Ms. Beth Salak
Director Of Competitive Markets and Enforcement
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399-0850

Dear Ms. Salak:

Pursuant to Florida Statute 364.05, we are filing herewith revision to our Access Service Tariff. Following is the page being filed:

Access Service Tariff

Section E2 - Tenth Revised Page 11
Section E2 - Seventh Revised Page 13
Section E2 - Sixth Revised Page 14
Section E6 - Sixth Revised Page 26
Section E6 - Fifth Revised Page 87
Section E6 - Eighth Revised Page 88
Section E6 - Fifth Revised Page 117

The purpose of this filing is to comply with Commission Order No. PSC-04-0668-AS-TP issued in Docket No. 020129-TP.

Acknowledgment, date of receipt and authority number of this filing are requested. A duplicate letter of transmittal is attached for this purpose.

Your consideration and approval will be appreciated.

Yours very truly, Marshall M. Courses Its

Vice President Regulatory Relations

Attachments

EXECUTIVE SUMMARY

Introduction

The purpose of this filing is to comply with Commission Order No. PSC-04-0668-AS-TP issued in Docket No. 020129-TP.

Description of Tariff

BellSouth is filing this tariff to comply with the settlement agreement approved by the Commission in the above referenced Docket. This tariff filing will resolve the issues raised in the case once credits are given to the parties in the docket.

E2. GENERAL REGULATIONS

ACCESS SERVICES TARIFF

E2.3 Obligations of the IC (Cont'd)

E2.3.14 Jurisdictional Report Requirements (Cont'd)

- A. Jurisdictional Reports (Cont'd)
 - Percent Interstate Usage (Cont'd)
 - b (Cont'd)

-BellSouth CCS7 Access Arrangement

- Switched Local Channel
- BellSouth SWA Dedicated Interoffice Channel
- BellSouth SWA Dedicated Interoffice Channel
- Channelization Equipment
- DNALs associated with BellSouth SWA LSBSA²
- BellSouth Billing Name and Address
- BellSouth Inward Operator Service
- BellSouth Operator Assistance Access Service
- BellSouth IPTG Terminating Service

When an End User initially orders BellSouth SWA FGB service, where facilities permit, the End User will state in the order, the PIU for each state.

The Percent Interstate Usage (PIU) factors associated with BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA FGD and BellSouth SWA 500, 700, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening and BellSouth SWA 900 service will also apply to all associated elements and services, e.g. Carrier Common Line, Local Switching, BellSouth SWA Common Interoffice Channel, Interconnection, Access Tandem Switching, Common Trunk Port Service and minute of use based multiplexer rate elements, where applicable.

The PIU category, BellSouth SWA Local Channel, includes Dedicated End Office Trunk Port Service and Dedicated Tandem Trunk Port Service charges and other flat rated charges not specifically covered by other P1U categories.

The customer will provide a single factor as the projected Percent Interstate Usage (PIU) to apportion the usage between interstate and intrastate. This factor will be applied to the following categories:

- BellSouth SWA Local Channel
- BellSouth SWA Dedicated Interoffice Channel
- Channelization Equipment

The PIU factor provided for each of the foregoing facilities categories (Switched Local Channel, BellSouth SWA Dedicated Interoffice Channel and Channelization Equipment) will reflect the combination of all traffic types which traverse such facility category.

When Dedicated Access service is provided on a BellSouth SWA facility, e.g., Dedicated Access DS1 (a.k.a. BellSouth SPA DS1) on a BellSouth SWA DS3, the facility will be apportioned between BellSouth SWA and Dedicated Access. The jurisdiction of the Dedicated Access service shall reflect the composite of the jurisdiction of the lower capacity services, if any, of which it is comprised.

The IC and/or End User shall compute the PIU using the following formula (rounded to a whole percentage).

Total Interstate Total Interstate Originating Minutes Terminating Minutes Total Total Originating Minutes **Terminating Minutes**

Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in E6.1.3.A. of this Tariff (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

Note 2: Where BellSouth SWA LSBSA is provisioned with a DNAL, the DNAL rates should be apportioned between interstate and intrastate using the same PIU factor as applied to the associated BellSouth SWA LSBSA.

