HAND DELIVERY

Re: Docket No. 950307-EU

Dear Ms. Bayo:

Please accept for filing in the above-referenced docket the original and fifteen copies of JEA's Amended Customer Notification Letter. The attached letter replaces the JEA letter in Attachment "B" of the Joint Motion to Approve Territorial Agreement filed by the parties in this docket on October 5, 1995.

Please acknowledge receipt of these documents by stamping the extra copy of this letter "filed" and returning the same to me.

ACK Thank you for your assistance with this filing.

FPSC-RECORDS/REPORTING

ATTACHMENT "A"
TERRITORIAL AGREEMENT

**TERRITORIAL AGREEMENT
BETWEEN
FLORIDA POWER & LIGHT COMPANY
AND
JACKSONVILLE ELECTRIC AUTHORITY**

Section 0.1 **Territorial Agreement** - This is a Territorial Agreement made and entered into by and between FLORIDA POWER & LIGHT COMPANY, a corporation organized and existing under the laws of the State of Florida ("COMPANY"), and JACKSONVILLE ELECTRIC AUTHORITY ("AUTHORITY") for the express purpose of seeking an Order of the Florida Public Service Commission adopting the following recommended Territorial Agreement;

Section 0.2 WHEREAS, the COMPANY, by virtue of its Charter and the laws of the State of Florida, is authorized and empowered to furnish electricity and power to persons, firms and corporations throughout the State of Florida and pursuant to such authority presently furnishes electricity and power to customers in areas of St. Johns, Nassau and Duval Counties, Florida, and elsewhere; and

Section 0.3 WHEREAS, the AUTHORITY, as an electric utility created by the Charter of the Consolidated City of Jacksonville, Florida, is authorized under that Charter and the laws of the State of Florida to produce and provide electricity and power to customers in Duval County and elsewhere; and

Section 0.4 WHEREAS, the respective areas of service of the parties in Duval, St. Johns and Nassau Counties are contiguous in

many places with the result that future duplication of service facilities will occur unless such duplication is precluded by a territorial agreement; and

Section 0.5 WHEREAS, the Florida Public Service Commission ("COMMISSION") has previously recognized that any such duplication of said service facilities by the parties will result in needless and wasteful expenditures; and

Section 0.6 WHEREAS, the COMPANY and AUTHORITY have previously entered into territorial agreements and such agreements have been approved by the Commission; and

Section 0.7 WHEREAS, the COMPANY and AUTHORITY desire to avoid and eliminate any circumstances giving rise to possible duplication of service facilities and, to that end, desire to re-affirm and re-establish territorial boundaries; and

Section 0.8 WHEREAS, the Commission is empowered by Section 366.04, Florida Statutes, to approve territorial agreements;

Section 0.9 NOW, THEREFORE, in fulfillment of the purposes and desires aforesaid, and in consideration of the mutual covenants and agreements herein contained, the parties hereto, subject to the approval of the Commission, and subject to the terms and conditions herein set forth, do hereby agree as follows:

ARTICLE I
DEFINITIONS

Section 1.1 **Territorial Boundary Lines** - As used herein, the term "Territorial Boundary Lines" shall mean boundary lines which delineate areas on the map and legal description attached hereto as to Exhibit "A" and which differentiate and divide the COMPANY Territorial Area from the AUTHORITY Territorial Area in the counties of St. Johns, Nassau, Clay and Duval, Florida.

Section 1.2 **COMPANY Territorial Area** - As used herein, the term "COMPANY Territorial Area" shall mean the geographic area shown on Exhibit "A" labeled "FPL."

Section 1.3 **AUTHORITY Territorial Area** - As used herein, the term "AUTHORITY Territorial Area" shall mean the geographic area shown on Exhibit "A" labeled "JEA."

Section 1.4 **End Use Facilities** - As used herein, the term "End Use Facilities" shall mean a geographic location where the electric energy used by a customer is ultimately consumed.

