(Expires 9/30/91)

FERC Form No. 1: ANNUAL REPORT OF MAJOR ELECTRIC UTILITIES, LICENSEES AND OTHERS

"This report is mandatory under the Federal Power Act, Sections 3, 4(a), 304 and 309, and 18 CFR141.1. Failure to report may result in criminal fines, civil penalties and other sanctions as provided by law. The Federal Energy Regulatory Commission does not consider this report to be of a confidential nature.

The public reporting burden for this information collection is estimated to average 1,215 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this information collection including suggestions for reducing the burden to the Energy Information Administration, Office of Statistical Standards, EI-73, Mail Station: 2F-081, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

Exact Legal Name of Respondent (Company)

Tampa Electric Company

Year of Report

Dec. 31, 19 90

To: Joseph D. Jenkins, Director
Division of Electric and Gas
Florida Public Service Commission
101 East Gaines Street
Tallahassee, Florida 32399-0868

We represent to the best of our knowledge and belief that our annual report for the year ended 1990, as filed pursuant to Commission rule, is in substantial compliance with the following, except as noted in the report or as separately explained herein:

1. Uniform system of accounts prescribed by the Commission.
2. Applicable rules and orders of the Commission.
3. Commission approved guidelines for inter/intra company allocations, if any.
4. Any communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
5. Reporting requirements for related party transactions and related accounts receivable or payable, including sales, purchases, loans, transfers, leasing arrangements and guarantees.

We are aware that Section 837.06, Florida Statutes provides:

Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his official duty shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Report of Independent Accountants

To the Board of Directors
Tampa Electric Company:

We have audited the balance sheets of Tampa Electric Company as of December 31, 1990 and 1989, and the related statements of income for the years then ended, and the statement of retained earnings and cash flows for the year ended December 31, 1990, included on pages 110 through 122F of the accompanying Federal Energy Regulatory Commission Form No. 1. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note A, these financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Tampa Electric Company as of December 31, 1990 and 1989, the results of its operations and its cash flows for the year ended December 31, 1990, and net income for the year ended December 31, 1989, in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

This report is intended solely for the information and use of the board of directors and management of Tampa Electric Company and the Federal Energy Regulatory Commission.

Coopers & Lybrand

Tampa, Florida
January 29, 1991

**INSTRUCTIONS FOR FILING THE
FERC FORM NO. 1**

GENERAL INFORMATION

I. Purpose

This form is a regulatory support requirement (18 CFR 141.1). It is designed to collect financial and operational information from major electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. This report is also secondarily considered to be a non-confidential public use form supporting a statistical publication (Financial Statistics of Selected Electric Utilities), published by the Energy Information Administration.

II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject To the Provisions of The Federal Power Act (18 CFR 101) must submit this form.

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- (1) One million megawatt hours of total annual sales,
- (2) 100 megawatt hours of annual sales for resale,
- (3) 500 megawatt hours of annual gross interchange out,
- (4) 500 megawatt hours of wheeling for others (deliveries plus losses).

III. What and Where to Submit

- (a) Submit an original and six (6) copies of this form to:

Office of the Secretary
Federal Energy Regulatory Commission
825 North Capitol Street, N.E.
Room 3110
Washington, D.C. 20426

Retain one copy of this report for your files.

- (b) Submit immediately upon publication, four (4) copies of the latest annual report to stockholders and any *annual* financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. (Do not include monthly and quarterly reports. Indicate by checking the appropriate box on Page 4, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared.) Mail these reports to:

Chief Accountant
Federal Energy Regulatory Commission
825 N. Capitol St., N.E.
Room 946
Washington, D.C. 20426

- (c) For the CPA certification, submit with the original submission, or within 30 days after the filing date for this form, a letter or report:

- (i) Attesting to the conformity, in all material aspects, of the below listed (schedules and) pages with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the chief accountant's published accounting releases), and
- (ii) Signed by independent certified public accountants or an independent licensed public accountant, certified or licensed by a regulatory authority of a State or other political subdivision of the U.S. (See 18 CFR 41.10-41.12 for specific qualifications.)

<u>Schedules</u>	<u>Reference Pages</u>
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

When accompanying this form, insert the letter or report immediately following the cover sheet. When submitting after the filing date for this form, send the letter or report to the Chief Accountant at the address indicated at III (b).

GENERAL INFORMATION (Continued)

III. What and Where to Submit (Continued) (c) Continued

Use the following form for the letter or report unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

In connection with our regular examination of the financial statement of _____ we for the year ended on which we have reported separately under date of _____ have also reviewed schedules _____ of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

State in the letter or report, which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

- (d) Federal, State and Local Governments and other authorized users may obtain additional blank copies to meet their requirements free of charge from:

U.S. Department of Energy
National Energy Information Center
Energy Information Administration
Washington, D.C. 20585
(202) 586-8800

IV. When to Submit:

Submit this report form on or before April 30th of the year following the year covered by this report.

GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 101) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income income accounts the current years amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, either
 - (a) Enter the words "Not Applicable" on the particular page(s), or
 - (b) Omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2, 3, and 4.
- V. Complete this report by means which result in a permanent record. Complete the original copy in permanent black ink or typewriter print, if practical. The copies, however, may be carbon copies or other similar means of reproduction provided the impressions are clear and readable.

GENERAL INSTRUCTIONS (Continued)

- VI. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" at the top of each page is applicable only to resubmissions (see VIII. below).
- VII. Indicate negative amounts (such as decreases) by enclosing the figures in parentheses. ().
- VIII. When making revisions, resubmit only those pages that have been changed from the original submission. Submit the same number of copies as required for filing the form. Include with the resubmission the Identification and Attestation page, page 1. Mail dated resubmissions to:
- Chief Accountant
Federal Energy Regulatory Commission
825 North Capitol Street, N.E.
Room 946
Washington, D.C. 20426
- IX. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement (8½ by 11 inch size) to the page being supplemented. Provide the appropriate identification information, including the title(s) of the page and the page number supplemented.
- X. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- XI. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.
- XII. Respondents may submit computer printed schedules (reduced to 8½ by 11) instead of the preprinted schedules if they are in substantially the same format.

DEFINITIONS

- I. Commission Authorization (Comm. Auth.)—The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent—The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

EXCERPTS FROM THE LAW

Federal Power Act, 16 U.S.C. 791a-825r)

"Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to wit:

... (3) 'corporation' means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities' as hereinafter defined;

(4) 'person' means an individual or a corporation;

(5) 'licensee' means any person, State, or municipality licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;

(7) 'municipality' means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the laws thereof to carry on the business of developing, transmitting, utilizing, or distributing power;"

(11) 'project' means a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or forebay reservoirs directly connected therewith, the primary line or lines transmitting power therefrom to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, lands, or interest in lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;

EXCERPTS FROM THE LAW (Continued)

"Sec. 4. The Commission is hereby authorized and empowered—

(a) To make investigations and to collect and record data concerning the utilization of the water resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development costs, and relation to markets of power sites, . . . to the extent the Commission may deem necessary or useful for the purposes of this Act."

"Sec. 304. (a) Every licensee and every public utility shall file with the Commission such annual and other periodic or special reports as the Commission may by rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the proper administration of this Act. The Commission may prescribe the manner and form in which such reports shall be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies."

"Sec. 309. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, amend, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the form or forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be filed"

GENERAL PENALTIES

"Sec. 315. (a) Any licensee or public utility which willfully fails, within the time prescribed by the Commission, to comply with any order of the Commission, to file any report required under this Act or any rule or regulation of the Commission thereunder, to submit any information or document required by the Commission in the course of an investigation conducted under this Act, . . . shall forfeit to the United States an amount not exceeding \$1,000 to be fixed by the Commission after notice and opportunity for hearing. . . ."

NAME OF RESPONDENT:
Tampa Electric Company

This Report Is An Original

YEAR OF REPORT:
Dec. 31, 1990

GENERAL INFORMATION

1. Provide name and title of officer having custody of the general corporate books of account and address of office where the general corporate books are kept, and address of office where any other corporate books of account are kept, if different from that where the general corporate books are kept.

L. L. Lefler, Vice President - Controller
702 North Franklin Street
Tampa, Florida 33602

2. Provide the name of the State under the laws of which respondent is incorporated, and date of incorporation. If incorporated under a special law, give reference to such law. If not incorporated, state that fact and give the type of organization and the date organized.

State of Florida, December 1, 1899 - Reincorporated April 18, 1949

3. If at any time during the year the property of respondent was held by a receiver or trustee, give (a) name of receiver or trustee, (b) date such receiver or trustee took possession, (c) the authority by which the receivership or trusteeship was created, and (d) date when possession by receiver or trustee ceased.

N/A

4. State the classes of utility and other services furnished by respondent during the year in each State in which the respondent operated.

The company is a public utility operating wholly within the State of Florida and is engaged in the generation, purchase, transmission, distribution and sale of electric energy.

5. Have you engaged as the principal accountant to audit your financial statements an accountant who is not the principal accountant for your previous year's certified financial statements?

(1) ☐ YES ...Enter the date when such independent accountant was initially engaged: _____

(2) ☒ NO

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in

which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i. e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can

effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Footnote Ref. (d)
TERMCO, Inc.	Broker for Tampa Electric Company's purchases and sales of real property.	100%	
NOTE: The information below is provided to comply with reporting requirements of the FERC FORM No. 1. Tampa Electric Company does not exercise control over its parent, TECO Energy, Inc., nor its affiliated companies listed below.			
	TECO Energy, Inc. TECO Diversified, Inc. TECO Transport & Trade Corporation Electro-Coal Transfer Corporation G C Service Company, Inc. YEAR OF REPORT:
Dec. 31, 1990

OFFICERS

1. Report below the name, title and salary for each executive officer whose salary is \$50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policymaking functions.

2. If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous incumbent, and the date the change in incumbency was made.

3. Utilities which are required to file the same data with the Securities and Exchange Commission, may substitute a copy of item 4 of Regulation S-K (identified as this page). The substituted page(s) should be the same size as this page.

Line No.	Title (a)	Name of Officer (b)	Salary for Year (c)
1	President and Chief Operating Officer	G.F. Anderson *	
2	Vice President - Services	C.S. Campbell	
3	Vice President - Regulatory Affairs	W.N. Cantrell (1)	
4	Vice President - Information Services	G.A. Ehlers *

YEAR OF REPORT:
Dec. 31, 1990

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were then in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.), duration of trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not compiled within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.

