

VIA HAND DELIVERY

Ms. Blanca S. Bayó, Director Division of the Commission Clerk and Administrative Services Florida Public Service Commission 2540 Shumard Oak Boulevard, Room 110 Tallahassee, FL 32399-0850

011321-Et

Re: Florida Power & Light Company's Request for Confidential Classification of Material Provided pursuant to Audit No. 01-067-4-1

Dear Ms. Bayó:

I enclose and hand you herewith for filing in the above-referenced matter, the original and two (2) copies of Florida Power & Light Company's ("FPL") Request for Confidential Classification in connection with Audit No. 01-067-4-1. The original includes Exhibits A, B, C and D. The two copies include only Exhibits B, C, and D.

Exhibit A contains the confidential information that is the subject of FPL's Request for Confidential Classification. Exhibit A is submitted for filing in a separate, sealed folder or carton marked "EXHIBIT A – CONFIDENTIAL." Exhibit B is an edited version of Exhibit A, in which the information FPL asserts is confidential has been blocked out, Exhibit C contains FPL's justification for its request for confidential classification. Exhibit D contains affidavits in support of FPL's Request for Confidential Classification. Also included is a computer diskette containing the electronic version of FPL's Request for Confidential Classification and Exhibit C, in Microsoft Word format.

Pursuant to rule 25-22.006(3)(d) of the Florida Administrative Code, FPL requests confidential treatment of the documents in Exhibit A pending disposition of FPL's Request for Confidential Classification.

RECEIVED & FILED

FPSC-BUREAU OF RECORDS

FPSC-COMMISSION CLERK

Ms. Blanca S. Bayó, Director Division of the Commission Clerk and Administrative Services Florida Public Service Commission September 27, 2001 Page 2

Finally, enclosed is an additional copy of FPL's Request for Confidential Classification. Please stamp file this additional copy and return to FPL at your convenience.

Please do not hesitate to me at (305) 552-4657 should you or your Staff have any questions regarding this filing.

Thanking you for your attention to this matter, I remain,

Sincerely,

Robert E. Stone

Attorney

Audit Control No. 01-067-4-1		- 3

# REQUEST FOR CONFIDENTIAL CLASSIFICATION OF MATERIALS PROVIDED IN THE FUEL COST RECOVERY CLAUSE PURSUANT TO AUDIT NO. 01-067-4-1

NOW, BEFORE THIS COMMISSION, through undersigned counsel, comes Florida Power & Light Company ("FPL") and, pursuant to rule 25-22.006 of the Florida Administrative Code and section 366.093 of the Florida Statutes, hereby requests confidential classification of certain materials provided to the Florida Public Service Commission ("FPSC" or "Commission") staff ("Staff") in connection with Audit Control No. 01-067-4-1 (hereinafter the "Audit"). In support of its Request, FPL states as follows:

1. Petitioner's name and address are:

Florida Power & Light Company P.O. Box 029100 Miami, Florida 33102-9100

Orders, notices, or other pleadings related to this request should be served on:

William G. Walker, III Florida Power & Light Company Vice President 215 South Monroe Street Suite 810 Tallahassee, Florida 32301-1859 (850) 224-7595 Robert E. Stone Florida Power & Light Company Attorney P.O. Box 029100 LAW/GO Miami, Florida 33102-9100 Tel. (305) 552-4657 Fax (305) 552-4153

12243 SEP 27 5

FPSC-COLMISCION CLERK

- 2. During the Audit, Staff requested access to various FPL reports and other documents. By letter dated September 11, 2001, Staff indicated its intent to retain certain workpapers for which confidential treatment previously had been requested. Pursuant to Rule 25-22.006(3)(a), FPL was given twenty-one days from the date of the letter, or until October 2, 2001, within which to file a formal Request for Confidential Classification with respect to such workpapers. FPL hereby makes such request.
  - 3. The following exhibits are included herewith and made a part hereof:
- a. Composite Exhibit A consists of all documents for which FPL seeks confidential treatment, whether in whole or in part. All information in Exhibit A that FPL asserts is entitled to confidential treatment has been highlighted. Composite Exhibit A is submitted separately in a sealed folder or carton marked "CONFIDENTIAL."
- b. Composite Exhibit B consists of edited versions of all documents for which FPL seeks confidential treatment. All information FPL asserts is entitled to confidential treatment has been blocked out in Composite Exhibit B.
- c. Exhibit C is a table containing a line-by-line and page-by-page identification of the information for which confidential treatment is sought, and, with regard to each document or portions thereof, references to the specific statutory basis or bases for the claim of confidentiality and to the affidavits in support of the requested classification. Exhibit C is sometimes referred to hereinafter as the "Justification Table."
- d. Exhibit D includes the affidavits of Rick Del Cueto, Sol Stamm and Berta S. Rufat.
  - 4. FPL seeks confidential protection for the information highlighted in Exhibit A. This

information principally consists of FiberNet's customer and pricing information, cost data, and internal audits or audit reports. The information also includes detailed descriptions by location of FiberNet's telecommunications system and equipment that would tend to reveal FiberNet's system capabilities and/or deficiencies by location. This information, if made public, would afford FiberNet's competitors an unfair advantage over FiberNet and would impair FiberNet's efforts to enter into contracts on commercially favorable terms. Disclosure of pricing information and cost data could also impair the competitive business of FiberNet.

