This filing proposes to reduce the originating and terminating carrier common line (CCL) rates and the switched access interconnection charge and increase the Basic Access Line rate for Residence and Business customers by \$2.25 and \$2.70 respectively. In addition, we are increasing rates for Service Ordering Charges and the access line portion of Sprint Solutions Packages. EAS and ECS calling plans are being changed to include a 5 call allowance for all applicable routes in the aggregate per residential access line per month. Also, the percent of a customer's gross annual income to qualify for Lifeline Assistance has been changed from 125% to 135% of the federal poverty guidelines. The poverty guidelines apply on an individual residential access line basis per month. Obsolete services for which there are no longer any customers are being deleted.

3. ECS - Extended Calling Scope

Also called Message Rate Plan, this plan was instituted in Docket No. 891239-TL, Order No. 24595, and established a \$.25* per call message rate plan for exchanges with rate centers within a 1-10 mileage band of each other. The plan may also be established for exchanges with rate centers over 11 miles, with the approval of the Florida Public Service Commission.

(T)

Each call between the designated exchanges listed under Plan A will be charged for at a flat rate of \$.25 per call of unlimited duration. Such calls will be dialed as seven-digit local calls where the involved exchanges are in the same NPA. Where the exchanges are in different NPA's, the plan may be implemented on a 10 digit basis due to NXX code conflicts. This rate is applicable to both residential and business customers.

Plan A includes calls dialed or placed through an operator from all single party access lines, rotary lines, Centrex lines, PBX trunks, SmallTalk access lines and pay telephone lines. Plan A calls placed from SmallTalk access lines and message-rated PBX trunks will be assessed \$.25 per call; such calls are not included in call allowances. Calls placed as landline-to-mobile will be billed at \$.25 per call unless the mobile carrier subscribes to the landline-to-mobile reverse billing option in Section A25, G. Of this tariff. Operator assisted local call charges are applicable to plan calls placed through an operator.

Plan B routes include calls dialed and placed from all residential access lines, residential rotary, residential Centrex, SmallTalk and residential PBX to be billed at a flat rate of \$.25 per call* regardless of duration. Calls dialed and placed from business access lines, business rotary, business Centrex, pay telephones and business PBX will be billed at \$.10 for the first minute and \$.06 for each additional minute of use. Calls placed as landline-to-mobile will be billed at either \$.25* per call for residential services or \$.10/.06 per minute for business services unless the mobile carrier subscribes to the landline-to-mobile reverse billing option in Section A25 I. of this tariff. Operator assisted local call charges are applicable to plan calls placed through an operator.

C. DIALING PLANS

3. ECS - Extended Calling Scope

Also called Message Rate Plan, this plan was instituted in Docket No. 891239-TL, Order No. 24595, and established a \$.25* per call message rate plan for exchanges with rate centers within a 1-10 mileage band of each other. The plan may also be established for exchanges with rate centers over 11 miles, with the approval of the Florida Public Service Commission.

Each call between the designated exchanges listed under Plan A will be charged for at a flat rate of \$.25 per call of unlimited duration. Such calls will be dialed as seven-digit local calls where the involved exchanges are in the same NPA. Where the exchanges are in different NPA's, the plan may be implemented on a 10 digit basis due to NXX code conflicts. This rate is applicable to both residential and business customers.

Plan A includes calls dialed or placed through an operator from all single party access lines, rotary lines, Centrex lines, PBX trunks, SmallTalk access lines and pay telephone lines. Plan A calls placed from SmallTalk access lines and message-rated PBX trunks will be assessed \$.25 per call; such calls are not included in call allowances. Calls placed as landline-to-mobile will be billed at \$.25 per call unless the mobile carrier subscribes to the landline-to-mobile reverse billing option in Section A25, G. Of this tariff. Operator assisted local call charges are applicable to plan calls placed through an operator.

Plan B routes include calls dialed and placed from all residential access lines, residential rotary, residential Centrex, SmallTalk and residential PBX to be billed at a flat rate of \$.25 per call* regardless of duration. Calls dialed and placed from business access lines, business rotary, business Centrex, pay telephones and business PBX will be billed at \$.10 for the first minute and \$.06 for each additional minute of use. Calls placed as landline-to-mobile will be billed at either \$.25* per call for residential services or \$.10/.06 per minute for business services unless the mobile carrier subscribes to the landline-to-mobile reverse billing option in Section A25 I. of this tariff. Operator assisted local call charges are applicable to plan calls placed through an operator.

* Residential customer calls under this plan will be based on an allowance of five (5) calls for all applicable routes in the aggregate. This allowance applies on a per account basis per month.
