Exhibit 1

2.10 Continued Provision of FastAccess to FDN End Users

- 2.10.1. In order to comply with the Florida Public Service Commission's Order in Docket No. 010098-TP, and notwithstanding any contrary provisions in this Agreement, BellSouth Tariff F.C.C. Number 1, or any other agreements or tariffs of BellSouth, in cases in which BellSouth provides BellSouth® FastAccess® Internet Service ("FastAccess") to an end-user and FDN submits an authorized request to provide voice service to that end-user, BellSouth shall continue to provide FastAccess to the end-user who obtains voice service from FDN over UNE loops.
- 2.10.1.1 BellSouth may not evade any of its obligations under this subsection 2.10 by offering or providing any of the services or component services under this subsection through any affiliate, including, but not limited to, BellSouth.net, Inc. or successor by corporate merger.
- 2.10.1.2 Regardless of how BellSouth provisions its FastAccess to an end-user, when an end-user switches to FDN voice service, BellSouth's FastAccess will not be terminated, suspended or interrupted, except as may be expressly provided for herein, and BellSouth's continuation of its FastAccess to the end-user switching to FDN voice service shall be a seamless or transparent transition for the end user such that there shall be no more than a momentary disruption of FastAccess and voice services.
- 2.10.1.3 Where BellSouth's FastAccess could be provisioned over the high-frequency portion of a loop coexistent with FDN circuit-switched voice services on the same loop, BellSouth may elect to maintain the BellSouth FastAccess on the same loop such that the FastAccess is not altered when the end-user switches to FDN's voice service.
- 2.10.1.4 BellSouth may satisfy its obligations under this Section 2.10 by providing FastAccess on a BellSouth owned and maintained loop, ("Standalone FastAccess"), that is separate and distinct from the line FDN uses for voice services. Where feasible, and where a loop is available for FDN voice services that satisfies all of the standards set forth in this Agreement, BellSouth may elect to maintain FastAccess on the extant loop and FDN voice services will be provisioned over a second loop.
- 2.10.1.5 BellSouth may not impose an additional charge to the end-user associated with the provision of FastAccess on a second loop. Notwithstanding the foregoing, the end-user shall not be entitled to any discounts on FastAccess associated with the purchase of other BellSouth products, e.g., the Complete Choice discount.
- 2.10.1.6 BellSouth may request that the End User's FastAccess service be billed to a credit card. If the End User does not provide a credit card number to BellSouth for billing purposes, the parties shall cooperatively determine an alternative means to bill the End User. If the End User refuses to allow BellSouth access to his premises where necessary to perform any re-wiring, BellSouth may discontinue the provision of FastAccess service to the End User.

- 2.10.1.7 If the Parties are unable to reach agreement on an alternative means to billing the end user, the Parties may petition the Commission for relief as appropriate regarding the dispute.
- 2.10.1.8 In implementing the Commission's Order in Docket No. 010098-TP, BellSouth shall not create any additional barriers to FDN's ability to compete in the local exchange services market.
- 2.10.1.9 Nothing in this Section 2.10 shall require BellSouth to continue providing FastAccess to an end-user who fails to pay all charges associated with FastAccess or otherwise fails to comply with the end-user's Service Agreement with BellSouth or the applicable Acceptable Use policies for FastAccess.
- 2.10.1.10 In the event BellSouth elects to comply with this Section 2.10 by providing FastAccess on an FDN UNE Loop, FDN shall make available to BellSouth at no charge the high frequency spectrum on such UNE Loop for purposes of providing the underlying DSL transport.
- 2.10.2 **Provisioning**
- 2.10.2.1 FDN and BellSouth shall each establish a single point of contact ("SPOC") for purposes of the provision of FastAccess pursuant to this Section 2.10.
- 2.10.2.2 When FDN submits an LSR for a UNE loop, and there is a DSL USOC on the end-user's service record, the LCSC will auto-clarify the order.
- 2.10.2.3 Upon receiving the auto-clarified order, FDN shall notify the BellSouth SPOC, and the BellSouth SPOC shall determine whether the end-user is a FastAccess customer.
- 2.10.2.4 FDN and BellSouth will develop processes to promptly correct problems with or disconnections of FastAccess service to FDN voice end users.
- 2.10.2.5 If the end user does not have FastAccess but has some other DSL service, BellSouth shall remove the DSL service associated USOC and process the FDN LSR for the UNE loop.
- 2.10.2.6 If the end user receives FastAccess service, FDN shall forward to the SPOC end user contact information (i.e. telephone number or email address) in order for BellSouth to perform its obligations under this Section 2.10. FDN may include such contact information on the LSR. After receipt of contact information from FDN, BellSouth shall have three days to make the election as to which line FastAccess service will be provisioned on as set forth in 2.10.2.7 and to notify FDN of that election. If BellSouth contacts the end user during this process, BellSouth may do so only to validate the end user's current and future FastAccess services and facilities. During such contact, BellSouth will not engage in any winback or retention efforts, and BellSouth will refer the end user to FDN to answer any questions regarding the end user's FDN services.
- 2.10.2.7 After election by BellSouth as to which line FastAccess will be provisioned on (either the existing loop, or on a second facility) FDN will submit a revised LSR for the

conversion of the voice service to a UNE loop. If BellSouth elects to move the FastAccess to a new Standalone loop, FDN will submit an LSR with a due date 14 calendar days from submission to allow BellSouth sufficient time to transition the FastAccess service to the second line. If BellSouth elects to keep the FastAccess service on the current facilities and provision FDN voice services on the same or separate facilities, FDN will submit a revised LSR for voice service on such facilities using standard processes and intervals, and allow the FastAccess service to remain on the current facilities.

- 2.10.2.8 If BellSouth believes that it is important and correct to continue to provide Fast Access over a separate facility and such facilities are not available and the parties cannot reach an agreement about how the Fast Access would be provisioned, the Parties can file a petition with the Commission seeking relief as appropriate.
- 2.10.2.9 FDN authorizes BellSouth to access the entire UNE loop for testing purposes.
- 2.10.2.10 FDN and BellSouth agree that after the initial 90 days (and every 90 days thereafter) of provisioning FastAccess service in accordance with this Section 2.10, FDN and BellSouth will meet to discuss and negotiate in good faith any means for improving and streamlining the provisioning process.
