NOTICE OF PROPOSED AGENCY ACTIONORDER ESTABLISHING PRICE INDEX FOR APPLICATION IN 1992

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding pursuant to Rule 25-22.029, Florida Administrative Code.

Each year, pursuant to Section 367.081(4)(a), Florida Statutes, and Rule 25-30.420, Florida Administrative Code, this Commission is required to "establish a price increase or decrease index for major categories of operating costs incurred by [water and wastewater] utilities subject to its jurisdiction reflecting the percentage of increase or decrease in such costs from the most recent 12-month historical data available."

Upon consideration, we find that the index should be applied to all operation and maintenance costs, except for amortization of rate case expense, costs subject to pass-through adjustments pursuant to Section 367.081(4)(a), Florida Statutes, and adjustments or disallowances made in a utility's most recent rate proceeding. The latter two categories are specifically excluded from application of the index by Section 367.081(4)(a), Florida

Statutes. This is consistent with what we have done in prior years.

Pursuant to Rule 25-30.420(1)(b), Florida Administrative Code, we have received the results of various United States Government indicators, including the Gross National Product (GNP) Implicit Price Deflator Index, the Consumer Price Index, and several wholesale indices, as well as other alternatives, and we find that the GNP Implicit Price Deflator Index is the most appropriate for use in determining the water and wastewater index. This, too, is consistent with what we have done in prior years. The 1992 GNP Price Deflator Index will not be available until the publication of the March, 1992, "Survey of Current Business" prepared by the United States Department of Commerce, Bureau of Economic Analysis. Since we are required by statute to establish the index by March 31, we are issuing this notice of proposed agency action now and we will incorporate the actual index percentage in a subsequent final Order.

Pursuant to Rule 25-30.420(2)(f), Florida Administrative Code, utilities must use annualized revenue figures in the index calculation if there have been any changes in the utility's rates during or subsequent to the test year. Consistent with what we have done in prior years, we will provide each utility with a sample format for calculating annualized revenues as part of a packet to be attached to the final order. This packet explains the index and pass-through rate adjustments and how to apply for each. Also to be attached to the final order are a form for the calculation of the 1992 price index adjustments, copies of the appropriate rules and statutes, sample affidavits, and sample notices to customers for both the price index and pass-through adjustments. Consistent with changes in the Florida Public Service Commission Administrative Procedures effective September 1, 1989, any utility desiring to file for a price index or pass-through adjustment shall file six copies of the index and/or pass-through application with the Division of Water and Wastewater.

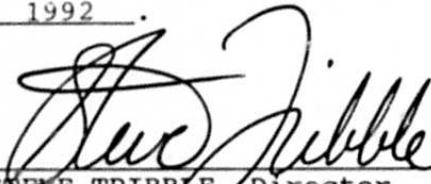

It is therefore,

ORDERED by the Florida Public Service Commission that a price index is hereby established for use in 1992 pursuant to Section 367.081(4)(a), Florida Statutes, as set out in the body of this Order. It is further

The action proposed herein is preliminary in nature and will not become effective or final, except as provided by Rule 25-22.029, Florida Administrative Code. Any person whose substantial interests are affected by the action proposed by this order may file a petition for a formal proceeding, as provided by Rule 25-22.029(4), Florida Administrative Code, in the form provided by Rule 25-22.036(7)(a) and (f), Florida Administrative Code. Any objection or protest filed in this docket before the issuance date of this order is considered abandoned unless it satisfies the foregoing conditions and is renewed within the specified protest period.

If this order becomes final and effective on the date described above, any party adversely affected may request judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or by the First District Court of Appeal in the case of a water or wastewater utility by filing a notice of appeal with the Director, Division of Records and Reporting and filing a copy of the notice of appeal and the filing fee with the appropriate court.
