PETITION

Comes now Sprint Communications Company Limited Partnership ("Sprint"), pursuant to Rule 28-106.201, Florida Administrative Code ("F.A.C."), and hereby files this Petition against **BellSouth** Telecommunications, **Inc. ("BellSouth")**.

The Parties

1. Sprint, a Delaware limited partnership, is authorized by the Florida Public Service Commission ("Commission") to provide interexchange and alternative local exchange telecommunications services in the State of Florida. Sprint's business address is:

Sprint Communications Company Limited Partnership
8140 **Ward Parkway**
Kansas City, MO 64114

Sprint's representatives' name, address and telephone number are:

Benjamin W. **Fincher**, Esquire
Sprint **MailStop GAATLN0802**
3100 Cumberland Circle
Atlanta, GA 30339
404-649-5145 (Telephone)
404-649-5174 (FAX)

susan.masterton@mail.sprint.com

2. **BellSouth** is a Georgia corporation authorized by the Commission to provide local exchange and **intraLATA** interexchange telecommunications services in the State of Florida. **BellSouth's** business address is:

BellSouth Telecommunications, Inc.
150 South Monroe Street, Room 400
Tallahassee, Florida 32301

Commission Jurisdiction

3. The Commission has statutory powers and jurisdiction over, and in relation to, telecommunications companies. This includes jurisdiction over **BellSouth**, the respondent in this Complaint.'

4. The Commission has exclusive jurisdiction in all matters set forth in Chapter 364, Florida Statutes, in regulating telecommunications companies, in order to ensure that all providers of telecommunications services are treated fairly, by preventing anticompetitive behavior and eliminating unnecessary regulatory **restraint**.²

¹Sec. 364.01, F.S.

²Sec. 364.01(4)(g), F.S.

Claims of Sprint

5. **BellSouth**, on June 14, 2001, filed with the Commission its File Code 680.3400, File Package No. **FL2001-079**, reflecting revisions to its tariff language regarding **BellSouth** receipt of insufficient call detail to determine the jurisdiction of the call, attached hereto as Attachment A. The specific tariff provisions involved in the tariff tiling are **BellSouth's** Access Tariff Section E2.3.14 Jurisdictional Report Requirements, Fourth Revised-Page10. The scheduled effective date of this tariff filing was indicated to be June 25, 2001.

6. The effect of this tariff revision is to give **BellSouth** the ability to charge higher intrastate (as compared to interstate) terminating switched access charges on those calls that do not include the Calling Party Number ("**CPN**"). This would include, in addition to legitimate intrastate calls, calls that are local, interstate and international in nature.

7. There are numerous local, interstate and international calls that do not, and are not required to, carry the **CPN**.³ **BellSouth** has disregarded the fact that all calls will not carry the CPN and seeks, through this tariff revision, to charge the higher intrastate terminating switched access rate on all calls without the CPN, regardless of the jurisdiction of the call.

8. Further, **BellSouth** has no made no provision in its tariff revision for the interexchange carrier to demonstrate that certain calls without CPN were, in fact, local, interstate or international calls, and were not intrastate calls and not subject to the higher intrastate terminating switched access rates.

9. Sprint, as a purchaser of access **from BellSouth** in its provisioning of interexchange carrier telecommunications services in Florida, is directly and adversely impacted by this tariff publication. Sprint will be forced to pay higher intrastate

³ 47 CFR 64.1601(d)(1), (2), (3) & (4).

terminating switched access rates on local, interstate and international calls when CPN is not shown.

10. **BellSouth's** tariff filing constitutes anticompetitive behavior in violation of Section 364.01(4)(g), Florida Statutes.

11. **BellSouth's** tariff filing constitutes a violation of Section 364.08, Florida Statutes, which prohibits charging rates for services rendered other than the charge applicable to such service, as specified in its schedule on file and in effect at that time.

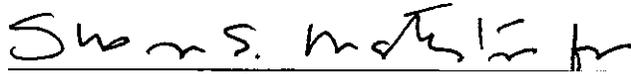

Prayer for Relief

Wherefore, based on the foregoing, Sprint respectfully requests the Commission to:

- (1) Assert jurisdiction over this Complaint.
- (2) Immediately institute a proceeding to consider the validity of **BellSouth's** tariff **filing** here involved.
- (3) Issue an order finding that **BellSouth's** tariff filing is unlawful and order **BellSouth** to cancel the tariff provisions here involved.
- (4) Impose such further relief as the Commission deems just and appropriate.

Respectfully submitted this 12th day of July, 2001

E2. GENERAL REGULATIONS

E2.3 Obligations of the IC (Cont'd)

E2.3.14 Jurisdictional Report Requirements' (Cont'd)

A. Jurisdictional Reports (Cont'd)

1. Percent Interstate Usage (PIU) (Cont'd)

a. (Cont'd)

Where the Company receives insufficient call detail to *identify the calling station to determine the jurisdiction, the Company will charge the applicable rates for terminating BellSouth SWA as set forth in this Tariff.* For the purpose of this tariff, where the customer is a third-party provider of CCS7 services to its customer ("Third Party Customers"), the customer will develop its projected PIU factor based upon a weighted average of the PIU's of its Third Party Customers' end user traffic in accordance with the procedures described below. In the event a Third Party Customer does not provide a projected PIU, a 50 percent PIU will be utilized for that Third Party Customer. (C)

The IC will provide in its initial order the projected Percent Interstate Usage (PIU) at a statewide level on a local exchange company specific basis. When the IC and/or End User computes the PIU, it will subtract the developed percentage from 100 and the difference is the percent intrastate usage. The sum of the interstate and intrastate percentage will equal 100 percent. A PIU of less than 100 percent is not allowed where the service is not available as an intrastate access service. The projected PIU may include up to two decimals.

The intrastate usage is to be developed as though every call that originates from a calling location (as designated by the calling station number) within the same state as that in which the called station (as designated by the called station number) is situated is an intrastate communication and every call for which the point of origination (as designated by the calling station number) is in a state other than that where the called station (as designated by the called station number) is situated is an interstate communication. The manner in which the call is routed through the telecommunications network does not affect the jurisdiction of a call, i.e., a call between two points within the same state is an intrastate communication even if the call is routed through another state.

The Company will designate the number obtained by subtracting the intrastate percentage furnished by the IC from 100 ($100 - \text{customer percentage} = \text{interstate percentage}$) as the projected interstate percentage of use.

b. When an IC initially orders service(s), as defined in the following, the IC will state in its order the Percent Interstate Usage (PIU) separately for each, as set forth in a. preceding.

- BellSouth SWA FGB

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in E6.1.3.A. (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

Note 2: Where BellSouth SWA LSBSA is provisioned with a DNAL, the DNAL rates should be apportioned between interstate and intrastate using the same PIU factor as applied to the associated BellSouth SWA LSBSA.
