Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399-0850

Dear Ms. Salak:

Pursuant to Florida Statute 364.051, we are filing revisions to our General Subscriber Service Tariff. Attached for filing with the Commission are the following tariff pages:

General Subscriber Service Tariff

Section A13 - Fourth Revised Page 58
- Twelfth Revised Page 59
- Sixth Revised Page 61

These revisions introduce a new Customized Code Restriction option. Attachment B contains an Executive Summary of the changes.

Acknowledgment, date of receipt and authority number of this filing are requested. A duplicate letter of transmittal is attached for this purpose.

Yours very truly,

Marshall M. Criser III (slg)

Regulatory Vice President

Executive Summary

Introduction

This tariff filing introduces a new dialing restriction option for Customized Code Restriction service. The filing also makes minor updates to some existing options.

Description of Service

Some current dialing restriction options include the ability to block dialing that begins with 101XXXX to reach a certain type of long distance carrier, but the existing options also block other dialing arrangements.

This tariff filing adds a dialing restriction option that prohibits only dialing arrangements that begin with 101XXXX. The new option is available only to business customers.

Business customers who negotiate special long distance service rates with a carrier may benefit from special dialing arrangements that prohibit the placing of long distance calls via other carriers on a dial-around basis. Providing this capability in the telephone company switch is a logical solution for some customers.

The rate for the Prohibit 101XXXX Dialing option is \$1.50 per month. Normal service charges that apply for Customized Code Restriction also apply for Prohibit 101XXXX Dialing.

Revenue Information

The revenue for this service will cover its cost.

A13.21 Billed Number Screening

A13.21.1 General

- A. Billed Number Screening (BNS) will be furnished at the Company's option and upon agreement by the customer to control instances of fraud associated with billed to third party, and/or collect calls. This service may also be furnished in response to a customer request. Service Connection Charges in Section A4. of this Tariff are not applicable when BNS is initiated by the Company. A Secondary Service Order Charge is applicable when BNS is requested by the customer.
- B. Subscriber request of BNS does not relieve the requesting customer of responsibility for calls, other than Company intraLATA calls, which originate from the subscriber's line. Failure of other long distance providers to request BNS or to act on the information digits passed to them when requesting and receiving BNS information could result in charges being placed on the subscriber's line.
