To whom it may concern:

The Sarasota Police Department supports local jurisdictions having the ability to regulate the location of pay phones. This is an important part of restoring the quality of life to our neighborhoods. Pay phones are often used for illegal transactions and they attract people at all hours of the night. This results in noise violations and other disturbances.

This is essentially an intrusion of commercial activity into residential areas and we need to control it to preserve and improve our neighborhoods.

Sincerely,

Lt. T. S. Duncan

Dear Public Service Commission,

IN RE: PROPOSED RULE 25-24.517, F.A.C. LOCATION OF PAY TELEPHONES

We the following undersigned residents of Gillespie Park which is located in Sarasota wish to express our *support for local control* of pay phone placement. It is vitally important that there be language added to the proposed rule 25-24.517 delegating the authorization and approval process for placement of pay phones to city and county government.

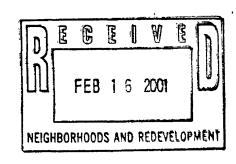

Thank you for your considerations in this matter.

Sincerely

Wayne DeLair, President
