Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

At 75 years old and living on fixed income, I can not afford any more increases in the cost of living. FPL has almost continuously profited from household accounts. I keep my thermostat at 78° during the summer, but with the warmer days & years and the rising prices across the spectrum, including food, gas and medicines, I find it difficult to make ends meet. Please ensure that any increases FPL requests are absolutely needed. More money in the pockets of shareholders is no valid reason for increases.

Thank you,

Robert Saftenberg
