PRELIMINARY LIST OF ISSUES AND POSITIONS**

GENERIC ENERGY CONSERVATION COST RECOVERY ISSUES

ISSUE 1: What are the appropriate final conservation cost recovery true-up amounts for the period January 2003 through December 2003?

FIPUG: FIPUG has no position at this time, but reserves the right to take a position on this issue by the date of the prehearing conference.

ISSUE 2: What are the appropriate conservation cost recovery factors for the period January 2005 through December 2005?

FIPUG: FIPUG has no position at this time, but reserves the right to take a position on this issue by the date of the prehearing conference.

ISSUE 3: What is the Contracted Credit Value for the GSLM-2 and GSLM-3 rate riders for Tampa Electric Company for the period January 2005 through December 2005?

FIPUG: FIPUG has no position at this time, but reserves the right to take a position on this issue by the date of the prehearing conference.

ISSUE 4: What should be the effective date of the new conservation cost recovery factors for billing purposes?

FIPUG: The factors should be effective beginning with the specified conservation cost recovery cycle and thereafter for the period January 2005 through December 2005. Billing cycles may start before January 1, 2005, and the last cycle may be read after December 31, 2005, so that each customer is billed for twelve months regardless of when the adjustment factor became effective.