Section 1.5 **Distribution Facilities** - As used herein, the term "Distribution Facilities" shall mean all electric facilities of either party having a voltage rating of up to but not including 69 KV.

ARTICLE II
TERMINATION OF PRE-EXISTING TERRITORIAL AGREEMENTS

Section 2.1 **Pre-Existing Territorial Agreements** - Upon final approval of this agreement by the Commission, the Territorial Agreement between the COMPANY and the AUTHORITY dated April 13, 1979 and approved by the Commission pursuant to Order Number PSC-9363 on May 9, 1980 is terminated as are any previous territorial agreements referenced in the 1979 agreement.

ARTICLE III
ELIMINATION OF OVERLAPPING FACILITIES

Section 3.1 **Transfer of Customers** - As a result of the establishment of the boundary herein certain customer accounts and distribution facilities shall be transferred between the parties to comply with Section 1.1. Until such transfers are accomplished pursuant to Section 3.5, each utility is authorized to continue providing service to those identified customer locations.

Section 3.2 Those customer accounts identified in Exhibit "B" shall be transferred from the AUTHORITY to the COMPANY.

Section 3.3 Those customer accounts identified in Exhibit "C" shall be transferred from the COMPANY to the AUTHORITY.

Section 3.4 Each party is responsible for making the necessary modifications to its facilities to effect the transfers in Sections

3.2 and 3.3. The COMPANY understands that the improvements necessitated by movement of its distribution lines to the south side of C.R. 210 and Palm Valley Road must be completed prior to the completion of construction of the AUTHORITY's distribution facilities necessary to serve customers transferred from the COMPANY to the AUTHORITY. Accordingly, the COMPANY agrees to work with the AUTHORITY to expedite the COMPANY's construction of new distribution facilities along C.R. 210 and Palm Valley Road in an orderly manner.

In addition, in the event of the failure to complete the transfer of all customers and facilities within one year from the date of final Commission approval of this agreement, the transferring utility shall pay the other utility all non-fuel revenues received from every customer not transferred until such time as the customer is transferred to the other utility. For purposes of this penalty provision, any payments due shall be calculated based upon the first day of a new billing period occurring after one year from the date of final Commission approval of this agreement and extending until the date the customer is actually transferred.

Section 3.5 **Timing of Transfers** - The distribution facilities of either party that are located in the other party's Territorial Area, not including the express feeders referred to by section 3.11 of this Agreement, and the identified customer accounts, shall be transferred to the appropriate party within one year of the

COMMISSION's final order approving this Territorial Agreement. The one year period beginning with the Commission's final order of approval shall be the "transfer period".

If during the transfer period major repairs to the facilities to be transferred occur before the transfer due to damage from a hurricane, tropical storm, or tornado, then the party which is to acquire those facilities shall pay, upon presentation of appropriate cost information, all capital costs only of the aforesaid repairs. However, before any major storm damage repairs are made, the acquiring party shall be given the opportunity to do the repairs itself, and effectuate the transfer of those storm damage customers at the time of repair. The parties hereto agree to timely notify each other, by letter, of any governmental mandate to relocate, for road modifications, facilities scheduled for transfer, and coordinate the customer transfers to allow the receiving party to carry out the relocation.

Prior to and after transfer of these facilities, it may be necessary for the parties to jointly use certain facilities and the COMPANY and AUTHORITY shall enter into, as necessary, an appropriate joint use agreement for those specific facilities. Facilities are to be transferred in good operating condition. Customer meters and oil-filled equipment will not be transferred. Upon transfer of any facilities, the receiving utility shall be solely responsible for any maintenance, removal, upgrading or improvements to those facilities.

Section 3.6 **Bulk Power** - No provision of this Agreement shall be construed as applying to either bulk power supply for resale, or to facilities dedicated to such bulk power supply that operate at a voltage of 69 KV or higher.