2. If any security other than stock carries voting rights, explain in a supplemental statement the circumstances whereby such security became vested with voting rights and

give other important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent; if contingent, describe the contingency.

3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.

4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants, or rights were issued on a prorata basis.

1. Give date of the latest closing of the stock book prior to end of year, and state the purpose of such closing:

Books did not close during 1990.

2. State the total number of votes cast at the latest general meeting prior to the end of year for election of directors of the respondent and number of such votes cast by proxy.

Total: 10
By proxy: 0

3. Give the date and place of such meeting:

April 17, 1990
702 N. Franklin St.
Tampa, Florida

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none," "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

1. Changes in and important additions to franchise rights: Describe the actual consideration given therefor and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
3. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC or State Commission authorization, as appropriate, and the amount of obligation or guarantee.
7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
8. State the estimated annual effect and nature of any important wage scale changes during the year.
9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
11. (Reserved.)
12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instructions 1 to 11 above, such notes may be attached to this page.

Dec. 31, 1990

STATEMENT OF INCOME FOR THE YEAR

1. Report amounts for accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount(s) over lines 01 thru 20 as appropriate. Include these amounts in columns (c) and (d) totals.
2. Report amounts in account 414, Other Utility Operating Income, in the same manner as accounts 412 and 413 above.
3. Report data for lines 7, 9, and 10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1, and 407.2
4. Use page 122 for important notes regarding the statement of income or any account thereof.
5. Give concise explanations concerning unsettled rate pro-

ceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.

6. Give concise explanations concerning significant amounts of any refunds made or received during the year.

YEAR OF REPORT:
Dec. 31, 1990

STATEMENT OF RETAINED EARNINGS FOR THE YEAR

1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
3. State the purpose and amount for each reservation or appropriation of retained earnings.
4. List first Account 439, Adjustments to Retained Earnings reflecting adjustments to the opening balance of

- earnings. Follow by credit, then debit items, in that order.
5. Show dividends for each class and series of capital stock.
6. Show separately the State and Federal income tax effect of items shown in Account 439, Adjustments to Retained Earnings.
7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
8. If any notes appearing in the report to stockholders are applicable to this statement, attach them at page 122.

STATEMENT OF CASH FLOWS

1. If the notes to the cash flow statement in the respondent's annual stockholders report are applicable to this statement, such notes should be attached to page 122. Information about noncash investing and financing activities should be provided on page 122. Provide also on page 122 a reconciliation between "Cash and Cash Equivalents at End of Year" with related amounts on the balance sheet.

2. Under "Other" specify significant amounts and group others.

3. Operating Activities - Other: Include gains and losses pertaining to operating activities only. Gains and losses pertaining to investing and financing activities should be reported in those activities. Show on page 122 the amounts of interest paid (net of amounts capitalized) and income taxes paid.

Line No.	Description (See Instructions for Explanation of Codes) (a)	Amounts (b)
1	Net Cash Flow from Operating Activities:

NOTES TO FINANCIAL STATEMENTS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the

year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

4. Where Accounts 189, Unamortized Loss on Reacquired Debt", and 257, Unamortized Gain on Reacquired Debt, are used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be attached hereto.

Basis of Reporting-The financial statements are presented in accordance with the reporting requirements of the Federal Energy Regulatory Commission. Accordingly, the statements of retained earnings and cash flows for the prior year have been omitted and the current portion of long-term debt has not been classified as such.

See page 122A-122F for additional notes to the financial statements.

NOTES TO FINANCIAL STATEMENTS

A. Summary of Significant Accounting Policies

Basis of Accounting—Tampa Electric maintains its accounts in accordance with recognized policies prescribed or permitted by the Florida Public Service Commission (FPSC) and the Federal Energy Regulatory Commission (FERC). These policies conform with generally accepted accounting principles in all material respects.

Revenues and Fuel Costs—Revenues include amounts resulting from a fuel adjustment clause and a conservation adjustment clause which provide for monthly billing charges to reflect increases or decreases in fuel and conservation costs. These adjustment factors are based on costs projected by the company for a six-month period. Any over-recovery or under-recovery of costs plus an interest factor are refunded or billed to customers during the subsequent six-month period. Over-recoveries of costs are recorded as deferred credits and under-recoveries of costs are recorded as deferred debits.

Certain other costs incurred by the company are allowed to be recovered from customers through the regulatory rate process. These costs are recognized as the associated revenues are billed.

The company accrues base revenues for services rendered but unbilled to provide a closer matching of revenues and expenses.

During 1989 and 1988, the company accrued revenue refunds to reduce the regulatory return on common equity to 13.6% in accordance with orders issued each year by the FPSC.

Depreciation—The company provides for depreciation by the straight-line method at annual rates that amortize the original cost, less net salvage, of depreciable property over its estimated service life. The provision for utility plant in service, expressed as a percentage of the original cost of depreciable property, was 4.2% for 1990, 1989 and 1988.

The original cost of utility plant retired or otherwise disposed of and the cost of removal less salvage are charged to accumulated depreciation.

Deferred Income Taxes—The company provides deferred income taxes only on those timing differences recognized for ratemaking purposes by the FPSC. These primarily pertain to depreciation, a coal contract buyout, construction-related items and deferred fuel costs.

In December 1987, the Financial Accounting Standards Board (FASB) adopted Financial Accounting Standard No. 96 (FAS 96) which changed the requirements for accounting for income taxes, and is scheduled to become effective for fiscal years beginning after Dec. 15, 1991. Although FAS 96 retains the concept of comprehensive interperiod income tax allocation, it adopts the liability method in the measurement of deferred income taxes, rather than the deferred method. Because the company is a regulated enterprise, the adoption of FAS 96 is expected to result in the recording of offsetting asset and liability amounts which are not expected to have a material effect on the balance sheet. The company's implementation date for FAS 96 has not been determined.

Allowance for Funds Used During Construction (AFUDC)—AFUDC is a non-cash credit to income with a corresponding charge to utility plant which represents the cost of borrowed funds and a reasonable return on other funds used for construction. The rate used to calculate AFUDC is revised periodically to reflect significant changes in the company's cost of capital. The rate was 8.53% for 1990, 1989 and 1988. The base on which AFUDC is calculated is reduced in accordance with FPSC policy and excludes construction work in progress which has been included in rate base.

Investment Tax Credits—Investment tax credits have been recorded as deferred credits and are being amortized to income tax expense over the service lives of the related property.

Investments—Cash equivalents are all highly liquid debt instruments purchased with a maturity of three months or less.

Short-term investments are stated at the lower of aggregate cost or market. Unrealized losses are accounted for in the current period.

B. Gannon Project Trust

On April 7, 1983, the company sold at book value certain utility plant assets used in the conversion of its Gannon Station Units 1-4 from oil to coal (the project) to the Gannon Project Trust for \$46.2 million. The trust was established to own, finance and complete the project.

The trust arranged a credit facility for up to \$130 million to enable it to finance the project; the company did not guarantee the borrowings by the trust under the credit facility. As of Dec. 31, 1990, the credit facility had been reduced to \$69 million supporting \$68.1 million of debt outstanding. The credit facility is supported by an oil backout cost recovery tariff approved by the FPSC. The tariff provides for an accelerated recovery of the capital investment in the project based on the savings derived from the cost differential between coal and oil. The company has assigned its right to the revenues from the tariff to the trust; thus, the tariff revenues are not included as company revenues.

The company acts as an independent contractor to the trust for the operation of the project.

If an event of default should occur under the credit facility, including the termination of the tariff, the trust has the right to exchange the project assets for an undivided interest in the units and/or could require the company to lease the project assets or the trust's undivided interest in the units under terms which qualify as an operating lease.

Contributed capital		17,062	—
Balance Dec. 31, 1990	<u>10</u>	<u>\$547,316</u>	<u>\$1,692</u>

D. Preferred Stock—Redemption Required

In accordance with the sinking fund provision of the Series G Preferred stock, the last 60,000 shares were redeemed at par value (plus accrued dividends) on Feb. 15, 1990.

E. Retained Earnings

The company's Restated Articles of Incorporation and certain of the company's first mortgage bond issues contain provisions that limit the dividend payment on the company's common stock and the purchase or retirement of the company's capital stock. At Dec. 31, 1990, substantially all of the company's retained earnings were available for dividends on its common stock.

F. Retirement Plan

The company is a participant in the comprehensive retirement plan of TECO Energy, which has a non-contributory defined benefit retirement plan covering substantially all employees. Benefits are based on employees' years of service and average final salary. TECO Energy's policy is to fund the plan within the guidelines set by ERISA for the minimum annual contribution and the maximum allowable as a tax deduction by the IRS. The company's share of pension expense for 1990, 1989 and 1988 was \$2.1 million, \$1.7 million and \$1.6 million, respectively. About 60% of plan assets were invested in common stocks and 40% in fixed income investments at Dec. 31, 1990.

F. Retirement Plan (continued)

Components of net pension expense, reconciliation of the funded status and the accrued pension prepayment are presented below for TECO Energy consolidated.

Components of net pension expense: (thousands of dollars)	1990	1989	1988
Service cost (benefits earned during the period)	\$ 6,632	\$ 6,374	\$ 6,561
Interest cost on projected benefit obligations	11,791	10,527	8,683
Less: Return on plan assets			
Actual	(1,090)	33,336	15,908
Less net amortization of unrecognized asset and deferred return	(16,345)	19,241	3,223
Net return on assets	15,255	14,095	12,685
Net pension expense	\$ 3,168	\$ 2,806	\$ 2,559

The reconciliation of the funded status of the retirement plan and the accrued pension prepayment recorded by TECO Energy is as follows: (thousands of dollars)

	Dec. 31, 1990	Dec. 31, 1989
Fair value of plan assets	\$168,955	\$176,596
Projected benefit obligation	(148,062)	(137,733)
Excess of plan assets over projected benefit obligation	20,893	38,863
Less unrecognized net gain from past experience different from that assumed	19,396	32,986
Less unrecognized prior service cost	(10,607)	(7,443)
Less unrecognized net asset (being amortized over 19.5 years)	14,464	15,462
Accrued pension liability(1)	\$ (2,360)	\$ (2,142)
Accumulated benefit obligation (including vested benefits of \$102,486 for 1990 and \$93,451 for 1989)	\$110,468	\$100,529
Assumptions used in determining actuarial valuations:		
Discount rate to determine projected benefit obligation	8.75%	8.5%
Rates of increase in compensation levels	4.4-7.3%	4.4-7.3%
Plan asset growth rate through time	9%	9%

(1) Includes the company's accrued pension liability recorded at Dec. 31, 1990 and 1989 of \$526 and \$610, respectively.

