CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Per Sunshine Water Services proposal for increasing our sewer rates, I am definitely opposed. Our water rates were just increased this year and an additional increase will be even more burdensome to those of us on fixed incomes. As far as their reasoning for the increase, I call BS. If the current system is overtaxed, it is because of the out of control building of multiple-family housing units and expanded single family subdivisions, not to mention commercial development. If more facilities are needed, pay for them with CCD fees and building permits. Residents do not need to supplement the profits of construction companies with increases in our utility bills. Sunshine Water Services customers already pay more for services than those on Pasco County service. They have proven over the years that their greed far exceeds their concern for their customers.

Thank you for your attention to this matter.