Section 3.7 **Customer Deposits** - The utilities intend that transferred customers suffer no hardship due to different deposit requirements of each utility. The transferring utility will refund and/or apply to the final bill any deposit currently applicable. The receiving utility may then bill the customer a deposit, provided that such deposit is no greater than the deposit required by the transferring utility. The customer will be allowed to make up to three equal payments over three months to meet the deposit requirements of the receiving utility.

Section 3.8 All easements, street light contracts and joint use agreements held by either the COMPANY or the AUTHORITY necessary or appurtenant to serving customers transferred pursuant to this Agreement are hereby assigned to the utility receiving the transferred customers.

Section 3.9 **Allocations** - The COMPANY Territorial Area, as herein defined, is hereby allocated to the COMPANY as its service area, and the AUTHORITY Territorial Area, as herein defined, is hereby allocated to the AUTHORITY as its service area. The parties shall each have the right to provide retail

distribution electric service to all customers within their respective territorial area. Neither party shall hereafter serve or offer to serve a retail customer whose End Use Facilities are located in the territorial area of the other party except as provided in Section 3.10 below.

Section 3.10 Temporary Service - The parties recognize that in exceptional circumstances, economic constraints or good engineering practices may indicate that a customer's end use facilities either cannot or should not be immediately served by the party in whose territorial area they are located. In such situations, upon written request by the party in whose territorial area the end use facilities are located, to the other party, the other party may agree in writing to temporarily provide service to such customer. If such temporary service lasts, or is expected to last for more than one year, the parties will seek formal approval of the service from the Commission.

During the Transfer Period, as defined in Section 3.5, in the event any customer located within one party's service territory requests service from the other party, and the party within who's territory the customer is located approves the provision of such service, then, upon final transfer of that customer, that party shall reimburse the other party for the difference in revenues received from that customer and capital costs expended in providing such service. Transformers and meters shall not be considered as capital costs with respect to the provision of new service.

The party within whose territory the new customer is located may elect to perform any or all work necessary for the establishment of new service for a new customer; however the party actually providing service shall set a meter for the customer, bill the customer, and receive revenues from the customers until such time as a final transfer of such customer occurs.

Section 3.11 **Express Feeders** - The COMPANY and AUTHORITY shall each have the right to construct and maintain underground 3-phase feeder lines within the Territorial Area of the other party for the purpose of express feed through the area. No such facilities shall be used by the COMPANY or the AUTHORITY to provide service to customers located in the service area of the other party.

ARTICLE IV
PREREQUISITE APPROVAL

Section 4.1 **Regulatory Approval** - The provisions of this Agreement are subject to the regulatory authority of the Commission whose approval shall be a prerequisite to the validity and applicability hereof. Neither party shall be bound hereunder until such approval has been obtained.

ARTICLE V
DURATION

Section 5.1 **Duration** - This Agreement shall continue and remain in effect until the Commission, by order, modifies or withdraws its approval of this Agreement after proper notice and hearing.

ARTICLE VI
CONSTRUCTION OF AGREEMENT

Section 6.1 **Intent and Interpretation** - It is hereby declared to be the purpose and intent of this Agreement, in accordance with which all provisions of this Agreement shall be interpreted and constructed, to eliminate and avoid needless and wasteful expenditures, duplication of facilities and potentially hazardous situations, which would otherwise result from unrestrained competition, between the parties operating in overlapping service areas.

Section 6.2 **Annexation** - Annexation or de-annexation shall not affect this Agreement.

ARTICLE VII
MISCELLANEOUS

Section 7.1 **Negotiations** - Whatever terms or conditions may have been discussed during the negotiations leading up to the execution of this Agreement, the only terms and conditions agreed upon are those set forth herein, and no alteration, modification, enlargement or supplement to this Agreement shall be binding upon either of the parties hereto unless the same shall be in writing, signed by both parties, and approved by the Commission. However, nothing in this Agreement shall be construed as prohibiting either party from unilaterally initiating an action before the Florida Public Service Commission, or other entity with appropriate

jurisdiction, seeking modification or cancellation of this Agreement.

