In Re: Petition of Florida Power & Light)
Company to Resolve a Territorial Dispute with)
Clay Electric Cooperative in Baker County)

Docket No.: 970512-EU

Filed: April 8, 1998

**DISCLAIMER OF CLAY ELECTRIC COOPERATIVE, INC.
TO THE MAP SUBMISSION BY FLORIDA POWER & LIGHT COMPANY**

Clay Electric Cooperative, Inc. ("Clay") by and through its undersigned attorneys responds to the map filing by Florida Power & Light Company ("FPL") submitted in this action and says:

1. In the Commission's Order, PSC-98-0178-FOF-EU, issued January 28, 1998, the Commission said:

"In addition, pursuant to Rule 25-6.0441(4), Florida Administrative Code, the parties shall submit to this Commission, within three (3) months of the issuance of this Order, an official Florida Department of Transportation general highway county map depicting the boundary lines established by the resolution of the territorial dispute".

The Commission also stated:

"Ordered by the Florida Public Service Commission that the disputed area is an industrial area just east of the community of Sanderson, in Central Baker County. The disputed area as described in this Order extends from Arnold Rhoden Road northward to US 90 (SR 10) and includes the plant site of River City Plastics, Inc., and parcels of an undeveloped industrial park." (page 17)

In addition the Commission determined that:

". . . we find that the disputed area is the industrial area north of Arnold Rhoden Road that includes the RCP facility and

parcels of an undeveloped industrial park". (page 7 of the Order)

2. In its map filing, FPL, has claimed territory going far beyond the disputed area. Indeed, FPL has included in its version of the territorial boundary existing services of Clay predating the territorial dispute.

3. Clay specifically disclaims any agreement with the boundary submitted by FPL, and will itself submit the boundary it believes was established by the Order within the time frame provided by the Order, namely, within three (3) months of January 28, 1998.

Respectfully submitted,
