ORDER APPROVING TARIFF

BY THE COMMISSION:

On September 16, 1991, Alltel Florida, Inc. (Alltel or the Company) filed tariff revisions proposing a promotional plan to waive nonrecurring service connection charges for business and residential customers who subscribe to additional access lines. The Company requests that the charges be waived for the period of April 1, 1992 to June 30, 1992.

The current nonrecurring charges for a second access line are \$53.50 for residential customers and \$56.50 for business customers. However, these amounts include a \$14.00 premises visit which may not be necessary for some customers.

Alltel asserts that the promotion will generate additional revenue through an increase in access lines revenue as well as through additional subscriptions to enhanced services that may occur when a customer subscribes to an additional access line. In addition, the Company believes that this filing will result in additional toll revenue.

Alltel has not provided us with cost data regarding this offering and concedes that its incremental cost to provide additional access lines is unknown. Additionally, the Company has not provided us with data confirming the profitability of this offering. However, we historically have not required as much cost data from the smaller local exchange companies because of the cost of performing such studies.
