CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

This email is in reference to an Application for a Staff – Assisted rate case in Lake County by Sun communities finance LLC doing business as Water Oak utility. The date it was issued was January 7, 2026.

It has come to my understanding that Water Oak/Sun communities is requesting a water increase of 400%. I find this to be excessive and very surprising at such short notice. I ask the commission to please review very carefully all discrepancies and numbers as we as a community have found many. They should be reported at the hearing by some of our residents. This type of an increase is an extreme hardship on all of those that are on fixed incomes that have been living in this community. We asked to see the numbers as to why we would need so much more of an increase. Are the community areas, restaurant, and other areas included in this new water bill? We were told if we used 6,000 gallons in a month, our original bill is \$12.28 and now will be \$78.86. 8,000 gallons currently is \$15.14 and will increase to \$111.42. This is an astronomical increase.

I asked the commission to please review very carefully before allowing these increases to take affect.

Respectfully,

Susan Bish,
