Subject: RE: 000604

Thanks, Levent. Hong and I were talking about the parties list in 000604 and weren't sure if it was proper to go ahead and mark all the entities as parties. I can see how we would do so, since we did something similar in 990223.

I'll ask Lee by cc: to look at the parties list in 000604. Lee, should all of those * entities be marked as parties? Are there any that should be interested persons only?

Please respond to Hong also. I'll be out of the office till 6/14, by the way.

Thanks for looking into this.

Kay

Hi Kay,

The last docket 990223 dealing with the 941 area code included those people since they represented the counties they live in. This is the reason why I included them in the list. Let me know if you've any questions. Thanks.

Levent

Levent, we opened this docket for review of numbering plan relief for 904 area code a couple of weeks ago. My question is concerning the entities you included on the docket est. form---you indicated they are parties. Why are these companies and persons considered parties?

Kay

Request for Name and address change on behalf of Thomas C. Foley

Dear Ms. Bayo:

Enclosed for filing are an original and fifteen copies of a request for a name and address change on behalf of Thomas C. Foley of NeuStar, Inc. In the above-referenced docket, the records and web site of the Florida Public Service Commission reflect an incorrect name and address for Thomas C. Foley, representative of NeuStar, Inc. Please update the party of record and service lists to read as follows:

NeuStar, Inc.
Thomas C. Foley, NPA Relief Planner
820 Riverbend Boulevard
Longwood, FL 32779-2327

Please date-stamp the enclosed return copy as received and return it in the attached self-addressed stamped envelope. If you have any questions regarding this matter, please contact the undersigned.

Respectfully submitted,

TO WHOM IT MAY CONCERN.

I AM TOTAL AGAINST THE SPLIT OF AREA CODES. THERE IS NO GOOD REASON THAT NEW NUMBERS ARE NEEDED. FIND ANOTHER WAY AS SET CELL PHONE, PAGERS AND HOME PHONE NUMBERS. THERE ARE STILL A LOT OF NUMBERS OUT THERE AND TO SPITE AREA AS YOU HAVE IS A DISGRACE. FOLKS LIVING IN SOUTH COUNTY WILL HAVE TO PAY LONG DISTANCE CHARGES. I DON'T THINK SO. SOON A FEW WILL NOT BOTHER WITH YOUR PHONE SYSTEM. THIS SOUNDS LIKE THE OLD BELL BRAKE UP. NOT WORKING WITH ALL THESE COMPANIES OR US LITTLE FOLKS. I, FOR ONE ARE VERY MUCH AGAINST THIS SPLIT. DOING BUSINESS FROM SARASOTA TO LEE COUNTIES I AN APPALLED THAT YOU ARE TRYING THIS AGAIN.

SINCERELY,
 NANCY RYDER

Area Code

-----Original Message-----

From: JB EGAN [mailto:EGANMKTG@excite.com]
Sent: Tuesday, June 20, 2000 3:58 PM
To: contact@psc.state.fl.us
Subject: 941 Area Code Split

As the owner of a small business, I would like to express my concern over one of the proposed splits for area code 941. One recommendation is to split between Venice and Englewood in south Sarasota County. This is according to the article published in the Herald-Tribune on June 20, 2000.

I feel consideration should be given to the MSA or DMA areas (sales and trade market areas)of the area code served. I would incur a considerable addition of time and money if I would have to use two area codes to conduct my business. Like many businesses in Sarasota and Manatee counties, the "local" business area is considered all of both counties as presently provided. The inclusion of Charlotte County down to Punta Gorda would be helpful. You will greatly effect the Englewood market should the Venice/Englewood split be instituted.

Thank you for your time and I hope you will be able to use this information in your decision making process. I'll watch the newspapers for the results.

Sincerely,

Judy Egan

RECORDS AND REPORTING

PSC, When the time comes to split area code 941 into 2 codes , do just that and please dont do an " overlay "....friends and family in such an overlay area in another state tell me this a nightmare.....my sugestion would be to keep 941 for all of Manatee and most of Sarasota . The cut could follow the present division b'ween GTE and Sprint....ie: leave Venice [GTE] in 941 and move the Englewood area [Sprint] to a new area.

Is this a docket?
-----Original Message-----

From: Margie & Gerry Del Negro [mailto:delnegro@bitstorm.net]
Sent: Thursday, June 22, 2000 5:26 PM
To: contact@psc.state.fl.us
Subject: "FUN" area code for Volusia & Flagler

Honorable PSC members,

Where we live in Deltona we currently already have two area codes. Our home phone is 407, our two office phones are 407, but our cell phone is 904. When we try to call a telephone number in our area this is the process we go through. If no area code was listed in the ad (for instance) we first try to dial the straight 7 digit number. Next, we try 407 and the 7 digit number (since part of the area we call is a 10 digit dialing area). If that does not work we then try 1-407-and the 7 digit number. Last we try 1-904-and the 7 digit number. Often we end up trying 4 different ways to call a number in an advertisement that does not contain the area code. We find it so frustrating we have gone to a toll free number to make it easy for our customers to reach us. We can't expect customers to be that persistent to reach us. They will go to the next number listed. Even when we try to call our County Government is frustrating. One office is a 7-digit number but across the street is the 1-904-and 7 digit number. We try to make a record in our address books which way it is to call but then if we call from the cell phonewe go through the entire process again.

PLEASE GIVE US ONE AREA CODE TO USE IN VOLUSIA AND FLAGLER!!!!!!!!!!!!
OUR BUSINESS DEPENDS ON IT!!!!!!

PS: Our city of Deltona already has 3 area codes. If we call Osteen, that is area code 321. You could make us have 1 area code with your vote.

Subject: 904 to 386

We here in Volusia and Flagler counties would really like to see our telephone area code changed from 904 to 386. This would be a great help to our area for tourism and economic reasons. The area code would translate to FUN. This has worked for other cities and counties.

24 June 2000

By this letter I am objecting strongly to a proposal, published in our local press, to split the "941" telephone area code along a line between Punta Gorda and Port Charlotte. Instead, I urge this Commission to adopt a dividing line through some nearby rural area that would not disrupt the well established local business telephone patterns.

The communities of Punta Gorda, Charlotte Harbor, Port Charlotte, and Murdock are a single economic unit with a great amount of local telephone traffic between them. Having an area code boundary through any of them would be akin to dividing any small city by a line through its middle, and just as undesirable.

There is an abundance of nearby sparsely inhabited rural land both north of the Murdock area, and south of Punta Gorda. A dividing line in such an area would have a minimal impact on local business and residents.

When I lived in upstate New York, there was a similar dividing line between Rochester's "716" area code and the "315" code to the east. To minimize the impact on connected economic areas, this line was placed through a rural area just east of the Rochester suburb of Webster. Residents with property abutting this line (I was one of them) were offered the choice of being assigned to either of these area codes. Since the majority of my local calling was to "315" numbers, I chose to be assigned there and never regretted it.

I urge the Florida PSC to abandon consideration of any "941" telephone area code dividing line that cuts through any of the connected communities of Punta Gorda, Charlotte Harbor, Port Charlotte, and Murdock, in favor of a line north or south of this area through nearby sparsely populated rural areas.

Sincerely,

Homer Smith

Dear Sirs,

000604-TL

We live in Englewood - Leewood in the North Part thereof and have left out of our Subdivision to go to Venice as we are really 15 miles from Englewood.

I request do not separate us from Venice as all of us in North Englewood (Sarasota County) really belong to South Venice.

As you are aware Englewood is already separated by Sarasota and Charlotte Counties so please do not separate us any more.

Same phone # as Venice.

Thank you

RE: Area Code Changes

Dear Sir:

We would hate to see Plan Two take affect. We are in Port Charlotte in Charlotte County. To have Port Charlotte separated from Punta Gorda in Charlotte County would not be advisable for many reasons.

Why split Charlotte County?
Many calls are placed between us and it would mean a toll call. Punta Gorda residents frequent the restaurants and business' on our side of the bridge and we in Port Charlotte go to Punta Gorda to do the same - many times requiring a telephone call.

We would rather go to Plan One leaving Charlotte, Lee and Collier together. The Airport in Ft. Myers is used by many in these 3 counties.

Hope you will consider these viewpoints.

Sincerely,
Shirley Wolff

Hong Wang

From: Kay Flynn
Sent: Friday, July 07, 2000 5:58 PM
To: Hong Wang
Subject: RE: 000604

I finally had a chance to review this docket parties list. Here are things I noticed:

Time Warner should be Co Code TA013 rather than TX006--please fix
K. Schneider was in twice--under her name and under Sarasota County. I deleted her entry.

Why are these names marked as parties:

Martha Burton
James Minix
Morrison & Foerster
Neustar
Homer Smith

If any of the names were on Levent's list, they can remain on the mailing list--as interested persons. If any were added because they wrote letters voicing their concerns but not asking to be placed on the mailing list, they should be deleted. If any were added because they asked to be placed on the mailing list, they can remain--as interested persons.

Let me know if questions.

Subject: RE: 000604

Thanks, Levent. Hong and I were talking about the parties list in 000604 and weren't sure if it was proper to go ahead and mark all the entities as parties. I can see how we would do so, since we did something similar in 990223.

I'll ask Lee by cc: to look at the parties list in 000604. Lee, should all of those * entities be marked as parties? Are there any that should be interested persons only?

Please respond to Hong also. I'll be out of the office till 6/14, by the way.

Thanks for looking into this.

Kay

Hong Wang

From: Kay Flynn
Sent: Thursday, July 13, 2000 2:35 PM
To: Hong Wang
Subject: 000604 mailing list

I did a bit more checking on this list. Martha Burton is an attorney for Charlotte County, and James Minix for Manatee County. Neither have actually intervened in this docket, so they should be on the list as interested persons only. However, I found more complete addresses for each in Docket 990223. Please use those addresses (street numbers and names etc. are same, but county name is included) rather than the abbreviated info we were given for 000604. I confirmed with Levent that Neustar is "NANPA" now and Morrison/Foerster is their rep, but they need to intervene to be marked as parties.

FYI, I also asked Levent what counties are affected by this docket. He listed Manatee, Sarasota, Charlotte, Lee, Collier, and Monroe.

J. Terry Deason
Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

RECEIVED
DEC 1 2000
Florida Public Service Comm.
Chairman Deason

Dear Chairman Deason,

In light of the Florida Telecommunications Industry requesting relief for the 941 area code, the Manatee Chamber of Commerce would like to reaffirm our previous position. As stated in public testimony at proceedings before the Public Service Commission on April 8, 1999, and thereafter approved, the Manatee Chamber with over 1,900 members, supports retaining the 941 area code by leaving Manatee, Sarasota, and Charlotte counties together. This would be Alternative #4 in the petitioners' attachment that places Lee, Collier, and Monroe in a second area code.

For numerous reasons including sharing mutual transportation planning organizations, water supply authorities, business/industrial locations and educational institutions, we support the current 941 alignment. There was a **strong** mandate of community support on this PSC decision only a short one and a half years ago. The alternative suggesting a 10-digit system would be premature because retaining the 941 numbers was supposed to last another four and a half years.

Please do not hesitate to contact Neil Spirtas, Vice President Public Affairs, at (941) 748-4842, ext. 124, if you have any questions or comments regarding our concerns. We support Manatee County government's intervention in this matter.

Sincerely,

Byron Shinn
Chairman of the Board

Division of Competitive Services (Casey)

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

**In Re: Request for Review of Proposed
Numbering Plan Relief for the 941
Area Code**

Docket No. 000604-TP

**WORKSHOP PAPER
OF SARASOTA COUNTY, FLORIDA**

Sarasota County, Florida hereby submits its position for consideration by the Florida Public Service Commission regarding the Proposed Numbering Plan Relief for the 941 Area Code. Legal counsel for Sarasota County scheduled to appear at this hearing is also legal counsel to the Sarasota County Canvassing Board, and has been detained in Sarasota County pending a determination by the U.S. Supreme Court regarding the ballot recount. Accordingly, Sarasota County respectfully requests that this Commission consider Sarasota's County's position in this matter as indicated in this Workshop Paper.

