CUSTOMER COMMENTS

As a customer + Florida resident, I object to the proposed rate base increase of the ROE because (1) when the previous rate increase of 2021 was approved, FPL pledged a reduction of charges during the next 4 years; That did NOT occur, (2) cost of living has increased, however compensation for executives is staggering, millions of dollars for COO/CEO of FPL as well as head of their parent company. (3) corporate belt tightening needs to occur by 10% or more reducing outlandish compensation and perks paid to executive level. Be a Fair & JUST ROLE MODEL Corporation. Utilize web site for building confidence, streamlining correspondence costs, include 10% budget reduction. Re evaluate budget - cut 10% in every department. Then utilize 10% savings for concrete poles. Lastly, I have concerns for solar farms as they eliminate valuable land for agricultural crops and wind turbines (killing machines) are hazards for birds.
