Mrs. Beth Salak Director, Division of Communications Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, Florida 32399-0850

Dear Mrs. Salak:

Pursuant to Florida Statute 364.051, we are filing revisions to our General Subscriber Service Tariff. Attached for filing with the Commission are the following tariff pages:

### **General Subscriber Service Tariff**

A42 3rd Revised Page 45 7<sup>th</sup> Revised Page 37

This tariff will introduce PRI Expedite charges and a change in BellSouth's PRI move policy.

Acknowledgment, date of receipt, and authority number of this filing are requested.

Your consideration and approval will be appreciated.

Yours very truly,

Jerry D. Hendrix (slg)

Regulatory Vice President

Attachments

# EXECUTIVE SUMMARY FL 2005-050

## **Tariff Change**

This tariff introduces two new order charges for PRI, Expedite Request Charge and Due Date Charge Charge. Additionally, a change was made to the PRI move policy.

## **Rationale**

BellSouth hopes these new charges will 1) help BellSouth recoup its costs, 2) encourage Customers to give more serious consideration to the selection of an installation date, and 3) deter those Customers who are "gaming" the system by pushing dates out, then expediting, then changing dates again, etc.

## **Revenue Impact**

This service will cover its cost.

## A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

## A42.3 BellSouth Primary Rate ISDN (Cont'd)

### A42.3.1 General (Cont'd)

- I. The optional offering of Incoming Call Extension (ICE) <u>is an</u> optional offering <u>allowing</u> provides the capability for BellSouth Primary Rate ISDN-customers to retain <u>their phone</u> serving wire center telephone numbers for incoming analog services when their existing analog services are converted to BellSouth Primary Rate ISDN. ICE-SRC (Incoming Call Extension Same Race Center) and ICE-DRC (Incoming Call Extension Different Rate Center) may be used in any ANSA arrangement. ICE-SRC and ICE-DRC may be used if an ANSA customer's non-equipped, serving wire center switch is replaced by a PRI capable switch. ICE is only available within the Local Calling Area.
  - 1. ICE-SRC <u>applies</u> if the Customer's Serving Central Office and the ANSA office are in the same <u>Toll Message</u> \*\*Rate <u>eCenter (TMRC)</u>. Rates and charges are applicable per telephone number.
  - 2. ICE-DRC <u>applies</u> if the customer's Serving Central Office and the ANSA office are in different <u>Toll Message FRate eCenters</u>. Hunting between ICE telephone numbers is not allowed. Rates and charges are applicable per telephone number or per path. Customers <u>subscribing to ICE</u> may be required to make CPE software modifications to translate dialed telephone numbers to terminated telephone numbers. <u>is only available when the BellSouth Primary Rate ISDN is provided from a central office switch other than the one providing the converting analog services. ICE can also be used to provide additional serving wire center telephone numbers to an existing ICE arrangement. then the customer would purchase ICE SRC (Same Rate Center) telephone numbers. I then customers would purchase (Different Rate Center) numbers.</u>
- J. BellSouth Primary Rate ISDN B-Channel rates for the Voice/Data (Standard) option are listed in A42.3.4.C. Exchange access is included as a part of the B-Channel rate on a flat rate basis only.
- K. BellSouth Primary Rate ISDN B-Channel rates for the Digital Data Only option are listed in A42.3.4.C. Exchange access is included as a part of the B-Channel rate on a flat rate basis only.
- L. BellSouth Primary Rate ISDN B-Channel rates for the Inward Data option are listed in A42.3.4.C. Exchange access is included as a part of the B-Channel on a flat rate basis only.
- M. The BellSouth Primary Rate ISDN Inward Data option is characterized by the following:
  - 1. It is arranged for inward service only. Originating Calls will be denied.
  - 2. It is arranged to terminate analog and digital data calls only.
  - 3. The number of telephone numbers associated with a BellSouth Primary Rate ISDN Inward Data Option arrangement must be equal to, or less than, the number of BellSouth Primary Rate ISDN Inward Data Interfaces comprising the arrangement and all numbers must use the same routing unless the customer subscribes to additional numbers as stated in A42.3.4.C.7. This restriction does not apply to Inward Data Extended Reach Service.
  - 4. Calling Number Delivery, Called Number Delivery, and Hunting are inherent to the service.
- N. Voice calls on the B-Channel may be completed to both ISDN and non-ISDN lines.
- O. Digital Data Transmission on the B-Channel will be circuit switched at 64 Kbps within the switch and between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices may be subjected to analog transmission or sub-rated to 56 Kbps.
- P. BellSouth Primary Rate ISDN Extended Reach Service (ERS) is available only for the Inward Data Option. ERS is designed to "extend the reach" of the Inward Data Option customer from a centrally located metropolitan local calling area into the areas of the LATA which are available on a foreign exchange basis. The ERS customer purchases telephone numbers within each desired foreign exchange area to allow their clients to call them at no charge.
  - 1. ERS is offered under two configurations: (1) A Dedicated Route Arrangement, and (2) A Final Route Arrangement. The ERS Dedicated Route Arrangement is only available where the target local calling area(s) have an ISDN equipped central office. It is intended for use where the volume of traffic is sufficient to warrant one or more dedicated DS1 interoffice facilities. The ERS Final Route Arrangement will be utilized where the target local calling area(s) do not have an ISDN equipped central office and/or the volume of traffic is insufficient to justify a dedicated DS1 interoffice facility.
  - 2. For ERS Dedicated Route Arrangements the customer must purchase ERS Remote Telephone Numbers (RTNs), ERS Primary Rate Interfaces, and ERS B-Channels in the target local calling area(s). The ERS Primary Rate Interfaces and ERS B-Channels are extended to the customer's premises (typically in a centrally located metropolitan area, but in the same LATA as the target local calling area) via ERS Interoffice Channels and a BellSouth Primary Rate ISDN Access Line or other Company provided transport facility.
  - 3. For ERS Final Route Arrangements the customer must purchase ERS RTNs in the target local calling area(s). Calls that terminate to these RTNs are switched over interoffice trunk groups to the customer's local serving central office where they terminate on ERS Final Route Primary Rate Interfaces and ERS Final Route B-Channels, via an ERS Final

