NOTICE OF PROPOSED AGENCY ACTION ORDER
RELATING TO TELECOMMUNICATION RELAY SERVICE

BY THE COMMISSION:

The Florida Public Service Commission has entered into a contract with MCI for the provision of the Florida Relay Service (TRS), pursuant to Chapter 427, Florida Statutes. By our decision at the April 7, 1992, agenda, we hereby confirm that the contract with MCI for the provision of relay services requires that intraLATA toll relay traffic be automatically delivered (i.e., without the need for the caller to so request) to the caller's local exchange company (LEC) for completion and billing.

In addition, the LECS are required to accept and process intraLATA toll relay traffic from MCI at the access tandem within the EAEA of the originated call.

Lastly, Southern Bell is hereby required to develop and offer to MCI a service (central office intermachine trunks) for MCI to use to transfer calls when a caller requests that a company other than MCI handle a relay call. This service should allow calls to be passed to other companies in a manner similar to calls coming into the tandem from one of Bell's own central offices. This will allow the relay center to direct the call to the company requested by the caller along with necessary billing information. Southern Bell should file a tariff for this service by April 30, 1992.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that that the local exchange and interexchange telephone companies comply with the requirements of this order. It is further

ORDERED that our proposed action shall become final following expiration of the protest period specified below, if no