For purposes of presentation, this paper is organized following the Staff's proposed issues:

- I. Should the Commission approve the industry's consensus relief plan for the 941 area code?

The industry's consensus relief plan for the 941 area code is the overlay alternative. It is the position of the Board of County Commissioners of Sarasota County that the overlay is not viable as it creates confusion for the County's significant senior population as well as the tourist industry and effectively undermines the concept of a unified, interactive business community. Further, in light of the daily interaction of the governments and residents of Sarasota County, Charlotte County and Manatee County, these three counties should have the same area code.

- II. If the Commission does not approve the industry's consensus relief plan for the 941 area code, what alternative relief plan should the Commission implement?

The Alternative 4 relief plan should be implemented. This relief plan recognizes the community of interests between the Sarasota County, Manatee County and Sarasota County, avoids a confusing overlay for the predominantly senior population in the Sarasota/Manatee/Charlotte area, and provides a 7-year exhaust

period for Area "A" and a 10-year exhaust period for Area "B", which fall within the NPA Code Relief Planning Notification Guidelines.

III. What number conservation measures, if any, should the Commission implement?

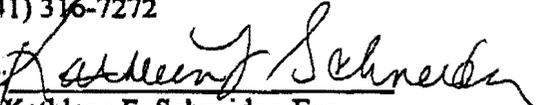

The Commission should consider immediate implementation of number pooling to extend the 941 exhaust period and to eliminate the jeopardy status and the issuance of future NXX numbers in blocks of 1000 rather than 10,000. These are the same conservation measures discussed in 1998.

IV. If number conservation measures are to be implemented, when should they be implemented?

It is recommended that number conservation measures be implemented immediately.

Respectfully submitted this 11th day of December, 2000

Subject: Docket No. 000604-TL, Area Code Relief for the 941 Area Code

After reading a letter concerning the above Docket, I have a few concerns over this change, which might be too late to consider:

1. In our area, we recently changed from 813 to 941, and it appears that we will be required to change again.

- This costs real dollars and significant inconveniences to the customers in our area.

2. The relief plans have too short a projected life time 7, 8 or 10 years (and I suspect that the estimate will be high in reality).

- This is not a new problem and has been faced by growing areas everywhere.

Whatever the relief plan is that is selected should at least serve as a solution for the longest time span. It is surprising that this issue has not been solved in a way that does not require frequent revisiting. I'm an IS professional, and it's very true that 7 years is a very long time. But this is just a phone number, and there should be a solution that will have an open ended lifetime, not planned obsolescence.

Regards,
Bert Smith

Dear Ms. Grant:

Subject: Update Company Codes TL710 and TF859 Contact Information

Pursuant to your telephone conversation with Linda Rossy of my staff, please find attached the Change of Information on Regulated Utility form for Verizon's company codes TL710 (certificate number 31) and TF859 (certificate number 4962). The purpose of this filing is to change the contact name from Beverly Menard to Michelle Robinson for both company codes and add David Christian as a contact name for company code TF859.

Verizon currently receives the Agenda, Report of New Dockets, Weekly Summary of Orders, and Notices of Hearings, Workshops and Rulemaking addressed to Ms. Menard. Please change the addressee to Ms. Robinson on these as well.

Additionally, the list of current dockets for Verizon shown on the Commission's website (960847-TP, 960980-TP, 960986-TP, 990321-TP, 991376-TL, 000604-TL, 001332-TL, 001715-TP, 001718-TP, 001745-TP, 001767-TP, 001769-TP, 010046-TP, 010047-TP, 010073-TP, 010074-TP, 010089-TP, and 010102-TP) should be changed to reflect as the party of record:

Subject: area code changes

Hello,

I am a resident and business owner in Charlotte County. I am asking you to take into consideration, when making area code changes, that Northport, Florida has the only pop server with nationwide dialup service available to Port Charlotte, Florida. If you make Northport a long distance call from Port Charlotte, thousands of residents will lose their internet access. On the other hand, if you make Northport a local call for Port Charlotte and Punta Gorda, you will give Punta Gorda an access number they truly need.

Thank you for your consideration in this matter.

Mr. Patrick Langan
Vanguard Audio Visual
6805 76th Avenue East
Palmetto, FL 34221

Re: Docket No. 000604-TI - Request for review of proposed numbering plan relief for the 941 area code.

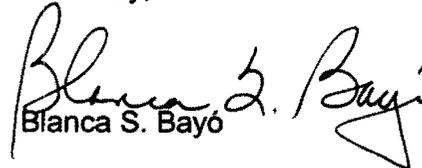

Dear Mr. Langan:

This will confirm a change in arrangements for the rental of audio equipment for a Commission hearing to be held on Thursday, May 24, 2001, in the above-referenced matter. The location for the hearing previously scheduled to be held at the Litchfield Inn in Port Charlotte has been changed to the Port Charlotte Beach Complex, 4500 Harbor Boulevard, Port Charlotte. The hearing is still scheduled to begin at 12:00 noon and the fee for providing the equipment remains at \$537.00.

The enclosed diagram demonstrates the number of microphones and the location for each. Our court reporter's cassette recorder should be plugged into the audio system and the microphones arranged in accordance with the diagram by 10:30 a.m. Please contact Mr. Chris Birdsall at telephone number (941) 627-1628 regarding access to the room.

If you have questions regarding this matter, please call my assistant, Sandy Moses, at (850) 413-6728.

Sincerely,

Blanca S. Bayó

RESOLUTION

Whereas, The Public Service Commission is planning to modify the 941 area code by the year 2003; and

Whereas, The Commission has presented four alternate plans for public discussion and input; and

Whereas, The Counties of Manatee, Sarasota and Charlotte have worked in concert as a regional unit; and

Whereas, Selecting alternate #4 will allow this regional unit to continue in its efforts to coordinate its common services; therefore be it

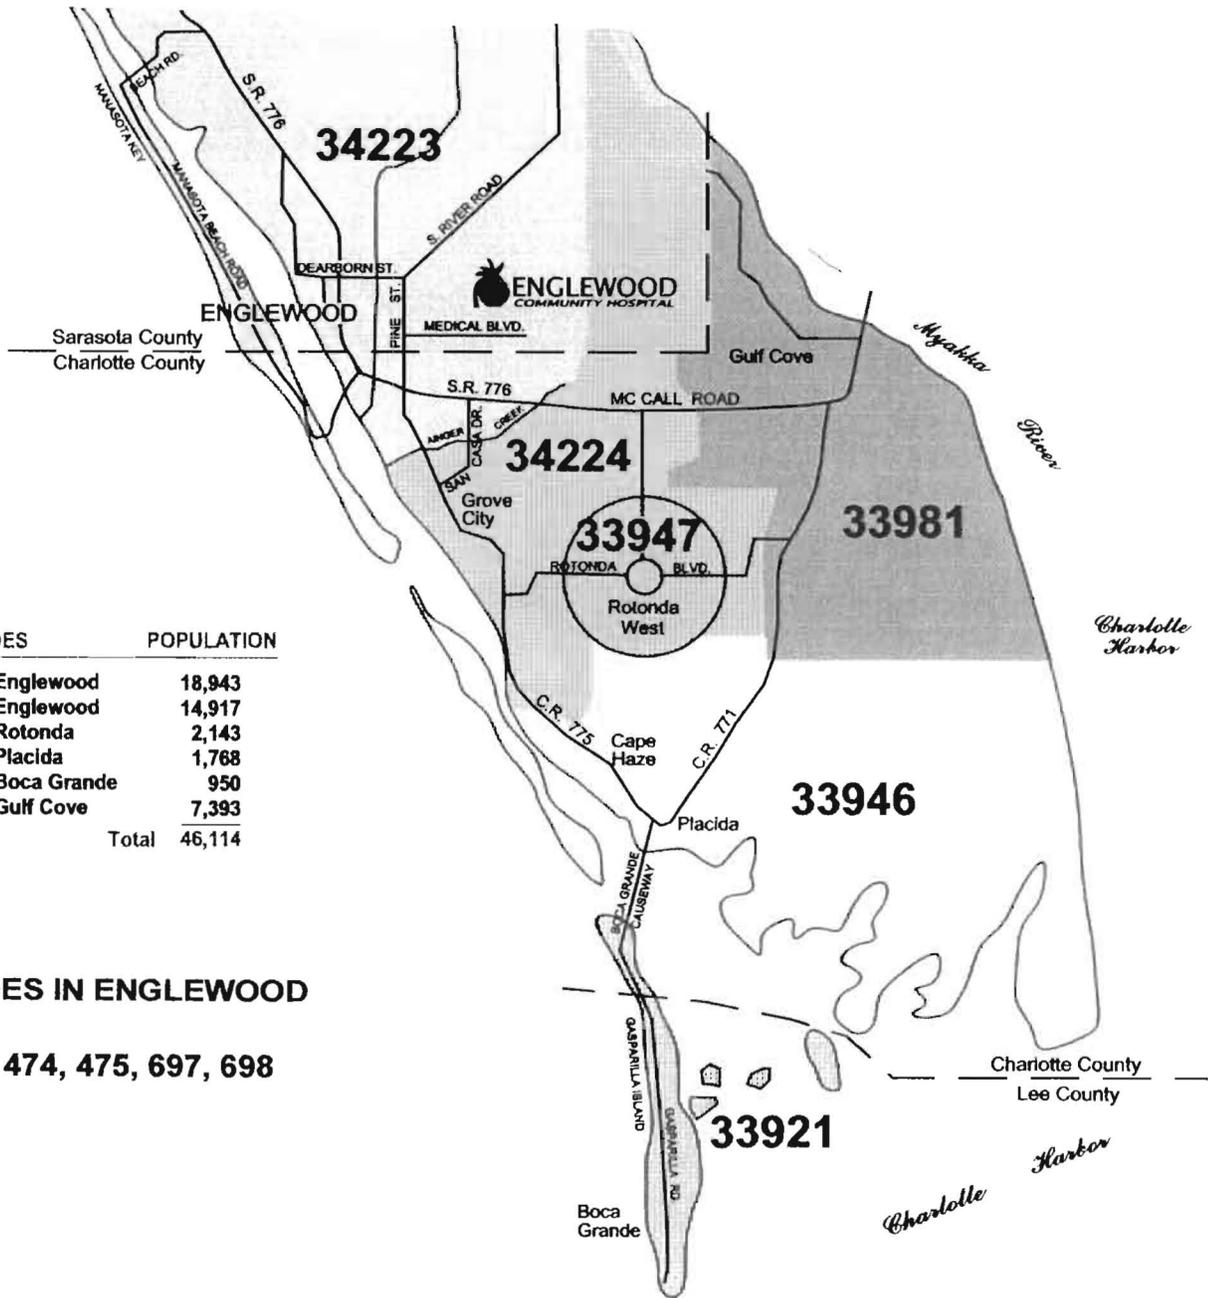

Resolved, The West Charlotte County Civic Association Inc. a consortium of 27 homeowner and civic groups representing about 18,000 citizens, does hereby recognize that the selecting of Alternate #4, section "A" and retaining area code 941 will be in the best interest of the regional unit; and further be it

Resolved, The West Charlotte County Civic Association Inc. recommends that the governing bodies of Manatee, Sarasota and Charlotte Counties urge the Public Service Commission to allow this regional unit the selection of Alternate #4; Section "A" and retain area code 941.

Duly adopted this 16 day of April 2001

Dr. Willard A. Coy President

RESOLUTION

NUMBER 2001-068

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF CHARLOTTE COUNTY, FLORIDA, SUPPORTING AREA CODE 941 RELIEF ALTERNATIVE # 4, IN THE FLORIDA PUBLIC SERVICE COMMISSION CASE.

