**FPL's Response to OPC's Third Request for Production
of Documents No. 70.**

(including attachments for No. 70)

QUESTION:

Cost of Capital:

Page 42 of Witness James Coyne's direct testimony indicated that he began his proxy group selection process with the 36 electric utilities followed by Value Line. Witness Coyne then proceeded to outline 8 selection criteria used to screen his proxy group. This screening process resulted in Witness Coyne's proxy group being comprised of 14 different utilities as shown in Figure 10 and Exhibit JMC-3 of his direct testimony.

Please provide the screening criteria results for the 22 other companies that ultimately did not make it into Witness Coyne's proxy group.

RESPONSE:

Please see responsive document.