Section 7.2 **No Assumption of Liabilities by COMPANY** - The COMPANY shall not assume or be responsible for any financial obligations or liabilities of the AUTHORITY. Without limiting the generality of the foregoing, the COMPANY shall not assume or be responsible for:

(a) Any tax, penalty or fee assessed on the AUTHORITY arising out of or resulting from the transfer or facilities;

(b) Any tax, penalty or fee resulting from the operations of the facilities before the date of transfer;

(c) Any attorney's, accountant's or other fees or expenses incurred by the AUTHORITY in connection with this Agreement or any transaction made necessary by this Agreement;

(d) Any liabilities or obligations resulting from any lawsuit or proceeding in any way related to the AUTHORITY arising out of transactions or events in any way related to the facilities;
or

(e) Any accrued but unpaid obligation of the AUTHORITY.

Section 7.3 **No Assumption of Liabilities by AUTHORITY** - The AUTHORITY will not be responsible for any financial obligations or liabilities of the COMPANY. Without limiting the generality of the foregoing, the AUTHORITY shall not assume or be responsible for:

(a) Any tax, penalty or fee assessed on the COMPANY

arising out of or resulting from the transfer of facilities;

(b) Any tax, penalty or fee resulting from the operations of the facilities after the date of transfer;

(c) Any attorney's, accountant's or other fees or expenses incurred by the COMPANY in connection with this Agreement or any transaction made necessary by this Agreement;

(d) Any liabilities or obligations resulting from any lawsuit or proceeding in any way related to the COMPANY arising out of transactions or events in any way related to the facilities; or

(e) Any occurred but unpaid obligation of the COMPANY.

Section 7.4 Environmental Indemnification - The AUTHORITY shall indemnify and hold the COMPANY harmless from and against any claims, losses, damages, liabilities, fines, penalties, charges, administrative and judicial proceedings and orders, judgments, remedial action requirements, enforcement actions of any kind, and all costs and expenses incurred in connection therewith, including but not limited to attorney's fees, paralegal charges and expenses, arising directly, or indirectly, in whole or in part, out of:

(a) Any activity by the AUTHORITY'S employees, contractors or agents, in connection with the treatment, decontamination, handling, removal, storage, cleanup, transport or disposal or hazardous material related to the AUTHORITY'S facilities transferred to the COMPANY; and

(b) The presence caused by the AUTHORITY, its employees, agents or contractors of any hazardous materials or releases or

discharges of hazardous materials associated with the AUTHORITY'S facilities transferred to the COMPANY occurring before the transfers.

The COMPANY shall indemnify the AUTHORITY in the same manner for (a) and (b) above, as they relate to the COMPANY'S facilities transferred to the AUTHORITY.

IN WITNESS WHEREOF, this Agreement has been caused to be executed in triplicate by the AUTHORITY in its name by its Manager and by the COMPANY in its name by its Vice President; and one of said triplicate copies has been delivered to each of the parties hereto.

CUSTOMER NOTIFICATION LETTERS

Re: Account No:
Service Address:

Dear Customer:

Electric service in St. Johns and Duval Counties is provided in some areas by Florida Power & Light Company (FPL) and in other areas by Jacksonville Electric Authority (JEA).

In order to avoid costly and unnecessary duplication of facilities, which can adversely affect the rates customers of both companies pay, FPL and JEA have entered into an agreement which specifically defines the territory to be served by each utility.

Under the terms of the proposed agreement, which has been submitted to the Florida Public Service Commission for their approval, your electric account will be transferred from FPL to JEA. Although the exact time frame for the transfer of your account has not been determined, it will most likely be sometime within the next year.

The deposit you currently have with FPL will be refunded to you or credited to your final bill. JEA will not require an initial deposit.