RECITALS

WHEREAS, the North American Numbering Plan Administrator ("NANPA") is responsible for the assignment of telephone numbers and area codes in the United States, and NANPA's projected exhaust date for the 941 Area Code is the first quarter of 2003; and

WHEREAS, on May 19, 2000, the Florida Public Service Commission ("PSC") opened Docket No. 000604-TL, Area Code Relief for the 941 Area Code, in which NANPA has proposed four relief plan alternatives: (1) Distributed Overlay; (2) Geographic Split - Local Access and Transport Area (splits Englewood); (3) Geographic Split - Punta Gorda South (splits Charlotte County along the Peace River), and; (4) Geographic Split - Punta Gorda North (splits 941 area between Charlotte and Lee Counties); and

WHEREAS, the PSC has scheduled a series of customer service hearings to solicit input from affected customers, including meetings scheduled in Englewood and Port Charlotte, Florida on May 24, 2001; and

WHEREAS on October 10, 2000, the Charlotte County Board of County Commissioners ("Board") discussed the four alternatives and reached a consensus that Alternative #4, the "Geographic Split - Punta Gorda North" along the Charlotte/Lee County line, was the most favorable alternative for Charlotte County; and

WHEREAS, on January 9, 2001, the Board appointed Commissioner Mac Horton as its representative for the 941 area code PSC hearings; and

WHEREAS, the Board now desires to memorialize its previous actions into a formal resolution for presentation to the PSC by Commissioner Horton.

NOW, THEREFORE, BE IT RESOLVED, by the Board of County Commissioners of Charlotte County, Florida:

CERTIFIED, TRUE COPY
OF THE ORIGINAL
BARBARA T. SCOTT
CLERK OF THE CIRCUIT COURT
CHARLOTTE COUNTY, FLORIDA

BY 
DEPUTY CLERK

1. The Board of County Commissioners of Charlotte County supports NANPA Alternative #4 for Area Code 941 Relief.

2. Commissioner Mac Horton is directed to present a copy of this Resolution to the Florida Public Service Commission during its scheduled customer service hearings on May 24, 2001.

3. This Resolution shall become effective immediately upon its adoption.

PASSED AND DULY ADOPTED this 22ND day of May, 2001.

RESOLUTION NO. 2001- 184

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF COLLIER COUNTY, FLORIDA, SUPPORTING AREA CODE NINE-FOUR-ONE RELIEF ALTERNATIVE NUMBER FOUR, PROVIDED FOR CONSIDERATION BY THE FLORIDA PUBLIC SERVICE COMMISSION.

WHEREAS, the North American Numbering Plan Administrator (NANPA) is responsible for the assignment of telephone numbers and area codes in the United States; and

WHEREAS, on July 11, 2000, NANPA hosted a meeting of telecommunications industry officials in Fort Myers, Florida; and

WHEREAS, NANPA'S projected exhaust date for the 941 Area Code is the first quarter of 2003; and

WHEREAS, NANPA'S projected exhaust date for the 941 Area Code coincides with the 941 Area Code lifespan outlined in Florida Public Service Commission Order PSC-99-1066-FOF-TL, issued May 25, 1999, during the last 941 Area Code Relief Docket; and

WHEREAS, on December 27, 2000, Florida Public Service Commission forwarded a letter to the Collier County Commission Chairman, citing PSC Docket No. 000604-TL, Area Code Relief for the 941 Area Code, providing four proposed relief plan alternatives, to include (1) Distributed Overlay; (2) Geographic Split – Local Access and Transport Area; (3) Geographic Split – Punta Gorda South, and; (4) Geographic Split – Punta Gorda North; and

WHEREAS, the Florida Public Service Commission has scheduled a series of customer service hearings to solicit input from affected customers, including a meeting scheduled in Naples, Florida on May 24, 2001; and

WHEREAS, on April 20, 2001, Collier County staff met to discuss the four alternatives with representatives from the Naples Chamber of Commerce, Collier County Sheriff's Office, City of Marco Island, and Collier County Emergency Services; and

WHEREAS, consensus was reached by those agencies represented that Alternative (4), the Geographic Split – Punta Gorda North, was the most favorable alternative for Area Code 941 Relief; and

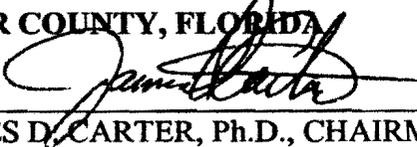

WHEREAS, consensus was also reached that Area B, or the area South of the Alternative (4) geographical boundary which includes Lee and Collier Counties, retain Area Code 941.

NOW, THEREFORE, BE IT RESOLVED, by the Board of County Commissioners of Collier County, Florida, in regular meeting held this 22nd day of May 2001 as follows:

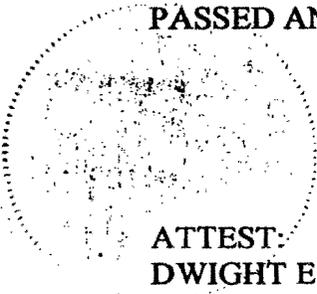

1. The Board of County Commissioners of Collier County supports the aforementioned Alternative Number 4 for Area Code 941 Relief.
2. The Board of County Commissioners of Collier County supports Area B retaining Area Code 941.
3. Staff is directed to present a copy of this Resolution to the Florida Public Service Commission during its scheduled customer service hearing on May 24, 2001.
4. This Resolution shall become effective immediately upon its adoption.

PASSED AND ADOPTED after motion, second and majority vote in favor of adoption.

You Make The Choice

Howard L. Peterson

Southwest Florida is faced with growing pains. The telephone company says that another area code is needed to accommodate a growing number of users. Now the big question is how will that area code be implemented?

Would you prefer temporary inconvenience or perpetual aggravation? There seems to be only two ways in which an additional area code can be implemented to solve the pending problem.

A look back into history is always a good idea. In 1990, area code 813 served everything on the gulf coast from Tampa southward to Naples. Soon another area code was needed. The Gulf Coast area was divided and the northern portion from Tampa to Sarasota retained the 813 designation. We here from Naples northward to Sarasota were assigned a new area code, 941. Yes, we did have a temporary inconvenience. We had to notify all our telephone contacts that our area code was now 941. We had to change stationary and bank accounts, etc. For its part, the telephone company provided our new area code number on their map and listings. But when all that was done - in less than a year - everything was over. A call to anyone in our area was just seven (7) digits. And that seven digit number calling is still in effect today.

Yes, it was a TEMPORARY INCONVENIENCE!

What is the alternative? The Eastern shore portion of Maryland (Delmarva peninsula) was assigned a new area code several years ago. But the telephone company instituted a different system. Everyone with an existing telephone retained their same Maryland 410 area code. But if you added a second telephone in your home, you were assigned a new area code 219. And because of this overlay of area codes, you now needed to use either the area code 410 or 219 for every telephone call. This is perpetual aggravation – but the telephone company calls it ten-digit dialing.

Do you want that kind of PERPETUAL AGGRAVATION?

Another alternative that has never been suggested to date is to use three area codes. That alternative would require not one but two new area codes for Southwest Florida. For example, from Sarasota south to Charlotte County, with Port Charlotte and Punta Gorda, could be one geographic area and have its own area code. To the south, Naples and northward could be another geographic area with its distinctive area code. The third geographic area could be Fort Myers, Cape Coral, and Lehigh Acres. This would be the third area code. Knowledgeable people would have to decide where Bonita Springs should be placed (Naples or Fort Myers).

What would be the result of adding two new area codes, rather than the one new area code now under consideration?

First, one of the three geographic areas above would retain its present area code. Residents and businesses there would have to do nothing. Second, the other two geographic areas would have to undergo the temporary inconvenience of notifying other correspondents of their new area code. But after that notification, no one needs to do anything. For all calls in your area, you continue dialing just seven digits. Not ten digits, just seven digits. If you want to add another telephone in your home, it will have the same area code as your other telephone and the same area code of your neighbors and the same area code of all the people and businesses in your geographic area.

The alternative is to let the telephone company steamroller you into ten (10) digit dialing, where you must use the area code to call across the street or call next door.

DO YOU WANT THAT PERPETUAL AGGRAVATION?

The telephone company will tell you that different geographic areas for area codes are very expensive. That could be true. But the initial expenses will be spread among all users. And what is your time worth, when you are forced to dial ten digits every time you want to make a call. Also, remember, dialing ten digits will lead to many more mistakes than when you only have to dial seven digits. **But the most important advantage to adding two new area codes at this time is that it would delay for years the necessity of adding another new area code for southwest Florida.**

Just for background information, the current telephone directory lists 207 area codes in the lower 48 states. California leads with 24; Texas is next with 18; and Florida follows with 12 area codes. So two more area codes will not precipitate disaster – or else the entire telephone numbering system will need to be scrapped.

Subject: 941 Area Code

To whom it may concern:

We are opposed to the proposal to have multi area codes within the Manatee, Sarasota and Charlotte counties. As a small business owner, this change would have a detrimental impact on our business. If you are not already aware, this area of Florida is predominantly small businesses, who conduct business in more than one county. A change in the 941 area code structure, as it exists today, would cause clients of ours, who are outside of Manatee Co. (where we are based), to seek services from a provider within their area code to eliminate costly long distance charges.

The synergies of the 3 County area are important. As the owner of Express Personnel Services, a staffing service, we need to be able to recruit workers, make it easy and inexpensive for them to get in touch with us, make it easy and inexpensive for clients to get in touch with us, and so on. By changing the area code in this market, you will severely hamper us, our associates and our clients to communicate. In an economy that is volatile at this time we cannot make it more time consuming and costly to communicate.

RAR Official Filing:

5/21/01***3:38 PM*****Matilda Sanders*****2**

**We urge you to not make any change to the 941 area code for Manatee,
Sarasota and Charlotte Counties.**

Sincerely,

Donald G. Lapp

Re: Docket No. 000604-TL

Dear Commission Members,

I am writing to strongly recommend Alternative #4 of the proposed numbering relief plans for the 941 Area Code.

Manatee, Sarasota and Charlotte Counties have worked as a regional unit for many years and coordinate many common services. Population growth and consolidation of governmental programs and services have made this region unique; therefore, it is important that we do not divide the 941 Area Code.

On behalf of the constituents in Senate District 24, I would greatly appreciate your favorable response to the request for Alternative #4.

Sincerely,

A handwritten signature in cursive script that reads "Lisa Carlton".

Re: PSC docket # 000604-TL

Dear Commissioners:

The Boca Grande Area Chamber of Commerce Board of Directors wishes to express our support for the proposed area code change referred to as "Alternative 4." This option makes the most sense to us only if all of Gasparilla Island remains intact as one area code, versus being split at the Charlotte County and Lee County Line. The Lee County Line split should be on the mainland only.

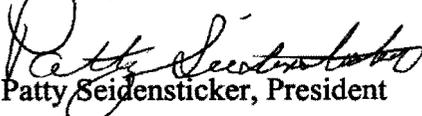

The community of Boca Grande, mostly a part of Lee County, is more closely related to the business community of Charlotte County and Englewood. Phone calls to Englewood and most of Charlotte County are accessible now by dialing only 7 digits. Since we must dial 11 digits to reach any Lee County locations outside of Gasparilla Island, the change in that area code would not be a problem for us.

Alternative #1 is totally foolhardy, as an overlay it is a burden to everyone except the telephone companies. Dialing 10 or 11 digits to call within ones own neighborhood is ridiculous and makes no common sense. The overlay only projects an 8-year life for the new area code, no better than the other options.

Alternative #2 would fragment Englewood even more than it already is. Alternative #3 would alienate all of Port Charlotte and West Charlotte County from the county seat of Punta Gorda, another unreasonable choice.

It is clearly our choice to support Alternative #4. It is in the best interest of all our neighboring communities as well as our own. Thank you for your consideration.

Sincerely,

Patty Seidensticker, President

Dear Chairman Jacobs,

I would like to affirm my position regarding **NOT** changing the '941' area code for the area of **BRADENTON/SARASOTA**.

