DOCKET NO. 20250001-EI
ORDER NO. PSC-2025-0147-CFO-EI
ISSUED: April 29, 2025

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S
SECOND REQUEST FOR EXTENSION OF CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 08433-2021, X-REF. 03591-2018)

On February 21, 2025, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed its Second Request for Extension of Confidential Classification (Request) of certain information provided pursuant to Audit No. 2018-019-4-1 (Document No. 08433-2021, x-ref. 03591-2018). This material was originally granted confidential treatment by Order No. PSC-2018-0381-CFO-EI, issued August 1, 2018. Confidential classification was extended by Order No. PSC-2022-0083-CFO-EI, issued February 21, 2022.

Request for Confidential Classification

The period of confidential treatment granted by Order No. PSC-2022-0083-CFO-EI, will soon expire. FPL contends that the information provided pursuant to Audit No. 2018-019-4-1 warrants continued treatment as proprietary and confidential business information within the meaning of Section 366.093(3), F.S.

This information is intended to be and is treated by FPL as private, and its confidentiality has been maintained. This information includes internal auditing controls, notes of internal auditors, reports of internal auditors, and information relating to internal auditing reports issued in 2017. FPL contends that this information is protected by Section 366.093(3)(b), F.S.

In addition, this material contains pricing and other terms, payment records, and vendor and supplier rates for electric energy and capacity, natural gas, and natural gas storage. The disclosure of this contract data would impair FPL's efforts to purchase energy and capacity related goods or services on favorable terms and would impair the competitive interests of both FPL and its vendors. FPL contends that this material is protected by Sections 366.093 (d) and (e), F.S.

Ruling

Section 366.093(1), F.S., provides that records the Florida Public Service Commission (Commission) has found to contain proprietary business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential business information includes, but is not limited to:

- (b) Internal auditing controls and reports of internal auditors.
- (d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.
- (e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information described above appears to be information concerning internal audits, contractual data, and competitive interests, the disclosure of which would impair the efforts of FPL to negotiate the lowest price for goods and services or impair the competitive business of FPL, its affiliates or its vendors. Thus, the information identified in Document No. 08433-2021, x-ref. 03591-2018, shall be granted continued confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order unless good cause is shown that protection from disclosure shall be for a specified longer period. FPL has requested that this information be protected for a period of 36 months due to the fact that if the pricing formulas, actual volumes of fuel purchases, and multi-year contractual terms are made public prior to that date, this data, combined with information already available in the market, could allow suppliers to accurately predict FPL's fuel supply needs thereby driving up the price of fuel passed on to customers. FPL also notes that audit information is maintained by the Commission for a period of seven years and has historically been afforded protection for that entire period for the reasons stated above. Given these factors this material shall be granted confidentiality for a period of 36 months from the date of this Order.

At the conclusion of the 36 month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Gabriella Passidomo Smith, as Prehearing Officer, that Florida Power & Light Company's Second Request for Extension of Confidential Classification of Document No. 08433-2021, x-ref. 03591-2018, is granted. It is further

ORDERED that the information in Document No. 08433-2021, x-ref. 03591-2018, for which confidential classification has been granted, shall remain protected from disclosure for a period of up to 36 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Gabriella Passidomo Smith, as Prehearing Officer, this 29th day of April, 2025.