# A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

# A42.3 BellSouth® Primary Rate ISDN (Cont'd)

## A42.3.4 Rates and Charges (Cont'd)

- F. Move Charge
  - 1. An inside move charge, applies for each BellSouth® Primary Rate ISDN Access Line moved to a new location in same building. The inside move charge is equal to the sum of the Type 1-Service Change Charge, and the Premises Visit Charge.
  - 2.—An interbuilding same premises or off premises move charge, per BellSouth® Primary Rate ISDN Access Line, appeared for each BellSouth® Primary Rate ISDN Access arrangement moved to a different building on the same premises or to a different premises in Company territory within the same state.
  - 3. If the serving central office does not change, this move charge is equal to the sum of the nonrecurring charges applicable for installation of a BellSouth<sup>®</sup> Primary Rate ISDN Access Line. Other charges, e.g., Interoffice Channel Charges, may apply as appropriate.
  - 4. If the serving central office does change, the move will be treated as a disconnect and reconnect with full nonrecurring charges applicable for the BellSouth® Primary Rate ISDN arrangement. If a customer is moving service to a new Serving Wire Center that is in the same Toll Message Rate Center as the customer's current Serving Wire Center then the customer may retain the same telephone numbers at the new location at no additional charge. Other local switched service types may be installed at the old location. In the event the customer requests a subsequent move to yet another central office, BellSouth will determine the feasibility of allowing the customer to retain their phone numbers on a case by case basis.
  - 5.3.—Termination Liability Charges will not apply for moves of BellSouth® Primary Rate ISDN if the conditions states are B2.4.9.A.11 of the Private Line Services Tariff are met.
- G. Service Rearrangement Charges

Service Rearrangement Charges are applicable for receiving and recording information and/or taking action in connection with a customer's Inside Move or transfer of service responsibility request or for processing the necessary data for a change on an existing BellSouth<sup>®</sup> Primary Rate ISDN. Premises Visit Charges are applicable for inside moves. Only one Premises Visit Charge applies when more than one BellSouth<sup>®</sup> Primary Rate ISDN Access Line is moved at the same premises at the same time.

