ORDER APPROVING TARIFF

BY THE COMMISSION:

This docket was initiated to address the restructure and repricing of intraLATA foreign exchange service (FX service) for local exchange companies (LECs), a necessary prerequisite to the elimination of the private line pool. The restructure included repricing both the closed and open ends of intraLATA FX service. This Commission has approved the restructure and repricing of intraLATA FX service for all LECs except Southland Telephone Company (Southland or the Company). Southland has no FX circuits and, therefore, the Company will have no revenue nor customer impact with the proposed restructure.

Southland, as well as all other LECs in Florida, concurs in the rate structure and rates in the closed end portion of Southern Bell Telephone and Telegraph Company's (Southern Bell) FX tariff. Since the revenue associated with FX closed end is included in the industry's intraLATA private line pool, the changes proposed by Southern Bell for the FX closed end will apply to all Florida LECs.

Southland proposes on the open end to use a flat rate surrogate. Southland does not have the software capability to rate usage or message sensitive rates on an inward or outward basis. Southland's proposed open end rates are as follows:

	Nonrecurring charge	Monthly rate
Exchange Access	\$20.00	\$45.00

Southland's proposed exchange access rate is equivalent to rates previously approved for St. Joe, Florala, and Indiantown.

We approve the tariff as filed with an effective date of April 12, 1992.