In addition to providing pension benefits, the company provides certain health care and life insurance benefits for retired employees. Substantially all of the company's employees become eligible for those benefits when they reach normal retirement age. The following table breaks down those costs between eligible retirees and active employees of the company.

Participants	1990	1989	1988
Active employees	3,197	3,067	3,204
Eligible retirees	752	637	546
Cost of benefits provided (thousands of dollars)			
Active employees	\$ 8,401	\$7,799	\$7,451
Eligible retirees	1,856	1,639	1,270
Total cost of benefits provided	\$10,257	\$9,438	\$8,721

In December 1990, the FASB adopted Financial Accounting Standard No. 106 (FAS 106) which changed the requirements for accounting for all retiree welfare benefits other than pensions, effective for fiscal years beginning after Dec. 15, 1992. FAS 106 requires full cost accrual accounting which recognizes the cost of the benefits over the service life of the employees. Because the company is a regulated enterprise, the financial reporting requirements imposed by FAS 71 "Accounting for the Effects of Certain Types of Regulation," which requires that the accounting reflect the economics of rate regulation, should mitigate the impact of FAS 106 on the company.

G. Income Tax Expense (thousands of dollars)

The company is included in the filing of a consolidated Federal income tax return with its parent and affiliates. The company's income tax expense is based upon a separate return computation. Income tax expense consists of the following components:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
1990			
Currently payable	\$51,586	\$ 9,324	\$60,910
Deferred	1,444	399	1,843
Investment tax credit	63	—	63
Amortization of investment tax credit	(5,023)	—	(5,023)
Total income tax expense	<u>\$48,070</u>	<u>\$ 9,723</u>	<u>57,793</u>
Included in other income, net			289
Included in operating expenses			<u>\$58,082</u>
1989			
Currently payable	\$59,098	\$11,278	\$70,376
Deferred	(4,584)	(548)	(5,132)
Investment tax credit	27	—	27
Amortization of investment tax credit	(5,041)	—	(5,041)
Total income tax expense	<u>\$49,500</u>	<u>\$10,730</u>	<u>60,230</u>
Included in other income, net			61
Included in operating expenses			<u>\$60,291</u>
1988			
Currently payable	\$53,284	\$ 9,667	\$62,951
Deferred	(2,951)	(82)	(3,033)
Investment tax credit	818	—	818
Amortization of investment tax credit	(5,179)	—	(5,179)
Total income tax expense	<u>\$45,972</u>	<u>\$ 9,585</u>	<u>55,557</u>
Included in other income, net			115
Included in operating expenses			<u>\$55,672</u>

The total income tax provisions differ from amounts computed by applying the federal statutory tax rate to income before income taxes for the following reasons:

	<u>1990</u>	<u>1989</u>	<u>1988</u>
Net income	\$108,177	\$109,676	\$107,603
Total income tax provision	<u>57,793</u>	<u>60,230</u>	<u>55,557</u>
Income before income taxes	<u>\$165,970</u>	<u>\$169,906</u>	<u>\$163,160</u>
Income taxes on above at federal statutory rate (34%)	\$ 56,430	\$ 57,768	\$ 55,474
Increase (Decrease) due to			
State income tax net of federal income tax	6,333	6,460	6,326
Amortization of investment tax credit	(5,023)	(5,041)	(5,178)
Other	53	1,043	(1,065)
Total income tax provision	<u>\$ 57,793</u>	<u>\$ 60,230</u>	<u>\$ 55,557</u>
Provision for income taxes as a percent of income before income taxes	<u>34.8%</u>	<u>35.4%</u>	<u>34.1%</u>

G. Income Tax Expense (thousands of dollars) continued

Deferred tax expense results from timing differences in the recognition of certain expenses or revenues for tax and financial reporting purposes. The sources of these differences and the tax effect of each were as follows:

	1990	1989	1988
Tax depreciation in excess of book depreciation	\$8,742	\$ 9,594	\$14,243
Deferred fuel	677	(1,314)	(6,731)
Coal contract buyout	(5,359)	(5,179)	(4,078)
Construction-related items currently taxable	(1,111)	(1,638)	(1,791)
Other	(1,106)	(6,595)	(4,676)
	<u>\$1,843</u>	<u>\$(5,132)</u>	<u>\$ (3,033)</u>

H. Short-Term Debt

Notes payable at Dec. 31, 1990, consisted of commercial paper of \$80.3 million. In connection with its short-term borrowing program, the company maintains compensating balances to assure continuing lines of credit. Unused lines of credit at Dec. 31, 1990 were \$100 million. Certain lines of credit require commitment fees of .15% on the unused balances.

I. Related Party Transactions (thousands of dollars)

Net transactions with affiliates are as follows:

	1990	1989	1988
Fuel related	\$190,819	\$195,916	\$178,147
Administrative and general-net	\$ 6,354	\$ 21,919	\$ 23,316
Other-net	\$ (235)	\$ 11,318	\$ 6,060

Amounts due from or to affiliates of the company at year-end are as follows:

	1990	1989
Accounts receivable	\$ 929	\$ 1,205
Accounts payable	\$ 21,563	\$ 33,324

Accounts receivable and accounts payable were incurred in the ordinary course of business and do not bear interest.

J. Commitments and Contingencies

The company has made certain commitments in connection with its continuing capital improvements program. Total capital expenditures during 1991 are estimated to be \$185 million and \$755 million for the years 1992 through 1995, excluding amounts required to comply with the 1990 amendments to the Clean Air Act.

K. Subsequent Event

On Feb. 28, 1991, the company completed the purchase of two power plants from the Sebring Utilities Commission having a total capacity of 54 megawatts, for approximately \$37 million. The company has offered to purchase the commission's 3.6-megawatt share of Crystal River Unit 3 operated by Florida Power Corporation. In addition, the company will provide Sebring's full requirements for wholesale electric energy for 20 years. The Federal Energy Regulatory Commission has issued an order accepting the tariff related to the wholesale power supply agreement which became effective on Feb. 28, 1991.

ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, and 106)

1. Report below the original cost of electric plant in service according to the prescribed accounts.
2. In addition to Account 101, Electric Plant in Service (Classified), this page and the next include Account 102, Electric Plant Purchased or Sold; Account 103, Experimental Electric Plant Unclassified; and Account 106, Completed Construction Not Classified - Electric.
3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
5. Classify Account 106 according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior

year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements the end of the year, include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in (d) reversals of tentative distributions of prior year unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d), including the reversal of the prior year's tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, and 106) (Continued)

6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits or credits distributed in column (f) to primary account classifications.

7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement

showing subaccount classification of such plant conforming to the requirements of these pages.

8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

CONSTRUCTION OVERHEADS-ELECTRIC

1. List in column (a) the kinds of overheads according to titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
2. On page 218 furnish information concerning construction overheads.
3. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should

explain on page 212 the accounting procedures employed and the amounts of engineering, supervision and administrative costs, etc., which are directly charged to construction.
4. Enter on this page engineering, supervision, administrative and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

Line No.	Description of Overhead (a)	Total Amount Charged for the Year (b)
1	Allowance for Funds Used During Construction	748,091
2	Pension Cost	662,820
3	Taxes	1,838,761

YEAR OF REPORT:
Dec. 31, 1990

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Electric Plant instructions 3 (17) of the U.S. of A. 3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

AFUDC is charged directly to all eligible construction work in progress by the following method:

The current month AFUDC basis for each eligible project is multiplied by 1/12 of the yearly AFUDC rate.
The annual percentage rate used during 1990 was 8.53%. Compounded AFUDC is applied to each eligible project.
The compounding rate is applied monthly and is equivalent to annual compounding.

Pension cost and payroll taxes are charged to construction based on the capitalization ratio of payroll cost. The amount of these overheads is spread to construction work orders on the basis of the payroll cost that is capitalized. Pension cost in the amount of \$662,820 and payroll taxes in the amount of \$1,838,761 were applied to construction work orders during 1990.

Administrative and general expenses included general salaries and wages, general office supplies and expenses, workers' compensation insurance cost, general liability insurance cost, claims and damages section wages and salaries, and the cost of providing safety accident prevention and similar educational activities. The amount of A & G to be capitalized is determined by a study. The costs capitalized are allocated to construction projects on the basis of payroll charged directly to each project. A & G costs in the amount of \$4,671,137 were applied to construction work orders during 1990.

COMPUTATION OF ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES

For line (5), column (d) below, enter the rate granted in the last rate proceeding. If such is not available, use the average rate earned during the preceding three years.

1. Components of Formula (Derived from actual book balances and actual cost rates):

Line No.	Title (a)	Amount (b)	Capitalization Ratio (Percent) (c)	Cost Rate Percentage (d)
(1)	Average Short-Term Debt	S 45,731,165		
(2)	Short-Term Interest			s 8.31%
(3)	Long-Term Debt	D 505,089,449	39.73%	d 7.63%
(4)	Preferred Stock	P 60,956,000	4.80%	p 6.81%
(5)	Common Equity	C 705,103,049	55.47%	c 14.50%
(6)	Total Capitalization		100.00%	
(7)	Average Construction Work in Progress Balance	W 16,395,036		

2. Gross Rate for Borrowed Funds

$$\frac{S}{W} + \frac{D}{D+P+C} \times \frac{S}{W} = 8.31\%$$

3. Rate for Other Funds

$$\frac{S}{W} [1 - \frac{P}{D+P+C} + \frac{C}{D+P+C} \times \frac{C}{D+P+C}] = 0.00\%$$

4. Weighted Average Rate Actually Used for the Year:

a. Rate for Borrowed Funds - 8.53%
b. Rate for Other Funds - 0.00%

ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year.
2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that reported for electric plant in service, pages 204-207, column (d), excluding retirements of non-depreciable property.
3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If

the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.

4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

INVESTMENT IN SUBSIDIARY COMPANIES (Account 123.1)

1. Report below investments in Accounts 123.1 Investments in Subsidiary Companies.

2. Provide a subheading for each company and list thereunder the information called for below. Sub-total by company and give a total in columns (e), (f), (g) and (h).

(a) Investment in Securities-List and describe each security owned. For bonds give also principal amount, date of issue, maturity, and interest rate.

