**FROM:** Pete Lester, Division of Economic Regulation *PL*  
**RE:** Docket No. 010961-TI, MYCO Telecommunications, Inc., Financial Analysis for Certificate Application for Intrastate Interexchange Telecommunications Service

---

*ALM ea*

Section 364.337 (3), Florida Statutes, requires the following:

The commission shall grant a certificate of authority to provide intrastate interexchange telecommunications service upon a showing that the applicant has sufficient technical, financial, and managerial capability to provide such service in the geographic area proposed to be served.

Also Section 364.01 (3) and (4) states that:

(3) The Legislature finds that the competitive provision of telecommunications service, including local exchange telecommunications service, is in the public interest.

and

(4)(d) The Commission shall exercise its exclusive jurisdiction in order to: (d) Promote competition by encouraging new entrants into telecommunications markets . . .

Regarding the showing of financial capability, the Finance staff has analyzed the unaudited financial statements of MYCO Telecommunications, Inc. (MYCO) for the period ending July 10, 2001. An audit could change one's opinion of the company's financial condition. As the attached schedule shows, MYCO has adequate liquidity, sufficient common equity and reported a positive net income for the period.

In this matter, MYCO is asking for a certificate to provide IXC service. Staff notes the limited nature of the application. For purposes of granting a certificate based on the financial information provided, the financial capability appears adequate.

The applicant attests to its financial capability to provide and maintain the proposed telecommunications service by noting that it has access to bank loans and to funding from shareholders. Based on this showing, the applicant appears to meet the financial capability standard of Section 364.337, Florida Statutes.