TELECOMMUNICATIONS, INC. FLORIDA ISSUED: July 26, 2004 BY: Joseph P. Lacher, President -FL

E2. GENERAL REGULATIONS

E2.3 Obligations of the IC (Cont'd)

E2.3.14 Jurisdictional Report Requirements (Cont'd)

- A. Jurisdictional Reports (Cont'd)
 - For BellSouth Directory Assistance Access service, the Company developed PIU for BellSouth SWA FGD terminating will apply.
 - For BellSouth CCS7 Access Arrangement, the customer must state in its order the PIU anticipated as specified in b. preceding. The PIU reported will then be applied of the rates for Signaling Connections and Terminations to arrive at the amount the customer is billed for intrastate usage of these facilities each month. In addition, the PIU will be applied to the total messages and the resulting figure multiplied by the appropriate rate per message to determine the amount the customer will be billed for intrastate usage. Subsequent PIU factors will be reported as required in 4, following.
 - 4. Effective April 1, 2002, the customer will update the jurisdictional report associated with BellSouth CCS7 Access Arrangement, when both intrastate and interstate service is provided.

Effective October 1, 2000, the customer will provide a single factor as the projected Percent Interstate Usage (PIU) to apportion the usage between interstate and intrastate. This PIU will apply to the following categories: BellSouth SWA Local Channel, BellSouth SWA Dedicated Interoffice Channel and Channelization Equipment.

Effective July 1, 2000, the customer's and/or end user's projected Percent Interstate Usage (PIU) will be provided at a statewide level on a local exchange company specific basis.

Effective on the first of January, April, July and October of each year the IC will update the interstate and intrastate jurisdictional report. End Users must update the jurisdictional report on a quarterly basis for the Feature Group B services provided from this Tariff. The IC will forward to the Company, to be received no later than 30 days after the first of each such month, a revised report or letter for all services showing the intrastate percentage of use for the past three months ending the last day of December, March, June and September, respectively, for each service arranged for intrastate use. The revised report or letter will serve as the basis for the next three months' billing and will be effective on the bill date for that service. If the IC or End User does not supply an updated quarterly report or letter, the Company will assume the percentages to be the same PIU provided in the last quarterly report or letter accepted by the Company. For those cases in which quarterly reports have never been received from the IC or End User, the Company will assume the PIU factors to be the most recent audit results or to be the same as those provided in the order for services if no audit has been performed. If an audit has been completed and an updated quarterly report or letter has not been submitted subsequent to the audit, the Company will assume the PIU factors to be the most recent audited results.

- 5. When mixed interstate and intrastate Dedicated Access Service is provided, the jurisdiction will be determined as follows:
 - If the IC or End User's estimate of the interstate traffic on the service involved constitutes 10 percent or less of the
 total traffic on that service, the service will be provided in accordance with the applicable rules and regulations of
 this Tariff.

ote 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in E6.1.3.A. (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

E2. GENERAL REGULATIONS

E2.3 Obligations of the IC (Cont'd)

E2.3.14 Jurisdictional Report Requirements¹ (Cont'd)

- A. Jurisdictional Reports (Cont'd)
 - 5. When mixed interstate and intrastate Dedicated Access Service is provided, the jurisdiction will be determined as follows. (Cont'd)
 - If the IC or End User's estimate of the interstate traffic on the service involved constitutes more than 10 percent of the total traffic on that service, the service will be provided in accordance with the applicable rules and regulations of the BellSouth Telecommunications. Inc. Tariff FCC No. 1.

The IC or End User shall keep records from which the percentage of interstate and intrastate use was estimated and upon request of the Company make the records available for inspection as reasonably necessary for purposes of verification of the percentages. The IC or End User shall supply the data within 30 days of the Company request.

- B. Jurisdictional Report Verification
 - When an IC or End User provides a projected interstate usage percent as set forth in A. preceding, or when a billing dispute arises or a regulatory commission questions the projected interstate percentage for BellSouth SWA, the Company may, by written request, require the IC or End User to provide the data the IC or End User used to determine the projected interstate percentage. In the case of a third-party provider of CCS7 service to Third Party Customers as described in A. preceding, the data will include the data provided by the Third Party Customers. This written request will be considered the initiation of the audit. The IC or End User shall supply the data to an independent auditor within thirty days of the Company request. The IC or End User shall keep records of call detail from which the percentage of interstate and intrastate use can be ascertained as set forth in C. following and upon request of the Company make the records available for inspection at an agreed upon location during normal business hours as reasonably necessary for purposes of verification of the percentages. The Company will audit data from one quarter unless a longer period is requested by the IC or End User and agreed to by the Company. Changes to the reported PIU will not be made for the test period. If the IC or End User does not provide the requested data to the Company or independent auditor within (30) days of the notice of audit, the IC or End User will be in violation of this Tariff and subject to E2.1.8 of this Tariff:

Where attempts to obtain the appropriate data from the IC or End User beyond the 30-day time limit have failed, the Company may provide such documentation to the FPSC as an indication of the IC or End User being in violation of this Tariff.