(b) Investment Advances-Report separately the amounts of loans or investment

advances which are subject to repayment, but which are not subject to current settlement. With respect to each advance show whether the advance is a note or open account. List each note giving date of issuance, maturity date, and specifying whether note is a renewal.

3. Report separately the equity in undistributed subsidiary earnings since acquisition. The total in column (e) should equal the amount entered for Account 418.1.

INVESTMENT IN SUBSIDIARY COMPANIES (Account 123.1) (Continued)

4. For any securities, notes, or accounts that were pledged, designate such securities, notes, or accounts in a footnote, and state the name of pledgee and purpose of the pledge.

5. If Commission approval was required for any advance made or security acquired, designate such fact in a footnote and give name of Commission, date of authorization, and case or docket number.

6. Report column (f) interest and dividend revenues from investments, including such revenues from securities disposed of during the year.

7. In column (h) report for each investment disposed of during the year, the gain or loss represented by the difference between cost of the investment (or the other amount at which carried in the books of account if different from cost) and the selling price thereof, not including interest adjustment includible in column (f).

8. Report on Line 42, column (a) the total cost of Account 123.1.

LONG-TERM DEBT (Accounts 221, 222, 223, and 224) (Continued)

Uniform System of Accounts.

10. Identify separate undisposed amounts applicable to issues which were redeemed in prior years.

11. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt Discount and Expense, or credited to Account 429, Amortization of Premium on Debt - Credit.

12. In a supplemental statement, give explanatory particulars (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.

13. If the respondent has pledged any of its long-term debt securities give particulars (details) in a footnote

including name of pledgee and purpose of the pledge. 14. If the respondent has any long-term debt securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.

15. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (i). Explain in a footnote any difference between the total of column (i) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

16. Give particulars (details) concerning any long-term debt authorized by a regulatory commission but not yet issued.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME
FOR FEDERAL INCOME TAXES

Federal tax return, reconcile reported net income with taxable net income as if separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

3. A substitute page, designed to meet a particular need of a company, may be used as long as the data is consistent and meets the requirements of the above instructions.

Additional information in response to Question 2, Page 261:

The consolidated federal income tax liability is currently being apportioned in accordance with Internal Revenue Service Regulations Section 1.1552-1(a)(2) and Section 1.1502-33(d)(2)(ii). These regulations provide for allocation of the consolidated tax liability on the basis of the percentage of the total tax to the tax which each member would bear if the tax were computed on a separate return basis. The tax liability allocated to each company cannot exceed the tax liability computed as if each had filed a separate return.

Tampa Electric Company participates in the filing of a consolidated federal income tax return. Affiliates included in the consolidated return are:

Names and Members of Consolidated Group

Tampa Electric Company
TECO Properties Corporation
Gatliff Coal Company
Electro-Coal Transfer Corporation
Gulfcoast Transit Company
Mid-South Towing Company
G C Service Company, Inc.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR

1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.
2. Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid or accrued taxes). Enter the amounts in both columns (d) and (e). The balancing of this page is not affected by the inclusion of these taxes.
3. Include in column (d) taxes charged during the year, taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b) amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.
4. List the aggregate of each kind of tax in such manner that the total tax for each State and subdivision can readily be ascertained.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR (Continued)

5. If any tax (exclude Federal and State income taxes) cover more than one year, show the required information separately for each tax year, identifying the year in column (a).

6. Enter all adjustments of the accrued and prepaid tax accounts in column (f) and explain each adjustment in a footnote. Designate debit adjustments by parentheses.

7. Do not include on this page entries with respect to deferred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.

8. Enter accounts to which taxes charged were distributed in columns (i) thru (l). In column (i), report the amounts charged to Accounts 408.1 and 409.1 for Electric Department only.

Group the amounts charged to 408.1, 409.1, 408.2 and 409.2 under other accounts in column (i). For taxes charged to other accounts or utility plant, show the number of the appropriate balance sheet account, plant account or subaccount.

9. For any tax apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.

ELECTRIC OPERATING REVENUES (Account 400)

1. Report below operating revenues for each pre-scribed account, and manufactured gas revenues in total.

2. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The

average number of customers means the average of twelve figures at the close of each month.

3. If previous year (columns (c), (e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

YEAR OF REPORT:
Dec. 31, 1990

SALES OF ELECTRICITY BY RATE SCHEDULES

1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average number of customers, average KWH per customer, and average revenue per KWH, excluding data for Sale for Resale which is reported on pages 310-311.

2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," page 301. If the sales under any rate schedule are classified in more than one revenue account, list the rate schedule and sales data under each applicable revenue account subheading.

3. Where the same customers are served under more than one

rate schedule in the same revenue account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.

4. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).

5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.

6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

NAME OF RESPONDENT:
Tampa Electric Company

This Report Is An Original

YEAR OF REPORT:
Dec. 31, 1990

SALES FOR RESALE (Account 447)

1. Report all sales for resale (i.e. sales to purchasers other than ultimate consumers) transacted on a settlement basis other than power exchanges during the year. Do not report exchanges of electricity (i.e. transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule (pages 326-327).

2. Enter the name of the purchaser in column (a). Do not abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser.

3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:

RQ--for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e. the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers.

LF--for long-term service. "Long-term" means five years or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g. the

supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.

IF--for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but less than five years.

SF--for short-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less.

LU--for long-term service from a designated generating unit. "Long-term" means five years or longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of the designated unit.

IU--for intermediate-term service from a designated generating unit. The same as LU service except that "intermediate-term" means longer than one year but less than five years.

YEAR OF REPORT:
Dec. 31, 1990

SALES FOR RESALE (Account 447) (Continued)

OS--for other service. Use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the length of the contract and service from designated units of less than one year. Describe the nature of the service in a footnote.

AD--for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

4. Group requirements RQ sales together and report them starting at line number one. After listing all RQ sales, enter "Subtotal RQ" in column (a). The remaining sales may then be listed in any order. Enter "Subtotal Non-RQ" in column (a) after this listing. Enter "Total" in column (a) as the last line of the schedule. Report subtotals and total for columns (g) through (k).

5. In column (c), identify the FERC Rate Schedule or Tariff Number. On separate lines, list all FERC rate schedules or tariffs under which services, as identified in column (b), is provided.

6. For requirements RQ sales and any type of service involving demand charges imposed on a monthly (or longer) basis, enter the average monthly billing demand in column (d), the average monthly non-coincident peak (NCP) demand in

column (e), and the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.

7. Report in column (g) the megawatthours shown on bills rendered to the purchaser.

8. Report demand charges in column (h), energy charges in column (i), and the total of any other types of charges, including out-of-period adjustments, in column (j). Explain in a footnote all components of the amount shown in column (j). Report in column (k) the total charge shown on bills rendered to the purchaser.

9. The data in columns (g) through (k) must be subtotalled based on the RQ/Non-RQ grouping (see Instruction 4), and then totalled on the last line of the schedule. The "Subtotal RQ" amount in column (g) must be reported as Requirements Sales for Resale on page 401, line 23. The "Subtotal Non-RQ" amount in column (g) must be reported as Non-Requirements Sales for Resale on page 401, line 24.

10. Footnote entries as required and provided explanations following all required data.

NUMBER OF ELECTRIC DEPARTMENT EMPLOYEES

1. The data on number of employees should be reported for the payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31.
2. If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote.
3. The number of employees assignable to the electric department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the electric department from joint functions.

1. Payroll Period Ended (Date)	December 23, 1990
2. Total Regular Full-Time Employees	3,167
3. Total Part-Time and Temporary Employees	51
4. Total Employees	3,218

NAME OF RESPONDENT:

YEAR OF REPORT:
Dec. 31, 1990

PURCHASED POWER (Account 555)
(Including power exchanges)

1. Report all power purchases made during the year. Also report exchanges of electricity (i.e. transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges.
2. Enter the name of the seller or other party in an exchange transaction in column (a). Do not abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the seller.
3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:

that either buyer or seller can unilaterally get out of the contract.

IF--for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but less than five years.

SF--for short-term firm service. Use this category for all firm services, where the duration of each period of commitment for service is one year or less.

LU--for long-term service from a designated generating unit. "Long-term" means five years or longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of the designated unit.

IU--for intermediate-term service from a designated generating unit. The same as LU service except that "intermediate-term" means longer than one year but less than five years.

EX--for exchanges of electricity. Use this category for transactions involving a balancing of debits and credits for energy, capacity, etc. and any settlement for imbalanced exchanges.

OS--for other service. Use this category only for

RQ--for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e. the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers.

LF--for long-term service. "Long-term" means five years or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g. the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date

YEAR OF REPORT:
Dec. 31, 1990

PURCHASED POWER (Account 555) (Continued)
(Including power exchanges)

those services which cannot be placed in the above-defined categories, such as all nonfirm service regardless of the length of the contract and service from designated units of less than one year. Describe the nature of the service in a footnote.

AD--for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

4. In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column (b), is provided.

5. For requirements RQ purchases and any type of service involving demand charges imposed on a monthly (or longer) basis, enter the monthly average billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e), and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns

(e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.

6. Report in column (g) the megawatthours shown on bills rendered to the respondent. Report in columns (h) and (i) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchanges.

7. Report demand charges in column (j), energy charges in column (k), and the total of any other types of charges, including out-of-period adjustments, in column (l). Explain in a footnote all components of the amount shown in column (l). Report in column (m) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column (m) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (l) includes credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the agreement, provide an explanatory footnote.

8. The data in columns (g) through (m) must be totalled on the last line of the schedule. The total amount in column (g) must be reported as Purchases on page 401, line 10. The total amount in column (h) must be reported as Exchange Received on page 401, line 12. The total amount in column (i) must be reported as Exchange Delivered on page 401, line 13.

9. Footnote entries as required and provide explanations.

YEAR OF REPORT:
Dec. 31, 1990

TRANSMISSION OF ELECTRICITY FOR OTHERS (Account 456)
(Including transactions referred to as "wheeling")

1. Report all transmission of electricity, i.e. wheeling, provided for other electric utilities, cooperatives, municipalities, other public authorities, qualifying facilities, non-traditional utility suppliers and ultimate customers.
2. Use a separate line of data for each distinct type of transmission service involving the entities listed in columns (a), (b), and (c).
3. Report in column (a) the company or public authority that paid for the transmission service. Report in column (b) the company or public authority that the energy was received from and in column (c) the company or public authority that the energy was delivered to. Provide the full name of each company or public authority. Do not abbreviate or truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation the respondent has with the entities listed in columns (a), (b) or (c).
4. In column (d) enter a Statistical Classification code based on

the original contractual terms and conditions of the service as follows:

LF--for long-term firm transmission service. "Long-term" means one year or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.

