Per our conversation, we'll leave the language as is on the agenda since it's a more complicated than just adding a few words in the recommendation statement. However, we will reflect the correct language on the vote sheet when we receive the new rec language.

Subject: RE: Docket 030006-WS - Authorized range of return on equity

(Item No. 15 on 5/20/03 Agenda)

I suppose that was correct when it was the 020006 docket, but since this is being addressed in the 030006 docket then the docket should not be closed since it is an ongoing docket that needs to be left open for consideration of the 2003 leverage formula. This one has been quite convoluted since the rec on the 5/20 Agenda is a post-hearing rec from the 2002 leverage formula.

Importance: High

Issue 3 of your recommendation states that this docket is to be closed after time for filing an appeal has run. Is this correct -- CMS reflects that this case is scheduled to be on 6/3 agenda for consideration of the the new leverage formula.