- 5. Further, as Mr. Del Cueto indicates, Exhibit A includes information that contains or constitutes FPL's internal audit controls or reports or information relating to same. Such information is entitled to protection under section 366.093(3)(b).
- 6. FPL submits that the highlighted information is proprietary confidential business information within the meaning of section 366.093(3). Pursuant to section 366.093, such information is entitled to confidential treatment and is exempt from the disclosure provisions of the public records law. Thus, once the Commission determines that the information in question is proprietary confidential business information, the Commission is not required to engage in any further analysis or review such as weighing the harm of disclosure against the public interest in access to the information.
- 7. The material in Exhibit A for which FPL seeks confidential classification is intended to be and is treated by FPL as private and has not been disclosed.
- 8. Upon a finding by the Commission that the material in Exhibit A for which FPL seeks confidential treatment is proprietary confidential business information within the meaning of section 366.093(3), pursuant to section 366.093(4) such materials should not be declassified for at least eighteen (18) months and should be returned to FPL as soon as the information is no longer

necessary for the Commission to conduct its business.

WHEREFORE, for the above and foregoing reasons, as more fully set forth in the supporting materials and affidavits included herewith, Florida Power & Light Company respectfully requests that its Request for Confidential Classification be granted.

Respectfully submitted,

Date: September 26<sup>th</sup>, 2001

#### AUDIT DISCLOSURE 1

1

2 SUBJECT: FIBERNET ALLOCATION OF ASSETS AND EXPENSES TO FPL UTILITY

- STATEMENT OF FACTS: An audit of FPL's transfer of fiber optic assets to FiberNet was
- 5 performed by the PSC staff in August, 2000. In that audit it was recommended that a different
- allocation methodology be considered for the monthly charges from FiberNet to the utility. FPL
- 7 responded on February 19, 2001 describing a revised methodology.
- The components of the invoice to FPL from FiberNet are a percent of depreciation expense on
- 9 assets, a percent of return on investment on assets, a percent of property taxes on assets and a
- portion of expenses. The total estimated to be allocated to FPL for the year end December 31,
- // 2001 from FiberNet follows:
- 12 Depreciation Expense on Electronics
- 1.3 used exclusively by FPL
- 14 Depreciation on Fiber for FPL use only
- 15 Depreciation on Electronics shared
- / Depreciation on Shared Fiber
- /7 Return on Investment
- 18 Property Taxes
- 19 Expenses
- 20 Total

- 21 Added to the above amount are sales, municipal, gross receipts and regulatory assessment taxes
- estimated in the amount of Therefore, the total estimated amount to bill FPL for 2001
- 23 is
- 24 Billed to FPL the first quarter 2001
- 25 Billed to FPL the second quarter 2001
- 26

- Disclosure 2 describes the methodology for allocating the assets. Audit Disclosure 3 discloses the
- methodology for calculating the return on investment, Audit Disclosure 4 describes the allocation
- of the property taxes on the assets and Audit Disclosure 5 addresses the expenses charged to
- 30 FPL. Audit Disclosure 6 includes any staff revisions because of mathematical errors and/or
- ⇒ 1 methodology alternatives.

### DISCLOSURE 2

2	SUBJECT:	ALLOCATION OF DEPREC	CIATION ON FIBERNET ASSETS
	(1) depreciation	expense on electronics and fiber used	of the FiberNet system to FPL comprises by FPL exclusively, and (2) a percent of y FPL and FiberNet commercial customers.
47		Definition of Electronics - There are level which house the electronics that lights	buildings called huts and points of presence, the fiber (makes the fiber operable).
8	_	<u>Definition of Fiber -</u> Fiber is cable that waves.	at light travel through that carries the sound
10	(1) Depreciatio	n Expense on Electronics and Fiber us	sed by FPL 100%:

ت	There is a mathematical error in the above calculation for the shared fiber. Using the company's
<b>ب</b> ني	percent for shared DS3's, the depreciation expense should be However, this
3	
ممين	- IN MIND III ALLAL MA ANDARRACK MODAL, DOG LIGHIE INIGALANIE O LOL LOGIZARIANIAN.

**OPINION:** Except for the mathematical errors, the depreciation expense allocation method on both FPL exclusive assets and shared assets appears to be reasonable and follows the recommendations of the prior Commission staff audit.

