I am a resident of Water Oak Country Club in Lady Lake. I wish to address the proposed water rate hike. Like all my neighbors I am on a fixed income which had an increase of less than 3% this year so needless to say a rate hike of this degree would greatly affect my finances.

My other issue with this hike request is the information I have discovered regarding the accounting of our water utility. They have over 30% water usage unaccounted for. There are also 17 General service customers who are not paying. Shortage in their budget sounds like accounting errors on their part. We as customers should not be penalized for their shabby, or criminal, accounting practices.

I would like to see the Utility Commission further investigate these uncommon accounting practices before granting ANY rate hike and even then certainly not a hike of this magnitude.

Thank you for you time,
Laura Winter
