feel heard in a situation where we had been feeling quite helpless. It means a lot to me that you listened respectfully and really took the time to think through all of the points.

Thank you, and have a great day!

To the commissioners,

We have been residents on Don Pedro Island for the past 20 years. It is our piece of paradise.

I am so pleased that our voices were heard concerning denying the EU a sewer certificate for Don Pedro, Knight, Palm and Little Gasparilla islands.

I just wanted to take a minute and thank you for everything, some of the points you mentioned during the hearing were so very accurate and did my heart good to know you were listening to the people most affected by this proposal. Thank you for taking the time and listening to all of us during the public address sessions, as you know we are passionate about our islands.

I still hope you one day visit our unique island chain to see for yourself what you are preserving. It truly is a one of a kind place.

Thank You

Dear Commissioners –

I wanted to take some time out of my date to truly thank you for your ruling on the Private Sewer System proposal for the barrier islands (in our case specifically Palm Island).

We have been an owner on the island for over 10 years and I believe that all of you actually took time to listen to the facts, our objections, and the island owner needs in this case.

It means a lot to us as a family and to the entire extended island family (Knight, Don Pedro and Little Gasparilla Islands).

Thank you again.

Lynn and Beau Grisez

Dear Commissioners:

I wanted to take this opportunity to thank you for your support of our islands and lifestyle by denying the request made by the EU for a central sewer system.

It is with a great “collective” relief that we can now go back to tending to our homes and the damage from hurricanes Helene and Milton.

If this application by the EU comes up again, I believe the islanders will be even more committed to this fight. Hopefully, this ends it once and for all.

Maybe, by the grace of God, we’ll be spared for at least the next few years from another hurricane season like 2024.

Regards,

Dale & Julie Novak

Dear Commissioners:

A heartfelt and huge thank you for listening to us!!

It has been a long and arduous journey, but as an islander for almost 50 years, I am grateful that your concern for our environmentally sensitive islands resulted in your denial of EU's application for a wastewater service. Your thoroughness and fairness in examining the issues involved is greatly appreciated!

Yours truly,