#### AUDIT DISCLOSURE 3

1

11

#### 2 SUBJECT: CALCULATION OF RETURN IN INVESTMENT

- STATEMENT OF FACTS: A return on investment rate of described in Audit Disclosure 2.
- 5 The return on investment amount is an average of three cost rates for BellSouth Telephone which
- 6 are rated AA-. These cost rates are prepared by the Finance and Tax Division of the Florida
- 7 Public Service Commission quarterly. The three rates used for the average by FPL were (1)
- discounted cash flow (2) ExAnte Risk Premium and (3) Prospective CAPM. They were
- and respectively. This averages to

a. Book value of exclusive FPL electronics as

- 10 This is applied to:
  - is applied to.
- /2 of December 31, 1995(100% FPL),
- b. Book value of exclusive FPL fiber as of 1/2001 (engineering drawings),

  c. Book value of shared electronics calculated used by FPL
- as of December 31, 2000, and
- 1 (2) d. Book value of shared fiber calculated used by FPL
- as of December 31, 2000.
- 19 Less: Accumulated Depreciation
- 20 Asset Base subject to ROI
- .91 Return on Investment
- The mathematical errors in the calculations described in audit disclosure 2 change the return on
- ⇒ 3 investment. See audit disclosure 6 for the corrected calculation.
- **OPINION:** The return on investment calculation should be reviewed with the Division of
- 25 Economic Regulation in Tallahassee.

#### AUDIT DISCLOSURE 4

1

#### 2 SUBJECT: ALLOCATION OF PROPERTY TAXES

- STATEMENT OF FACTS: FPL is charged for property taxes on the property used exclusively by it, and its portion of the shared property.
- The total asset base for FPL use (exclusive and shared %) is compared to the total assets. This ratio is applied to the estimated property taxes for total assets for 2001. The actual property taxes for 2000 were reviewed and compared to the estimated 2001.

8	Total property taxes estimates for 2001	
9	Total Base assets for FPL use	
10	Total all Assets	7
11	Ratio assets for FPL use to total	
12	Ratio times property tax estimates	
/3	For 2001 =	
14	Allocated Property Taxes	

- The mathematical errors in the prior audit disclosures change the above property tax calculation.
- These changes are included in Audit Disclosure 6.
- 17 OPINION: The method used for the allocation of property taxes appears to be reasonable.

### / AUDIT DISCLOSURE 5

- 2 SUBJECT: EXPENSES ALLOCATED TO FPL FROM FIBERNET
- 3 STATEMENT OF FACTS: FiberNet expenses billed to FPL comprise the average salary of
- employees. To this an overhead rate is added for the employees.
- The only expenses allocated to FPL for the year 2001 are based on the average salaries of
- 6 employees plus overhead of percent. The company stated that the headcount is the number
- of people that supported the fiber network for the utility prior to the FiberNet split off. The
- company also stated that this could be reviewed every year to determine a new number.
- 9 OPINION: The allocation of expenses appears to be reasonable.

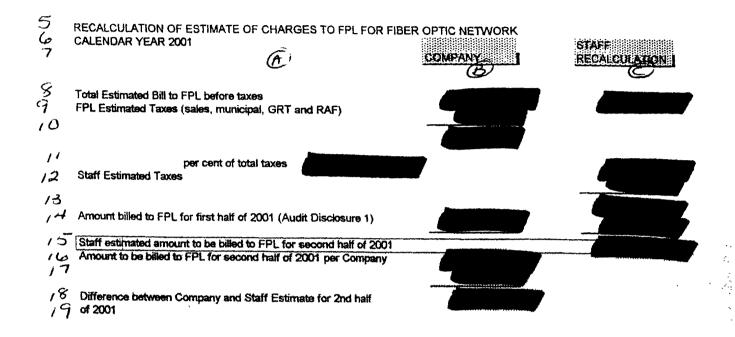

#### ì **AUDIT DISCLOSURE 6** 23 **SUBJECT:** PSC STAFF REVISED 2001 ESTIMATED CHARGES TO FPL FROM FIBERNET 4 STATEMENT OF FACTS: The schedule following this disclosure recalculates the estimated 5 charges to FPL for the Year End December 31, 2001. This schedule includes corrections to the mathematical errors noted in Audit Disclosures 2 through 5, and the staff revised overall return on investment. 8 Also included in the attached schedule is a reallocation of taxes. 9 **OPINION:** Based on the attached calculation by staff, FPL should be billed from 10 FiberNet for the second half of 2001; that is more than the estimated amount 11 calculated by the company as follows: 12 Staff /う Estimated 2001 cost to FPL

AUDITOR: RKY

WP NO. Planning Notes

& Explanation of Business:

### 9 FiberNet has two different businesses:

- 10 1. Sell capacity on a wholesale basis. (Carry traffic for other largers for example,
  - 2. Sell Dark Fiber that is fiber that Fiber Net has installed in the ground but not yet operable -- called in the ground not lit (not electronically working)

Or Divided as follows:

- 1. Backbone that is lit fiber that sells capacity on a wholesale basis. Part is charged to the utility 100% and part is shared between the utility and other commercial users.
- 2. Metro Sells Capacity and Dark Fiber utility has no part of the metro business. Does not use its line. It is a special ring that is different than the backbone. The two systems don't touch.