Changing to another lineage of numbers would necessitate the change in many areas of our business, the least of which is advertising, marketing tools, stationery, and on and on. The extreme cost of this physical changes is only a part; the loss of business in the future is probably more exhaustive.

Please consider all these items in your decision to re-work the numbers of our telephone system in this area.

THANK YOU for your concern for us, a small business.

Sincerely,

Nancy Buchanan

May 14, 2001

E. Leon Jacobs, Jr., Chairman
Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

Dear Chairman Jacobs,

The Manatee Chamber of Commerce would like to reaffirm our previous position on the 941 area code. As stated in public testimony at proceedings before the Public Service Commission on April 8, 1999, and thereafter approved, the Manatee Chamber with over 1,900 members, supports retaining the 941 area code by leaving Manatee, Sarasota, and Charlotte counties together. This would be Alternative #4 in the 941 NPA Relief Alternatives handout.

For numerous reasons including sharing mutual transportation planning organizations, water supply authorities, business locations and educational institutions, we support the current 941 alignment. There was a **strong** mandate of diverse support on this PSC decision only two years ago. The alternative suggesting a 10-digit system would be premature because retaining the 941 numbers was supposed to last another four years.

Again, we have strong community support opposing a new area code, opposing an overlay and keeping the contiguous north and south gulf front counties as one and the same continued area code number.

Please do not hesitate to contact Neil Spirtas, Vice President Public Affairs, at (941) 748-4842, ext. 124, if you have any questions or comments regarding our concerns.

Sincerely,

Alan Zirkelbach

RE: Intercepted Communications From an Interested Person Received in
Docket No. 000604

This office has received the attached letter from Alan Zirkelbach, Chairman of the Board of the Manatee Chamber of Commerce. The letter has not been viewed or considered in any way by Chairman Jacobs. Under the terms of the advisory opinion from the Commission on Ethics (issued July 24, 1991 as COE 91-33-JULY 19, 1991), the letter does not constitute ex parte communication by virtue of the fact that it was not shown to the Chairman. Given that it is not ex parte communication, dissemination to parties is not required pursuant to the provisions of Section 350.042, Florida Statutes. However, in such cases Chairman Jacobs has requested that a copy of the letter and this memo, as a matter of routine, be placed in the correspondence side of the file in the docket.

May 14, 2001

E. Leon Jacobs, Chairman
Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

Dear Chairman Jacobs,

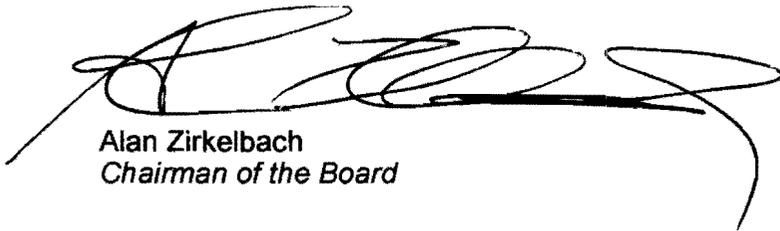

The Manatee Chamber of Commerce would like to reaffirm our previous position on the 941 area code. As stated in public testimony at proceedings before the Public Service Commission on April 8, 1999, and thereafter approved, the Manatee Chamber with over 1,900 members, supports retaining the 941 area code by leaving Manatee, Sarasota, and Charlotte counties together. This would be Alternative #4 in the 941 NPA Relief Alternatives handout.

For numerous reasons including sharing mutual transportation planning organizations, water supply authorities, business locations and educational institutions, we support the current 941 alignment. There was a **strong** mandate of diverse support on this PSC decision only two years ago. The alternative suggesting a 10-digit system would be premature because retaining the 941 numbers was supposed to last another four years.

Again, we have strong community support opposing a new area code, opposing an overlay and keeping the contiguous north and south gulf front counties as one and the same continued area code number.

Please do not hesitate to contact Neil Spirtas, Vice President Public Affairs, at (941) 748-4842, ext. 124, if you have any questions or comments regarding our concerns.

Sincerely,

Alan Zirkelbach
Chairman of the Board

May 12, 2001

To Our Legislators:

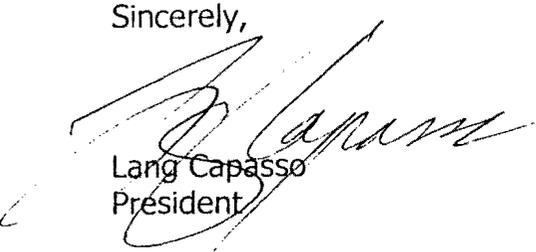

Dear Madam or Sir:

We are pleased to enclose our resolution encouraging the of alternative #4 of the Public Service Commissioner's recommended reorganization proposals for area codes affecting Englewood.

The Englewood Area Chamber of Commerce, representing 700 business members and 45,000 citizens, is deeply concerned over the prospect of (1) the division of our community by two different area codes, and (2) changing from our current area code number 941.

We ask that you carefully review this issue and lend your support to our community.

Sincerely,

Lang Capasso
President

RESOLUTION

Whereas, The Public Service Commission is planning to modify the 941 area code by the year 2003, and

Whereas, The Commission has presented four alternate plans for public discussion and input, and

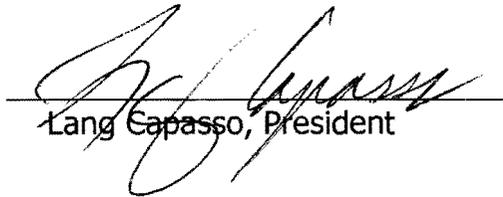

Whereas, The Counties of Manatee, Sarasota and Charlotte have worked in concert as a regional unit, and

Whereas, Selecting alternate #4 will allow this regional unit to continue in its efforts to coordinate its common services, therefore be it

Resolved: The Englewood Area Chamber of Commerce does hereby recognize that the selection of Alternate #4, Section "A" and thus retaining area code 941 will be in the best interest of the regional units; and further be it

Resolved: That the Englewood Area Chamber of Commerce recommends that the governing bodies of Manatee, Sarasota and Charlotte Counties urge the Public Service Commission to allow this regional unit the selection of Alternate #4 Section "A" and retain area code 941.

Duly adopted by the Board of Directors of the Englewood Area Chamber of Commerce this 13 day of March, 2001

Lang Capasso, President

May 23, 2001

Attention: Public Service Commission

**RE: Area Code Changes
Manatee, Sarasota and Charlotte Region**

To Whom It May Concern:

The Siesta Key Association is a non-profit and non-partisan civic organization founded in 1948 for the purpose of providing Siesta Key property owners and residents a representative voice in civic and community affairs affecting their lives.

On behalf of the Board and our membership whose roster exceeds 3,500 members, I respectfully ask the Commission to preserve the tie that binds the communities and businesses in our region of Manatee, Sarasota and Charlotte Counties by adopting Alternative 4 which would leave Manatee, Sarasota and Charlotte counties connected, while splitting off Lee County from Charlotte County.

Please refrain from imposing a 10-digit overlay as well as splitting our region by supporting the split at the Charlotte and Lee County line. To do otherwise would tear in the fabric of our community and impose a hardship to a region that fell victim to an area code change only a few years ago.

Please accept my expression of gratitude for the opportunity to be heard as well as my understanding for the difficult task currently under your consideration.

Very truly yours,

**Laura Lowe
President
On Behalf of The Board**

Re: Proposed 941 area code

Dear Commission members:

000604-72

The Federation of Manatee County Community Associations, comprised of a substantial number of home owners and telephone users in Manatee County Florida, wish to go on record supporting the position of not changing the 941 area code number for this area.

If necessary, the Federation supports the dividing of the existing 941 area code at the Charlotte County - Lee County line and keeping the 941 area code for Manatee and Sarasota area.

Yours Very Truly

I am writing on behalf of my neighbors, Benjamin and Alice Gullett, 5216 30th Street West, Bradenton, Fl 34207, and myself, Sharon Mills, 5208 30th Street West, Bradenton, Fl 34207.

We urge you to leave Manatee County in the 941 area code, not to use an overlay, and not to put us in a 10-digit dialing situation. The area code district as currently structured is best for the people and economics of Manatee County.

We regret we were unable to attend the public hearing in Manatee County today, but appreciate your consideration of our opinion in this matter.

**PREPARED TESTIMONY FOR THE PUBLIC SERVICE COMMISSION,
MAY 23, 2001:**

"I would like to share some important and relevant information with you. Did you know that Sarasota, Charlotte and Manatee counties have a substantially larger, older population than Lee and Collier counties? After all, it is the population of elders that are generally viewed as having a more difficult time adjusting to new things, new habits, new ways of conducting business. Please note that on the attached chart, generated with the most recent figures the Census Bureau has on its web site, that Sarasota, Charlotte and Manatee Counties have a greater population with a need for a simpler approach: More over 65, More over 85, and greater percentages of both groups as well. I realize more recent information will be available shortly from the census, but based on today's Sarasota Herald-Tribune it appears that trends regarding the local elder population are intensifying, and the high ranking of area communities has not changed.

"This community is very conscious of meeting the needs of its elder population, and is working actively through its 'Seniors Advisory Council' to address outstanding ones. In March of this year, the Sarasota County Commission passed an 'elder ready community resolution' (attached to the handout) which asks the 'Seniors Advisory Council' to examine what Sarasota County needs to do to become more 'elder ready' and 'elder friendly'. Requiring 10 digit dialing for a large number of folks more than 65 or 85 is not what one would consider to be 'elder friendly'."

BOARD RECORDS
FILED FOR RECORD

RESOLUTION NO. 2001-064

2001 MAR 27 PM 4:32

**RESOLUTION OF THE BOARD OF COUNTY
COMMISSIONERS OF SARASOTA COUNTY, FLORIDA**

CLERK OF CIRCUIT COURT
SARASOTA COUNTY, FL

RE: An Elder Ready Community

WHEREAS, the median age of Sarasota County residents is 50.4 years and those over 65-years of age account for 32.6% of the population as compared to 18.4% statewide; and

WHEREAS, by 2010 the median age is expected to reach 55.1% and the proportion of Sarasota County residents over 65-years of age is expected to be 33%, the third highest in Florida; and

WHEREAS, Sarasota County Government needs to be poised to adequately serve the County's elders through elder-friendly policies and procedures; and

WHEREAS, Sarasota County Government supports the State of Florida Department of Elder Affairs' initiative to make Florida Elder Ready, so that elders can be independent and remain in their homes and the communities they love for as long as possible; and

WHEREAS, in order to allow elders to maintain their dignity, security and independence, Sarasota County Government should evaluate, assess and modify the county infrastructure and programs to become Elder Ready; and

WHEREAS, Sarasota County Government and the State of Florida Department of Elder Affairs share the vision and responsibility to improve the lives of all citizens, so they can prepare for and enjoy aging in place throughout their life,

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY
COMMISSIONERS OF SARASOTA COUNTY, FLORIDA** in public meeting assembled:

Sarasota County Government will evaluate and later remove barriers to become Elder Ready by using the following steps:

1. The Seniors Advisory Council will review assessment instruments developed by the State of Florida Department of Elder Affairs and revise these instruments or design new ones where necessary so that the instruments address local concerns.
2. The Seniors Advisory Council will assess the current community status in accordance with these revised assessment instruments.
3. Based on these assessments, the Advisory Council will develop recommendations that will improve the Elder Ready status of Sarasota

From: Jim and Joan Shirey

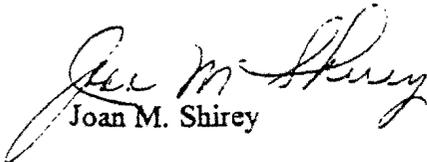

Subject: Possible change in 941 area code for Manatee, Charlotte & Sarasota Counties

We understand there will be a hearing on the above subject on May 24th, 2001. We will be unable to attend but sent this fax to Commissioner Shannon Staub to voice our concerns.

