**RE: TL 718, Quincy Telephone Company;
Grandfather BRI & VTN Services**

Dear Ms. Salak:

Included in this submission are the following tariff pages for Quincy Telephone Company:

| | |
|--------------------|-------------------------------|
| Section A10 | Fifth Revised Sheet 12 |
| | First Revised Sheet 56 |
| | First Revised Sheet 59 |
| | First Revised Sheet 61 |
| | First Revised Sheet 63 |

The purpose of this filing is to grandfather the Integrated Services Digital Network (ISDN) Basic Rate Interface (BRI) as well as the Virtual Telephone Network (VTN) Key Line Services. These services will be grandfathered to existing customers effective August 8, 2013. ISDN BRI & VTN Key Line Services will not be available for new customers after this date.

TDS Telecom requests this filing become effective August 8, 2013.

If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kris Groth", written over a light blue circular background.

MISCELLANEOUS SERVICE ARRANGEMENTS

VIRTUAL TELEPHONE NETWORK

A. GENERAL

Virtual Telephone Network (VTN) allows business customers to integrate multiple telephone features and functions by configuring VTN lines into a single VTN Group. The line type and quantity is determined by the customer's need. A customer may provision VTN service on VTN Standard or VTN Digital Key Lines and Channels.¹

(C)

VTN is offered only as a complete, integrated service arrangement. The network access, features, and other components of the service are not provided separately or in conjunction with other exchange services. Any other arrangements are outside the scope of this offering.

B. STANDARD AND OPTIONAL FEATURES

1. All VTN systems will have the option to be equipped with the following features at no charge:
 - a. Intercom Dialing
Allows VTN users to call other stations within their VTN Group using an abbreviated dialing pattern.
 - b. Distinctive Ringing
Allows VTN users to listen to the ringing pattern or Call Waiting tone to determine the type of call (intergroup, intragroup, recall, or other feature notification).
 - c. Station Restriction
 - Unrestricted
Allows VTN users to place all calls.
 - Toll Restricted
Restricts VTN users from placing toll calls.
 - Fully Restricted
Allows VTN users to only place calls within the VTN Group.
 - 900/976 Call Blocking
Restricts VTN users from placing 900/976 calls.
 - 900/976 & International Call Blocking
Restricts VTN users from placing 900/976 and international calls.
 - d. Attendant Dial "0"
Allows VTN users to reach an internal attendant by simply pressing "0".
 - e. Direct Inward Dialing (DID)
Allows VTN users to directly receive incoming calls without the assistance of an attendant.

¹ The VTN Key Line & Channel Service will be grandfathered to existing customers effective August 8, 2013. The service will not be available to new customers after this date.

B. STANDARD AND OPTIONAL FEATURES (Continued)

2. (Continued)

- t. 3-Way Calling
Allows a VTN user to add a third party to an existing call.
- u. Last Number Redial
Allows a VTN user to automatically redial the last outgoing telephone number dialed.
- v. Call Blocking (per call)
Allows a VTN user to block the delivery of their Caller ID information on a per call basis by dialing a special code prior to placing a call.
- w. Consultation Hold
Allows a VTN user to place a call on hold in order to initiate a second call, answer a waiting call, consult privately with another party, or return to the previously held call.
- x. Make Set Busy
Allows a VTN user to make a particular station appear busy to incoming calls.

3. Each VTN Digital Key¹ Station will have the option to be equipped with the following features at no charge. VTN users must provide their own compatible premises equipment to utilize these features. (C)

- a. Expansion Modules
Provides the VTN user with a Digital Key telephone to have additional keys for features or call appearances by adding one or two Expansion Modules to their VTN Digital Key station.
- b. Automatic Dial
Provides autodialing of a single directory number via a single key on a Digital Key telephone.
- c. Multiple Call Appearances of a Directory Number
Allows the VTN user to have up to five (four additional) appearances of the primary directory number or secondary directory number assigned to the Digital Key telephone, providing the capability of multiple hunting incoming or outgoing calls associated with that directory number.
- d. Shared Call Appearances of a Directory Number
Allows a directory number(s) from any VTN station to appear on customer-provided sets of other users.
- e. Busy Lamp Field / Direct Station Selection
Allows the VTN Digital Key station to monitor the busy status of another VTN station line or to directly call another VTN station by depressing the associated BLF/DSS key.

¹ The VTN Key Line & Channel Service will be grandfathered to existing customers effective August 8, 2013. The service will not be available to new customers after this date. (C)

C. CONDITIONS AND LIMITATIONS

1. A VTN customer must have a minimum of two VTN lines and all lines must be served by the same switch in the same local calling exchange.
2. The minimum charge period for services provided under this tariff shall be for twelve months.
3. VTN is offered subject to the availability of outside plant and/or Central Office facilities. Individual feature availability and availability of Digital Key lines may differ by customer location.
4. Requests for special feature or service arrangements not listed in this tariff may be subject to additional charges.
5. The Customer is responsible for the payment of any additional cost incurred when forwarding or transferring calls over the public switched network between the VTN station and the station at which the call is forwarded or transferred.
6. VTN service does not include any terminal equipment which may be required on the customer's premises.
7. Unless specifically exempted, VTN service shall be subject to all general regulations applicable to the provision of service by the telephone company as stated in the general tariff.
8. Account Retention is not available with VTN Service.
9. Each VTN Digital Key line may be provisioned with a maximum of 2 Digital Key Channels.
10. Customers are entitled to one directory listing per VTN Group without charge. If the customer chooses not to list their main directory number, a Non-Published Number charge will apply. Additional Business Directory Listings are available. Please refer to Section A1 of this tariff.
11. VTN lines are provided in a non-blocking arrangement without trunk equivalents or simulated facility groups.
12. VTN Digital Key lines are provisioned for voice-only applications and may not be used for data transmission.

2. System Charge

A \$5.00 recurring charge applies for each VTN Group established for a customer within the local company's serving territory. This charge does not apply per location when multiple locations are served by the same VTN Group.

¹ All rates in this section are exclusively offered in conjunction with VTN service.

² The total number of VTN Standard and Digital Key lines at all locations served by the VTN Group will be used to determine the discount level. Secondary Directory Numbers, Digital Key Channels, and other features related to directory numbers are not included in determining discount levels.

³ Discount levels are based on the minimum number of lines a customer commits to for the term of the contract. The actual number of lines in service may be higher.

⁴ This service will be grandfathered to existing customers effective August 8, 2013. The service will not be available to new customers after this date.