Get copies of the updated backbone map and get copies of the metro maps.

# Explanation of Allocation for <u>DEPRECIATION</u>, <u>PROPERTY TAXES AND</u> RETURN ON INVESTMENT

Originally 100% of the J - see old audit was charged to the utility. The utility was not charged for completing the loop on the J. Now allocate all rather than only the J. Now there is a new map with spurs that come out of the loops that only FPL uses 100%.

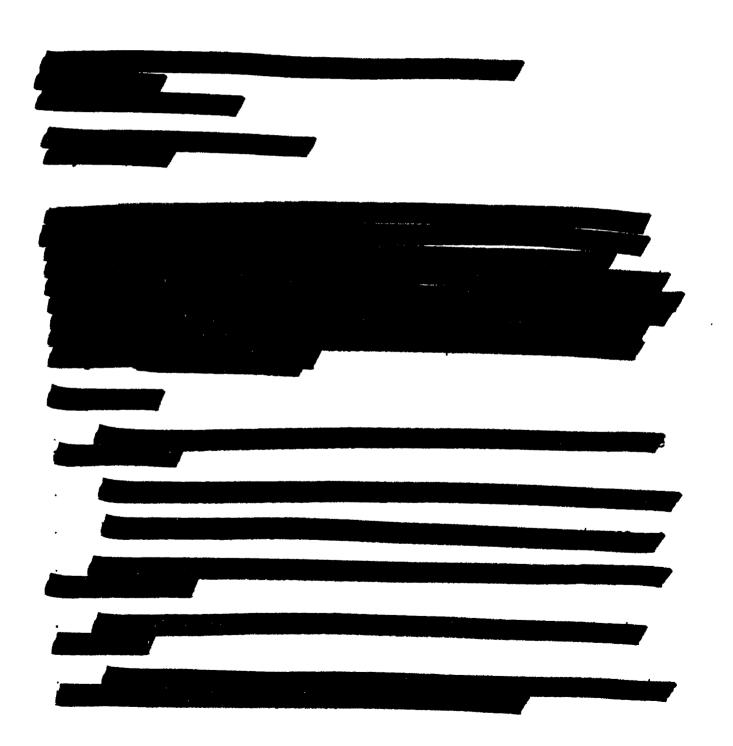

Get detail drawings of the backbone map with the spurs.

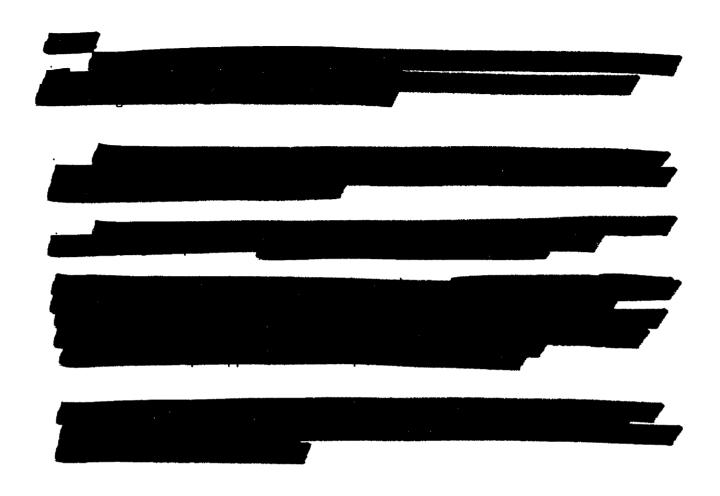

The total backbone is broken down to fiber miles (including the spurs??). There are 28,000 fiber miles. The fiber network consists of OC48 rings (OC48 rings = capacity). That is 38,000 individual lines. The OC48 rings breaks down into DS

