Comment: Water is obviously essential to all of us and large sudden increases affect all residents but are especially hard for low- income households and seniors on fixed incomes. The increase could cause some to have to choose between paying for water or the other essentials they require. We had just started paying the usual yearly increases when we were made aware of this possible unexpected increase and it is unclear to most of us what has caused the need for it. Single residents in Water Oak shouldn't be expected to pay rates as high as a family of four are generally estimated to pay. I have been a resident in this community for over 27 years and I sincerely hope this increase -if approved- is at least lowered to a reasonable amount. Thank you
