Dear Clerk of Florida P.S.C.,

I am writing in opposition of filing # 20250011, the rate increase request for solar infrastructure. We do not need to plow our hard-earned incomes into solar projects that are some of the least efficient methods of producing the power that we consume. The acreage required, the inefficiency of production, and the funding that will accrue to the Communist Chinese Party are reason enough to abandon and run from this FPL proposal for a monumental rate increase.

I strongly urge a rejection of this rate increase request.

Bill Tucker

Dunedin, FL
