Subject: Ten Year Site Plan Comments to be Filed in Docket No. 20220000

Dear Gabriella Passidomo,

Dear Chairman A. Fay, Commissioners G. F. Clark and A. Graham, I'm writing the commission to not approve FPL \$400 million unnecessary gas infrastructure 10 year base rate plans. Unbelievable after last year in March asking the same commission for a rate adjustment for Fuel Charges which by me being a FPL customer and spoke against it. Now I'm urging the commission to say enough is enough to FPL greed for profit! Instead invest in a efficiency program that save money, energy to help their customers during the summer months instead of building this project for winter months being that we live in Sunny South Florida.

Sincerely,

Mr. Mister Wade

Subject: Ten Year Site Plan Comments to be Filed in Docket No. 20220000

Dear Gabriella Passidomo,

I am writing to ask you to find Florida Power and Light's (FPL) preferred 10-year site plan to be unsuitable. The winter weather forecast is extremely unlikely to occur, and there is no sound evidence to back it up. FPL's projections are going to make my bills increase before even being relevant to meet our state's energy needs. I want to see more programs that help customers with the real weather risks we are facing, like extreme heat during the summer months.

I know that FPL can pass the full cost of their projects, plus more profit for new infrastructure, onto customers. That motivates FPL to build more than what we actually need. They are already raising our bills higher than I've seen in my time as a Florida resident. Stand with us: reject FPL's proposed site plan and urge them to invest in efficiency programs that save money, save energy, and help us meet our needs when the weather is most unbearable.

Sincerely,

Sincerely,
Mrs. Amy Wilson

Dear Gabriella Passidomo,

I am writing to ask you to find Florida Power and Light's (FPL) preferred 10-year site plan to be unsuitable. The winter weather forecast is extremely unlikely to occur, and there is no We don't want to foot the bill for FP&L's future earnings and profits. This is NOT what we want.

An economic audit has to be done to insure people aren't left without necessary utilities.

I know that FPL can pass the full cost of their projects, plus more profit for new infrastructure, onto customers. That motivates FPL to build more than what we actually need. They are already raising our bills higher than I've seen in my time as a Florida resident. Stand with us: reject FPL's proposed site plan and urge them to invest in efficiency programs that save money, save energy, and help us meet our needs when the weather is most unbearable.