SF--for short-term firm transmission service. Use this category for all firm services, where the duration of each period of commitment for services is less than one year.

DEPRECIATION AND AMORTIZATION OF ELECTRIC PLANT (Accounts 403, 404, 405)
(Except amortization of acquisition adjustments)

1. Report in Section A for the year the amounts for:
(a) Depreciation Expense (Account 403); (b) Amortization of Limited-Term Electric Plant (Account 404); and (c) Amortization of Other Electric Plant (Account 405).

2. Report in section B the rates used to compute amortization charges for electric plant (Accounts 404 and 405). State the basis used to compute the charges and whether any changes have been made in the basis or rates used from the preceding report year.

3. Report all available information called for in section C every fifth year beginning with report year 1971, reporting annually only changes to columns (c) through (g) from the complete report of the preceding year.

Unless composite depreciation accounting for total depreciable plant is followed, list numerically in column (a) each plant subaccount, account or functional classification, as appropriate, to which a rate is applied. Identify at the bottom of section C the type of plant included in any subaccounts used.

In column (b) report all depreciable plant balances to which rates are applied showing subtotals by functional

classifications and showing a composite total. Indicate at the bottom of section C the manner in which column (b) balances are obtained. If average balances, state the method of averaging used.

For columns (c), (d), and (e) report available information for each plant subaccount, account or functional classification listed in column (a). If plant mortality studies are prepared to assist in estimating averaged service lives, show in column (f) the type mortality curve selected as most appropriate for the account and in column (g), if available, the weighted average remaining life of surviving plant.

If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis.

4. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of section C the amounts and nature of the provisions and the plant items to which related.

B. Basis for Amortization Charges

The amortization charges to Account 404 are calculated monthly using the monthly mean cost basis times 1/12 of the annual (20%) rate. The basis used to compute these charges consists solely of computer software.

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given, for the respective income deduction and interest charges accounts. Provide a subheading for each account and a total for the account. Additional columns may be added if deemed appropriate with respect to any account.

(a) Miscellaneous Amortization (Account 425)-Describe the nature of items included in this account, the contra account charged, the total of amortization charges for the year, and the period of amortization.

(b) Miscellaneous Income Deductions-Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2, Life Insurance; 426.3, Penalties; 426.4, Expenditures for Certain Civic, Political and Related Activities; and 426.5, Other

Deductions of the Uniform System of Accounts. Amounts of less than 5% of each account total for the year (or \$1,000, whichever is greater) may be grouped by classes within the above accounts.

(c) Interest on Debt to Associated Companies (Account 430)-For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.

(d) Other Interest Expense (Account 431)-Report particulars (details) including the amount and interest rate for other interest charges incurred during the year.

YEAR OF REPORT:
Dec. 31, 1990

RESEARCH, DEVELOPMENT, AND DEMONSTRATION ACTIVITIES

1. Describe and show below costs incurred and accounts charged during the year for technological research, development, and demonstration (R, D & D) project initiated, continued, or concluded during the year. Report also support given to others during the year for jointly-sponsored projects. (Identify recipient regardless of affiliation.) For any R, D & D work carried on by the respondent in which there is a sharing of costs with others, show separately the respondent's cost for the year and cost chargeable to others. (See definition of research, development, and demonstration in Uniform System of Accounts.)

2. Indicate in column (a) the applicable classification, as shown below. Classifications:

A. Electric R, D & D Performed Internally

(1) Generation

a. Hydroelectric

i. Recreation, fish, and wildlife

ii. Other hydroelectric

b. Fossil-fuel steam

c. Internal combustion or gas turbine

d. Nuclear

e. Unconventional generation

f. Siting and heat generation

(2) System Planning, Engineering and Operation

(3) Transmission

a. Overhead

b. Underground

(4) Distribution

(5) Environment (other than equipment)

(6) Other (Classify and include items in excess of \$5,000.)

(7) Total Cost Incurred

B. Electric R, D & D Performed Externally

(1) Research Support to the Electrical Research Council or the Electric Power Research Institute

Line No.	Classification (a)	Description (b)
1	B-(1)	Electric Power Research 18811
2	B-(4)	FCG-Florida Acid Disposition Study 18812
3	B-(4)	FCG-Acid Rain Seepage Lake Study 18814
4	B-(4)	DOE-GN Cyclone Reburn NOx Control 18816
5	B-(1)	EPRI-Photo-Voltaic Powered M.O.S. 18817

RESEARCH, DEVELOPMENT AND DEMONSTRATION ACTIVITIES (Continued)

(2) Research Support to Edison Electric Institute
(3) Research support to Nuclear Power Groups
(4) Research Support to Others (Classify)
(5) Total Cost Incurred
3. Include in column (c) all R, D & D items performed internally and in column (d) those items performed outside the company costing \$5,000 or more, briefly describing the specific area of R, D & D (such as safety, corrosion control, pollution, automation, measurement, insulation, type of appliance, etc.) Group items under \$5,000 by classifications and indicate the number of items grouped. Under Other, A.(6) and B.(4) classify items by type of R, D & D activity.
4. Show in column (e) the account number charged with expenses

during the year or the account to which amounts were Capitalized during the year, listing Account 107, Construction Work in Progress, first. Show in column (f) the amounts related to the account charged in column (e).
5. Show in column (g) the total unamortized accumulation of costs of projects. This total must equal the balance in Account 188, Research, Development and Demonstration Expenditures, Outstanding at the end of the year.
6. If costs have not been segregated for R, D & D activities or projects, submit estimates for columns (c), (d) and (f) with such amounts identified by "Est".
7. Report separately research and related testing facilities operated by the respondent.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

Line No.	Classification (a)	Direct Payroll Distribution (b)	Allocation of Payroll Charged to Clearing Accounts (c)	Total (d)
1	Electric

14	Net Exchanges (Line 12 minus 13)	382,720			
15	Transmission for Other (Wheeling)				
16	Received	11,831			
17	Delivered	11,905			
18	Net Transmission for Other (Line 16 minus line 17)	(74)			
19	Transmission By Others Losses				
20	TOTAL (Enter Total of lines 9, 10, 14, 18 and 19)	16,160,119			

MONTHLY PEAKS AND OUTPUT

1. If the respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.

2. Report in column (b) the system's energy output for each month such that the total on line 41 matches the total on line 20.

3. Report in column (c) a monthly breakdown of the Non-Requirements Sales For Resale reported on Line 24. Include in the monthly amounts any energy losses associated with

the sales so that the total on line 41 exceeds the amount on line 24 by the amount of losses incurred (or estimated) in making the Non-Requirements Sales For Resale.

4. Report in column (d) the system's monthly maximum megawatt load (60-minute integration) associated with the energy for the system defined as the difference between columns (b) and (c).

5. Report in columns (e) and (f) the specified information for each monthly peak load reported in column (d).

NAME OF SYSTEM:

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants)

1. Report data for Plant in Service only.
2. Large plants are steam plants with installed capacity (name plate rating) of 25,000 KW or more. Report on this page gas-turbine and internal combustion plants of 10,000 KW or more, and nuclear plants.
3. Indicate by a footnote any plant leased or operated as a joint facility.
4. If net peak demand for 60 minutes is not available, give data which is available, specifying period.
5. If any employees attend more than one plant, report on line 11 the approximate average number of employees

- assignable to each plant.
6. If gas is used and purchased on a therm basis, report the BTU content of the gas and the quantity of fuel burned converted to Mcf.
7. Quantities of fuel burned (line 38) and average cost per unit of fuel burned (line 41) must be consistent with charges to expense accounts 501 and 547 (line 42) as shown on line 21.
8. If more than one fuel is burned in a plant, furnish only the composite heat rate for all fuels burned.

41	Average Cost of Fuel per Unit Burned			29.97	61.79		
42	Avg. Cost of Fuel Burned per Million Btu			4.73	2.44		
43	Avg. Cost of Fuel Burned per KWh Net Gen.			7.66	2.59		
44	Average Btu per KWh Net Generation			16,201	10,586		

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) (Continued)

. Items under Cost of Plant are based on U.S. of A. accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses classified as Other Power Supply Expenses.

10. For IC and GT plants, report Operating Expenses, Account Nos. 548 and 549 on line 26 "Electric Expenses", and Maintenance Account Nos. 553 and 554 on line 32 "Maintenance of Electric Plant". Indicate plants designed for peak load service. Designate automatically operated plants.

11. For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant.

However, if a gas-turbine unit functions in a combined cycle operation with a conventional steam unit, include the gas turbine with the steam plant. 12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the components of fuel cost; and (c) any other informative data concerning plant type, fuel used, fuel enrichment by type and quantity for the report period and other operating characteristics of plant.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) (Continued)

NOTES TO PAGE 402

Note 1

The total cost of plant for Gannon steam (Line 17C) and the cost per KW of installed capacity for Gannon steam (Line 18C) excludes \$140,305,261 of Gannon steam plant in-service owned by the Gannon Trust. The total cost of plant (Line 17C) and the cost per KWH of installed capacity (Line 18C) for Gannon steam including assets owned by the Gannon Trust are \$376,116,058 and \$296.07 respectively.

YEAR OF REPORT:
Dec. 31, 1990

TRANSMISSION LINE STATISTICS

1. Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below voltages in group totals only for each voltage.
2. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report substation costs and expenses on this page.
3. Report data by individual lines for all voltages if so required by a State commission.
4. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property.
5. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole, wood, or steel; (2) H-frame wood, or steel poles; (3) tower; or (4) underground construction. If a transmission line has more than one type of

supporting structure, indicate the mileage of each type of construction by the use of brackets and extra lines. Minor portions of transmission line of a different type of construction need not be distinguished from the remainder of the line.
6. Report in columns (f) and (g) the total pole miles of each transmission line. Show in column (f) the pole miles of line on structures the cost of which is reported for the line designated; conversely show in column (g) the pole miles of line on structures the cost of which is reported for another line. Report pole miles of line on leased or partly owned structures in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with respect to such structures are included in the expenses reported for the line designated.