- equipment. The DS breaks down to 672 lines each. 2 Fiber- (a) 100% to FPL. The fiber miles that are used 100% by 3 FPL are determined. The company says that approximately are 100% FPL and the rest are shared. How did they determine this? (Either on a spur or certain points where there is a fiber used for protection and control. (b) Allocated Fiber to FPL. The rest are shared and 8 allocated to FPL based on capacity as follows: (1) The fiber ??? is allocated based on the number of 10 DSQequipment. DS's consist of 672 lines. The total DSthat are // dedicated to FPL vs the total DS3s. That ratio is the % How did they determine how many DS equipment 12 13 FPL uses. 14 Electronics (A) 100% to FPL. These are the buildings that house 15 the electronics that light the fiber. There are pre 1996 16 electronics that only the utility uses. The buildings are called 17 Huts or POPs. The POP is more of a jump off point where calls etc. The Hut is there of a regeneration facility site. (Regenerate the signal because losses along the 20 way.)  $\mathcal{A}$ (B) The shared portion allocated to the utility based on *〕* ???????? \_\_\_\_. 23. The total allocation for 2001 for the shared portions is 24 this a combination of Fiber and Electronics? How. This percent is applied to total depreciation, property taxes and 26 return on investment.  $\mathcal{L}^{7}$  The percent is determined once a year and is static for the 28 entire next year. The company pointed out that in this way if 29 more fiber is added some might be shared and some might be 30 totally dedicated to FPL 100%. However, the percent will not 3' change until next year so FPL utility will benefit. Staff note-32 It could also be the other way around. 33 ALLOCATION OF EXPENSES 34 The only expenses allocated to the utility is a headcount.
  - The number of people that supported the fiber network for the detaility prior to fiber net split off and selling to commercial were determined to be That was in 1995. This was audited in

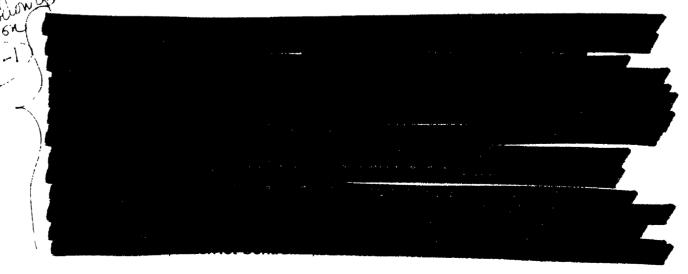

38 the prior audit?? Look up??

The average salar of the people including pensions, overhead and benefits are allocated to the utility. The number stayed with for 2001. It could be looked at every year to determine a new number.

RE: Charges from FPL TO FIBERNET

Has this acre space been included in the charges from FPL to FiberNet for the year beginning 2001? If so, provide documentation. If not, explain why not. Has accounting identified any other square footage that should or should not be charged to Fiber Net for 2001? If so, provide documentation.

#### FPL ANSWER AND STAFF CONCLUSION

FPL's answer indicates that the acre space has been included in the 2001 charges from FPL to FiberNet for the year beginning 2001. Documentation was provided. FPL's response indicates that accounting has not identified any other square footage that should or should not be charged to FiberNet for 2001.

Since the space has been included in 2001, no disclosure is necessary.

#### 1 **DISCLOSURE 2** 2 SUBJECT: ALLOCATION OF DEPRECIATION ON FIBERNET ASSETS STATEMENT OF FACTS: The cost of the assets of the FiberNet system to FPL comprises (1) depreciation expense on electronics and fiber used by FPL exclusively, and (2) a percent of depreciation expense on electronics and fiber shared by FPL and FiberNet commercial customers. Definition of Electronics - There are buildings called huts and points of presence, which house the electronics that lights the fiber (makes the fiber operable). Definition of Fiber - Fiber is cable that light travel through that carries the sound waves. 10 (1) Depreciation Expense on Electronics and Fiber used by FPL 100%: 11 a. Electronics: The electronics used by FPL exclusively were determined to be the pre 12 1996 electronics on the books. The company says that these electronics are dedicated to FPL and 13 The depreciation rate of years is applied to this balance. used only by FPL. Depreciable Base for exclusive Electronics (per books) 15 16-1 vears rate Depreciation Expense to FPL 17 b. Fiber: The fiber used by FPL-only was determined by a study which measured the fiber 18 miles that are dedicated to FPL. The fiber used by FPL was mapped out by engineers and shows 19 FPL connections only. From this a ratio of FPL exclusive fiber miles to the total fiber miles is 20 determined. The ratio is applied to the book value of the total fiber backbone miles on the books 21 as of December 31, 2000 (both exclusive and shared.) The depreciation rate of 20 years is حدد applied to FPL's portion of the shared assets. The company stated that the study will be updated 23 every year. Fiber for FPL Use only per study 24 25 Total FPL exclusive miles/ Total Fiber miles 26 Total Book Value of Fiber on books 12/31/00 27 Times FPL Use only 28 29 year rate Times: 30 Depreciation Expense Charged to FPL A mathematical error was made in adding up the FPL exclusive miles. The exclusive miles are 31 This changes the ratio and the depreciation expense charged to FPL. See instead of

Audit Disclosure 6 for changes. 43-122

(2) Depreciation Expense on Electronics and Fiber shared by FPL and FiberNet Commercial customers.

a. Electronics: Housed in the huts or points of presence, is equipment called DS3. Each DS3 consists of 672 lines. A study was performed to determine the number of DS3's dedicated solely to FPL and the total number of DS3's. The study determined the beginning and ending location for all circuits used solely at FPL locations. This was compared with utility records and commercial use records. From this a ratio of FPL DS3'S to total DS3'S is determined. The percent is applied to the total shared value of electronics on the books as of December 31, 2000. The company stated that the study will be updated every year.