2. For BellSouth SWA service, verification audits may be conducted no more frequently than once per year except in extreme circumstances. The Company and IC or End User will attempt to limit the audit to a reasonable time to effectively complete the audit. The Company and IC or End User shall respond promptly to requests generated during the audit to ensure timely completion of the audit.

Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in E6.1.3.A. of this Turiff (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

E6. BELLSOUTH SWA SERVICE

E6.1 General (Cont'd)

E6.1.3 Rate Categories (Cont'd)

- D. BellSouth SWA WATS Service (Cont'd)
 - Applications
 - BellSouth SWA WATS Service is provided only for use with BellSouth SWA FGC, BellSouth SWA FGD, BellSouth SWA TSBSA 2 or BellSouth SWA TSBSA 3 service. It is for use at the closed end of an BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service or a BellSouth SWA WATS Service or similar type service.
 - Optional Features
 - At the option of the IC, the BellSouth SWA WATS Service may be ordered with the Improved Two-Wire Voice Transmission Specifications optional feature (guaranteed specifications are set forth in E6.4.3 following). Certain other features which may be provided in connection with BellSouth SWA WATS Service are available under the Company's local and/or general exchange service tariffs. Examples are:
 - End User access to a Company test line
 - Speed Calling

E. BellSouth CCS7 Access Arrangement

Service Description

BellSouth CCS7 Access Arrangement allows for customer interconnection to the Company at designated Signal Transfer Points (STP) for use with services that require receiving and terminating signaling information using the common channel signaling protocol. CCS7 Access is provided for use with the BellSouth SWA CCSAC option, and described in A.9.e. preceding. For each connection, the customer must order a CCS7 Access Connection and CCS7 Access Termination. The CCS7 Access Arrangement is provided as follows

- The CCS7 Signaling Connection provides a 2-way digital 56 kbps facility, dedicated to a single customer, which originates at the customer's signaling point of interconnection in a LATA and terminates at a Company Signal Transfer Point (STP) selected by the Company.
- The CCS7 Signaling termination provides a dedicated point of interface at a Company STP for customer's CCS7 Signaling Connection.

The customer is responsible for reporting to the Company the Percent Interstate Usage (PIU) for BellSouth CCS7 Access Arrangement as set forth in E2.3.14 of this Tariff.

A customer will be able to obtain access from each of its Signaling Point Of Interconnection (SPOI) to the Company CCS7 network in one or more LATAs designated by the customer. This arrangement is available for use with Company Feature Group D, TSBSA 1 switched access service and queries to Company databases pursuant to this tariff.

For ordering proposed, CCS7 Signaling Connections and Terminations are ordered from the customer's SPOI to one or more Facility Switching Point Of Interconnection (FSPOI) locations in the LATA. The customer must order a minimum of two CCS7 Signaling Connections and two CCS7 Signaling Terminations, if the customer's SPOI connects to a customer SSP and a minimum of four CCS7 Signaling Connections and four CCS7 Signaling Terminations, if the customer's SPOI connects to a customer STP. FSPOI locations are set forth in the NECA Tariff FCC No. 4.

BellSouth CCS7 Access Arrangement Usage

BellSouth SWA CCS7 Access Arrangement Usage provides for the use of the Company's CCS7 Access Arrangement network for the transmission of call set-up and non-call set-up traffic. The two types of usage available are as follows:

Integrated Switched Digital Network User Part (ISUP) messages, which are used to provide the signaling set-up, supervise and release calls. ISUP usage charges will be assessed per signaling messages delivered to or from the customer, regardless of direction, through its dedicated CCS7 port connection. Specific types of ISUP messages

ACM - Address Complete Message

ANM - Answer Message

CPG - Call Progress

FOT - Forward Transfer Message

E6. BELLSOUTH SWA SERVICE

E6.6 Obligations of the IC (Cont'd)

