## Congratulations

**Mary Anne** (GCL) and Joe Helton's daughter, Sarah, spent the bulk of her COVID time studying for her masters at Florida State University's College of Business, where she was the recipient of a Public Company Accounting Oversight Board Scholarship. When she was not studying for her Masters in Accounting, she was studying for the CPA exam. Sarah graduated from FSU this summer and she learned this Fall that she passed all four CPA exams. She is now living in Orlando where she is working as an auditor for EY. *We are very proud of Sarah!*

## Condolences

Our condolences to **Brenda Stallcup** (IDM), whose father, Charles Wayne Fogle, passed away on Veterans Day. He was a 20-year Navy Veteran with tours of duty including Hawaii, the Philippines, Virginia, Japan, the Azores, Pensacola twice, Guam, and Washington D.C. After retirement he went on to become a licensed general contractor for many years.

*I have always been a military brat and proud of all of our Armed Forces; however, Veterans Day will now take on an additional meaning to me. RIP Dad.*

# St. Marks Wildlife Refuge

A beautiful morning—sunshine and a crisp breeze—made an excellent setting for a visit to St. Marks Wildlife Refuge.

As I wound my way toward the lighthouse, there was a small group of birders and photographers on the side of the road next to the salt marsh. I'd previously seen a bald eagle in this area so I stopped to maybe get more pictures.

To my immense surprise, instead of a bald eagle enjoying sushi on a stump, the small group of folks had stopped to take pictures of a pink flamingo. I'd never seen a pink flamingo in a natural setting so this was an excellent treat! After the rush of the flamingo sighting was still coursing through me, I drove on towards the lighthouse for what I hoped would be more excitement.

Following the flamingo, I had a photoshoot with this juvenile blue heron. He seemed fearless as he was checking me out while fishing for breakfast.

While "visiting" with the heron, there was a commotion farther into the marsh near a bed of sea grass. I looked up when the sound of thrashing was punctuated by calls from the close-by herons.

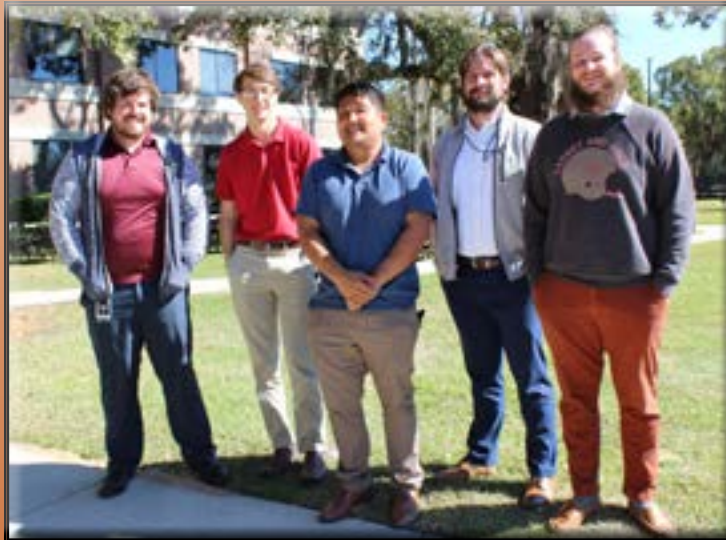

When I first spotted the alligator, I thought it had caught one of the birds, but it turned out to be a very large fish that had been soaking up the sun in a shallow pool.

# **SPOOKY TIMES IN THE CLERK'S OFFICE**

To celebrate Halloween, staff in the Office of Commission Clerk held a door decorating contest on October 29.

Volunteers from the General Counsel's Office were asked to judge each door on the following criteria: Originality/Creativity, Visual Impact and Craftsmanship. It was a very close competition; five different entries received at least one first-place vote and first through third place were each separated by only one point. The winner of a special, one-of-a-kind trophy designed and built by **Hong Wang's** husband was **Tiffany Brown**.

Wishing you all the joy of the season.

# December Holidays

*The best way to be rewarded for a long year of hard work is with a much anticipated holiday season.*

Kicking off with Hanukkah and wrapping up with Christmas, Kwanzaa, and New Year's, the month of December is filled with several opportunities to celebrate peace, joy, and generosity with friends and loved ones.

For many, this year's festivities will be graciously received given it will likely be the closest to a "normal" occasion since the COVID-19 pandemic started in March 2020. As we close out 2021, we want to welcome 2022 with hope for great health and fortune.

If you are in a position to, please consider giving to clothing, food, and toy donation drives or preparing and serving meals in your community.