Shared Electronics
Shared Electronics book value at 12/31/00 43-505
FPL DS3'S to Total DS3's
Prorated depreciable assets
Times Syear rate
Depreciation Exp Charged to FPL

A math error was made in adding up the number of FPL DS3's. The number of DS3's to total should be the property of the propert

<u>b. Fiber:</u> The book value of the fiber miles determined to be used solely by FPL above is subtracted from the book value of the total backbone fiber miles on the books. To this the ratio of DS3'S used solely by FPL to the total DS3'S is applied. The DS3 ratio is applied because FPL believes that usage should determine the rest of the shared lines rather than the miles. Even though FPL has dedicated lines, it also has to reserve commercial lines in case of a break in the lin. The PSC staff also recommended that usage be used in its prior audit. The depreciation rate of reserve is applied to this book value.

Shared Fiber

Total Backbone Fiber on Books at 12/31/00

Less FPL Exclusive Fiber above 43,22

Base for Shared Fiber

Shared based on FPL DS3'S to Total DS3'S above 43-6

Prorated Depreciable Base

Times year rate

Depreciation Exp Charged to FPL

There is a mathematical error in the above calculation for the shared fiber. Using the company's percent for shared DS3's, the depreciation expense should be the However, this is also in error as discussed above. See Audit Disclosure 6 for recalculation.

**OPINION:** Except for the mathematical errors, the depreciation expense allocation method on both FPL exclusive assets and shared assets appears to be reasonable and follows the recommendations of the prior Commission staff audit.

#### AUDIT DISCLOSURE 3

ı

10

14

15

16

### 2 SUBJECT: CALCULATION OF RETURN IN INVESTMENT

STATEMENT OF FACTS: A return on investment rate of the assets described in Audit Disclosure 2.

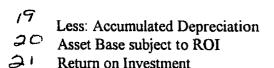

The return on investment amount is an average of three cost rates for BellSouth Telephone which are rated AA-. These cost rates are prepared by the Finance and Tax Division of the Florida Public Service Commission quarterly. The three rates used for the average by FPL were (1) discounted cash flow (2) ExAnte Risk Premium and (3) Prospective CAPM. They were 18.7, and respectively. This averages to

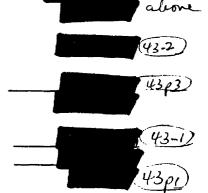

This is applied to:

B

- a. Book value of exclusive FPL electronics as of December 31, 1995(100% FPL),
   b. Book value of exclusive FPL fiber as of 1/2
  - b. Book value of exclusive FPL fiber as of 1/2001 (engineering drawings),
  - c. Book value of shared electronics calculated used by FPL as of December 31, 2000, and
  - d. Book value of shared fiber calculated used by FPL as of December 31, 2000.

The mathematical errors in the calculations described in audit disclosures 2 and 3 change the return on investment. See audit disclosure 6 for the corrected calculation  $\frac{43-132}{2}$ 

In the BellSouth Unbundled Network Element docket order PSC-01-1181-FOF-TP, dated May 25, 2001, the Commission authorized an overall rate of return of 10.24%, where the return on equity was 12.2% and the debt rate of 7.3%.

OPINION: The return on investment calculation was reviewed with the Division of ECR in Tallahassee. It was their opinion that a more reasonable return on investment would be the

27 overall rate of return determined in the BellSouth Telephone Unbundled Network Elements

30 docket. Audit Disclosure 6 includes a recalculation of the estimate for 2001 using the 10.24 %

3 return on investment and the corrections to the math.

#### AUDIT DISCLOSURE 4

j

## 2 SUBJECT: ALLOCATION OF PROPERTY TAXES

- STATEMENT OF FACTS: FPL is charged for property taxes on the property used exclusively by it, and its portion of the shared property.
- The total asset base for FPL use (exclusive and shared %) is compared to the total assets. This ratio is applied to the estimated property taxes for total assets for 2001. The actual property taxes for 2000 were reviewed and compared to the estimated 2001.

C		
o O	Total property taxes estimates for $2001 \frac{43-8}{3}$	
4	Total Base assets for FPL use (4304)	
10	Total all Assets	
11	Ratio assets for FPL use to total	
12	Ratio times property tax estimates	
13	For 2001 =	_
14	Allocated Property Taxes	"3P1)

- The mathematical errors in the prior audit disclosures change the above property tax calculation.
- 16 These changes are included in Audit Disclosure 6. (43-1ρ2)
- 17 OPINION: The method used for the allocation of property taxes appears to be reasonable.