Please do not even think about another change in our area code. We are in the process of moving and have received our new telephone numbers (telephone and fax). We have notified our postal contacts, insurance companies, credit cards, banks, and friends and relatives, i.e., the whole nine yards. When our area code was changed from 813 to 941 it was difficult enough. We protest this possible action by the PSC to do this again so soon after their last change.

Not only will such a change negatively impact businesses but it will hurt all of and especially elders and children. We don't want or need 10 digit numbers to remember. Leave well enough alone, please -- this is possible by number pooling as was promised by the PSC in 1999.

Thank you for your consideration.

Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399

Re: Public Hearing, May 23, 2001, Sarasota, Florida

Dear Public Service Commission Representatives:

As a real estate business owner and 30-year resident of this area, I strongly urge the Public Service Commission to address its shortage of "941" phone numbers outside of the Sarasota and Charlotte county areas.

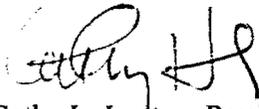

Because of the transient nature of our community, a distributed overlay or split of Englewood would be disastrous to our community. Our economy heavily relies on not only our enhanced quality of life, but also the ability to enjoy it. This potential overlay or area split would severely complicate the visitors of our many hotels and short-term accommodations.

The latest 2000 Census Bureau figures clearly state what we all know: Sarasota and Charlotte county areas are growing older. Our median age has increased and will increase in the future. The overlay or splitting options will become increasingly confusing to many of our elderly residents who completely rely on the telephone to provide services necessary for everyday life. This confusion could result in harm during an emergency situation.

As a businessperson, I can completely understand the need for beeper and cell phone numbers to providing companies. However, the current rules regarding number reservations results in blocks that are excessive. Perhaps the Commission might consider issuing blocks in 3,000-5,000 numbers, with one to two year options for additional blocks. As a reminder, in 1999, the Public Service Commission promised it would adopt a rule to implement number pooling in the 941 area code. Before any changes are made that might adversely affect the relationship between Sarasota and Charlotte County, this promise should be fulfilled.

We hope the Public Service Commission will continue to see the wisdom in preserving the relationship between Sarasota and Charlotte counties.

Sincerely yours,

Cathy L. Layton, President/Broker

Census shows region's wrinkles

Melody McMurray, 47, left, and Iola Moore, 94, play bingo during afternoon activities at the Palmetto Guest House. As the population's average age increases and people live longer, more and more end up living in such group settings. The 2000 census shows the changing faces of Southwest Florida. (STAFF PHOTO/THOMAS BENDER)

By ERIC ALAN BARTON and ANDY CRAIN
STAFF WRITERS

The country's median age rose by two years in the 1990s to 35.3, and the newest round of federal census data show that Southwest Florida can take some credit for the aging.

Venice, with a median age of nearly 69, ranked in the 2000 Census as the country's second-oldest city of more than 10,000 residents. With a median age of 54, Charlotte County became the second-oldest county. And the southwest coastal region joined a nationwide trend toward dramatically older retirees.

But Sarasota, Manatee and Charlotte counties also saw a sharp rise in the number of families with children. The increase emphasizes the counties' change from heavily retirement-oriented communities to areas with a vibrant sector of working adults with children.

"We're not just a place to retire anymore," said Nancy Engel, Manatee County Economic Development Council executive director. "We're now a place to live, work and play."

As the ranks of the elderly and families swelled, however, the number of young adults in Sarasota and Charlotte declined, a sort of one-two punch to youth in Southwest Florida. The 20- to 34-year-olds were the only age group to see significant decline during the 1990s in Charlotte and Sarasota. Manatee saw a slight increase in the number of younger adults.

The decline in 20-somethings could have implications for restaurants and other service industry businesses that rely on younger workers. Those workers are often the waiters, nurses and others who serve the increasingly retirement-age population.

The aging elderly population in Southwest Florida is probably attributable to people living longer and staying healthy in retirement. Remarkably, the three-county area's 85-and-older category grew by 53 percent in the 1990s, and in Charlotte County, that age bracket grew by 95.5 percent.

Throughout the nation, to varying extents, census takers counted an aging population. The over-85 population has increased by 57.7 percent in the past 10 years. Projections show the segment of the national population older than 85 will grow sixfold by the year 2050.

According to the latest U.S. Census numbers, there were 2.8 million Florida residents over the age of 65, and about one in eight of those, or 331,287, were over 85. A decade ago, only 210,110 Floridians were older than 85.

The state's median age increased from 36.3 years to 38.7 years, higher than the nation's median of 35.3.

As a group, the large portion of wealthy retirees in Southwest Florida get more exercise and better access to health care, meaning they live longer, said Dr. Bruce Robinson, the geriatrics chief at Sarasota Memorial.

"This community has a very vigorous elderly population who are also getting good health care, so they're living into that older bracket," Robinson said. "What do they say? 'Sarasota's the place for old people and their parents.' I guess that's still true."

Some of the most active volunteers at Englewood Community Hospital are in their 80s and 90s, said Shelly Stout, who heads the 1,500-person volunteer network there. "They're getting more and more vibrant every day," she said.

Dick Schlorf, a 63-year-old semiretired doctor who lives on Longboat Key, said retirees in Florida live longer for the same reason they moved here: the weather.

"Why be a couch potato up where the snow is when you can do things all year outside?" said Schlorf. Longboat Key, where every other person is 68 or older, is the fifth oldest in the country among cities with at least 5,000 residents.

People are even older in Venice, where one in 10 residents is 85 or older and nearly six out of 10 are of retirement age.

The median age increased by only 1 1/2 years, but it was enough to make Venice the state's oldest city with at least 10,000 people. In fact, only one other city in the United States has an older population. That city, Laguna Woods, Calif., is a giant gated retirement village that bars its doors to anyone under 55.

"It certainly lends maturity to the area, doesn't it?" said Jim Myers, the 80-year-old vice mayor in Venice.

The median age in Charlotte County increased by less than a year from 53.6 to 54.3, but it was enough to make it older than every county in Florida, as well as every county in the country except Kalawao County, Hawaii, population 147, with a median age of 58.6.

That surprised some Charlotte County officials, who thought their community was getting younger. Steve Fabian, a Punta Gorda city councilman, thought the growing number of people retiring early would drive down the age of the county.

"I guess I'm young compared to my fellow peers," said Fabian, 72. "Either way, you're going to see baby boomers fill this area in the next few years."

The area's largest increase during the 1990s was among middle-aged residents, 45 to 54 years old, suggesting that the aging baby boom generation is perhaps favoring Florida for early retirement. The number of school-aged children also saw a sharp increase, with a 44 percent jump in 10- to 14-year-olds.

But the decrease in 20-somethings could pose problems for local businesses.

"There's certainly a labor problem we didn't have 10 years ago," said Shay Knaggs, who has owned the Bijou Cafe in Sarasota with her husband for 15 years. "We've already been in a tight labor market with such a low unemployment rate in our area."

In Southwest Florida, Sarasota County saw the biggest drop in young adults with an 11.5 percent decrease in 25- to 34-year-olds. Charlotte County was close behind with a 9.9 percent decline.

"That's not so good for work force development," said Tony Dominski, a planner for Sarasota County.

Kathy Baylis, vice president of the Sarasota County Committee for Economic Development, said businesses haven't noticed a problem. In fact, she said, many of them have helped prop up the number of younger people in the area.

"Many of our companies, because of the type of folks they're hiring -- software folks and such -- they are doing some recruiting outside of the area, and those people tend to be younger and in their 30s," she said.

Others said the lack of younger people is more apparent. "I've lived here 20 years, and I can tell you that the number of big brothers and big sisters between the ages of 20 and 30 has dropped," said Joy Mahler, CEO of Big Brothers Big Sisters of the Sun Coast, which recruits adults, young and old, to serve as mentors to troubled kids.

Mahler said her group has made up for the deficit by recruiting more seniors to help. "In reality, yes, I've seen a drop, but on the other side I've seen an increase in an area that more closely reflects our community at large, and that is the retired elder population."

Breaking down the numbers

LONGBOAT KEY

Practically devoid of anyone under 50

The number of people over 85 more than doubled, octogenarians, nonagenarians and centenarians now represent 5 percent of the population there. Meanwhile, every age group over 45 showed gains of nearly a third or more, while the number of residents in every age group under 45 declined.

The number of households with someone over 65 outnumbered households with kids by 21 to 1. More than 99 percent of the population is white.

The town also boasts one of the highest shares of vacation homes among Florida cities, with 47.5 percent of housing units deemed "for seasonal, recreational, or occasional use."

NORTH PORT

Getting bigger and growing younger

With a growth rate of 267 percent since 1980, North Port is the fastest growing area in Southwest Florida and one of the fastest in the state. The city's population is getting younger as more families with children move into hundreds of new homes being built every year.

SARASOTA

Modest growth and elderly living alone

Baby boomers helped Sarasota to a modest growth of 3.4 percent during the 1990s.

The number of Sarasotans 45 to 54 grew 47.3 percent, faster than any other age group in the city. That group numbers 6,767 and accounts for 12.8 percent of the city's population.

The number of residents 65 to 74 shrank 18.7 percent to 5,046, about 8.5 percent of the population.

One in four residents is over 60.

One in six households consists of a person over 65 living alone.

VENICE

At the top of the age list

With a median age of 68.8, Venice is the oldest city in Florida of those with populations of 10,000 or more. Only one city of 10,000 or more in the United States is older: Laguna Woods, Calif., a gated planned community north of San Diego with a median age of 78. Among cities of all sizes, Venice was the 14th oldest in the country (out of 19,452). The aging was due mainly to the aging of the already old: During the 1990s, there was a 46.5 percent increase in the number of people 85 and older, even as the number of people of all ages in Venice grew by only 5 percent.

CHARLOTTE COUNTY

Growing and aging

Charlotte County remains home to the state's oldest population, after the median age rose from 53.6 to 54.3.

Of 3,141 counties nationwide, only Kalawao County, Hawaii, population 147, had a higher median age.

Charlotte County grew by 27.6 percent from 110,975 residents in 1990 to 141,627 in 2000. The largest increase was among those 85 and older.

The largest population of residents — 18.4 percent — are 65 to 74.

The county lost 7 percent of its residents ages 20 to 24 and 9.89 percent of its residents 25 to 34 between 1990 to 2000. Only 9.58 percent of the county's residents fall into that range.

MANATEE COUNTY

Families swell population

The number of school-aged children increased dramatically in the 1990s.

Manatee County, which grew by 25 percent, saw its largest increase among 45- to 54-year-olds with comparable increases in school-aged children.

Meanwhile, there were six fewer people age 65 to 74. The number of older retirees increased, but the numbers appeared to indicate either fewer people were retiring to Manatee or they were not of the typical retirement age.

People of retirement age now make up about 25 percent of the county's population, down from 28 percent.

Whites saw the smallest increase among the county's races but still made up 86 percent of the population. The number of Hispanics grew by 160 percent.

SARASOTA COUNTY

Old and getting older

Aging baby boomers pushed the median age up 18 months to 50.5 and bump Sarasota County to third-oldest in the state behind Charlotte and Citrus.

Sarasota County ranks as the sixth-oldest county in the nation.

There was less-than-average growth in the number of children during the 1990s. For each household with a child under 18, there are 2.3 households with someone over 65.

Homes headed by single mothers grew 39.5 percent to 4,883, faster than any other type of household.

One in nine housing units in the county was deemed "for seasonal, recreational or occasional use." On Siesta Key, nearly one in three apartments, houses or other housing units was classified that way.

PUNTA GORDA

Leading the county's trend in aging

Punta Gorda lived up to its reputation as a retirement community. The median age edged up from 62.1 in 1990 to 63.6 in 2000. More than 27 percent of the population is 65 to 74. The city lost more than 42 percent of its residents ages 20 to 24 between 1990 and 2000.

The city lost more than 18 percent of its residents 25 to 34 between 1990 and 2000. The overall population increased more than 33 percent, from 10,747 to 14,344 between 1990 and 2000. The city boasts more than 8,300 residents who are 60 and older.

