Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Please reject FPL's request in Docket No. 20170009. It is not fair for the company to continue to heap the financial risk onto customers like me to pursue new reactors at Turkey Point, a project for which there is no builder. I understand the builder, Westinghouse, filed for bankruptcy and is out of the nuclear construction business. And apparently FPL will not commit to actually build the reactors, nor will it commit to a price tag.

Unfortunately, the nuclear industry has not yet solved the nuclear waste disposal problem. Do you want radioactive waste piling up in Florida? Or anywhere for that matter.

Further, the company can't even show that the reactors are in the best economic interest of their customers. I am puzzled that FPL even wants to plan such a speculative endeavor.

If it's not in the best interest of FPL customers, "Just Say No!"

Sincerely,

Sincerely,

Diane Desenberg