# AUDIT DISCLOSURE 5

- 2 SUBJECT: EXPENSES ALLOCATED TO FPL FROM FIBERNET
- STATEMENT OF FACTS: FiberNet expenses billed to FPL comprise the average salary of employees. To this an overhead rate is added for the employees.
- The only expenses allocated to FPL for the year 2001 are based on the average salaries of employees plus overhead of percent. The company stated that the headcount is the number of people that supported the fiber network for the utility prior to the FiberNet split off. The company also stated that this could be reviewed every year to determine a new number.
  - 9 OPINION: The allocation of expenses appears to be reasonable.

### / AUDIT DISCLOSURE 6

2 SUBJECT: PSC STAFF REVISED 2001 ESTIMATED CHARGES TO FPL FROM FIBERNET

STATEMENT OF FACTS: The schedule following this disclosure recalculates the estimated charges to FPL for the Year End December 31, 2001. This schedule includes corrections to the mathematical errors noted in Audit Disclosures 2 through 5, and the staff revised overall return on investment.

Also included in the attached schedule is a reallocation of taxes.

9 OPINION: Based on the attached calculation by staff. FPL should be billed from 10 less than the estimated amount FiberNet for the second half of 2001; that is 11 calculated by the company as follows: B 12 Company Staff 13 Estimated 2001 cost to FPI 14 including taxes 15 Less: /6 Amount billed to FPL for First half-/ 7 of 2001 including taxes Estimated Amount to be billed to FPL for second half of 2001 per Company 43-104 20 Estimate Amount to be billed to FPL 21 for second half of 2001 per Staff

cc: bcc:

Subject: FPSC Response

#### **FPSC Opinion**

In the Bellsouth Unbundled Network Element docket order PSC-01-1181-FOF-TP, dated May 25,2001. the Commission authorized an overall rate of return of 10.24% where the return on equity was 12.2% and the debt rate of 7.3%.

12

The return on investment calculation was reviewed with the Division of ECR in Tallahassee. It was their opinion that a more reasonable rate on investment would be the overall rate of return determined in the BellSouth Telephone Unbundled Network Elements docket. Audit Disclosure 6 includes a recalculation of the estimate for 2001 using the 10.24% return on investment and the corrections to the math.

16 17 18

21

#### Response

Order PSC-01-1181-FOF-TP under Docket No. 990649-TP indicated cost of capital input as follows "Given a capital structure of 60% equity and 40% debt, a cost of equity of 12.2%, and a debt cost rate of 7.30%, we find that the appropriate forward looking cost of capital input is 10.24%." In other words the cost of capital input was calculated as:

 $[60\% \cdot 12.2\%] + [40\% \cdot 7.30\%] = 10.24\%$ 

While the "cost of capital input" described above may be appropriate for the purposes of Docket No. 990649-TP, it is not a required ROI. A required ROI calculation must include a gross-up for the effective income tax rate to determine the revenue required on the investment. In light of the Commission's Order and the appropriate gross up for the income taxes, it appears that FPL FiberNet's pre-tax ROI of reasonable. In addition, based on the Wall Street reports (contained below and attached) the ROI charged is significantly below those of similar start up telecom companies in today's market and therefore, the amount charged is reasonable.

29

Calculation using FPSC formula (including effective tax rate):

30 60% = equity weight in capital structure = we 40% = debt weight in capital structure = wd

31 12.2% = cost of equity = ke7.3% = cost of debt = kd

38.575% = effective tax rate = t

Required ROI =  $[(ke^*we)/(1-t)] + [kd^*wd]$ 

Required ROI = [(.122\*.6)/(1-.38575)] + [.073\*.4]

Required ROI = .1484

38 39

In the following analyst reports, Dain Rauscher raised the Weighted Average Cost of Capital (WACC) for two competitive telcos to 20% and 23%. The WACC does not include a gross-up for taxes. So, the 40 required pre-tax ROI for these firms would be higher still when computed in that manner.

41 Dain Rauscher Wessels

42 a division of Dain Rauscher Incorporated

\* We are lowering our price target to \$6 from \$13 on a higher assumed WACC of 20%; previously, we had assumed a WACC of 15.5%.

\* CTC Communications is expected to report 2001 results in late July. On

July

3, management pre announced 2Q01 financial results that were in line to slightly ahead of our expectations.

\* We maintain our Buy-Aggressive rating on shares of CPTL.