LAUREL

Area grows slightly bigger and younger

Laurel's population grew about 1.8 percent overall, while its median age fell three years, to 57.7. The area witnessed its highest rate of growth in the 10 to 14 age group (62 percent) and those older than 85 (51 percent).

NOKOMIS

A little smaller and older

Laurel's neighbor to the south dropped in population about 3.3 percent. Meanwhile, its median age climbed 2.9 years, to 46.4. The change in age was a mixed bag: the population dropped in eight age categories but grew in five others. The highest rate of increase was in the 45 to 54 age group. The largest drop was in the 20 to 24 age group.

MANASOTA KEY

Least diverse place

The key, which runs from South Venice to Stump Pass, maintained its position as one of the oldest, least diverse areas in the region. The total population dropped by 3.6 percent, but the population increased in the 85 and older and 75- to 84-year-old age groups. Every age group under 44 witnessed a significant drop in population. More than 99 percent of residents are white.

PALMETTO

Most diverse place

Palmetto grew by a third during the 1990s, adding 3,303 people. They fall into every race category devised by the Census Bureau. Non-Hispanic whites make up only 59 percent of the population.

WARM MINERAL SPRINGS

No fountain of youth

While Venice ranked as one of the nation's oldest cities, it's still not as old as Warm Mineral Springs in unincorporated south Sarasota County. The Springs' median age of 71.5 ranked 14th of all 888 cities and unincorporated places in the 2000 Census. The Springs' population grew by 19 percent since 1990, with the highest rate of growth coming in the 85 and older age group (146 percent) and the 75 to 84 age group (105 percent).

May 23, 2001

Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399

Re: Public Hearing, May 23, 2001, Sarasota, Florida

Dear Public Service Commission Representatives:

As a real estate business owner and 30-year resident of this area, I strongly urge the Public Service Commission to address its shortage of "941" phone numbers outside of the Sarasota and Charlotte county areas.

Because of the transient nature of our community, a distributed overlay or split of Englewood would be disastrous to our community. Our economy heavily relies on not only our enhanced quality of life, but also the ability to enjoy it. This potential overlay or area split would severely complicate the visitors of our many hotels and short-term accommodations.

The latest 2000 Census Bureau figures clearly state what we all know: Sarasota and Charlotte county areas are growing older. Our median age has increased and will increase in the future. The overlay or splitting options will become increasingly confusing to many of our elderly residents who completely rely on the telephone to provide services necessary for everyday life. This confusion could result in harm during an emergency situation.

As a businessperson, I can completely understand the need for beeper and cell phone numbers to providing companies. However, the current rules regarding number reservations results in blocks that are excessive. Perhaps the Commission might consider issuing blocks in 3,000-5,000 numbers, with one to two year options for additional blocks. As a reminder, in 1999, the Public Service Commission promised it would adopt a rule to implement number pooling in the 941 area code. Before any changes are made that might adversely affect the relationship between Sarasota and Charlotte County, this promise should be fulfilled.

We hope the Public Service Commission will continue to see the wisdom in preserving the relationship between Sarasota and Charlotte counties.

Sincerely yours,

Cathy L. Layton, President/Broker

7-digit Vs. 10-digit Vs. Overlays

I moved to Sarasota from Atlanta a little over a year ago. In Atlanta I watched the greater metropolitan area go from 7-digit to 10-digit dialing and then to an overlay structure. It was Thomas Wolfe who said, in *Look Homeward Angel*, that "You can't go home again". Well he was wrong. I've moved to Sarasota where they have 7-digit dialing and believe me, it's good to be home.

I would like to share my recollections with you. A few years ago ^{it was} ~~the phone companies~~ said that Atlanta had outgrown its 404 area code and the area to the North was split off into 770. The phone company said that this new arrangement would last for years to come. Of course, they did not forecast the increased usage properly. After having 404 split in half they came back and said we had to go to a 10-digit number anyway. Well, there were problems. First, most phone systems for automatic dialing at commercial companies ^{were} ~~are~~ designed to dial a 7-digit local number or a 10-digit long distance number with a 1 in front of the area code. Thousands of individual companies had to reprogram their computers and phone systems to dial the 10-digit without the 1. Then when you dialed the local area code plus 7-digit number and accidentally ^{put} a 1 in front, a prerecorded message told you that you should re-dial without the 1. When you dialed a long distance number without the 1, a prerecorded message told you that you should re-dial with a 1. If the phone companies' computers are smart enough to tell you to dial with or without the 1, I would think they would be smart enough to put the 1 in or take it out and make a connection without a hassle. But that would mean the phone company would have to do the work instead of thousands of companies and hundreds of thousands of telephone subscribers.

People, especially older people, and I am now in ^{that} ~~the~~ category, do not stop making that mistake with the 1. We don't do it all the time, just enough to make it really irritating.

Thomas Foley, a regional planner for NANPA (^{was quoted as saying} ~~I presume that is an industry-controlled advisory board~~) said that "Once you go to 10-digit dialing, you never have to go to 10-digit dialing again." Right. And once you shoot yourself in the head, you never have to shoot yourself in the head again. Of course not, because you are already dead.

The overlay is even worse. ^{It is said} ~~The phone companies say~~ that all the numbers in the 941 area code will be used up soon. That even if we get to keep 941 for Sarasota, Manatee and Charlotte counties that in the ~~near~~ future all new lines will be given a new area code. That means that the friends and businesses you call are within blocks of your home you will not know what area code to dial. And, heaven forbid that you should want to add a phone line to your own home, you might wind up with two area codes in the same house.

They say that all the numbers in 941 will soon be used up. This is not true. What is true is that they will all soon be allocated. Each phone company doing business in the area has been given a large block of phone numbers to give to customers. They do not all gain subscribers at the same rate so there are thousands and thousands of

Subject: Telephone – Area Code 941

Ladies and Gentlemen:

It has come to my attention that the PSC is holding hearings on means of relieving overload in area code 941. I am unable to attend those hearings, but I wish to express my strong preference for corrective action that retains Lee and Collier Counties within the same area code and does not require the use of 10-digit dialing.

Obviously, I would also prefer that we retain our 941 area code after any territorial division, but a change in code would be preferable to 10-digit dialing.

Most residential customers and many businesses make the vast preponderance of their calls within their local calling area. In my case, it would be over 90%. The nuisance and potential for error, in 10-digit dialing far outweigh the advantage in retaining the existing area code. In any division of the present 941 territory, at least half the customers would retain their present number anyhow.

You will no doubt hear a different story from businesses that would have to change stationery and might lose customers if their present number is changed. This difficulty can be mitigated by a longer overlap period, say two years, during which both the old and new codes will work. During the overlap period old stationery and business cards would still be useful. Time would be available to notify customers and to let stationery stocks run down.

Thank you for taking note of my views.

Sincerely yours,

Subject: New Phone Area Codes

I read in the Ft. Myers News-Press that you are having a problem with area codes being all used up. Might I suggest that such things as pagers, cell phones, and computer hook-up's each have their own area code. This could leave regular home phones and business lines alone. So that if you have a cell phone it would be say "333", and if it is a pager it would be "444". A computer would have a "666" area code. This would free up millions of numbers. Thank you for listening, and I hope that this could help in a small way.

Re: 941 Area Code Relief

As a professional with a national practice, my telephone number is an asset—a means by which present and potential clients can contact me. I've had the above number for twelve years, with one area code change. Now another change is looming, and who knows—in three or four years we may be facing yet another area code change.

In order to have a **permanent number, I support the overlay concept.** Yes, it will involve pressing more digits for a local call, but in my mind that is greatly preferable to going through a code change every five years or less, with the attendant inconvenience and expense, not to mention the possible lost business.

Some have testified that using 10-digit numbers strains the physical resources of senior citizens. As a person born in 1937 and soon to be a member of this “senior” group, I find the statement insulting. One must already touch 11 digits for a long-distance call; a programmable phone is very inexpensive; and any frequently-called local number can be programmed, regardless of the number of digits needed. Further, 911 calls will not be affected by any overlay.

I find it particularly devastating that under a split plan, my present number, 941 466-5600, could be assigned to someone else still within area code 941. Those trying to reach me from distant points would get the wrong party. How, then, are these people to find me?

Overlays already work in three areas in Florida and in a total of 42 areas throughout the United States. It seems to me that this is the only way to provide permanent telephone numbers.

Sincerely,

Richard O. Neville

Dear Sirs:

With regards to PSC docket number 000604-TL; it is my hope that sanity will find its way into the decision regarding distribution of telephone area codes and not involve a change to the existing 941 area code in Charlotte County.

To divide the area codes along anything but county lines is a terrible plan.

Sincerely,

William E. Ringelstein

after seeing the changes in the florida landscape as far as area codes we need to stop and consider alternatives to the problems of phone numbers before adding area codes the main problem is pagers and cell phones are eating up number in scores but there is a simple soultion to the problem without more area codes instead of pagers and cell phones all having there own numbers why not concider cluster numbers this is simply a common number to a group of say 500 pagers per group when you dial the number you then will have to dial the pagers pin number to send a page this system could release over a million phone numbers in many areas also the same can be done with cell phones if you cluster them with the figures of over 3 million cell phones in south florida and about 3 million pagers you can release 6 million numbers that will eliminate the need to add area codes as well i belive clustering is the way to go with many items including hospitals that have seprate numbers for each room to pagers i hope you concider this option

Subject: New Phone Numbers in SW Florida

Though I was unable to attend the hearing May 25, I would like to voice my opinion regarding phone numbers in SW Florida. By far, the best of the 4 alternatives given is #2: The region split into 2 sections, with the dividing line just north of Port Charlotte & Englewood. (941 + another area code). My reasoning is cultural: The tri-county area of Charlotte, Lee, & Collier--especially with the major cities--is intertwined culturally; these counties should be together. Eventually, each county will have its own area code, probably. But the change should be gradual.

Thank you for listening & for your consideration.

CONSUMER COMMENTS	
Dear sirs:	
I attended and spoke at the public hearing on the 941 area code today in Palmetto. It appears that the local business community does not wish to see the local area code changed under any circumstances but they are ^{ADAPART} adamt in their opposition of using an overlay of a new area code that would preserve the present phone numbers essentially for ever. The local (Manatee and Sarasota) people want the 941 number, how about the people to the south, don't they want to keep their numbers just as much. I suspect that there is a strong "not in my back yard" syndrome here.	
If an overlay numbering system is used the only problem would be updating computer files of phone numbers that do not include area codes. Since the only change would be to add the same number to all listings it could be done by a simple program on a one shot basis or by setting up a recognition system that would automatically insert 941 when ever a phone number comes up with the area code blank.	
A customer would never be bothered by lack of service. Only new numbers would receive the new area code and that will be a gradual process so that people that already have service will only have to add the prefix. I have heard people complain about dialing ten digits. If that is a problem obtain a phone with speed dialing features and insert the area codes in the phone memory. When making a call, select the appropriate memory and the dial the old seven digits.	
The business community is concerned only about local contacts. What about contacts outside the local area? For example just after the break up of the 813 area code I was in New England and had a major operation. When I was released I asked for recommendations for a specialist in the Bradenton Area. The physicians office gave me six names and phone numbers, all had the wrong area code. If the area code is changed I, and every other consumer, will have to contact everyone in their address book to advise them of their new phone number.	
APP	If Alternative 4 is adopted in 7 to 10 years we will be going through this same show again, where as if alternative 1 is adopted we will never have to worry about it again as it will simply require another overlay.

Re: **Potential Area Code Change for Manatee County**

Dear Chairman Jacobs:

As a member of the Manatee Chamber of Commerce, I am voicing my strong objections to any change that would separate Manatee, Sarasota, and Charlotte Counties by changing the area code.

I was truly shocked to read that there is a potential for an area code change for Manatee County. These counties are tied together in so many, many ways that to separate them at this point is totally absurd.