E6.6.5 Billing Data For Terminating Usage

When an IC uses the service(s) of an alternative access provider or alternative tandem service provider and as a result the Company is unable to record usage terminated via dedicated trunks with sufficient specificity to identify the access IC of record, the alternative access provider or alternative tandem service provider must provide the Company with billing data so the Company can properly measure and bill the access minutes. The record that will be used for the transmission of data is the 110120 record. A description of the record and the fields contained can be found in BellCore Publication Sr-STS-000320, Message Interface. It is the responsibility of the alternative access provider or alternative tandem service provider to provide the billing data information to the Company on a daily basis. Failure on the part of the alternative provider to comply with the requirements of this paragraph will result in the Company's billing the alternative provider all terminating access minutes.

E6.7 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for BellSouth SWA service.

E6.7.1 Description and Application of Rates and Charges

- There are three types of rates and charges that apply to BellSouth SWA service. These are monthly recurring rates, usage rates and nonrecurring charges. These rates and charges are applied differently to the various rate elements as set forth following.
 - - Monthly rates are flat recurring rates that apply each month or fraction thereof that a specific rate element is provided. Flements having a monthly "per mile" charge are charged per mile, per month. For the Switched DNAL, the applicable mileage band rate will be applied per mile, per month. For billing purposes each month is considered to have 30 days.
 - - Usage rates are rates that apply only when a specific rate element is used. These are applied on a per access minute basis or on a per call basis. BellSouth SWA Common Transport transmission rates will be applied on a per minute of use, per mile basis. Usage rates are accumulated over a monthly period.
 - BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service
 - A per call charge, as specified in E6.8.4 following, applies for each 800 call utilizing BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service for which an BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service IC is identified.
 - BellSouth SWA 500 Service
 - A per call charge, as specified in E6.8.13 following, applies for each 500 call.
 - e. BellSouth CCS7 Access Arrangement Usage
 - An Integrated Switched Digital Network User Part (ISUP) usage charge per signaling message applies as specified in E6.8.1 following.
 - A Transaction Capabilities Application Part (TCAP) usage charge per signaling message applies as specified in E6.8.1 following.
 - Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for a specific work activity (i.e., installation of new service or change to an existing service). The types of nonrecurring charges that apply for BellSouth SWA service are: installation of new service, installation of optional features and BSEs, service rearrangements, transfer of service, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service and BellSouth SWA 900 service.

E6. BELLSOUTH SWA SERVICE

E6.7 Rate Regulations (Cont'd)

E6.7.1 Description and Application of Rates and Charges (Cont'd)

A. (Cont'd)

Nonrecurring Charges (Cont'd)

The following list identifies the individual BellSouth SWA service elements, for which charges are set forth in Section E6. of this Tariff, which are eligible for credit of nonrecurring charges under "Service Installation Guarantee" found in E2.4.10 of this Tariff. Customers with these services are not eligible for the Service Installation Guarantee when the requested installation, move or rearrangement service order interval is four days or less as measured from the Application Date of the order.

BellSouth SWA Transport Installation

BellSouth SWA Transport Interoffice Channel Installation

Optional Features (Installed coincident with Switched Local Channels, Switched Interoffice Channels and associated Channelization Equipment), and

Dedicated Network Access Line Service

The following list identifies the BellSouth SWA service elements not eligible for credit of nonrecurring charges under "Service Installation Guarantee" found in E2.4.10 preceding.

BellSouth SWA service Rearrangements, Conversions, and/or Inside Moves,

Activation of BellSouth SWA 500, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service and BellSouth SWA 900 service NXX codes

The BellSouth SWA FGD CCSAC and the SS7 Signaling Connection, and the Point Code Establishment or Change,

Transfer of Service

BellSouth® Remote Access Service

Customers will be exempt from nonrecurring charges for the installation of new BellSouth SWA transport facilities and optional features associated with those facilities, as set forth in E6.8.1 following, when prompted by the elimination of the unitary tandem-switched rate structure, pursuant to the First Report and Order in CC Docket No. 96-262, released May 16, 1997, per the provisions of E6.7.1 of this Tariff, during the time period established therein. This exemption is applicable to the installation of new switched access facilities in connection with those rearrangements of existing switched access services which qualify for the waiver of service rearrangement nonrecurring charges as set forth in E6.7.1.

