Thanks. I'll change it per this e-mail.

That is fine with me. The reason it was left that way was because of the new-ness of the law and persons still communicating in certificates and not registration.

Tommy, Docket No. 030483-TI, opened 6/4/03 (after the law change) and still active, needs a change in the title reflect registration rather than certificate language. I'll make the change but wanted you to know I was doing so.

Kay
