ORDER APPROVING TARIFF

BY THE COMMISSION:

On February 4, 1992 Southern Bell Telephone and Telegraph Company (Southern Bell) filed a proposed tariff amendment to waive the non-recurring charges for Digital Data Access Service (DDAS) installed under either the 24 to 42 month or the 43 to 60 service period. The promotional offering parallels a similar promotional offering for SynchroNet<sup>®</sup> service in the Private Line Service Tariff. Southern Bell's filing proposes that the waiver shall become effective April 3, 1992 and run for six weeks.

DDAS is designed to transmit data for point-to-point or multi-point special access lines at speeds ranging from 2.4 to 64 Kbps. No stimulation is projected for DDAS as a result of this promotion. The anticipated demand reflects the normal demand for new customers subscribing to this service during the six week promotional period. DDAS provided under this waiver will cover its cost and provide contribution on a per circuit basis. The resulting loss of the 24 and 43 month service periods would \$43,696 and \$113,086 respectively assuming a 100% take for 9.6 and 56 Kbps circuits. If customers choose a contract rate, then the revenue impact would be zero. Accordingly, the possible range of revenue impact for this filing would be between \$0 and \$113,086.

We find the waiver of non-recurring charges for DDAS to be an appropriate promotional tariff.

Based on the foregoing, it is
