Subject: Formal Objection to Approved FPL Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To the Florida Public Service Commission,

I am writing to formally express my strong objection to the recently approved Florida Power & Light rate increase. This decision places an unacceptable financial burden on Florida residents at a time when many are already struggling to meet rising costs across every essential area of life.

Homeowners and families throughout the state are facing the highest insurance premiums in Florida's history. Groceries, housing, and basic living expenses have all sharply increased due to inflation. Many Floridians are barely staying afloat — and this significant utility rate hike makes matters drastically worse.

As the regulatory authority responsible for protecting consumers and ensuring fair, reasonable utility practices, I urge the Commission to reconsider, delay, or mitigate this rate increase. Approving such a substantial hike during a period of widespread financial strain is deeply concerning and, frankly, feels detached from the reality residents are facing daily.

I respectfully request that the PSC provide transparency regarding the justification for this decision, including how consumer impact was weighed against FPL's financial interests. Floridians deserve oversight that prioritizes their wellbeing above corporate profit.

I appreciate your attention to this urgent matter and ask that you take steps to relieve residents of this unnecessary burden.

Sincerely,

Sarah

COMPLAINT INFORMATION

Complaint: Other Complaints against Florida Power & Light Company

Details:

Floridians have had enough. You approved a massive increase in utility rates. You are NOT an elected body and believe you answer to noone. You are incorrect in that matter. Desantis appointed you. When his term is up, Floridians will demand that you are held accountable and dismissed.