Installation of New Service

Nonrecurring charges apply to each BellSouth SWA service installed.

For BellSouth SWA FGA/BellSouth SWA LSBSA and BellSouth SWA FGB/BellSouth SWA TSBSA 1 service which are ordered on a per line or trunk basis respectively, and for BellSouth SWA FGD /BellSouth SWA TSBSA 3 when ordered on a per trunk basis the charge is applied per line or trunk. In addition, a for CCS7 Signaling Connections are installed the charge is applied per signaling connection.

Switched Local Channel

Nonrecurring charges, as set forth in E6.8.1 following, apply to each BellSouth SWA service installed. When one Switched Local Channel is ordered and installed, it is billed at the First Service installed rate. When more than one Switched Local Channel of the same type is ordered and installed at the same locations, for the same IC, at the same time, the first Switched Local Channel is billed at the "First Service" installed charge and the other Switched Local Channels are billed at the "Additional Service" installed charges. Services requested on multiple ASRs will be treated as one request when requirements, as specified in E6.1.7 are met, and will receive "First" and "Additional" treatment.

BellSouth SWA Dedicated Transport

The nonrecurring charge for the BellSouth SWA Dedicated Interoffice Transport, as set forth in E6.8.1 following, will be applied each time BellSouth SWA Dedicated Interoffice Transport is ordered by the IC.

BELLSOUTH TELECOMMUNICATIONS, INC. FLORIDA ISSUED: July 26, 2004 BY: Joseph P. Lacher, President -FL Miami, Florida

E2. GENERAL REGULATIONS

E2.3 Obligations of the IC (Cont'd)

E2.3.14 Jurisdictional Report Requirements¹ (Cont'd)

- A. Jurisdictional Reports (Cont'd)
 - When mixed interstate and intrastate Dedicated Access Service is provided, the jurisdiction will be determined as follows. (Conf'd)
 - If the IC or End User's estimate of the interstate traffic on the service involved constitutes more than 10 percent of the total traffic on that service, the service will be provided in accordance with the applicable rules and regulations of the BellSouth Telecommunications, Inc. Tariff FCC No. 1.

The IC or End User shall keep records from which the percentage of interstate and intrastate use was estimated and upon request of the Company make the records available for inspection as reasonably necessary for purposes of verification of the percentages. The IC or End User shall supply the data within 30 days of the Company request.

- Jurisdictional Report Verification
 - When an IC or End User provides a projected interstate usage percent as set forth in A. preceding, or when a billing dispute arises or a regulatory commission questions the projected interstate percentage for BellSouth SWA, the Company may, by written request, require the IC or End User to provide the data the IC or End User used to determine the projected interstate percentage.. This written request will be considered the initiation of the audit. The IC or End User shall supply the data to an independent auditor within thirty days of the Company request. The IC or End User shall keep records of call detail from which the percentage of interstate and intrastate use can be ascertained as set forth in C. following and upon request of the Company make the records available for inspection at an agreed upon location during normal business hours as reasonably necessary for purposes of verification of the percentages. The Company will audit data from one quarter unless a longer period is requested by the IC or End User and agreed to by the Company. Changes to the reported PIU will not be made for the test period. If the IC or End User does not provide the requested data to the Company or independent auditor within (30) days of the notice of audit, the IC or End User will be in violation of this Tariff and subject to E2.1.8 of this Tariff.

Where attempts to obtain the appropriate data from the IC or End User beyond the 30-day time limit have failed, the Company may provide such documentation to the FPSC as an indication of the IC or End User being in violation of this Tariff.

For BellSouth SWA service, verification audits may be conducted no more frequently than once per year except in extreme circumstances. The Company and IC or End User will attempt to limit the audit to a reasonable time to effectively complete the audit. The Company and IC or End User shall respond promptly to requests generated during the audit to ensure timely completion of the audit.

> Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in E6.1.3.A. of this Tariff (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

E6. BELLSOUTH SWA SERVICE

E6.1 General (Cont'd)

Miami, Florida

E6.1.3 Rate Categories (Cont'd)

- D. BellSouth SWA WATS Service (Cont'd)
 - 2. Applications
 - a. BellSouth SWA WATS Service is provided only for use with BellSouth SWA FGC, BellSouth SWA FGD,
 BellSouth SWA TSBSA 2 or BellSouth SWA TSBSA 3 service. It is for use at the closed end of an BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service or a BellSouth SWA WATS Service or similar type service.
 - Optional Features
 - a. At the option of the IC, the BellSouth SWA WATS Service may be ordered with the Improved Two-Wire Voice Transmission Specifications optional feature (guaranteed specifications are set forth in E6.4.3 following). Certain other features which may be provided in connection with BellSouth SWA WATS Service are available under the Company's local and/or general exchange service tariffs. Examples are:
 - End User access to a Company test line
 - Speed Calling
- E. BellSouth CCS7 Access Arrangement
 - Service Description

BellSouth CCS7 Access Arrangement allows for customer interconnection to the Company at designated Signal Transfer Points (STP) for use with services that require receiving and terminating signaling information using the common channel signaling protocol. CCS7 Access is provided for use with the BellSouth SWA CCSAC option, and described in A.9.e. preceding. For each connection, the customer must order a CCS7 Access Connection and CCS7 Access Fermination. The CCS7 Access Arrangement is provided as follows.

- a. The CCS7 Signaling Connection provides a 2-way digital 56 kbps facility, dedicated to a single customer, which originates at the customer's signaling point of interconnection in a LATA and terminates at a Company Signal Transfer Point (STP) selected by the Company.
- b. The CCS7 Signaling termination provides a dedicated point of interface at a Company STP for customer's CCS7 Signaling Connection.

(DELETED)

A customer will be able to obtain access from each of its Signaling Point Of Interconnection (SPOI) to the Company CCS7 network in one or more LATAs designated by the customer. This arrangement is available for use with Company Feature Group D, TSBSA I switched access service and queries to Company databases pursuant to this tariff.

For ordering proposed, CCS7 Signaling Connections and Terminations are ordered from the customer's SPOI to one or more Facility Switching Point Of Interconnection (FSPOI) locations in the LATA. The customer must order a minimum of two CCS7 Signaling Connections and two CCS7 Signaling Terminations, if the customer's SPOI connects to a customer SSP and a minimum of four CCS7 Signaling Connections and four CCS7 Signaling Terminations, if the customer's SPOI connects to a customer STP. FSPOI locations are set forth in the NECA Tariff FCC No. 4.

BellSouth CCS7 Access Arrangement Usage

BellSouth SWA CCS7 Access Arrangement Usage provides for the use of the Company's CCS7 Access Arrangement network for the transmission of call set-up and non-call set-up traffic. The two types of usage available are as follows:

a. Integrated Switched Digital Network User Part (ISUP) messages, which are used to provide the signaling set-up, supervise and release calls. ISUP usage charges will be assessed per signaling messages delivered to or from the customer, regardless of direction, through its dedicated CCS7 port connection. Specific types of ISUP messages are:

ACM - Address Complete Message

ANM - Answer Message

CPG - Call Progress

FOT - Forward Transfer Message

E6. BELLSOUTH SWA SERVICE

ACCESS SERVICES TARIFF

E6.6 Obligations of the IC (Cont'd)

E6.6.5 Billing Data For Terminating Usage

When an IC uses the service(s) of an alternative access provider or alternative tandem service provider and as a result the Company is unable to record usage terminated via dedicated trunks with sufficient specificity to identify the access IC of record, the alternative access provider or alternative tandem service provider must provide the Company with billing data so the Company can properly measure and bill the access minutes. The record that will be used for the transmission of data is the 110120 record. A description of the record and the fields contained can be found in BellCore Publication Sr-STS-000320, Message Interface. It is the responsibility of the alternative access provider or alternative tandem service provider to provide the billing data information to the Company on a daily basis. Failure on the part of the alternative provider to comply with the requirements of this paragraph will result in the Company's billing the alternative provider all terminating access minutes.

E6.7 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for BellSouth SWA service.

