ORDER APPROVING REVISIONS TO CONSERVATION PROGRAM

BY THE COMMISSION:

On February 28, 1992, Clay Electric Cooperative, Inc. (Clay) filed with this Commission revised Rate Schedule R which constitutes a modification to its conservation plan, approved by the Commission in Order No. 23553, Docket No. 900112-EG. The proposed change doubles existing credits for current programs (water heater, central heat and central air) and adds two new options allowing for larger interruptions of central heat and central air services.

The increase in load management credits should increase program participation and thereby reduce the need for capacity purchases by Clay in the future. Our Staff has reviewed the proposed revisions and recommends their approval.

In consideration of the foregoing, it is

ORDERED by the Florida Public Service Commission that Clay Electric Cooperative, Inc.'s revisions to its conservation plan as described in the body of this Order are approved. It is further

ORDERED that this Order shall become final and this docket shall be closed unless an appropriate petition for formal proceeding is received by the Division of Records and Reporting, 101 East Gaines Street, Tallahassee, Florida 32399-0870, by the close of business on the date indicated in the Notice of Further Proceedings or Judicial Review.