As a small business owner in Manatee County, I operate a business that manages over 1,000 homes and condominiums in Manatee County, with owners living all over the world, not just in Manatee, Sarasota, and Charlotte Counties. It is almost impossible to calculate the cost I would incur in having to notify over one thousand people of a change in my telephone and fax numbers. The total doesn't even include nationwide vendors I deal with. The postage costs of sending notices to over one thousand people is staggering enough, without the thought of new stationary, business cards, etc.

Small business owners are under enough pressure now to make a small profit, and something of this nature would wipe out the profits for at least a couple of months. This would be a cost that could not be passed on to the individual owners, but have to be borne by my company. This is just another "cog in the wheel" of why small businesses are failing in today's business environment.

I very strongly object to any change that would separate Manatee, Sarasota, and Charlotte Counties and a change in our area code to anything other than 941.

Sincerely,

Diane S. Barcus,
President

Having visited areas where the area code must be dialed for each call, I find the extra digits confusing to me as a 56 year old. Since Charlotte County is full of many people older than I am I think it is unfair to impose this on our population. I think the line should be at the Charlotte County - Lee County line. There is a natural break in the populated areas there. Dorothy J. (DJ) Gilfert, 286 Strasburg Drive, Port Charlotte, FL 33954

Sent: Thursday, May 31, 2001 8:00 AM
To: contact@psc.state.fl.us
Subject: Suggestion for resolving 941 area code change

The 941 area code is currently used by Floridians from Bradenton to Naples. Changes in area codes will result in business owners having to change business cards, letter head and signs. The cost could be significant to some business owners.

The current 941 area code will be divided into several areas. One of the new areas will be able to retain the 941 area code and the others will have to change. A fair way to determine which new area will be able to retain it's current 941 area code is to have a public lottery. The winner will keep it's 941 area code and the losers will change.

There is no doubt that additional area codes are needed due to new residents, modems and faxes. Another possible resolution is to have an additional area code for faxes and modems. Residential and business telephone lines would retain the 941 area code.

Subject: 941 Alternative 4 Recommendation

As a resident of Charlotte County for almost 20 years I have seen a great deal of growth in the County, as well as the surrounding counties. While we have seen a reduction in the average age of our residents, most of the the populace is elderly. We also, along with Sarasota County, have to deal with a locale, Englewood, that is divided between two counties.

For these reason I believe the **best option for our area is Alternative 4** , split the area code between Lee and Charlotte counties.

This will eliminate any confusion the elderly will have in regards to an overlay; knowing whether a particular business or individual lives in Sarasota side of Englewood or Charlotte side; or having to dial 10 digits to call from Charlotte Harbor to Punta Gorda.

Subject: 941 Area code change

Regardless of which geographic area has to change their area code, the world won't end. If you're out of numbers obviously something must give so do whatever makes the most sense.

However, the real problem that needs to be fixed is the .25 Cent charge for making local calls. I live in Gulf Cove (located off SR 776 between El Jobean and Englewood) and have to pay a .25 cent charge anytime I call close by areas such as North Port and Port Charlotte. Actually my zip code is Port Charlotte, however, I still have to pay the .25 cent fee for calling most numbers in Port Charlotte. This is stupid. I should be able to call any number within 50 miles in any direction from my home without a special charge. For instance I should be able to call Venice, Sarasota, North Port, Englewood and Port Charlotte without the .25 cent charge. Please solve this problem.

Re: 941 Area Code Relief, Docket No. 000604-TL

I testified at the Fort Myers hearing—in favor of the overlay plan—on May 25, 2001, and submitted a written summary of my views at that time. This letter is a follow-up.

Those who oppose the overlay plan call a change in area codes a “temporary inconvenience.” I believe it is not temporary, and it is more than just an inconvenience. Why?

- December 1989 My firm moved to Florida, area code 813
- May 1995 My area code changed to 941 4 years, 10 months
- June 1999 941 split into 941 and 863 3 years, 11 months
- December 2001 Another change to 941—overlay or split 2 years, 6 months

If the relief to the present 941 area is a split rather than an overlay, the PSC will probably be considering yet another split in 2003. Thus I believe splits are not long-term solutions, while overlays are.

A new area code is not an “inconvenience” for a business. My phone number is a business lifeline at which clients and potential clients call me from all over the United States, and sometimes from abroad. Yes, I can notify all past and present clients, but how about those potential new clients unable to call me because my area code changed? Or worse, they call my old area code (at the proper local number) and get someone else.

My postal zip code has never changed. My e-mail address has never changed involuntarily. Why must we have area code changes every two years? The overlay plan means better service for the public, and fewer headaches for the PSC.

Subject: change in area code

My wife and I moved to Florida three years ago. We came from Michigan, where in the past ten years, our area code had been changed three times. The inconvenience and expense of changing all of our printed material that had the old area codes on them, were absorbed by us. Since we have moved to Florida, we have had two area codes, and are now in the process of having another change. Again, the inconvenience and expense of changing all of our printed material will be paid by us.

The problem, as I see it, is that there are only 999 combinations of area codes to cover the entire U.S. It would make more sense, to convert to a four digit area code which would increase the combinations to 9999. This way, there would be enough area codes to be assigned to eliminate having to ever change them again. Also, the expense of changing the system would be paid for by the phone companies. Their argument will be that the cost would be too much, but look at what it is costing the consumers every time the phone companies change the area codes. Also, you and I both know that playing musical chairs with the three digit area codes is only a temporary fix anyway. The population problem is always going to force the phone companies to shuffle area codes around. A four digit area code could be the solution.

Thank you for allowing me to put my thoughts down and send them to you.

The Charlotte County newspaper "Sun Herald" ran an article concerning the 941 area code split. Along the Charlotte-Lee County line does make sense since there are not a lot of residents in that area. A split along Sarasota-Charlotte would not be good since it would split Englewood.

I do wonder why cell phone and other entities have locked up such large blocks of 941 numbers, causing this difficulty to our residents. Whatever your decision, I do oppose the notion of having all new numbers be under a different area code requiring everyone within this 941 district to use ten digits for every call even within our own area. This solution doesn't make sense. Thank you.

Subject: 941 CODES

IEAVE 941 CODE AS IS. I am a Senior Citizen, limited income w/relatives/friends in various countries. With a change, it will be difficult, due to medical conditions, to contact all for emergency situations I have now. Think of the problems which will be created for many of us if the 941 codes are changed. Change the codes to effect Cell phones, not home phones.

RE: PSC DOCKET NUMBER 000604-TL

To Whom It May Concern:

As residents of Punta Gorda in Charlotte County, we strongly oppose the changing of our area code from 941. We oppose it for two reasons:

1. The confusion it would cause our, mainly over 65, population.
2. The extra cost to businesses, which would get passed on to their customers.

As a volunteer at a pharmacy, I see many confused elderly (volunteers and patients) who struggle every time they must do something new. For these people (most of whom do not have automatic memory dial), the telephone is a lifeline. Please do not make it harder for them.

Having been in business for ourselves for 21 years (before retiring 2 years ago), we know how difficult it is to have to change your telephone number and/or address (we did it twice in 21 years!). Whether the cost of change is large or small someone has to pay (the business closes -- lost customers, or cost is passed on).

We hope you will keep the 941 area code for Charlotte County voice land lines and assign new area codes for cell phones and other counties.

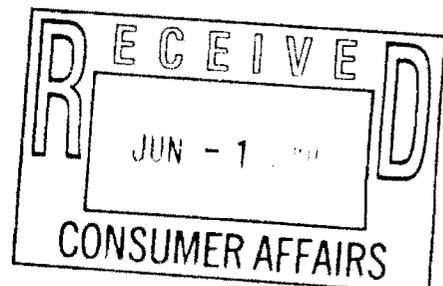

Sincerely,

Nancy Klaren

Dear Sir or Madam,

PLEASE DO NOT change our area code. The cost would be tremendous to our area both now and in the future.

Just think of all the places we would have to change the numbers, the time it would take and the lost business not only to our company, but all the others as well.

And the list just goes on and on the dollars that it will cost our company and our agents are astronomical.

We here at Coldwell Banker Sunstar Realty Inc. are not the only business that will be affected. I know that others will be hurt just as bad as we will, maybe even worse. Please take time to reconsider the changing of our 941 area code.

There must be an easier and least costly method of doing this task. Like giving the new area codes to the new telephone numbers and keeping the old ones the same.

Subject: 941 Area Code Opinion

I couldn't find the form to fill in on your web site for resident opinions but wanted to give my opinion to the 941-area code split. My street is half in North Port, half in Port Charlotte. My house is actually a few homes away from the line. My mother's house (on Hillsborough Blvd) sits on the Port Charlotte side. The houses across the street from her are on the North Port side. Splitting the area code between North Port and Port Charlotte would be devastating to us because we conduct all our business, etc. in Port Charlotte. Even though we live on the North Port side, Port Charlotte is much closer to us. Every call that we make would be long distance which just doesn't make any sense (even our neighbors). We would end up getting rid of our telephone because it would cost us too much to make calls, etc.

I believe the 941 area code split should be made between the Charlotte-Lee county lines. It seems that there are a lot less people living between that area then the other proposed areas that would be affected.

Thank you for letting me express my family's opinion.

A North Port resident.

We live in Sarasota County. We strenuously object to proposals for an overlay area code. The best long term solution is a separate area code for each county. Charlotte County definitely should not be in the same area with Sarasota County. There is no realistic or reasonable basis for such a connection. Charlotte/Lee is much more one community than Charlotte/Sarasota. Charles and Carolyn Cheves Venice

Gentlemen:

I am a real estate agent in Port Charlotte. It is very important to my business that the area code remain as it is. I realize that we have a growing population, but our area has one of the oldest populations and it would be an added difficult to these people.

Even though we are not the largest area, we do need to keep our area code number.

Please reconsider and add more prefixes than change the area code.

Thank you for considering my request.

MAY 18 2001

Florida Public Service Comm.
Commissioner Palecki

May 14, 2001

Michael A. Palecki
Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

Dear Commissioner Palecki,

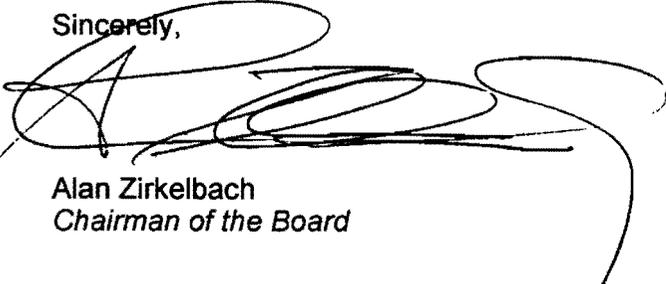

The Manatee Chamber of Commerce would like to reaffirm our previous position on the 941 area code. As stated in public testimony at proceedings before the Public Service Commission on April 8, 1999, and thereafter approved, the Manatee Chamber with over 1,900 members, supports retaining the 941 area code by leaving Manatee, Sarasota, and Charlotte counties together. This would be Alternative #4 in the 941 NPA Relief Alternatives handout.

For numerous reasons including sharing mutual transportation planning organizations, water supply authorities, business locations and educational institutions, we support the current 941 alignment. There was a **strong** mandate of diverse support on this PSC decision only two years ago. The alternative suggesting a 10-digit system would be premature because retaining the 941 numbers was supposed to last another four years.

Again, we have strong community support opposing a new area code, opposing an overlay and keeping the contiguous north and south gulf front counties as one and the same continued area code number.

Please do not hesitate to contact Neil Spirtas, Vice President Public Affairs, at (941) 748-4842, ext. 124, if you have any questions or comments regarding our concerns.

Sincerely,

Alan Zirkelbach
Chairman of the Board

Subject: changing the area code

Please do not change the Charlotte county area code. Our code was changed a few years ago and since that time this area seems to have had a chance to compete with Lee and Sarasota counties. Charlotte county is growing. New businesses are coming here and younger people are coming with them. Give us a chance to make make Charlotte county great.