E6.7.1 Description and Application of Rates and Charges

- A. There are three types of rates and charges that apply to BellSouth SWA service. These are monthly recurring rates, usage rates and nonrecurring charges. These rates and charges are applied differently to the various rate elements as set forth following.
 - Monthly Rates
 - Monthly rates are flat recurring rates that apply each month or fraction thereof that a specific rate element is provided. Elements having a monthly "per mile" charge are charged per mile, per month. For the Switched DNAL, the applicable mileage band rate will be applied per mile, per month. For billing purposes each month is considered to have 30 days.
 - Usage Rates
 - Usage rates are rates that apply only when a specific rate element is used. These are applied on a per access minute basis or on a per call basis. BellSouth SWA Common Transport transmission rates will be applied on a per minute of use, per mile basis. Usage rates are accumulated over a monthly period.
 - a. BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service
 - A per call charge, as specified in E6.8.4 following, applies for each 800 call utilizing BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service for which an BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service IC is identified.
 - b. BellSouth SWA 500 Service
 - A per call charge, as specified in E6.8.13 following, applies for each 500 call.
 - c. (DELETED)
 - Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for a specific work activity (i.e., installation of new service or change to an existing service). The types of nonrecurring charges that apply for BellSouth SWA service are: installation of new service, installation of optional features and BSEs, service rearrangements, transfer of service, BellSouth SWA 500 service. BellSouth SWA 500 service. BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service and BellSouth SWA 900 service.

E6.7 Rate Regulations (Cont'd)

E6.7.1 Description and Application of Rates and Charges (Cont'd)

A. (Cont'd)

Nonrecurring Charges (Cont'd)

The following list identifies the individual BellSouth SWA service elements, for which charges are set forth in Section £6. of this Tariff, which are eligible for credit of nonrecurring charges under "Service Installation Guarantee" found in £2.4.10 of this Tariff. Customers with these services are not eligible for the Service Installation Guarantee when the requested installation, move or rearrangement service order interval is four days or less as measured from the Application Date of the order.

BellSouth SWA Transport Installation

BellSouth SWA Transport Interoffice Channel Installation

Optional Features (Installed coincident with Switched Local Channels, Switched Interoffice Channels and associated Channelization Equipment), and

Dedicated Network Access Line Service

The following list identifies the BellSouth SWA service elements not eligible for credit of nonrecurring charges under "Service Installation Guarantee" found in E2.4.10 preceding.

BellSouth SWA service Rearrangements, Conversions, and/or Inside Moves.

Activation of BellSouth SWA 500, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service and BellSouth SWA 900 service NXX codes

The BellSouth SWA FGD CCSAC and the SS7 Signaling Connection, and the Point Code Establishment or Change, and,

Transfer of Service

BellSouth Remote Access Service

(T)

Customers will be exempt from nonrecurring charges for the installation of new BellSouth SWA transport facilities and optional features associated with those facilities, as set forth in E6.8.1 following, when prompted by the elimination of the unitary tandem-switched rate structure, pursuant to the First Report and Order in CC Docket No. 96-262, released May 16, 1997, per the provisions of E6.7.1 of this Tariff, during the time period established therein. This exemption is applicable to the installation of new switched access facilities in connection with those rearrangements of existing switched access services which qualify for the waiver of service rearrangement nonrecurring charges as set forth in E6.7.1.

a. Installation of New Service

Nonrecurring charges apply to each BellSouth SWA service installed.

For BellSouth SWA FGA/BellSouth SWA LSBSA and BellSouth SWA FGB/BellSouth SWA TSBSA 1 service which are ordered on a per line or trunk basis respectively, and for BellSouth SWA FGD/BellSouth SWA TSBSA 3 when ordered on a per trunk basis the charge is applied per line or trunk. In addition, *for* CCS7 Signaling Connections installed, the charge is applied per signaling connection.

(1) Switched Local Channel

Nonrecurring charges, as set forth in E6.8.1 following, apply to each BellSouth SWA service installed. When one Switched Local Channel is ordered and installed, it is billed at the First Service installed rate. When more than one Switched Local Channel of the same type is ordered and installed at the same locations, for the same IC, at the same time, the first Switched Local Channel is billed at the "First Service" installed charge and the other Switched Local Channels are billed at the "Additional Service" installed charges. Services requested on multiple ASRs will be treated as one request when requirements, as specified in E6.1.7 are met, and will receive "First" and "Additional" treatment.

(2) BellSouth SWA Dedicated Transport

The nonrecurring charge for the BellSouth SWA Dedicated Interoffice Transport, as set forth in E6.8.1 following, will be applied each time BellSouth SWA Dedicated Interoffice Transport is ordered by the IC.

All BellSouth marks contained herein and as set forth in the trademarks and servicemarks section of this Tariff are owned by BellSouth Intellectual Property Corporation.
