To the Public Service Commission while reviewing DOCKET 20250011-EI FPL proposal for the 8.9 Billion increase over the next four years. Please review the shareholder profits FPL and NextGen have reported vs. the company's decision to not reinvest those profits in infrastructure.

FPL made the choice to distribute their assets to shareholders instead of reinvesting in the company. Now they are asking for billions more to improve their business and make more money for their shareholders. On the shirttails of hardworking Floridians and retirees who are struggling to pay their bills.

This rate increase will cause undue harm and stress on many people's finances. Monthly costs are increasing, and monthly incomes are not keeping up. You have the POWER to help control the rising cost of electricity and make a positive impact by not allowing this rate hike.