Line No.	DESIGNATION		VOLTAGE (Indicate where other than 60 cycle, 3 phase)		Type of Supporting Structure (e)	LENGTH (Pole Miles) (In the case of underground lines, report circuit miles)		Number of Circuits (h)

TRANSMISSION LINE STATISTICS (Continued)

7. Do not report the same transmission line structure twice. Report lower voltage lines and higher voltage lines as one line. Designate in a footnote if you do not include lower voltage lines with higher voltage lines. If two or more transmission line structures support lines of the same voltage, report the pole miles of the primary structure in column (f) and the pole miles of the other line(s) in column (g).
8. Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of lease, and amount of rent for year. For any transmission line other than a leased line, or portion thereof, for which the respondent is not the sole owner but which the respondent operates or shares in the operation of, furnish a succinct

statement explaining the arrangement and giving particulars (details) of such matters as percent ownership by respondent in the line, name of co-owner basis of sharing expenses of the line, and how the expenses borne by the respondent are accounted for, and accounts affected. Specify whether lessor, co-owner, or other party is an associated company.
9. Designate any transmission line leased to another company and give name of lessee, date and terms of lease, annual rent for year, and how determined. Specify whether lessee is an associated company.
10. Base the plant cost figures called for in columns (j) to (l) on the book cost at end of year.

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations which serve only one industrial or street railway customer should not be listed below.
3. Substations with capacities of less than 10,000 Kva, except those serving customers with energy for resale, may be grouped according to functional char-

acter, but the number of such substations must be shown.
4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).
5. Show in columns (i), (j) and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and aux-

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations which serve only one industrial or street railway customer should not be listed below.
3. Substations with capacities of less than 10,000 Kva, except those serving customers with energy for resale, may be grouped according to functional char-

acter, but the number of such substations must be shown.
4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).
5. Show in columns (i), (j) and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and aux-

iliary equipment for increasing capacity.

6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name of lessor, date and period of lease and annual rent. For any substation or equip-

ment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and account affected in respondent's books of accounts. Specify in each case whether lessor, co-owner, or other party is an associated company.

ELECTRIC DISTRIBUTION METERS AND LINE TRANSFORMERS

1. Report below the information called for concerning distribution watt-hour meters and line transformers.
2. Include watt-hour demand distribution meters, but not external demand meters.
3. Show in a footnote the number of distribution watt-hour meters or line transformers held by the respondent under lease from others, jointly owned with others, or held otherwise than by reason of sole ownership by the respondent. If 500 or more meters or line transformers are held under a lease, give name of lessor, date and period of lease, and annual rent. If 500 or more meters or line transformers are held other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of accounting for expenses between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.

Line No.	Item (a)	Number of Watt-Hour Meters (b)	Line Transformers

15	In Company's Use	120	385	34.5
16	TOTAL End of Year (Enter total of lines 11 to 15. This line should equal line 10.)	507,852	117,546	6,175.9

* Number at Beginning of Year: Total Capacity of Line Transformers (col. d) has been corrected for 3.9 MVA error in 1989 reporting

ENVIRONMENTAL PROTECTION FACILITIES

1. For purposes of this response, environmental protection facilities shall be defined as any building, structure, equipment, facility, or improvement designed and constructed solely for control, reduction, prevention or abatement of discharges or releases into the environment of gaseous, liquid, or solid substances, heat, noise or for the control, reduction, prevention, or abatement of any other adverse impact of an activity on the environment.

2. Report the differences in cost of facilities installed for environmental considerations over the cost of alternative facilities which would otherwise be used without environmental considerations. Use the best engineering design achievable without environmental restrictions as the basis for determining costs without environmental considerations. It is not intended that special design studies be made for purposes of this response. Base the response on the best engineering judgement where direct comparisons are not available.

Include in these differences in costs the costs or estimated costs of environmental protection facilities in service, constructed or modified in connection with the production, transmission, and distribution of electrical energy and shall be reported herein for all such environmental facilities placed in service on or after January 1, 1969, so long as it is readily determinable that such facilities were constructed or modified for environmental rather than operational purposes. Also report similar expenditures for environmental plant included in construction work in progress. Estimate the cost of facilities when the original cost is not available or facilities are jointly owned with another utility, provided the respondent explains the basis of such estimations.

Examples of these costs would include a portion of the costs of tall smokestacks, underground lines, and landscaped substations. Explain such costs in a footnote.

3. In the cost of facilities reported on this page, include an estimated portion of the cost of plant that is or will be used to provide power to operate associated environmental protection facilities. Explain such estimations in a footnote.

4. Report all costs under the major classifications provided below and include, as a minimum, the items listed hereunder:

A. Air pollution facilities:

- (1) Scrubbers, precipitators, tall smokestacks, etc.
- (2) Changes necessary to accommodate use of environmentally clean fuels such as low ash or low sulfur fuels including storage and handling equipment.

- (3) Monitoring equipment
- (4) Other.

B. Water pollution control facilities:

- (1) Cooling towers, ponds, piping, pumps, etc.
- (2) Waste water treatment equipment
- (3) Sanitary waste disposal equipment
- (4) Oil interceptors
- (5) Sediment control facilities
- (6) Monitoring equipment
- (7) Other.

C. Solid waste disposal costs:

- (1) Ash handling and disposal equipment
- (2) Land
- (3) Settling ponds
- (4) Other.

D. Noise abatement equipment:

- (1) Structures
- (2) Mufflers
- (3) Sound proofing equipment
- (4) Monitoring equipment
- (5) Other

E. Esthetic costs:

- (1) Architectural costs
- (2) Towers
- (3) Underground lines
- (4) Landscaping
- (5) Other.

F. Additional plant capacity necessary due to restricted output from existing facilities, or addition of pollution control facilities.

G. Miscellaneous:

- (1) Preparation of environmental reports
- (2) Fish and wildlife plants included in Accounts 330, 331, 332, and 335
- (3) Parks and related facilities
- (4) Other.

5. In those instances when costs are composites of both actual supportable costs and estimates of costs specify in column (f) the actual costs that are included in column (e).

6. Report construction work in progress relating to environmental facilities at line 9.

(\$ in 1,000s)

Line No.	Classification of Cost (a)	CHANGES DURING YEAR			Balance at End of Year (e)	Actual Cost (f)
		Additions (b)	Retirements (c)	Adjustments (d)		
1	Air Pollution Control Facilities	1,733	189	4,811	323,568	NOTE 1
2	Water Pollution Control Facilities	4,132		(1,988)	25,661	NOTE 1
3	Solid Waste Disposal Costs	1,244	188	(210)	56,978	NOTE 1
4	Noise Abatement Equipment			1	317	NOTE 1
5	Esthetic Costs				37	NOTE 1

YEAR OF REPORT:
Dec. 31, 1990

ENVIRONMENTAL PROTECTION EXPENSES

1. Show below expenses incurred in connection with the use of environmental protection facilities the cost of which are reported on page 430. Where it is necessary that allocations and/or estimates of costs be made, state the basis or method used.
2. Include below the costs incurred due to the operation of environmental protection equipment, facilities, and programs.
3. Report expenses under the subheadings listed below.
4. Under item 6 report the difference in cost between environmentally clean fuels and the alternative fuels that would otherwise be used and are available for use.
5. Under item 7 include the cost of replacement power, purchased or generated, to compensate for the deficiency in output from existing plants due to the addition of pollution control equipment, use of alternate environmentally preferable fuels, or environmental regulations of governmental bodies. Base the price of replacement power purchased on the average system price of purchased power if the actual cost of such replacement power is not known. Price internally generated replacement power at the system average cost of power generated if the actual cost of specific replacement generation is not known.
6. Under item 8 include ad valorem and other taxes assessed directly on or directly relatable to environmental facilities. Also include under item 8 licensing and similar fees on such facilities
7. In those instances where expenses are composed of both actual supportable data and estimates of costs, specify in column (c) the actual expenses that are included in column (b).

Line No.	Classification of Expense (a)	Amount (b)	Actual Expenses (c)
1	Depreciation	15,635,649	NOTE 1
2	Labor, Maintenance, Materials, and Supplies Cost Related to Env. Facilities and Programs	12,987,708	NOTE 2
3	Fuel Related Costs		
4	Operation of Facilities		
5	Fly Ash and Sulfur Sludge Removal		
6	Difference in Cost of Environmentally Clean Fuels	26,622,866	
7	Replacement Power Costs	3,299,189	NOTE 3
8	Taxes and Fees		
9	Administrative and General	777,865	
10	Other (Identify significant)		
11	TOTAL	59,323,277	

NOTE 1: Book depreciation determined by applying current depreciation rates to pollution control investment.

NOTE 2: Allocation of expenses made on basis of plant investment.

NOTE 3: Based on estimated power usage times average cost per KWH.

The following information was requested by
the Florida Public Service Commission in addition
to the Federal Energy Regulatory Commission FORM 1.

Tampa Electric Company
Business Contracts with Officers, Directors and Affiliates

For the Year Ended December 31, 1990

List all contracts, agreements, or other business arrangements* entered into during the calendar year (other than compensation related to position with Respondent) between the Respondent and officers and directors listed on Pages 104 and 105. In addition, provide the same information with respect to professional services for each firm, partnership, or organization with which the officer or director is affiliated.

1. The Board of Directors of Tampa Electric Company, as provided on page 105, is also the Board of Directors of TECO Energy, Inc., Tampa Electric Company's parent. In addition, H. L. Culbreath (Director of Tampa Electric) is also Chairman of the Board of TECO Energy, Inc.; T. L. Guzzle (Director of Tampa Electric Company) is also President and Chief Executive Officer of TECO Energy, Inc.; G. F. Anderson (President and Chief Operating Officer of Tampa Electric Company) is also Executive Vice President-Utility Operations of TECO Energy, Inc.; K. S. Surgenor (Vice President-Human Resources of Tampa Electric Company) is also Vice President-Human Resources of TECO Energy, Inc.; J. E. Sproull (Secretary and Treasurer of Tampa Electric Company) is also Secretary of TECO Energy, Inc. See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Energy.
2. J. E. Sproull (Secretary and Treasurer of Tampa Electric Company) is also Vice President Secretary and Treasurer of TECO Diversified, Inc., a wholly-owned subsidiary of Tampa Electric's parent, TECO Energy, Inc. TECO Diversified owns four operating companies, TECO Transport & Trade Corp., TECO Coal Corp., TECO Coalbed Methane, Inc. and TECO Properties Corp. TECO Transport & Trade owns four operating companies, Gulfcoast Transit Company, Mid-South Towing Company, TECO Towing Company and Electro-Coal Transfer Corp. which also owns G C Service Company, Inc. TECO Coal owns three operating companies, Gatliff Coal Company, Rich Mountain Coal Company and Clintwood Elkhorn Mining Company. See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Diversified and its subsidiaries.
3. J. E. Sproull (Secretary and Treasurer of Tampa Electric Company) is also Secretary and Treasurer of TECO Power Services Corp., a wholly-owned subsidiary of Tampa Electric's parent, TECO Energy, Inc. See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Power Services, Inc.
4. J. E. Sproull (Secretary and Treasurer of Tampa Electric Company) is also Vice President and Secretary and Treasurer of TECO Finance, Inc., a wholly-owned subsidiary of Tampa Electric's parent, TECO Energy, Inc. See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Finance, Inc.
5. J. E. Sproull (Secretary and Treasurer of Tampa Electric Company) is also Vice President and Secretary and Treasurer of TECO Investments, Inc., a wholly-owned subsidiary of Tampa Electric's parent, TECO Energy, Inc. See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Investments, Inc.