The attached information provides you with a summary of the rates charged by FPL and JEA. If you would like more specific information on how this change will affect your bill, or if you have any other questions or concerns, please feel free to call any of the following individuals:

FPL	Mary Henry	1-800-741-3368
	Maria Fletcher	1-800-741-3368
JEA	Customer Service	1-904-632-5200

We respectfully request that your contact be no later than November 30, 1995.

We appreciate you as a customer of FPL. This agreement, however, will greatly benefit all customers of both utilities. In the future, additional information regarding the transfer of your particular electric service will be provided to you. No action by you is required at the present time.

Sincerely,

M. G. Lang

RE: Account No.

Dear Customer:

Electric service in Duval and St. Johns Counties is provided in some areas by JEA and in some areas by FPL. I am writing to you because your service is in an area that is presently served by JEA but which will, under a proposed territorial agreement between JEA and FPL, be transferred to FPL. Likewise, the agreement provides that certain other customers located in areas presently served by FPL will be transferred to JEA. This agreement will help both utilities provide economical and efficient service to all electric utility customers in both counties.

Both JEA and FPL have approved the agreement and it has been submitted to the Florida Public Service Commission for final approval. The Commission encourages agreements such as this because they serve to eliminate costly and unnecessary duplication of facilities. Costs are minimized, the ability to plan for future needs is enhanced, and safety is improved. Following approval by the Commission, all existing JEA customers located in the FPL territory will be transferred to FPL. Likewise, all existing FPL customers located in the JEA territory will be transferred to JEA. This transfer process will last approximately one year and the two utilities will make every effort to ensure that the impact on the affected customers is minimized. Any deposit you may currently have with JEA will be returned and FPL will not require an initial deposit.

The attached information provides you with a summary of the rates charged by JEA and FPL. If you would like more specific information on how this change will affect your service, or if you have any questions or concerns, please do not hesitate to call one of the numbers provided below.

JEA	Customer Service	1-904-632-5200

JACKSONVILLE ELECTRIC AUTHORITY

21 WEST CHURCH STREET • JACKSONVILLE, FL 32202-3139

October 13, 1995

Customer Name
Customer Address

RE: Account No.

Dear Customer:

Electric service in Duval and St. Johns Counties is provided in some areas by JEA and in some areas by FPL. I am writing to you because your service is in an area that is presently served by JEA but which will, under a proposed territorial agreement between JEA and FPL, be transferred to FPL. Likewise, the agreement provides that certain other customers located in areas presently served by FPL will be transferred to JEA. This agreement will help both utilities provide economical and efficient service to all electric utility customers in both counties.

Both JEA and FPL have approved the agreement and it has been submitted to the Florida Public Service Commission for final approval. The Commission encourages agreements such as this because they serve to eliminate costly and unnecessary duplication of facilities. Costs are minimized, the ability to plan for future needs is enhanced, and safety is improve. Following approval by the Commission, all existing JEA customers located in the FPL territory will be transferred to FPL. Likewise, all existing FPL customers located in the JEA territory will be transferred to JEA. This transfer process will last approximately one year and the two utilities will make every effort to ensure that the impact on the affected customers is minimized. Any deposit you may currently have with JEA will be returned. FPL may require an initial deposit.

The attached information provides you with a summary of the rates charged by JEA and FPL. If you would like more specific information on how this change will affect your service, or if you have any questions or concerns, please do not hesitate to call one of the numbers provided below.

JEA	Customer Service	1-904-632-5200
FPL	Mary Henry	1-800-741-3368
	Maria Fletcher	1-800-741-3368

We respectfully request that your contact be no later than November 30, 1995.

We appreciate you as a customer of the JEA. This agreement however, will greatly benefit all customers of both utilities. In the future, additional information regarding the transfer of your particular electric service will be provided to you. No action by you is required at the present time.

Sincerely,

R. W. Weeks
Associate Managing Director
Engineering and Operations
