10-4, the registration letter will list them as Image Access, Inc. d/b/a NewPhone

So you are saying to drop "Communications" in their name?

05/24/04

Kay, could we change the docket title to reflect the name they have on there tariff. They are registered with the Div of Corporations as Image Access Communications, Inc. with a cross reference name as Image Access, Inc. In the application they list the company name on the first line as Image Access, Inc, but also list the cross reference name in the other lines. In reviewing the registration they use the name Image Access, Inc on their tariff and that is the way we need to register them as. Thanks.