We, who work in Real Estate, plough most of our first year's earnings into marketing, business cards, fliers etc. If we have to change now we will lose a lot of the business that we "farmed" in our first year. It's hard enough to make a living for many people in Charlotte county - so please don't pull the rug from under our feet yet again! Charlotte County is made up of small businesses in the service industry - great oaks need time to grow - don't poison them!!!!

FPS Commission:

Please be advise that we as a household in Charlotte County are opposed to overlays of area codes.

Our preference of the four current proposals for the 941 area code change would be option 4, a split a long the Charlotte and Lee County lines.

Is there not an option 5 establishing Manatee/Sarasota, Charlotte/Lee and Collier/Monroe to give greater life to the proposed changes.

FROM: William B. Berg, Assistant to Commissioner Deason *WBB*

RE: Intercepted Communications From an Interested Party Received in Docket No: 000604-TL

This office has received the attached correspondence from Kevin J. Rambosk, City Manager, City of Naples. The correspondence has not been viewed or considered in any way by Commissioner Deason. Under the terms of the advisory opinion from the Commission on Ethics (issued July 24, 1991 as COE 91-31-JULY 19, 1991), the following letter does not constitute an ex parte communication by virtue of the fact that it was not shown to the Commissioner. Because it is not deemed to be an ex parte communication, it does not require dissemination to parties pursuant to the provisions of Section 350.042, Florida Statutes. However, in such cases Commissioner Deason has requested that a copy of the correspondence and this memo be, as a matter of routine, placed in the correspondence side of the file in this docket.

Mr. J. Terry Deason, Chairman
State of Florida Public Service Commission
Capital Circle Office Center
2540 Shumard Oak Blvd
Tallahassee, FL 32399-0850

Dear Mr. Deason:

Enclosed is a copy of a resolution passed by the City of Naples supporting the 941 Area Code Relief Alternative #4, the geographic split – Punta Gorda North, as being the most favorable alternative for the citizens of Collier County. In addition, the City of Naples also supports the area south of the Alternative #4 geographical boundary, which includes Lee and Collier Counties to retain Area Code 941.

Thank you for your assistance in helping the citizens of Collier County retain our 941 area code.

Sincerely,

Kevin J. Rambosk
City Manager

Agenda Item 23
Meeting of 5/16/01

RESOLUTION 01-9203

A RESOLUTION SUPPORTING AREA CODE NINE-FOUR-ONE RELIEF ALTERNATIVE NUMBER FOUR (GEOGRAPHICAL SPLIT - PUNTA GORDA NORTH), PROVIDED FOR CONSIDERATION BY THE FLORIDA PUBLIC SERVICE COMMISSION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the North American Numbering Plan Administrator (NANPA) is responsible for the assignment of telephone numbers and area codes in the United States; and

WHEREAS, on July 11, 2000, NANPA hosted a meeting of telecommunications industry officials in Fort Myers, Florida; and

WHEREAS, NANPA's projected exhaust date for the 941 Area Code is the first quarter of 2003; and

WHEREAS, NANPA's projected exhaust date for the 941 Area Code coincides with the 941 Area Code lifespan outlined in the Florida Public Service Commission Order PSC-9901066-FOF-TL, issued May 25, 1999 during the last 941 Area Code Relief Docket; and

WHEREAS, on December 27, 2000, Florida Public Service Commission forwarded a letter to the City of Naples, citing PSC Docket No. 000604-TL, Area Code Relief for the 941 Area Code, providing four proposed relief plan alternatives, to include (1) Distributed Overlay; (2) Geographic Split - Local Access and Transport Area; (3) Geographic Split - Punta Gorda South; and (4) Geographic Split - Punta Gorda North; and

WHEREAS, the Board of County Commissioners have approved a resolution supporting the 941 Area Code Relief alternative (4), the Geographic Split - Punta Gorda North, as being the most favorable alternative for Area Code 941 Relief; and

WHEREAS, the Board of County Commissioners also supports that Area B retain Area Code 941 or the area South of the Alternative (4) geographical boundary which includes Lee and Collier Counties; and

WHEREAS, it is in the best interests of the Citizens of the City of Naples to support Area Code 941 Relief Alternative (4).

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF NAPLES, FLORIDA:

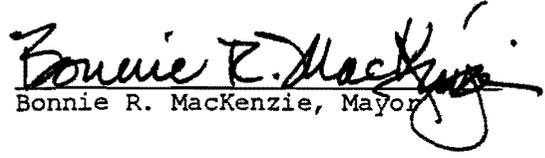

Section 1. The City of Naples supports the aforementioned Alternative Number 4 for the Area Code 941 Relief.

Section 2. The City of Naples supports Area B (area South of the Alternative (4) geographical boundary which includes Lee and Collier Counties), retaining Area Code 941.

Section 3. This resolution shall take effect immediately upon adoption.

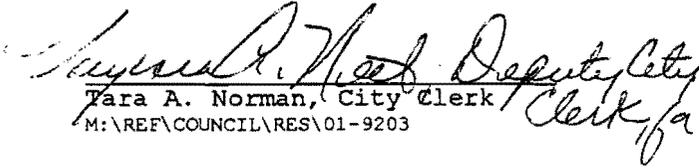

PASSED IN OPEN AND REGULAR SESSION OF THE CITY COUNCIL OF THE CITY OF NAPLES,

FLORIDA, THIS 16TH DAY OF MAY, 2001.

Bonnie R. MacKenzie, Mayor

RE: Intercepted Communications From an Interested Person Received in
 Docket No. 000604-TL

This office has received the attached letter from Bruce Williams, President, Bruce Williams Homes. The letter has not been viewed or considered in any way by Chairman Jacobs. Under the terms of the advisory opinion from the Commission on Ethics (issued July 24, 1991 as COE 91-33-JULY 19, 1991), the letter does not constitute ex parte communication by virtue of the fact that it was not shown to the Chairman. Given that it is not ex parte communication, dissemination to parties is not required pursuant to the provisions of Section 350.042, Florida Statutes. However, in such cases Chairman Jacobs has requested that a copy of the letter and this memo, as a matter of routine, be placed in the correspondence side of the file in the docket.

May 22, 2001

E. Leon Jacobs, Jr., Chairman
Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, Florida 32399-0850

Dear Chairman Jacobs:

As a local resident, concerned citizen, businessman, and a member of the Manatee County Chamber, I am concerned that the Public Service Commission would consider changing our area code and/or proposing a 10-digit system.

Please consider leaving Manatee, Sarasota, and Charlotte counties together in the existing "941" area code. There are many reasons to support this position including sharing mutual transportation planning organizations, water supply authorities, business locations and educational institutions. The three counties are tied very close together in many ways and it makes sense to leave them that way in regards to the area code.

Thank you for considering alternative #4 in the 941 NPA Relief Alternatives handout.

Sincerely,

Att: E. Leon Jacobs, Jr., Chairman

Re: 941 Area Code Split

Dear Chairman Jacobs,

As a member of the Manatee County Chamber of Commerce we would like to add our voice in opposition to the proposed area code split. We agree with the Chamber in stating that we share with our neighbors to the south many common organizations, authorities and institutions. To split the 941 area code is antithetical to our many common business interests. It would certainly cause great inconvenience to our customers and suppliers and that does not bring growth to a company or an area.

Finally, we oppose any split at this time because as the Chamber has pointed out, the 941 area code was supposed to last another four years. A premature change would cause more disruption than the good it is claimed it will bring.

Sincerely,

Mike Lovell

**To E. Leon Jacobs, Public Service Commission
and/or Whom it may Concern:**

I'm writting to voice my OBJECTION to changing Manatee County's area code from "941" and to the suggested alternative 10-diget system.

The obvious resulting confusion and interruption of commerce, emergency & governamental services, and educational institutions communication would be disasterious for this area. This, after having just gone through the change from "813" to "941" not too long ago, is just too much, too soon!

Please do NOT change the area code in MANATEE COUNTY.

Thank you,

**E. Leon Jacobs, Jr., Chairman
Public Service Commission**

I am shocked that you would even be considering asking Manatee County businesses to go through yet another area code change.

The last change cost us considerable business. Most of our clients are out of state and, because of the nature of our business, only call us every couple of years to do a project for them. We worked very diligently both by phone and mail to make sure that every company we had done business with in the last ten years was advised when our Area Code was changed to 941, but I know for a fact a number of records did not get changed -- and that cost us significant income.

I will be out of state on May 23rd when you hold a hearing on this subject here in Manatee County, but let me throw my two cents in here. Please keep our Area Code 941 -- it's somebody else's turn to be changed and loose business.

RE: Docket #000604-TL, Area Code Relief for the 941 Area Code

Dear Chairman Jacobs:

Thank you for visiting the communities that will be affected by the 941 Area Code Relief Plan. I attended the meeting held in Port Charlotte and was pleased to see such a showing of community support and interest in such an important matter as the area code relief plan.

I am sure you will agree, the Charlotte County Citizens who spoke at the meeting unanimously agreed that the alternative #4 "geographic split-Punta Gorda North" is the most feasible and desired plan for our area. Many reasons were provided that gave validity to this argument for example; schools, hospitals, and other service facilities tie many of our communities together even though they are separated by distance. Case and point, although residents of Gasparilla Island are separated from Englewood by a bridge our communities are tied by the fact that our children attend Charlotte County Schools, and the nearest hospital is Englewood Community Hospital.

To complicate matters further Gasparilla Island is split into two counties. The northern 1/3 of the island is Charlotte County and the southern 2/3 is Lee County. As you well know, Fort Myers is the County seat and located 75 miles from Boca Grande. Although the larger portion of Gasparilla Island is located in Lee County it is the consensus of our membership that Boca Grande, if given a choice, would like to remain in the 941 are code district along with Charlotte County.

It was not that many years ago residents of Boca Grande enjoyed four-digit dialing of numbers on Gasparilla Island. Although we all realize those days are long gone, it does seem unreasonable to impose such a small geographically remote island with the complications that would arise from being assigned two different area codes.

The GICIA Board of Directors urge you to consider the implications of further dividing our communities and implement "alternative #4: Geographic Split -Punta Gorda North". If you have any questions regarding our support on this issue please do not hesitate to contact me.

Sincerely,

Misty Nabers
Executive Director

To Whom It May Concern:

I am writing this in response to the possibility that our 941 area code may change. I am the manager of a large Punta Gorda real estate company, and changing our area code would be devastating to our business. We rely heavily on people coming into our area from all over the world, using our phones and faxes to communicate.

Please DO NOT make this change.

Thank you for listening.

COMMISSION CLERK

Ms. Susan Brown

Dear Ms. Brown

Thank you for contacting the Florida Public Service (PSC) about the proposed 941 Area Code change.

Your correspondence was filed with the PSC's Division of Commission Clerk and Administrative Services, so your comments will be available for review by Commissioners and other interested parties.

Sincerely

Shirley Ann Stokes
Regulatory Consultant

Good morning Shirley:

The Special Report of May 2001, No. 22 in reference to the 941 Area Code informs the consumers that if they wish to comment or provide information to the PSC staff about the docket, they can send their comments to the PSC. The CCA Division will place the consumers letter in the correspondence files of the docket.

Please do a "C"answer the customer that her letter has been forwarded to CCA, and provide a copy of Ms. Brown's letter to the Division of CCA.

I believe that this one should be sent to the docket file. Are we responding to docket cases or they being sent to the appropriate division?

Subject:

I have just read the plan to change the area code in the Fort Myers area and would like to offer an alternate suggestion.

Change the area code so that it matches the County. In the case of Lee County, have one area code and in the case of Collier County have another.

Considering both of these Counties are growing at a fast pace, the individual codes would last a much longer time and the telephone company switching machines could easily be changed to accommodate the change.

The adaptation of this change would allow for projected growth past 10 years. The telephone company planners should be giving you the expected growth figures in both these two counties.

Thank you for your consideration.

Susan Brown
