RE: Tariff Update – Florida Access Tariff No. 1 – GTC, Inc. d/b/a FairPoint Communications

Dear Commission Clerk:

Enclosed for the Commission's approval, GTC, Inc. d/b/a FairPoint Communications hereby submits the following tariff page with changes to be effective March 28, 2014:

Section 7, First Revised Page 73

The purpose of this filing is administrative only. When the company changed from AT&T to GTC, Inc., the tariff was corrected to display the new company name. However, this page had not been corrected to show the product name "GTC Switched Ethernet Service." There was also a reference to an Interstate Access Guidebook which was removed because it does not exist.

Please contact Beth Westman at 207.535.4249 or [bwestman@fairpoint.com](mailto:bwestman@fairpoint.com) with any questions or concerns regarding this filing.

Sincerely,

Ryan Taylor  
Director Government Relations  
FairPoint Communications  
P: 603-656-8102

ACCESS SERVICES

---

SECTION 7 - DEDICATED ACCESS SERVICES (Cont'd.)

7.2 Service Description (Cont'd.)

7.2.9 GTC Metro Ethernet Service (Cont'd.)

X. Migration to GTC Switched Ethernet Service (T)

As of January 18, 2012, if the customer migrates from Metro Ethernet Service to GTC Switched Ethernet Service in accordance with all terms and conditions in this tariff applicable to GTC Switched Ethernet Service, then the customer may do so without termination charges given all of the following conditions are met: (T) (C)

- The customer must issue a disconnect order for their existing Metro Ethernet service and place a service order for GTC Switched Ethernet Service. If over-lapping service is required, billing will apply. (T)
- Standard nonrecurring charges to install GTC Switched Ethernet Service, if applicable, will apply. (T)
- The term of the new contract must be equal to or greater than the remaining time left on the existing Metro Ethernet contract and the Monthly Recurring Charge of the new GTC Switched Ethernet service must be equal to or greater than the Monthly Recurring Charge of the Metro Ethernet service being replaced. (T)
- The new GTC Switched Ethernet Service and the Metro Ethernet service must be billed to the same customer of record at the same location(s). (T)
- The customer's existing Metro Ethernet Service must have been in service at least 12 months.
- Migration is contingent on availability of fiber and equipment to serve the location being migrated. Other Special Construction charges, as necessary, may apply.
- If Special Construction charges were applicable to the existing Metro Ethernet service being replaced, and those charges were not already paid, they must be carried forward to the new GTC Switched Ethernet Service contract. (T)