*Business arrangement, for this schedule, shall mean any oral or written business deal which binds the concerned parties for products or services during the reporting year or future years. Although the Respondent and/or other consolidated companies will benefit from the arrangement, the officer or director is, however, acting on his behalf or for the benefit of other companies or persons.

Tampa Electric Company
Business Contracts with Officers, Directors and Affiliates

For the Year Ended December 31, 1990

6. J. E. Sproull (Secretary and Treasurer of Tampa Electric Company) is also Director, Secretary and Treasurer of TERMCO, Inc., a wholly-owned subsidiary of Tampa Electric. See pages 456-458 for details of transactions and amounts between Tampa Electric and TERMCO.
7. C. S. Campbell (Vice President - Services of Tampa Electric Company) is also President of TERMCO, Inc., a wholly-owned subsidiary of Tampa Electric. See pages 456-458 for details of transactions and amounts between Tampa Electric and TERMCO.
8. M. F. Wadsworth (Vice President - Materials Management of Tampa Electric) is also a Director of TERMCO, Inc., a wholly-owned subsidiary of Tampa Electric. See pages 456-458 for details of transactions and amounts between Tampa Electric and TERMCO.
9. J. L. Ferman, Jr., (Director of Tampa Electric Company) is President of Ferman Motor Car Company, Inc., of Tampa, Florida. During 1990, Tampa Electric paid to Ferman Motor Car Company \$86,100 for the purchase of automobiles and related items.
10. E. L. Flom (Director of Tampa Electric Company) is a Director of NCNB National Bank of Florida and T. L. Guzzle (Director of Tampa Electric Company) is a Director of NCNB National Bank of Florida. In 1990, Tampa Electric indirectly paid (through its parent company, TECO Energy, Inc.) \$151,786 for pension plan trustee services to NCNB National Bank of Florida. Tampa Electric also paid directly to NCNB National Bank of Florida \$113,246 for fees associated with the issuance of Pollution Control Revenue Bonds and related services.

Tampa Electric Company
Affiliation of Officers and Directors

For the Year Ended December 31, 1990

For each of the officials named on Pages 104 and 105, list the principal occupation or business affiliation if other than listed on Page 451, and all affiliations or connections with any other business or financial organizations, firms, or partnerships. For purposes of this part, the official will be considered to have an affiliation with any business or financial organization, firm or partnership in which he is an officer, director, trustee, partner, or a person exercising similar functions.

1. Girard F. Anderson, President and Chief Operating Officer of Tampa Electric Company

Executive Vice President - Utility Operations, TECO Energy, Inc.
2. Craig S. Campbell, Vice President - Services of Tampa Electric Company

President, TERMCO, Inc., Tampa, Florida
3. William N. Cantrell, Vice President - Regulatory Affairs of Tampa Electric *

No affiliations
4. Greg A. Ehlers, Vice President - Information Services of Tampa Electric Company

Vice President - Information Services, TECO Energy, Inc.
5. Wayne W. Hopkins, Vice President - Corporate Communications of Tampa Electric Company

Vice President - Corporate Communications, TECO Energy, Inc.
6. Lester L. Lefler, Vice President-Controller of Tampa Electric Company

No affiliations
7. John R. Rowe, Jr., Assistant Vice President of Tampa Electric Company *

No affiliations
8. William T. Snyder, Jr., Vice President - Customer Services and Marketing of Tampa Electric Company

No affiliations
9. Keith S. Surgenor, Vice President - Human Resources of Tampa Electric Company

Vice President - Human Resources, TECO Energy, Inc.
10. Robert F. Tomczak, Vice President - Production Operations and Maintenance of Tampa Electric Company

No affiliations

NOTE: Effective 1/15/91 W.N. Cantrell was promoted to Vice President - Energy Resources Planning, and J.R. Rowe, Jr. to Vice President - Regulatory Affairs.

Tampa Electric Company
Affiliation of Officers and Directors (Continued)

For the Year Ended December 31, 1990

11. Merlin F. Wadsworth, Vice President - Materials Management of Tampa Electric

Director, TERMCO, Inc., Tampa, Florida
12. Harry I. Wilson, Vice President - Transmission and Distribution of Tampa Electric Company

No affiliations
13. James E. Sproull, Secretary and Treasurer of Tampa Electric Company

Secretary and Treasurer, TECO Properties Corporation, Tampa, Florida
Secretary, Treasurer and Director, Gatliff Coal Company, Nevisdale, Kentucky
Treasurer, Secretary and Director, Mid-South Towing Company, Tampa, Florida
Treasurer, Secretary and Director, Electro-Coal Transfer Corporation, Tampa, Florida
Treasurer, Secretary and Director, Gulfcoast Transit Company, Tampa, Florida

Tampa Electric Company
Business Transactions with Related Parties

For the Year Ended December 31, 1990

List each contract, agreement, or other business transaction exceeding a cumulative amount of \$500 in any one year, entered into between the Respondent and any business or financial organizations, firm, or partnership named on Page 451 identifying the parties, amounts, dates, and product, asset, or service involved.

Part I. Specific instructions: Services and Products Received or Provided

1. Enter in this part all transactions involving services and products received or provided.
2. Below are some types of transactions to include:
 - Management, legal, and accounting services
 - Computer services
 - Engineering and construction services
 - Repairing and servicing of equipment
 - Material, fuel, and supplies furnished
 - Leasing of structures, land, and equipment
 - All rental transactions
 - Sale, purchase, or transfer of various products

1. TECO Energy, Inc. - parent company
 - See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Energy.
2. TECO Diversified - parent company of four operating companies which provide coal transportation, transfer and storage, docking services, coal mining and real estate investments.
 - See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Diversified and its subsidiaries.
3. TECO Power Services - cogeneration and independent power generating projects
 - See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Power Services.
4. TECO Finance - Raises both short and long-term capital for TECO Investments and other strategic ventures.
 - See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Finance.
5. TECO Investments - Invests capital in short and longer-term investments for its parent, TECO Energy, Inc.
 - See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TECO Investments.
6. TERMCO, Inc. - Broker for Tampa Electric Company's purchases and sales of real property
 - See pages 456-458 for details of transactions and amounts between Tampa Electric Company and TERMCO.
7. Ferman Motor Car Company - automobile dealership
 - Purchase of automobiles and related items in the amount of \$86,100.
8. NCNB National Bank of Florida - commercial banking and trustee services
 - Services purchased by respondent in the amount of \$265,032.