1. Service Change and/or Inside Move, Per BellSouth<sup>®</sup> Primary Rate ISDN Access Line

		Nonrecurring		
		Charge	USOC	
	(a) Inside move or change requiring redesign of	\$160.00	NRCPM	<u>(T)</u>

# A42. INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

## A42.3 BellSouth Primary Rate ISDN (Cont'd)

### A42.3.1 General (Cont'd)

- I. Incoming Call Extension (ICE) is an optional offering allowing customers to retain their phone numbers. ICE-SRC (Incoming Call Extension Same Rate Center) and ICE-DRC (Incoming Call Extension Different Rate Center) may be used in any ANSA arrangement. ICE-SRC and ICE-DRC may be used if an ANSA customer's non-equipped, serving wire center switch is replaced by a PRI capable switch. ICE is only available within the Local Calling Area.
  - 1. ICE-SRC applies if the Customer's Serving Central Office and the ANSA office are in the same *Toll Message Rate Center (TMRC)*. Rates and charges are applicable per telephone number.
  - 2. ICE-DRC *applies if* the customer's Serving Central Office and the ANSA office are in *different Toll Message Rate Centers*. Hunting between ICE telephone numbers is not allowed. Rates and charges are applicable per telephone number or per path. Customers may be required to make CPE software modifications to translate dialed telephone numbers to terminated telephone numbers.
- J. BellSouth Primary Rate ISDN B-Channel rates for the Voice/Data (Standard) option are listed in A42.3.4.C. Exchange access is included as a part of the B-Channel rate on a flat rate basis only.
- K. BellSouth Primary Rate ISDN B-Channel rates for the Digital Data Only option are listed in A42.3.4.C. Exchange access is included as a part of the B-Channel rate on a flat rate basis only.
- L. BellSouth Primary Rate ISDN B-Channel rates for the Inward Data option are listed in A42.3.4.C. Exchange access is included as a part of the B-Channel on a flat rate basis only.
- M. The BellSouth Primary Rate ISDN Inward Data option is characterized by the following:
  - 1. It is arranged for inward service only. Originating Calls will be denied.
  - 2. It is arranged to terminate analog and digital data calls only.
  - 3. The number of telephone numbers associated with a BellSouth Primary Rate ISDN Inward Data Option arrangement must be equal to, or less than, the number of BellSouth Primary Rate ISDN Inward Data Interfaces comprising the arrangement and all numbers must use the same routing unless the customer subscribes to additional numbers as stated in A42.3.4.C.7. This restriction does not apply to Inward Data Extended Reach Service.
  - 4. Calling Number Delivery, Called Number Delivery, and Hunting are inherent to the service.
- N. Voice calls on the B-Channel may be completed to both ISDN and non-ISDN lines.
- O. Digital Data Transmission on the B-Channel will be circuit switched at 64 Kbps within the switch and between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices may be subjected to analog transmission or sub-rated to 56 Kbps.
- P. BellSouth Primary Rate ISDN Extended Reach Service (ERS) is available only for the Inward Data Option. ERS is designed to "extend the reach" of the Inward Data Option customer from a centrally located metropolitan local calling area into the areas of the LATA which are available on a foreign exchange basis. The ERS customer purchases telephone numbers within each desired foreign exchange area to allow their clients to call them at no charge.
  - 1. ERS is offered under two configurations: (1) A Dedicated Route Arrangement, and (2) A Final Route Arrangement. The ERS Dedicated Route Arrangement is only available where the target local calling area(s) have an ISDN equipped central office. It is intended for use where the volume of traffic is sufficient to warrant one or more dedicated DS1 interoffice facilities. The ERS Final Route Arrangement will be utilized where the target local calling area(s) do not have an ISDN equipped central office and/or the volume of traffic is insufficient to justify a dedicated DS1 interoffice facility.
  - 2. For ERS Dedicated Route Arrangements the customer must purchase ERS Remote Telephone Numbers (RTNs), ERS Primary Rate Interfaces, and ERS B-Channels in the target local calling area(s). The ERS Primary Rate Interfaces and ERS B-Channels are extended to the customer's premises (typically in a centrally located metropolitan area, but in the same LATA as the target local calling area) via ERS Interoffice Channels and a BellSouth Primary Rate ISDN Access Line or other Company provided transport facility.
  - 3. For ERS Final Route Arrangements the customer must purchase ERS RTNs in the target local calling area(s). Calls that terminate to these RTNs are switched over interoffice trunk groups to the customer's local serving central office where they terminate on ERS Final Route Primary Rate Interfaces and ERS Final Route B-Channels, via an ERS Final Telephone Number (FTN). A BellSouth Primary Rate ISDN Access Line or other Company provided transport facility is required for connection to the customer's local serving central office.
