Regarding Sun Homes Utilities request for a rate hike. They need to do more testing 42% tested and 32% not tested and 17% not paying at all, Why! The last test was done 2024. The 17% is said to be other entity and who is that? The licenses they have for water usage are inaccurate. Sun Homes cannot back up information regarding usage. Where are the numbers. PFC has to justify recommendation and they aren't doing that. More investigation should be done on the amounts of water used, and by who and the rates charged to residents are inconsistant.

We are a community of over 55 many live on social security. The rates they are preposing would definately be a hardship for many but especially when they are not being honest in their reporting. Please deny this proposal.