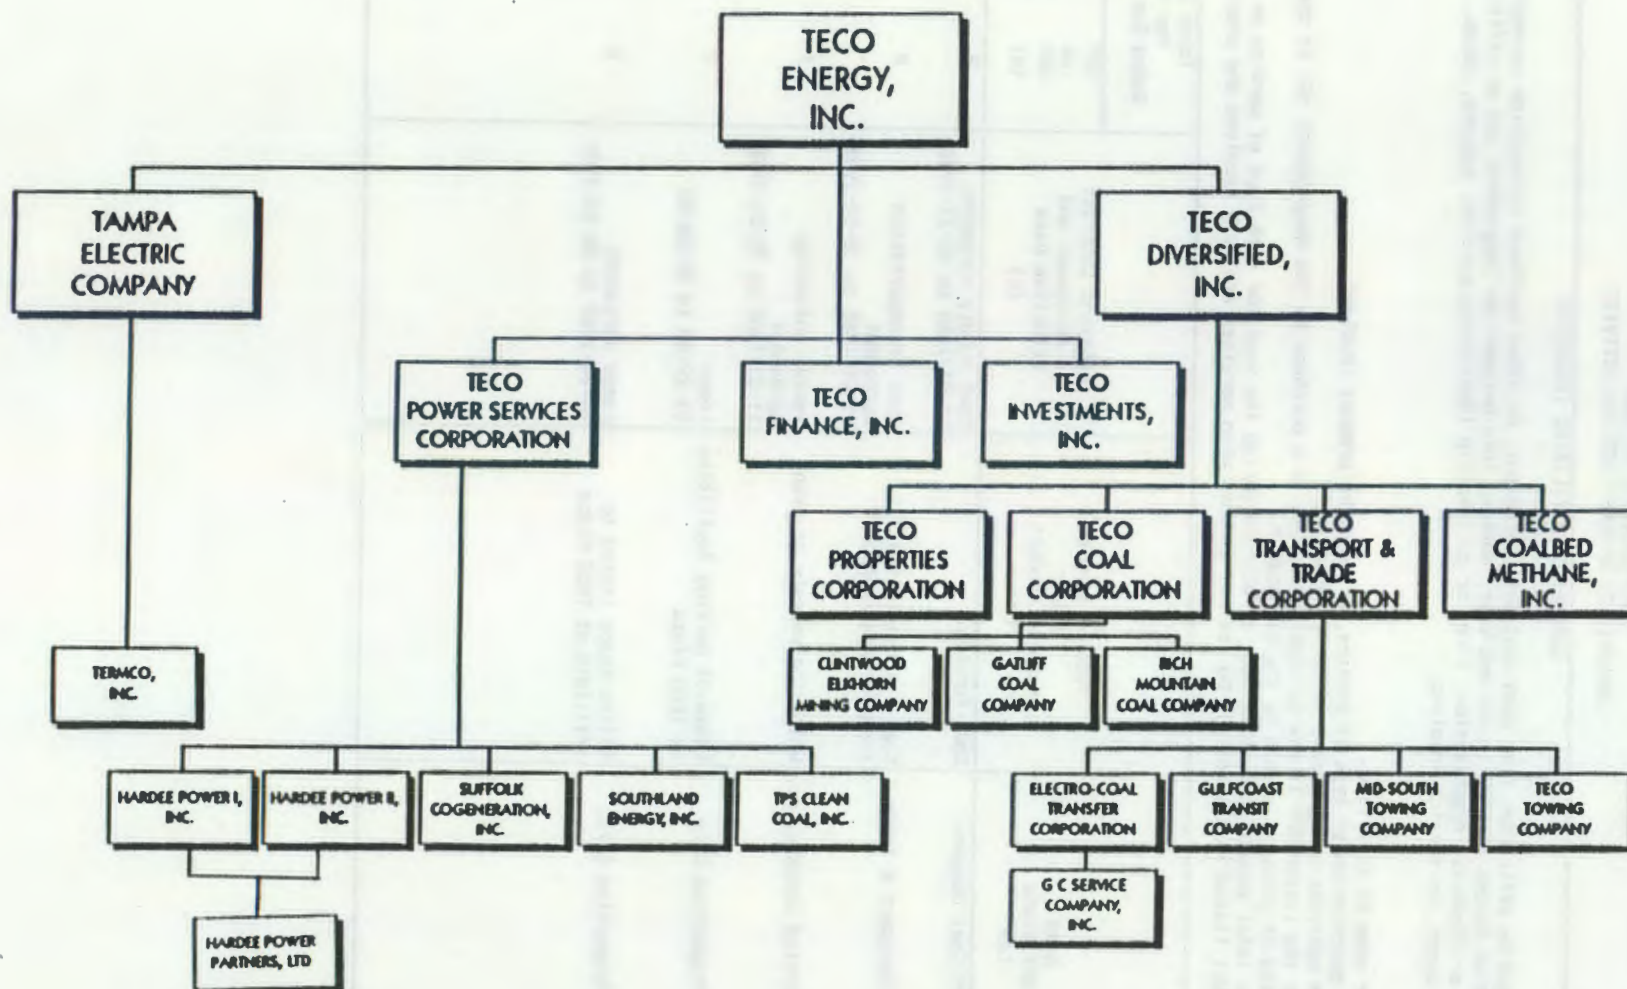

NOTE: Sales of electricity at prescribed tariff rates to "related parties" were omitted. Individuals or "related party" companies in Tampa Electric Company's service area did subscribe to electric service with the company.

NOTE (2): The information on this schedule is provided in response to the requirements of Rule 25-6.014 (F.A.C.) Records and Reports in General, section 11(c).

NOTE (3): Effective 1/1/90, all Information Services employees were transferred from TECO Energy, Inc., to Tampa Electric Company. There were 94 employees transferred that fit the criteria of this report.

NOTE (4): W. W. Hopkins is also Vice President-Corporate Communications for TECO Energy, Inc.

NAME OF RESPONDENT:
Tampa Electric Company

This Report Is An Original

YEAR OF REPORT:
Dec. 31, 1990

BUSINESSES WHICH ARE A BYPRODUCT, COPRODUCT OR JOINT PRODUCT RESULT OF PROVIDING ELECTRIC SERVICES *

Complete the following for any business which is conducted as a byproduct, coproduct or joint product as a result of providing electric service. This would include any business which requires the use of utility land and facilities. Examples of these types of businesses would be orange groves, nurseries, tree farms, etc. This would not include any business for which the assets are properly included in Account 121 Nonutility Property with the associated revenues and expenses segregated out as nonutility also.

Business or Service Conducted	Book Cost of Assets	Account No. Recorded	* Revenues Generated	Account No. Recorded	* Expenses Generated	Account No. Recorded
Lease of Land or Structures Thereon	Indeterminate	101 & 105	587,716	454		
Telecommunications Equip Rental	1,774,877	101 & 106	314,347	454	35,202	921, 923, 931-2
Pole Attachments	Indeterminate	101 & 106	2,800,857	454		
Total			3,702,920			

- * The above revenues are the result of incidental rentals. Property acquired by the Company is to meet the functional requirements of the Production, Transmission, Distribution and General departments. The construction configuration of these assets permit some additional uses of the land. The company does not engage in any significant activities on the above property and, hence, does not incur significant expenses.

* NOTE: Effective 4/16/91, T. L. Guzzle replaced H. L. Culbreath as Chairman of the Board; however, H. L. Culbreath will remain a Director.

PART II - COMPANY PROFILE

Tampa Electric Company, the principal subsidiary of TECO Energy, Inc., is a public utility operating wholly within the state of Florida and engaged in the generation, purchase, transmission, distribution and sale of electric energy. First incorporated in December 1899, Tampa Electric currently serves approximately 456,000 Customers in a 2,000 square mile area of west-central Florida. At year end 1990, the company employed 3,167 regular full-time employees and had a system capability of 3,191 megawatts.

The company is comprised of eleven principal divisions: Power Production, Power Distribution, Customer Services, Regulatory Affairs, Corporate Communications, Human Resources, Services, Finance, Energy Resources Planning, Materials Management, and Information Services.

Tampa Electric's goals include the following: hold effective residential rates at or below \$79.21 per thousand kilowatt hours; manage company resources in a manner most cost effective in achieving company goals; maintain a high level of Customer and public satisfaction with our prices, service levels, community participation and caring; and develop and maintain a well-informed, appropriately sized, motivated work force that is positively responsive to change and is committed to the Customer and safety on the job.

Tampa Electric's affiliates under TECO Energy, Inc., the parent company, include TECO Diversified, Inc., TECO Finance, Inc., TECO Investments, Inc. and TECO Power Services Corporation.

Tampa Electric's service area economy is expected to continue its upward trend during the 1990s, although at a more moderate pace than that experienced in the 1980s. The recent downturn in the national economy has slowed the pace of local economic growth in 1991. Still, Tampa's economic advantages, which include a diversified economy, good transportation system and a strong labor market, will provide the impetus for continuing expansion. Service area residential Customers are expected to grow at 1.7% in 1991, slightly less than 1990. During the coming decade, the average annual growth rate for both residential and total Customers is projected to be a healthy 2.4%.

Increased energy sales and peak demand are expected over the 1990 - 2000 period with the residential, commercial and public authority sectors providing the major contributions. Overall, energy sales are forecasted to increase at a 2.3% average annual rate during this period, just slightly less than the 2.4% of the previous ten years. The average growth rate in the winter supply system firm load is projected at 2.6% for the period 1991 through 2000.

TECO Energy's largest non-utility subsidiary is TECO Diversified, Inc., which provides direction for the diversified non-financial activities of TECO Energy.

TECO Diversified's largest subsidiary is TECO Transport & Trade Corporation, which directs the activities of TECO Diversified's barge and terminal companies. TECO Transport & Trade performs services for Tampa Electric and other companies.

TECO Diversified's coal mining operations are managed by TECO Coal Corporation, which supplied about thirty-five percent of the coal used in Tampa Electric's power plants in 1990.

TECO Diversified's real estate subsidiary, TECO Properties Corporation, participates in real estate investment opportunities primarily in Tampa Electric's service area.

TECO Diversified's newest subsidiary is TECO Coalbed Methane, Inc., which develops and produces natural gas from coal seams.

TECO Finance, Inc. acts as the financing arm for the diversified activities of TECO Energy, raising both short- and long-term debt capital for TECO Investments and other strategic ventures.

TECO Investments, Inc. invests capital in short- and long-term passive investments.

TECO Power Services, Inc. participates in cogeneration and independent power generating projects.

A. Location:

702 W. Franklin Street
Tampa, Florida 33602

B. Description:

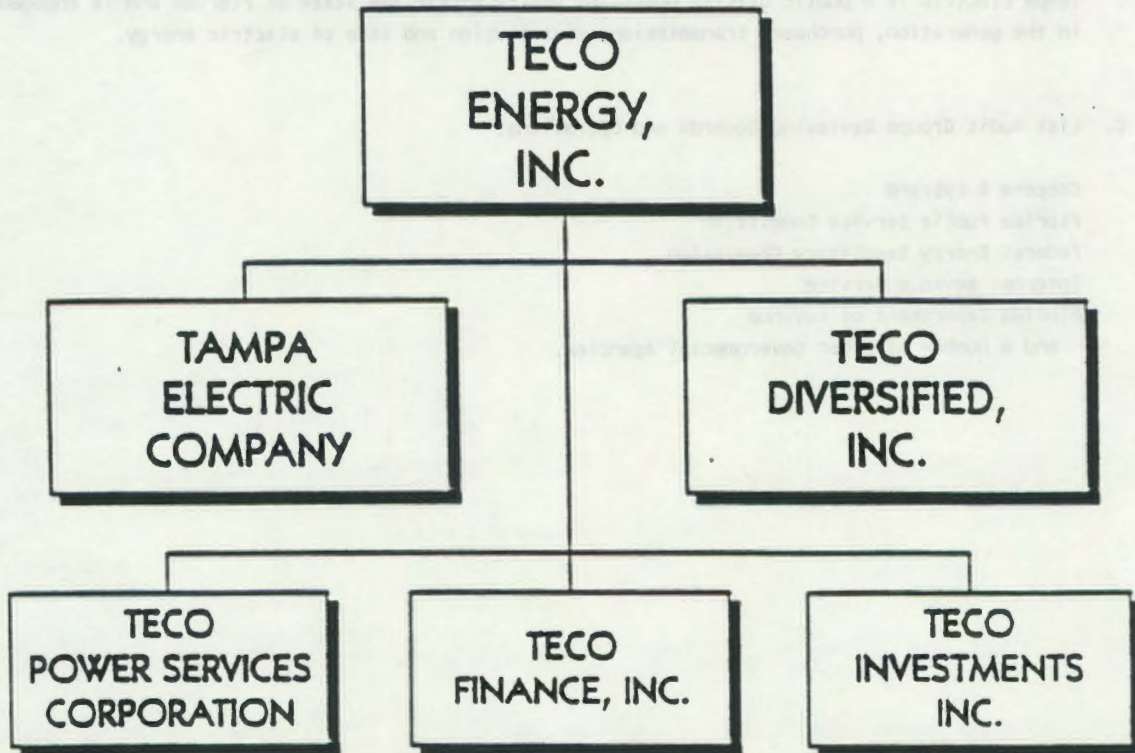

Tampa Electric is a public utility operating wholly within the state of Florida and is engaged in the generation, purchase, transmission, distribution and sale of electric energy.
