**STAFF'S FIRST DATA REQUEST
VIA US MAIL & EMAIL**

Re: Docket No. 20180084-EI: Petition for limited proceeding for approval to include in base rates the revenue requirement for the Citrus combined cycle project, by Duke Energy Florida, LLC.

Dear Ms. Triplett:

By this letter, Commission staff requests the following information from Duke Energy Florida, LLC (DEF).

1. Paragraph 10 of the petition states that tariffs associated with the Citrus Combined Cycle Project Phase 1, will become effective with the first billing cycle of October 2018 and tariffs associated with Phase 2, will become effective with the first billing cycle of December 2018, if approved. Please discuss when and how DEF will notify its customers of the tariff changes.
2. Please provide copies of customer notifications and typical residential bills for tariff charges associated with Phases 1 and 2 of the Citrus Combined Cycle Project for staff review.
3. Regarding the true-up provision under Paragraphs 14(d) and (e) of the 2017 Settlement, please describe how the prudently incurred actual project cost will be recovered in the capacity cost recovery clause where cost will be subject to additional review and audit.
4. Please describe the major factors that will likely contribute to actual costs being higher or lower than the estimated \$1,513.583 million total cost for the Citrus Combined Cycle Project.

Ms. Dianne Triplett
Date: April 20, 2018
