FPL's Response to Staff's Twelfth Interrogatories
No. 179.

QUESTION:

Referring to witness Cohen's testimony, page 38, lines 1 and 2:

- a. How many customers take service under Gulf's Real Time Pricing tariff (6.80) as of June 30, 2021?
- b. Please describe the reason(s) that the company proposes to close Gulf's Real Time Pricing tariff (6.80) to new customers.

RESPONSE:

- a. As of June 30, 2021, there were 124 customers taking service from Gulf's Real Time Pricing ("RTP") tariff.
- b. As explained in detail in Section V of the rebuttal testimony of FPL witness Cohen filed in this docket on July 14, 2021, FPL proposes to eliminate the RTP tariff because the program is significantly subsidized by the general body of customers and is not working as intended because most RTP customers do not curtail their load in response to high hourly prices.