CPTL: B-Aggr; LOWERING PRICE TARGET TO \$6 ON HIGHER ASSUMED WACC; MAINTAIN BUY

We are increasing our weighted average cost of capital (WACC) assumption in our adjusted cash flow valuation methodology to 20% from 15.5% in order to better reflect current market conditions and bond yields within the CLEC sector. As a result of the WACC adjustment, we are lowering our 12-month price target to \$6 from \$13. Importantly, we are not making any changes to our estimates; the price target adjustment is solely a function of the higher

WACC. Of note, we assume a slightly lower WACC for CTC Communications, as compared to other service providers, because the company is fully funded based on our outlook and is on track to reach positive EBITDA during 4Q01.

CTC Communications is expected to report 2Q01 operating results in late July. The company pre announced 2001 revenues of \$74 million and EBITDA loss of less than \$6.5 million. We are looking for revenues of \$74.3 million and an EBITDA loss of \$6.7 million. Our channel checks have indicated that service providers targeting large enterprise customers, such as CTC Communications, are likely to encounter a challenging sales environment. However, on July 3, CTC Communications pre announced in line to positive 2001

financial results (see our FC note of July 5, 2001).

Stock Opinion

We are adjusting our WACC discount rate, but we maintain our Buy-Aggressive rating on CPTL shares. Our revised 12-month price target is \$6 (down from

ا جَوْفِير

\$13), which is based on our adjusted cash flow valuation methodology. This valuation approach discounts cash flows to the present based on a 20% WACC, and assumes no revenue growth or margin expansion beyond 2004.

Company Description

CTC Communications Group, Inc. provides integrated voice, data, and Internet services to multilocation medium and large businesses on the East Coast.

Originally a Bell Atlantic agent and a reseller of other carriers'

services, CTC is constructing a packet-switched network and becoming a facilities-based carrier.

Dain Rauscher Incorporated makes a market in CTC Communications Group, Inc. and may act as principal with regard to sales or purchases of this security.

UAXS:SB-Aggr;Q2 PREVIEW: LOWER TARGET ON HIGHER WACC; REITERATE STRONG BUY

In order to better reflect current market conditions and bond yields within the telecom sector, we are increasing our weighted average cost of capital (WACC) assumption in our adjusted cash flow valuation methodology for Universal Access to 23% from 15%. Based on this WACC adjustment, we are lowering our price target to \$14 from \$20. Of note, we are not making any changes to our estimates at this time and continue to view the company's operating fundamentals and value proposition favorably.

Universal Access should report 2Q01 operating results in late July. Our forecast calls for revenues of \$32.8 million and an EBITDA loss of \$12.5 million. On June 19, the company provided revised earnings guidance, announcing an anticipated accelerated time to profitability by one quarter to

2Q01, one quarter after reaching EBITDA break-even. As such, we believe the company should easily surpass our 2Q01 estimates, which are at the high end of the Street's range.

Fundamentals Appear To Clearly Be In The Right Direction: We maintain that industry trends (e.g., continued long-network provisioning intervals) appear to favor Universal Access' business model of providing quicker network

interconnections and speeding carriers' time to revenue. Universal Access remains one of the few service providers with most trends pointing in the right direction, as evidenced by management's positive pre announcement as well as our channel checks.

The company's funding position is strong. We estimate that Universal Access should report approximately \$64 million of cash and equivalents available at the end of 2001. We estimate that Universal Access will incur approximately \$15 million of additional cash burn before turning EBITDA positive in 1002.

During the same period, we estimate \$10 million of additional capital expenditures. Accordingly, the company should achieve profitability with

than \$30 million of cash and equivalents on the balance sheet and essentially

no debt outstanding.

Risk Factors To Be Aware Of: Our primary concerns are potential customer churn as well as current revenue concentration. At the end of 1001, Universal Access' average contract length was 23 months, which was among the highest in the telecom service sector. Upon contract expiration, carrier customers may not necessarily renew the contract; however, they would still be required to provision a replacement circuit. It is premature to determine whether carriers intend to renew or terminate contracts since few contracts have expired; however, we believe most carriers are likely to renew contracts

rather than groom their networks.

In addition, Universal Access' revenue concentration is an area of some concern. Specifically, the company's top two customers accounted for close to

50% of 2Q01 revenues; however, our channel checks suggest that this revenue concentration could be significantly alleviated by year end, largely due to in roads we believe the company has achieved with carriers through its Core initiative (please refer to our June 4 note for details).

#### Stock Opinion

We reiterate our Strong Buy-Aggressive rating on UAXS. Our revised 12-month price target is \$14 (down from \$20), which is based on our adjusted cash flow

valuation methodology. This valuation approach discounts cash flows to the present based on a 23% WACC, and assumes no revenue growth or margin expansion beyond 2004.

#### Company Description

Universal Access, Inc., through its proprietary telecommunications database and network of physical interconnection facilities, provides end-to-end network connections and bandwidth provisioning services to carrier, ISP, and hosting customers. The company's services encompass local access, regional transport, and intercity capacity.

Dain Rauscher Incorporated makes a market in Universal Access, Inc. and may act as principal with regard to sales or purchases of this security.
